Xin Hwa Holdings (XHH) is an integrated logistics provider in entailing cargo transportation, container haulage, warehousing & distribution, freight forwarding & custom brokerage and manufacturing & fabrication of trailers. XHH will be listed on Main Market on 30 June 2015 at RM0.70 or a PE of 8x. We have a Buy on XHH with a target price of RM0.94 based on the regional weighted PE of 10x over FY15 EPS.

Key drivers. The land transport services have been the main contribution to XHH's revenue accounting for around 90% for the past 4 years. Currently, XHH owns 225 Prime Movers and 497 Trailers. With fleet expansion planned post IPO, XHH will be able to cater for more internal port haulage transportation services and transport activities between Malaysia and Singapore.

Competitive Advantage. XHH is the only logistic company that manufactures and fabrication of trailers primarily sold within the group whilst sales to third parties are dependent on demand and availability of capacity. This segment helped reduce XHH cost in purchasing new trailers and reduce depreciation charges.

Investment Tax Allowance. As an integrated logistics provider, MIDA has granted XHH a tax allowance for 5 years from 18 March 2011 and will expire on 17 March 2016. Upon the expiry of the tax allowance, XHH tax rate is expected at 25% from around 10%-15% for FY12 to FY14, hence we expect net profit growth may be limited to single digit growth.

Forecasts and recommendation. We forecast net earnings of RM17.0m and RM18.6m for FY15 and FY16 respectively on the back of a RM11.36m capex for fleet expansion. We have derived our TP of RM0.94 based on regional PER of 10x over FY15 EPS, which represents an 34.29% upside to the IPO price of RM0.70. **BUY.**
