B3. Prospects

Major telecommunications companies ("telcos") have been investing in upgrading their equipment and infrastructures to accommodate the growth in data by expanding their LTE (Long Term Evolution) coverage in Malaysia and Vietnam. The Group is expected to benefit from the increase projects coming out from the networks expansion and upgrade undertaken by these telcos.

The Group aims to grow its recurring revenue business via build-own-and-lease and acquiring existing tower sites operators in ASEAN. For our tower leasing business expansion, the Group is leveraging on its established presence in ASEAN and its vast experiences in building telecommunication infrastructures and site maintenance of telecommunication infrastructure. The build-own-and-lease business model is based on building, owning and leasing back the tower sites to telecommunication operators over a long-term period.

In line with this, the Group is continuing its works for the rollout of towers in Myanmar for Telenor Myanmar Limited ("Telenor") and Telecom International Myanmar Company Limited ("Mytel"). The Group has secured 2 Master Service agreements of "New-build" and "Colocation" with Mytel last quarter; the delivery of towers to Mytel are currently in-progress.

B3. Prospects (Cont'd)

In Vietnam, the Group has completed the acquisition of 60% of SEATH, which owned 1,983 towers, on 13 January 2017. Vietnam's mobile market will be an exciting business space moving forward as the telco operators are gearing up for their 4G LTE roll-out in the near future, and the Group foresees that the tower business in Vietnam also will grow in-line with this trend.

With the Group's continuous investment to grow its regional business, the Group expects significant contribution from its overseas business in Indonesia, Myanmar and Vietnam moving forward.

Apart from focusing on the Group's telecommunication business, the Group is also sourcing for more business and/or investment opportunities in the sustainable energy sector.

Based on the current industry outlook and the plans as indicated above, the Board of Directors is of the opinion that the business and performance of the Group are expected to remain positive for the FYE 31 December 2017.
