14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)*

The preparation of financial statements in conformity with Financial Reporting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported results during the reported period. It also requires directors to exercise their judgement in the process of applying the Group's accounting policies. Although these estimates and judgement are based on the director's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 5.5 of this Report.

5.2 CONSISTENCY OF APPLICATION OF ACCOUNTING POLICIES

This report is prepared on a basis consistent with the accounting policies adopted by ASIA MEDIA Group as disclosed in paragraph 5.4 below. There were no changes in the significant accounting policies adopted by ASIA MEDIA Group during the Relevant Financial Period.

5.3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The operations of the Group are subject to a variety of financial risks, including foreign currency exchange risk, market risk, credit risk, interest rate risk, liquidity risk and cash flow risk. The Group has in place a financial risk management framework whose principal objective is to minimise the Group's exposure to risks and/or costs associated with the financing, investing and operating policies of the Group.

Foreign currency exchange risk

The Group's foreign currency exposure arise mainly from trade transactions denominated in foreign currencies. Management believes that the Group's foreign currency exchange risk is minimal and accordingly, no hedging is performed.

Market risk

Market risk is the risk that changes in market prices, and other prices will affect the Group's financial position and cash flows.

The Group has in place policies to manage its competitive risks from its competitors in providing better alternatives in terms of better services

Credit risk

The Group is exposed to credit risk mainly from trade receivables. The Group extends credit to its customers based upon careful evaluation of the customer's financial condition and credit history.

Interest rate risk

The Group enters into various interest rate risk management transactions for the purpose of reducing net interest costs and to achieve interest rates within predictable, desired ranges.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as and when they fall due.

The Group practises prudent liquidity risk management to minimise the mismatch of financial assets and liabilities and to maintain sufficient funds for contingent funding requirement of working capital.

Cash flow risk

The Group reviews its cash flow position regularly to manage its exposure to fluctuations in future cash flows associated with its monetary financial instruments.

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***Fair values**

The fair values of the financial assets and financial liabilities reported in the statements of financial position as at 30 June 2010 approximate the carrying amounts of these assets and liabilities because of the immediate or short-term maturity of these financial instruments.

5.4 SIGNIFICANT ACCOUNTING POLICIES**a) Basis of Accounting**

The financial statements have been prepared under the historical cost convention other than as disclosed in Note 5.4 k).

b) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

At each reporting date, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount. See accounting policy Note 5.4 j) on impairment of assets.

Gain or loss arising from the disposal of an asset is determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset, and is recognised in the statements of comprehensive income.

Depreciation of property, plant and equipment, other than capital work-in-progress which is not depreciated, is calculated to write off the cost of the property, plant and equipment on a straight-line basis over the expected useful lives of the property, plant and equipment concerned. The annual depreciation rates used are as follows:

	%
Transit TV system	10
Furniture and fittings	20
Motor vehicles	20
Office equipment	20
Plant and machinery	10
Renovation and signboard	10

c) Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and all its subsidiaries made up to the end of the financial year. Subsidiaries are those entities in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Subsidiaries are consolidated using the purchase method of accounting. Under the purchase method of accounting, subsidiaries are fully consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. The cost of acquisition is measured as fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition dates, irrespective of the extent of any minority interest. Any excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in the statements of comprehensive income.

All significant intercompany balances and transactions have been eliminated on consolidation.

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***d) Investment**

Investment in subsidiaries is shown at cost. Where there is an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. The policy for recognition and measurement of impairment losses is in accordance with Note 5.4 j).

e) Research and Development Costs

Research costs are recognised as an expense in the period in which they are incurred.

Development costs are expensed off to the statements of comprehensive income in the period in which it is incurred. In the case of clearly-defined projects undertaken where it is reasonably anticipated that development costs can and will be recovered through future commercial activities, such development costs are recognised as an intangible asset and amortised on a straight-line basis over the expected life of the respective project from the date of commencement of commercial operations. The average expected life of the development projects is five (5) years.

f) Intangible Assets

Intangible assets which represent licenses, copyrights and other incidental costs incurred, are stated at cost less accumulated amortisation and impairment losses, are amortised over a period of ten (10) years.

g) Goodwill on Consolidation

Goodwill arising on the acquisition of subsidiaries represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiaries recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination, cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

h) Negative Goodwill

The excess of the Group's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost of acquisition is recognised immediately in the statements of comprehensive income.

i) Receivables

Prior to 1 January 2010, receivables were stated at nominal values as reduced by the appropriate allowance for estimated irrecoverable amounts. Allowance for doubtful debts is made based on estimates of possible losses which may arise from non-collection of certain receivable accounts.

