PART A - EXPLANATORY NOTES PURSUANT TO MFRS 134

A1. BASIS OF PREPARATION'

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with MFRS 134: Interim Financial Reporting, and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2015. These explanatory notes attached to the condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2015.

In addition, the Group has changed its accounting policy on reverse acquisition reserve during the second quarter of the current financial year. In the previous financial years, the reverse acquisition reserve represents the difference between the nominal value of Be Top Group Limited and the Company and the par value of the enlarged issued and paid-up share capital of the Company after the asset injection. The accounting treatment on the reverse acquisition reserve has now been changed by adjusting against suitable reserve of the accounting acquiree to the extent that laws or statutes do not prohibit the use of such reserve. The Board of Directors is of the opinion that this voluntary change in accounting policy provides a more relevant and fairer presentation of the financial position of the Group. The change in the accounting policy had been applied retrospectively and its financial effects to the financial statements of the Group are disclosed in Note A17 below.

A2. SIGNIFICANT ACCOUNTING POLICIES

During the current financial year, the Group has adopted the following new accounting standards and interpretations (including the consequential amendments, if any):-

MFRSs and IC Interpretations (Including The Consequential Amendments)

Amendments to MFRS 10, MFRS 12 and MFRS 127 (2011): Investment Entities – Applying the Consolidation Exception

Amendments to MFRS 11: Accounting for Acquisitions of Interests in Joint Operations

Amendments to MFRS 127: Equity Method in Separate Financial Statements

Amendments to MFRS 132: Offsetting Financial Assets and Financial Liabilities

Amendments to MFRS 136: Recoverable Amount Disclosures for Non-financial Assets

Amendments to MFRS 139: Novation of Derivatives and Continuation of Hedge Accounting

IC Interpretation 21 Levies

Amendments to MFRSs: Annual Improvements to MFRSs 2012 - 2014 Cycles

The adoption of the above accounting standards and/or interpretations (including the consequential amendments) did not have any material impact on the Group's financial statements.

PART A - EXPLANATORY NOTES PURSUANT TO MFRS 134 (CONT'D)

A2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The Group has not applied in advance the following accounting standards and/or interpretations (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective for the current financial year:-

MFRSs and IC Interpretations (Including The Consequential Amendments)	Effective Date
MFRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)	1 January 2018
MFRS 15 Revenue from Contracts with Customers & Amendments to MFRS 15: Effective Date of MFRS 15	1 January 2018
Amendments to MFRS 10 and MFRS 128 (2011): Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Defer until further notice

The above accounting standards and/or interpretations (including the consequential amendments) are not relevant to the Group's operations except as follows:-

MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces the existing guidance in MFRS 139 and introduces a revised guidance on the classification and measurement of financial instruments, including a single forward-looking 'expected loss' impairment model for calculating impairment on financial assets, and a new approach to hedge accounting. Under this MFRS 9, the classification of financial assets is driven by cash flow characteristics and the business model in which a financial asset is held. Therefore, it is expected that the Group's investments in unquoted shares that are currently stated at cost less accumulated impairment losses will be measured at fair value through other comprehensive income upon the adoption of MFRS 9. The Group is currently assessing the financial impact of adopting MFRS 9.

MFRS 15 establishes a single comprehensive model for revenue recognition and will supersede the current revenue recognition guidance and other related interpretations when it becomes effective. Under MFRS 15, an entity shall recognise revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customers. In addition, extensive disclosures are required by MFRS 15. The Group anticipates that the application of MFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the financial statements. However, it is not practicable to provide a reasonable estimate of the financial impacts of MFRS 15 until the Group performs a detailed review.

A3. AUDITORS' REPORT

The auditors' report of the preceding financial year of the Group was not subject to any qualification.

A4. SEASONAL OR CYCLICAL FACTORS

The Group's sales of fabric products are subject to seasonality effect by virtue of fabrics being a primary input material of fashion and some household products. The majority of the Group's customers are downstream players, ie export-oriented garment manufacturers. As such, sales of the Group's fabric products are affected by factors such as change in fashion trends, consumer taste and surge in demand ahead of festive seasons. Economic outlook inevitably will also has a significant impact on the demand of fabric finished products, and hence on the demand of fabrics. Generally, barring any unforeseen circumstances, the Group experiences slower sales typically in mid and end of a year (ie, towards end of December and in the months of May and June).

Exchange rates fluctuation and the generally higher production costs (primarily arisen from higher wages, costs relating to compliance to environmental protection rules and utilities costs) do impact the Group's financial performance. Consumer sentiment is another important factor that impacts the Group's earnings, given their spending pattern differs at different stages in the economic cycle, which will affect the demand for fashion products and consequently the demand over the Group's fabric products.

PART A - EXPLANATORY NOTES PURSUANT TO MFRS 134 (CONT'D)

A5. EXCEPTIONAL ITEMS

Not applicable.

A6. CHANGES IN ESTIMATES

There were no changes to the estimates that had been used in the preparation of the current financial statements.

A7. ISSUANCE AND REPAYMENT OF DEBT AND EQUITY SECURITIES

There were no share buy-backs, share cancellations, shares held as treasury shares and resale of treasury shares for the financial period under review.

A8. DIVIDEND

There were no dividends paid for the financial period ended 31 December 2016.

