## MyEG profit jumps 62.8pc to RM53.9m

**KUALA LUMPUR:** MY E.G. Services Bhd's (MyEG) net profit rose 62.8 per cent to RM53.9 million in the third quarter ended March 31 from RM33.1 million a year ago. This was due to higher transaction volumes from the online renewal of foreign workers' permits, foreign workers' rehiring programme services and foreign workers' insurance, it said in a filing to Bursa Malaysia yesterday. MyEG also attributed the improved earnings to higher revenue contribution from its motor vehicle trading related services.
