B. Additional information required by Bursa Malaysia Listing Requirements

1. Review of Performance

	Current quarter 31.12.2016 RM'000	Preceding year corresponding quarter 31.12.2015 RM'000	Current period to date 31.12.2016 RM'000	Preceding year corresponding period to date 31.12.2015 RM'000
Revenue	67,800	68,757	191,185	181,509
Profit before tax	7,602	6,235	18,107	26,939

The revenue for the current period to date is higher by 5.3% as a result of higher sales from export customers in the snack food and confectioneries segment, as compared to the corresponding preceding period to date. The revenue for current quarter however, is lower due to a drop in local sales as compared to preceding year corresponding quarter.

Profit before tax for the current period to date is lower mainly due to higher cost of sales and administration expenses and drop in other operating income. Profit before tax for the current quarter is higher due to the gain in fluctuations of USD as compared to preceding year corresponding quarter.

2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

	Current Quarter RM'000	Preceding Quarter RM'000
Revenue	67,800	60,050
Profit before tax	7,602	5,663

The increase in revenue for the current quarter as compared to the preceding quarter was mainly due to an increase in export demand.

Profit before tax for the current quarter is higher contributed by higher gross profit margin and gain from foreign exchange.

3. Group's Prospects

The Group is currently in the midst of machinery acquisitions for some expansion projects for new product lines. The management expects that these new lines will contribute positively towards the growth and profitability of the Group. These programs are expected to be completed in stages in the next few years.

The Board expects that the performance of the Group will be satisfactory for the financial year ending 31 March 2017, despite facing various challenges of competitive markets.
