The Condensed Consolidated Statement of Cash Flows in Equity should be read in conjunction with the accompanying explanatory notes attached to the interim financial statements and the audited financial statements for financial year ended 31 March 2017.

A. EXPLANATORY NOTES PURSUANT TO THE FINANCIAL REPORTING STANDARD 134 (FRS 134): INTERIM FINANCIAL REPORTING

1. Basis of Preparation

The interim financial statements are unaudited and have been prepared in according with MFRS 134: - Interim Financial Reporting issued by the Malaysia Accounting Standards Board ("MASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities"). It should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 March 2017.

These explanatory notes attached to the interim financial reports provide an explanation of events and transaction that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 March 2017.

2. Changes in accounting policies

Adoption of new and amended standards

During the financial year, the Group and the Company have adopted the following amendments to MFRSs issued by the Malaysian Accounting Standards Board ("MASB") that are mandatory for current financial year:

Amendments to MFRS 107 Disclosure Initiative

Amendments to MFRS 112 Recognition of Deferred Tax Assets for Unrealised Losses

Annual Improvements to MFRSs 2014 - 2016 Cycle:

Amendments to MFRS 12 Disclosure of Interests in Other Entities

Adoption of above amendments to MFRSs did not have any significant impact on the financial statements of the Group and the Company.

Standards issued but yet effective

MFRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)

MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces earlier versions of MFRS 9 and introduces a package of improvements which includes a classification and measurement model, a single forward looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. MFRS 9 when effective will replace MFRS 139 Financial Instruments: Recognition and Measurement.

MFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income without subsequent recycling to profit or loss. There is now a new expected credit losses model that replaces the incurred loss impairment model used in MFRS 139. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. MFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under MFRS 139.

MFRS 15 Revenue from contracts with Customers

MFRS 15 replaces MFRS 118 Revenue, MFRS 111 Construction Contracts and related IC Interpretations. The Standard deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.

Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

2 Changes in accounting policies Adoption of new and amended standards (Continued)

MFRS 16 Leases

MFRS 16, which upon the effective date will supersede MFRS 117 Leases, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

In respect of the lessor accounting, MFRS 16 substantially carries forward the lessor accounting requirements in MFRS 117. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The impact of the MFRS, amendments and improvements to published standard on the financial statements of the Group and of the Company are currently being assessed by management.

3. Auditors' report on preceding annual financial statements

The auditors' report on the financial statements for the financial year ended 31 March 2017 was not subject to any qualification.

4. Seasonal or cyclical factors

The Group's business operations and performance are not significantly affected by any seasonal or cyclical factors except during the festive season in the month of February, June and the raining season from November to December period. The manufacturing and trading of industrial products will experience a shorter production and trading time during these four (4) months.

5. Unusual items affecting assets, liabilities, equity, net income and cash flows

There were no unusual items affecting assets, liabilities, equity, net income and cash flows during the current quarter under review.

6. Change in accounting estimates

There were no changes in estimates used for accounting estimates which may have a material effect for the current quarter under review.

7. Issuance of debt

There were no issuance, cancellations, repurchases, resale and repayment of debt for the current quarter under review.

8. Dividend payment

There were no dividends paid during the current financial quarter.

9. Segmental information

The Group comprises the following main business segments which are based on the Group's management and internal reporting structure:

Quarry and Premix Products: In the provision of turnkey and specialised quarry services, sales and marketing of quarry products, manufacturing and sale of asphaltic premix products.

Civil Engineering: In the undertaking of civil engineering contract works.

Bituminous Products: In the manufacture and sale of bituminous products.

Others: In the business of investment holding and provision of managerial services.

Performance is measured based on the segment revenue and profit before tax and interest as presented in the internal management reports. Segment profit is used to measure performance as management believes that such information are the most relevant in evaluating the results of the segments relative to other entities.

9. Segmental information (Continued)

Segment assets

The total of segment asset is measured based on all assets (including goodwill) of a segment. Segment total asset is used to measure the return of assets of each segment.

Segment liabilities

The total of segment liability is measured based on all liabilities of a segment.

Segment capital expenditure

Segment capital expenditure is the total cost incurred during the financial year to acquire property, plant and equipment and for quarry development expenditure.

Segmental information for the 6 months ended 30 September 2017:

10. Valuation of property, plant and equipment

The valuation of property, plant and equipment has been brought forward without any amendments from the previous audited financial statements.

11. Material events not reflected in the financial statements

There were no material events subsequent to the end of the reporting period which is likely to substantially affect the results or the operations of the Group.

12. Changes in composition of the Group

There was no changes in the composition of the Group for the current guarter ended 30 September 2017.

13. Changes in contingent assets or contingent liabilities

The changes in contingent liabilities were as below:-

	As at	As at
	30 Sep 2017	30 Sep 2016
	RM'000	RM'000
Corporate guarantees	21,941	27,065

14. Capital commitments

С

There was no material capital commitment not provided for as at 31 March 2017.

