A2. Changes in accounting policies (Cont'd)

MFRSs (Including The Consequential Amendments)	Effective Date
Annual Improvements to MFRS Standards 2014 – 2016 Cycles:	
<ul style="list-style-type: none">Amendments to MFRS 1: Deletion of Short-term Exemptions for First-time AdoptersAmendments to MFRS 128: Measuring an Associate or Joint Venture at Fair Value	1 January 2018
* <i>Entities that meet the specific criteria in MFRS 4.20B may choose to defer the application of MFRS 9 until the earlier of the application of the forthcoming insurance contracts standard or annual periods beginning before 1 January 2021.</i>	

The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) is expected to have no material impact on this interim financial report upon its initial application except as follows:-

MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces the existing guidance in MFRS 139 and introduces a revised guidance on the classification and measurement of financial instruments, including a single forward-looking 'expected loss' impairment model for calculating impairment on financial assets, and a new approach to hedge accounting. Under this MFRS 9, the classification of financial assets is driven by cash flow characteristics and the business model in which a financial asset is held. Therefore, it is expected that the Group's investments in unquoted shares that are currently stated at cost less accumulated impairment losses will be measured at fair value through other comprehensive income upon the adoption of MFRS 9. The Group is currently assessing the financial impact of adopting MFRS 9.

MFRS 15 establishes a single comprehensive model for revenue recognition and will supersede the current revenue recognition guidance and other related interpretations when it becomes effective. Under MFRS 15, an entity shall recognise revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the distinct promised goods or services underlying the particular performance obligation is transferred to the customers. The amendments to MFRS 15 further clarify the concept of 'distinct' for the purposes of this accounting standard. In addition, extensive disclosures are also required by MFRS 15. The Group anticipates that the application of MFRS 15 in the future may have an impact on the amounts reported and disclosures made in the financial statements. However, it is not practicable to provide a reasonable estimate of the financial impacts of MFRS 15 until the Group performs a detailed review.

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and will replace the current guidance on lease accounting when it becomes effective. Under MFRS 16, the classification of leases as either finance leases or operating leases is eliminated for lessees. All lessees are required to recognise their leased assets and the related lease obligations in the statement of financial position (with limited exceptions). The leased assets are subject to depreciation and the interest on lease liabilities are calculated using the effective interest method. The Group anticipates that the application of MFRS 16 in the future may have an impact on the amounts reported and disclosures made in the financial statements. However, it is not practicable to provide a reasonable estimate of the financial impacts of MFRS 16 until the Group performs a detailed review.

The amendments to MFRS 107 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. Accordingly, there will be no financial impact on the financial statements of the Group upon its initial application. However, additional disclosure notes on the statements of cash flows may be required.

For the current financial quarter under review, the Group recorded revenue of RM8.832 million, a decrease of 50.70% as compared to RM17.914 million in the preceding year quarter. The Group recorded revenue of RM35.722 million for the financial period ended 30 September 2017 ("FPE 2017"), a decrease of 41.10% as compared to previous financial period ended 30 September 2016 (FPE 2016"). The decrease in revenue was mainly attributable to decrease in revenue in design, fabrication, installation, testing and commissioning of glove-dipping lines segment ("**Sale of New Lines**"). Most of the outstanding orders brought forward from previous year have been completed in the first and second quarter of the year. Currently, three of the five orders secured are in progress (comprised of two local orders and one foreign order) while the other two secured orders have yet to commence work. Local market continued to contribute significant portion of revenue amounting to RM6.727 million or 76.17% of the Group's total revenue.

The Group recorded gross loss of RM1.689 million with a gross loss margin of 19.12% as compared to gross profit of RM2.525 million with gross profit margin of 14.10% in the preceding year quarter. For FPE 2017, the Group recorded gross profit of RM1.198 million with a gross profit margin of 3.35% as compared to gross profit of RM8.763 million with gross profit margin of 14.45%. The gross loss in current quarter and significant decrease in gross profit for FPE 2017 was mainly attributable to cost overrun of one of the major foreign order due to technical issue in which the management has invested more time and manpower to resolve the issue in order to handover the project to customer on time.

While the operating expenses are consistent as compared to preceding year quarter, the Group recorded a loss before taxation of RM2.513 million as compared to a profit before taxation of RM1.645 million. For FPE 2017, the Group recorded loss before taxation of RM2.016 million as compared to a profit before taxation of RM7.708 million.

NOTES TO THE INTERIM FINANCIAL REPORT FOR THE THIRD (3RD) QUARTER ENDED 30 SEPTEMBER 2017

B ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)

B2. Comparison with immediate preceding quarter's results

	Unaudited Current Quarter 30.09.2017 RM'000	Unaudited Preceding Quarter 30.06.2017 RM'000	Changes	
			Amount	%
Revenue	8,832	17,332	(8,500)	(49.04)
(Loss)/Profit before taxation	(2,513)	694	(3,207)	(462.10)

The Group's revenue for the current financial quarter has decreased by RM8.500 million or 49.04% to RM8.832 million as compared to RM17.332 million in the preceding financial quarter. The decrease in revenue was mainly attributable to decrease in revenue from Sale of New Lines.

The revenue from Sale of New Lines was mainly contributed by 3 customers, made up of a combination of two local orders and one foreign order. Lower revenue recorded from Sale of New Lines is mainly due to the two new orders secured in previous quarter is estimated to commence work in next quarter.

The Group recorded loss before taxation of RM2.513 million as compared to a profit before taxation of RM0.694 million in the preceding financial quarter 30 June 2017.

B3. Commentary on prospects

The 2017 market conditions are expected to remain challenging due to uncertainty in business environment. Nevertheless, the Group will continue to execute its business strategies and has put in place a series of future plans to strengthen its position in the glove-dipping line industry in Malaysia as well as the overseas market.

The cost overrun in one of the major foreign order was a solely isolated case where the technical issue involved further research to be done, more time and manpower needed to complete the project on time. Despite the cost overrun, the Group manage to achieve a gross profit margin of 3.35% for the FPE 2017 due to other orders still able to contribute profit to the Group. Therefore, the Management remain positive to the prospects of the Group as well as the glove-dipping line industry.