A9. SEGMENTAL INFORMATION

Information on business segments is not presented as the Group operates primarily in the manufacturing and sale of fabric products.

Revenue by geographical segment is based on the geographical location of the customers. As substantial amount of the Group's assets and liabilities are located in PRC and accordingly, no separated geographical segment for assets and liabilities has been presented for the financial period.

Geographical Segments

The following table provides an analysis of the Group's revenue by geographical segments:

	Individua:	l Quarter	Cumulative Months	
		Preceding Year	Current Year	Preceding Year
	Current Quarter	Corresponding	To Date	Corresponding
	Ended	Quarter Ended	Ended	Period Ended

PART A - EXPLANATORY NOTES PURSUANT TO MFRS 134 (CONT'D)

A12. CHANGES IN THE COMPOSITION OF THE GROUP

There were no changes in the composition of the Group during the financial period under review, except as follows:

On 19 August 2016, the Company has acquired 100% of the issued and paid-up share capital of a company, namely Gorgeous Goldhill Sdn Bhd ("GGSB"), with an authorised share capital of RM400,000.00 divided into 400,000 ordinary shares of RM1.00 each and a paid-up share capital of RM2.00 comprising 2 ordinary shares of RM1.00 each. As a result, GGSB became a wholly-owned direct subsidiary of the Company.

Subsequent to the acquisition, the Company had on 29 August 2016, subscribed for an additional 9,998 shares for RM1.00 each at par in GGSB. Following the share subscription, the issued and paid-up share capital of GGSB has been increased from RM2.00 to RM10,000.00. The Company remains its 100% equity interest in GGSB.

A13. CHANGES IN CONTINGENT LIABILITIES / ASSETS

- (i) There were no contingent liabilities as at the date of this announcement.
- (ii) There are no changes in contingent assets since the last annual financial statements.

A14. CAPITAL COMMITMENTS

PART B - EXPLANATORY NOTES PURSUANT TO THE MAIN MARKET LISTING REQUIREMENTS

B1. REVIEW OF PERFORMANCE FOR THE CURRENT QUARTER AND FINANCIAL YEAR & CORRESPONDING QUARTER IN THE PRECEDING FINANCIAL YEAR

REVENUE

Total sales revenue decreased by RM5.35 million compared to the corresponding quarter in the preceding financial year. The effect of sluggish economy has taken its toll on the Group's sales revenue in a greater impact, particularly in the domestic sales segment. Fluctuations observed in either of the market segments (domestic & export) do not indicate any significant change in the sales and marketing direction of the Group. Instead, analysis of the Group's sales revenue in totality would be more appropriate in assessing its financial performance.

PROFIT AFTER TAXATION

The Group recorded a profit after taxation ("PAT") of RM948,000 for the current quarter compared to RM793,000 registered in the corresponding quarter for the preceding financial year, generated from its core business of manufacturing and sale of fabrics and its share of results of Suzhou Han Ling Packaging Co. Ltd ("Suzhou Han Ling"), the Group's joint venture company. The slight increase of PAT is due mainly to a write-back of provision for impairment losses on trade receivables.

Prices of major raw materials (yarns made from different types of fibre) have been on the rise due to escalated costs being passed down from suppliers.

The Group commenced to recognise its share of loss in Suzhou Han Ling, commencing in the current financial year. The joint venture is currently at its first year of commencement of business operations. After taking into account of the Group's share of loss, amounting to RM357,000, the Group reported a PAT of RM948,000 in current year quarter ended 31 December 2016.

B2. MATERIAL CHANGE IN THE PROFIT BEFORE TAXATION FOR THE CURRENT REPORTED QUARTER AS COMPARED TO THE IMMEDIATE PRECEDING QUARTER

The Group registered profit before taxation ("PBT") of RM2.41 million in the current quarter compared to RM1.51 million recorded in the immediate preceding quarter, from its main business operations as well as its share of results of a joint venture, Suzhou Han Ling. The increase recorded in the current quarter is RM0.90 million.

The reason for increase in the PBT is primarily due to the recovery of trade receivables which provision for impairment losses were made previously.

B3. PROSPECTS

The Group will continue to strive for improvement in productivity, to counter challenges posed by the uptrending wages and other manufacturing overheads (eg energy and electricity cost). In addition, the Group has also been exercising prudent costs control measures to preserve profit margin.

However, uncertainty over the recovery pace of global economy and the development of China gross domestic product growth in the coming years, economic policies, coupled with higher manufacturing overheads, especially wages and utilities, are still affecting the Group's financial performance, particularly when the Group is operating in the fast-moving consumer goods segment which demand is largely dependent on trend and fashion.

The China government is going to impose more stringent requirements on the back of environment protection concern. Moving forward, the Group anticipates higher fuel costs resulted from the compulsory switch from coal to liquefied natural gas used in its production process.

The Group had on 21 October 2016 announced that it proposed to undertake a diversification of its existing core business, namely the production of fabric, to include project management and infrastructure construction related businesses ("Proposed Diversification"). The Board is of the view that the Proposed Diversification is expected to bring in an additional revenue source and enhance its profits, instead of depending solely on its existing production of fabric business which is facing limited profitability growth as indicated by stagnant profit recorded in recent years. The required approval from shareholders had been obtained in an extraordinary general meeting held on 15 December 2016.