15. Related party transactions

Bituminous Products	3,713	2,979	85	252		
Others	16	(1,289)	(1,834)	(557)		
Eliminations	(531)	(3,279)	(41)	-		
Group	32,881	23,397	(375)	(1,648)		
Less: Finance Costs			(498)	(470)		
Less: Share of loss in associate			-	(38)		
Loss Before Tax			(873)	(2,156)		

The Group recorded a revenue of RM32.9 million and loss before tax of RM0.9 million in the current reporting quarter. For the preceding year corresponding quarter, the Group recorded revenue and loss before tax of RM23.4 million and RM2.2 million respectively.

The detailed description of each operation segment are shown below.

16. Review of the performance of the Company and its principal Subsidiaries. (Continued)

The comparisons of the results are tabulated below:

Quarry and Premix Products

Revenue for the quarry and asphaltic premix products segment was higher at RM23.5 million as compared to the previous year's quarter mainly due to higher sales of quarry and asphaltic premix products.

Operating profit at RM1.2 million for the current quarter as compared to the previous corresponding quarter operating loss at RM1.5 million was mainly due to higher sales and control over the cost of sales.

Civil Engineering

Revenue recorded for this segment was RM6.2 million and an operating profit of RM0.3 million compared with same quarter of last financial year's revenue of RM6.3 million and operating profit of RM0.2 million.

The operating profit is higher than corresponding period is mainly due to saving in operating expenses.

Bituminous Products

Revenue recorded for this segment was RM3.7 million and an operating profit of RM0.1 million compared with same quarter of last financial year's revenue of RM3.0 million and operating profit of RM0.3 million.

The operating profit is lower than corresponding period mainly due to lower oversea sales which also have better margins.

Comparison with immediate preceding quarter's results (Q2-FY'18 vs Q1-FY'18)

The Group's performances for the current financial quarter compared to the immediate preceding quarter were as follows:

	Current Quarter	Immediate preceding Quarter	Variance	•
Operating Segment	RM'000	RM'000	RM'000	%
Quarry and Premix Products	23,477	18,755	4,722	25%
Civil Engineering	6,206	5,799	407	7%
Bituminous Products	3,713	3,059	654	21%
Others	16	90	(74)	-82%
Eliminations	(531)	(124)	(407)	328%
Group	32,881	27,579		
Loss Before Tax	(873)	(1,508)	635	>100%

For the current quarter under review, the quarry and premix products segment generated a higher revenue of RM23.5 million compared to RM18.8 million recorded in the immediate preceding quarter, mainly due to the higher contract production volume recorded in quarry operation as well as premix sales.

The civil engineering segment recorded a turnover of RM6.2 million compared to RM5.8 million in the immediate preceding quarter, mainly due to higher rate of work at a project.

The bituminous products recorded RM3.7 million compared to RM3.1 million in the immediate preceding quarter, as overseas sales has improved.

Group Loss before tax of RM0.9 million in the current quarter was lower compared to the RM1.5 million registered in the immediate preceding quarter is mainly due to higher revenue achieved.

17. Prospects

The market condition of the quarry operations is expected to be satisfactory in the coming reporting quarters. However, the asphaltic premix segment is facing a challenging price environment with thin profit margin, as a result. The civil engineering and bituminous products segment is expected to remain positive in the coming reporting quarters as more construction projects are expected to be implemented and exports of bituminous products is expected to improve. Overall, the prevailing market conditions remains competitive in all the business segments therefore increasing turnover will be challenging and the ongoing cost cutting and reorganisation of our operations exercise will hopefully lead to further improvements in the Group's operating result in the coming quarters.

18. Realised and unrealised profits/losses

The breakdown of the accumulated losses of the Company and its subsidiary companies was as follows:

	As at 30 September 2017 RM'000	As at 31 March 2017 RM'000
Realised	(67,817)	(74,520)
Unrealised	(1,924)	(2,221)
Total share of accumulated losses from associate companies -realised	(69,741)	(76,741) 227
	(69,729)	(76,514)
Consolidated adjustments	28,105	38,367
Total Group accumulated losses	(41,624)	(38,147)

19. Profit forecast/profit guarantee

Not applicable as the Group has not issued any profit forecast or profit guarantee to the public.

- under/(over) provision in prior year		<u> </u>
	(314)	
Current deferred tax		
- relating to origination and reversal fo temporary differences	-	-
- relating to changes in tax rate	-	-
- under provision in prior year		
	-	<u>-</u>
	(314)	-

21. Status of corporate proposals

Rights Issue

As at 30 September 2017, our Group has utilised approximately RM46.801 million from the total Rights Issue Proceeds of RM49.86 million. The details of the Revision of Proceeds Utilisation approved on16 March 2016 are as follows:-

Existing	Time frame of proceeds utilisation	Proceeds RM'000	Amount Utilised RM'000	Amount U	nutilised %	Explanations (if the deviation is 5% or more)
Purchase of quarry sites	Within 24 months	-	-	-		
Distribution of heavy machineries	Within 24 months	20,000	(16,940)	3,060	15%	Extended utilisation till 16 March 2018
Working capital	Within 12 months	20,000	(20,000)	-		
Repayment of bank borrowings	Within 12 months	8,631	(8,631)	-		
Estimated expenses in relation to the corporate exercise	Within 2 weeks	1,230	(1,230)	-		
	- =	49,861	(46,801)	3,060	6%	