Following the adoption of FRS 139, receivables are categorised and measured as loans and receivables in accordance with Note 5.4 k).

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***j) Impairment of Assets**

At each reporting date, the Group reviews the carrying amounts of its assets to determine whether there is any indication of impairment. If any such indication exists, impairment is measured by comparing the carrying values of the assets with their recoverable amounts. Recoverable amount is the higher of net selling price and value in use, which is measured by reference to discounted future cash flows.

An impairment loss is recognised as an expense in the statements of comprehensive income immediately, unless the asset is carried at a revalued amount. Any impairment loss of a revalued asset is treated as a revaluation decrease to the extent of any unutilised previously recognised revaluation surplus for the same asset.

k) Financial Instruments

Arising from the adoption of FRS 139, Financial Instruments: Recognition and Measurement, with effect from 1 January 2010, financial instruments are categorised and measured using accounting policies as mentioned below.

i) Initial recognition and measurement

A financial instrument is recognised in the financial statements when, and only when, the Group becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised, initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

ii) Financial instrument categories and subsequent measurement

The Group categorises financial instruments as follows:

Financial assets**a) Financial assets at fair value through profit or loss**

Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives or financial assets that are specifically designated into this category upon initial recognition.

Other financial assets categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

b) Held-to-maturity investments

Held-to-maturity investments category comprises debt instruments that are quoted in an active market and the Group has the positive intention and ability to hold to maturity.

Financial assets categorised as held-to-maturity investments are subsequently measured at amortised cost using the effective interest method.

c) Loans and receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market, trade and other receivables and cash and cash equivalents.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using effective interest method.

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***d) Available for sale financial assets**

Available for sale category comprises investment in equity and debt securities instruments that are not held for trading.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment. See accounting policy Note 5.4 j) on impairment of assets.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are held for trading or financial liabilities that are specifically designated into category upon initial recognition.

Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

l) Provisions

Provisions are recognised when the Group has a present legal and constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance costs.

m) Employee Benefits**i) Short term benefits**

Wages, salaries, bonuses and social security contributions are recognised as an expense in the period in which associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

ii) Defined contributions plans

As required by law, companies in Malaysia make contributions to the state pension scheme, Employees Provident Fund. Such contributions are recognised as an expense in the statements of comprehensive income as incurred.

n) Revenue Recognition

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the enterprise and the amount of the revenue can be measured reliably.

Revenue from services are recognised when services are rendered. Revenue represents the invoiced value of services rendered net of discounts and allowances.

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***o) Borrowing Costs**

Borrowing costs directly attributable to the acquisition and construction of property, plant and equipment which require a period of time to get them ready for their intended use is capitalised and included as part of the cost of the related assets, until such time the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the statements of comprehensive income in the period in which they are incurred.

p) Income Tax

Income tax on the profit or loss for the period comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the period and is measured using the tax rates that have been enacted at the reporting date.

Deferred tax is provided for, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised in the statements of comprehensive income, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also charged or credited directly in equity.

q) Cash Flow Statements

The Group and the Company adopt the indirect method in the preparation of the cash flow statements.

Cash equivalents are short-term, highly liquid investments with maturities of three months or less from the date of acquisition and are readily convertible to cash with insignificant risks of changes in value.

r) Segment Reporting

Segment reporting is presented for enhanced assessment of the Group's risks and returns. Business segments provide products or services that are subject to risks and returns that are different from those of other business segments. Geographical segments provide products or services within a particular economic environment that is subject to risks and returns that are different from those components operating in other economic environments.

Segment revenue, expense, assets and segment liabilities are those amounts resulting from the operating activities of a segment that are directly attributable to the segment and the relevant portion that can be allocated on a reasonable basis to the segment. Segment revenue, expense, assets and segment liabilities are determined before intragroup balances and intragroup transactions are eliminated as part of the consolidation process, except to the extent that such intragroup balances and transactions are between group enterprises within a single segment.

14. ACCOUNTANTS' REPORT (Cont'd)*(Prepared for the inclusion in this Prospectus)***5.5 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY****Critical judgements in applying the Group's and the Company's accounting policies**

In the process of applying the Group's and the Company's accounting policies, which are described in Note 5.4 above, management is of the opinion that there are no instances of application of judgement which are expected to have significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

Management believes that there are no key assumptions made concerning the future, and other key sources of estimation uncertainty at the financial position date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year (apart from those involving estimations which are dealt with below).

