For the current quarter ended 31 March 2018, the Group reported a lower revenue as compared to the corresponding quarter of previous year, mainly due to lower revenue contribution from telecommunication network services (“TNS”).

**B2. Material Changes in the Current Quarter’s results compared to the results of the immediate Preceding Quarter**

Individual Quarter	Telecommunication Network Services	Green Energy and Power Solution	Trading	M&E Engineering Services	Investment Holding Company	Elimination	Group

Profit before tax	247	(267)	138	971	11,559	(482)	12,166

The total revenue of RM97.5 million recorded for the current quarter was lower as compared to the revenue in the preceding quarter of RM141.2 million mainly due to lower revenue contribution from TNS and M&E Engineering services in current quarter.

**B3. Prospects**

As the largest Telecommunication Network Services (“TNS”) Provider in Malaysia, the Group is of the view that the telecommunication industry remains positive. The Group’s outlook is in-line with the mobile network operators’ (“MNOs”) (eg. Axiata, Maxis, Digi, etc.) plans to expand and upgrade their long-term evolution (“LTE”) and 4G network coverage. In addition, we expect more fiberisation work orders from MNOs to cater for the increase in demand of data and network speed.

The Group also foresees growth opportunities in Sarawak with the newly formed Sarawak Multimedia Authority (“SMA”) set up by the state government to spearhead the Sarawak Digital Economy Strategy (“SDES”) 2018-2022, a five-year road map to begin the digitalisation transformation of Sarawak that will drive the state economy to achieve high-income status by 2030. It is expected that the state plans to invest RM1 billion for the construction of more telecommunication infrastructure, increasing the number of telecommunication towers from the 1,200 as at April 2017 to over 5,000 towers which is necessary for Sarawak to have adequate network coverage.

In terms of managed services in Malaysia, the Group is observing a new trend as MNOs are beginning to outsource its internal managed services to third party companies such as ourselves. We view this positively as the Group currently manages more than 28,000 telecommunication sites in Malaysia and Indonesia. Moving forward, the Group expects this figure to grow.

**B3. Prospects (Cont'd)**

In Myanmar, to date the Group has completed and handed over 820 telecommunication tower sites and is continuing to roll out its current orderbook of telecommunication tower sites. Since our first venture into Myanmar, our current orderbook has continued to grow with towers contracts and co-location orders from MNOs. The Group has successfully built a strong clientele base with all MNOs in Myanmar which includes Telenor Myanmar Limited (“Telenor”), Myanma Posts and Telecommunications (“MPT”), Telecom International Myanmar Company Limited (“Mytel”) and Ooredoo Myanmar Limited (“Ooredoo”). Moving forward, the Group expects to build more sites aggressively to cater to the growing demand of daily data usage in this greenfield telecommunication market.

In Vietnam, the Group is currently the largest independent tower company (“Towerco”) as the Group owns more than 2,100 tower. As the Towerco ecosystem is fragmented, the Group foresees opportunities for consolidation in the Towerco industry of which the Group has identified a few opportunities to acquire smaller Towercos. In addition, the Group will continue to work with MNOs to build new tower sites as MNOs are gearing up for their 4G LTE roll-out.

The Group views that the ASEAN telecommunication industry will continue to grow. With an established presence in ASEAN and with our vast experience in building telecommunication infrastructure, telecommunication site maintenance and as a full turnkey telecommunication network solutions provider, the Group will continue to grow our income via build-own-and-lease, acquiring existing tower sites from MNOs as well as construction and maintenance of telecommunication sites.

**B4. Profit forecast**