22. Group borrowings

The Group's borrowings were as follows:-

۸۰	at	30	Septemb	or 2017
AS	aı	งบ	Septemb	er zu i /

	Long term RM'000	Short term RM'000	Total borrowings RM'000
<u>Secured</u>			
Term loans	5,986	471	6,457
Bank Overdrafts	-	2,951	2,951
Finance Lease Payables	400	17,518	17,918
Bankers acceptance/Letter of credit		2,437	2,437
	6,386	23,377	29,763

As at 30 September 2016

	Long term RM'000	Short term RM'000	Total borrowings RM'000
Secured			
Term loans	6,637	-	6,637
Finance Lease Payables	605	15,166	15,771
Bank Overdrafts		1,137	1,137
Unsecured			
Bankers acceptance/Letter of credit	-	4,459	4,459
	7,242	20,762	28,004

The term loan for the current quarter of RM6.5 million compare to RM6.6 million correspondence period mainly due to repayment of term loan.

Finance Lease payable increase due to draw down for finance acquisition of property plant and machinery.

The Group does not have any borrowings denominated in foreign currency.

23. Material Litigation

This is an update to the Report as at 23 November 2017 previously submitted by Minetech Resources Berhad ("MRB") regarding material litigation cases involving the Group.

The Group is not engaged in any material litigation cases as at the date of this report other than the following:-

(i) Kuala Lumpur High Court Suit No. S-22NCVC-288-04/2013 ("Suit 288")

The Trial for Suit 288 and the below stated Suit 433 had proceeded at the Kuala Lumpur High Court before Y.A. Datin Hajah Azizah on 23rd, 24th, 25th and 26th October 2017 and 13th November 2017. The Trial is scheduled to continue for one more day on 23rd November 2017, after which the Judge will fix dates for both parties' counsels to file their respective written submissions (on the facts deduced from the Trial and the applicable questions of law). This will usually be followed by the Judge fixing a date for both parties' counsels to make oral submission and thereafter the Judge will deliver her decision, most probably sometime in January or February 2018.

As the Trial is confined to the finding of liability, should the Judge decides Suit 288 in our favour, then the Court will fix further date(s) to assess the damages payable by SMGQ to us.

Our solicitors are cautiously optimistic that Suit 288 (in particular the question of wrongful termination of the Quarry Agreement by SMGQ) will be decided in our favour.

The exposure of our liabilities in the worst case scenario should Suit 288 be dismissed and SMGQ's counterclaim be allowed would be us having to pay the amount in SMGQ's counterclaim as allowed by the Court and costs.

We do not expect the counter claim by SMGQ to materially affect the financial and operational matters of MRB and its Group at this moment.

(ii) Kuala Lumpur High Court Suit No. 22NCVC-433-09/2014 ("Suit 433")

As stated above, Suit 433 and Suit 288 are tried together. Hence the continued Trial date on 23rd November 2017 and the need for the Judge to fix dates for both parties' counsels to file their respective written submissions, to do oral submission and for decision are equally applicable here.

Suit 433 was undertaken to enhance our suit 288. The maximum exposure of our liabilities in Suit 433 in the worst case scenario would be the dismissal of this Suit with costs to the Defendants should Suit 433 be decided against us.

The estimated legal fees to be incurred by the Group in the engagement of solicitors to litigate the abovementioned litigation cases is approximately RM1 million.

24. Dividends

No interim dividend has been declared or recommended in respect of the financial quarter under review.

25. Earnings/Loss per share

. Lamings/2003 per share		Individual Quarter		Cumulative Quarter	
	3 months Quarter ended 30 Sep 17	3 months Quarter ended 30 Sep 16	Year to date ended 30 Sep 17	Year to date ended 30 Sep 16	
Basic earnings/(loss) per share					
Loss for the period (RM'000)	(1,803)	(1,782)	(3,477)	(5,392)	
Weighted average no of ordinary shares ('000)	731,575	694,809	731,575	694,809	
Basic loss per share (sen)	(0.25)	(0.26)	(0.48)	(0.78)	

There is no dilute event for the current quarter and year to date. Therefore, the diluted EPS is the same as the basic EPS.

26. Notes to the Consolidated Statement of Comprehensive Income

	Current Quarter Ended 30 Sep 17 RM'000	Year-to -date Ended 30 Sep 17 RM'000
Interest income	(67)	(94)
Interest expense	481	878
Depreciation and amortisation	2,181	4,265
Gain on disposal of property, plant and equipment	(92)	(416)
Property, plant and machineries written off	61	61
Reversal on impaiment loss on Inventories	-	(32)

27. Authorised for issuance

The interim financial statements for financial period ended 30 September 2017 has been seen and approved by the Board of Directors of MRB on 23 November 2017 for release to the Bursa Securities.