(i) Property, plant and equipment and depreciation

The Group determines the estimated useful lives and related depreciation charges for the Group's property, plant and equipment. The estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and function. Management will revise the depreciation charge where useful lives are different to those previously estimated, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

(ii) Estimated impairment of goodwill and intangible assets

The Group determines whether goodwill and intangible assets have been impaired at least on an annual basis. The recoverable amounts of the cash-generating units ("CGU") are determined based on the value-in-use method. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

6 AUDITED FINANCIAL STATEMENTS**FINANCIAL INFORMATION**

The financial information of ASIA MEDIA and all its subsidiaries as presented in Sections 7 to 13 are based on the audited financial statements, modified as appropriate, for the purpose of this report.

The scope of work involved in the preparation of this report does not constitute an audit in accordance with approved standards on auditing in Malaysia.

All information are extracted from the audited financial statements.

No provision for income tax has been made in 2007, 2008 and 2009 as TESB has been incurring losses.

Eventhough TESB registered a PBT of RM46,874 for the financial period 1 January 2010 to 30 June 2010, no provision for taxation has been made as TESB utilised its unutilised tax losses and unabsorbed capital allowances to off-set against current financial period's profit. The availability of the above unutilised tax losses and unabsorbed capital allowances are subject to the approval of the IRB

As at to date, TESB's submission of tax returns are up to Year of Assessment 2009 and there is no tax amount in dispute and/or any investigation carried out by the IRB and/or any overseas authority. There is also no tax penalty imposed or additional tax amount assessed by the IRB and/or any overseas tax authority.

Directors' Responsibility for the Financial Statements

The directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with Accounting Standards for Private Entities and the Companies Act 1965 in Malaysia. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. INDEPENDENT AUDITORS REPORT TO THE MEMBERS OF GERAK BAYAN SDN. BHD. (813137-V) (Incorporated in Malaysia)

APPENDIX I

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Accounting Standards for Private Entities and the Companies Act 1965 in Malaysia so as to give a true and fair view of the financial position of the Company as of 30 September 2009 and of its financial performance and cash flows for the financial period then ended.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2(a) in the notes to the financial statements which discloses the premise upon which the Company has prepared its financial statements by applying the going concern assumption, notwithstanding that the Company incurred a net loss of RM3,300 during the financial period ended 30 September 2009, and as of that date, the Company's current liabilities exceeded its current assets by RM3,298 thereby indicating the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets amounts or the amounts and classification of liabilities that may be necessary if the Company is unable to continue as a going concern.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 1965 in Malaysia, we also report that in our opinion the accounting and other records and the registers required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Pursuant to the Listing Requirements, we need at least 25% of our enlarged issued and paid-up share capital to be held by a minimum number of 200 public shareholders holding not less than 100 Shares each upon our Listing. We expect to achieve this at the point of our Listing. However, if the above requirement is not met pursuant to our IPO, we may not be allowed to proceed with our Listing. Then, monies paid in respect of all applications will be returned without interest.

In the event of under-subscription for our IPO Shares reserved for the Public, all such IPO Shares not applied for will be subscribed by our Underwriter pursuant to the Underwriting Agreement.

Failure to comply with the specific instructions or inaccuracy in the CDS account number arising from the use of invalid, third party or nominee accounts, may result in the application being rejected. If you are successful in your application but fail to state your CDS account number, MIH on the authority of our Directors, reserves the right to reject your application. Applications may also be rejected if your particulars provided in the Application Form, or your records with the Participating Financial Institutions (in the case of Electronic Share Application) or Internet Participating Financial Institutions (in the case of Internet Share Application) differ from those in Bursa Depository's records such as your identity card number, name and nationality.

17.9 Notice of allotment

If you are successful or partially successful in your application, our Shares allotted to you will be credited to your CDS account. We will not be issuing any share certificate to you. A notice of allotment will be despatched to you at your address last maintained with Bursa Depository, at your own risk, prior to our Listing. This is your only acknowledgement of acceptance of the application. For Electronic Share Application or Internet Share Application, the notice of allotment will be despatched to the successful or partially successful applicant at his/her address last maintained with Bursa Depository at the applicant's own risk prior to our Listing. This is the only acknowledgement of the application.

You must inform Bursa Depository of your updated address promptly by adhering to certain rules and regulation of Bursa Depository, failing which, the notification letter on your successful or partially successful allotment shall be sent to your registered or correspondence address last maintained with Bursa Depository.
