LKL INTERNATIONAL BERHAD (1140005-V)

NOTES TO THE INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER ENDED 31 JANUARY 2019

A. EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRS") 134: INTERIM FINANCIAL REPORTING

A1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of MFRS 134 - Interim Financial Reporting issued by the Malaysian Accounting Standard Board ("MASB"), Paragraph 9.22 and Appendix 9B of the ACE Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements for the FYE 30 April 2018. These explanatory notes attached to the interim financial report provide explanation of events and transactions that are significant for the understanding of the changes in the financial position and performance of the Group since the FYE 30 April 2018.

A2. Changes in accounting policies

The Group has adopted those standards and interpretations (including the consequential amendments, if any) that have become effective on 1 January 2018 and such adoptions do not have material impact on the financial position and performance of the Group.

The Group has not applied in advance the following accounting standards and/or interpretations (including the consequential amendments, if any) that have been issued by the MASB but are not yet effective for this interim financial report:-

MFRSs and/or IC Interpretations (Including The Consequential Amendments)	Effective Date
MFRS 16 Leases	1 January 2019
MFRS 17 Insurance Contracts	1 January 2021
IC Interpretation 23 Uncertainty over Income Tax Treatments	1 January 2019
Amendments to MFRS 3: Definition of a Business	1 January 2020
Amendments to MFRS 9: Prepayment Features with Negative Compensation	1 January 2019
Amendments to MFRS 10 and MFRS 128: Sales or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred
Amendments to MFRS 101 and MFRS 108: Definition of Material	1 January 2020
Amendments to MFRS 119: Plan Amendment, Curtailment or Settlement	1 January 2019
Amendments to MFRS 128: Long-term Interests in Associates and Joint Ventures	1 January 2019
Amendments to References to the Conceptual Framework in MFRS Standards	1 January 2020
Annual Improvements to MFRS Standards 2015 – 2017 Cycles	1 January 2019

The adoption of the above accounting standards and/or interpretations (including the consequential amendments, if any) is expected to have no material impact on the interim financial report of the Group upon their initial application except as follows:-

- (a) MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces the guidance in MFRS 139 on the classification and measurement of financial assets and financial liabilities, impairment of financial assets, and on hedge accounting.

The initial application of MFRS 9 is not expected to have any material impact to the financial statements of the Group for the current financial year and prior periods as the Group will apply the standard retrospectively from 1 May 2018 with the practical expedients permitted under the standard, and that the comparatives (i.e. current period financial information) will not be restated.

NOTES TO THE INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER ENDED 31 JANUARY 2019

A. EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRS") 134: INTERIM FINANCIAL REPORTING (CONT'D)

A2. Changes in accounting policies (Cont'd)

Based on the assessments undertaken to date, the Group has determined the impact of its initial application of MFRS 9 as follows:-

Classification and Measurement

The Group does not expect a significant impact on its statements of financial position on applying the classification and measurement requirements of MFRS 9.

Loans and receivables financial assets are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. The Group analysed the contractual cash flow characteristics of these instruments and concluded that they meet the criteria to be measured at amortised cost under MFRS 9. Therefore, the Group does not expect the standard to affect the measurement of its debt financial assets.

In addition, the Group expects to continue measuring at fair value all financial assets currently held at fair value.

Impairment of Financial Assets

MFRS 9 replaces the 'incurred loss' model in MFRS 139 with an 'expected credit loss' ("ECL") model. In view of strong creditworthiness of the Group's receivables, the Group has concluded that the expected impacts of ECL on trade and other receivables (including related party balances) are insignificant upon the initial application of MFRS 9.

The analysis above are based on the assessments undertaken to-date and may be subject to changes arising from further detailed analyses or additional reasonable and supportable information being made available to the Group in the future.

- (b) MFRS 15 establishes a single comprehensive model for revenue recognition and will supersede the current revenue recognition guidance and other related interpretations when it becomes effective. Under MFRS 15, an entity shall recognise revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the distinct promised goods or services underlying the particular performance obligation is transferred to the customers. The amendments to MFRS 15 further clarify the concept of 'distinct' for the purposes of this accounting standard. In addition, extensive disclosures are also required by MFRS 15 about the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers.

Based on the assessments undertaken to-date, the Group has determined that the impact on its financial statements upon the initial application of MFRS 15 is insignificant as the timing and amount of revenue to be recognised for the sale of medical/healthcare beds, peripherals and accessories under the new standard are unlikely to be materially different from its current practice.

The analysis above is based on the assessments undertaken to-date and may be subject to changes arising from further detailed analyses or additional reasonable and supportable information being made available to the Group in the future.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of performance

For the current financial quarter under review, the Group revenue increased 8.2% or RM0.840 million to RM11.086 million as compared to RM10.246 million reported in the preceding year corresponding quarter mainly driven by higher sales from the trading segment.

The stronger performance in the trading segment was mainly due to higher sales of medical peripherals and accessories as well as medical devices. Notably, sales of medical devices surged 182.6% to RM1.625 million from RM0.575 million in the preceding year corresponding quarter. The improvement in the trading segment mitigated the 8.0% dip in revenue in the manufacturing segment from RM8.083 million to RM7.438 million due to lower sales in medical/healthcare beds and medical peripherals and accessories.

Geographically, the Malaysia market contributed 87.6% of the Group's total revenue as compared to 66.8% in the preceding year corresponding quarter. Contributions from overseas markets dipped to 12.4% of total revenue from 33.2% in the preceding year corresponding quarter mainly due to decrease in exports to other Asia countries.

Despite registering higher revenue, gross profit for the current financial quarter under review declined 12.8% or RM0.533 million to RM3.627 million from RM4.160 million in the preceding year corresponding quarter due to lower gross profit margin resulted from the product mix sold in the current financial quarter, apart from the rising raw material costs. The Group's PBT decreased by 97.8% or RM1.041 million to RM0.023 million as compared to RM1.064 million in the preceding year corresponding quarter due to lower gross profit margin and increase in certain operating costs.

B2. Comparison with preceding quarter's results

	UNAUDITED CURRENT QUARTER 31 JAN 2019 RM'000	UNAUDITED PRECEDING QUARTER 31 OCT 2018 RM'000
Revenue	11,086	9,481
PBT	23	218

The Group's revenue for the current financial quarter under review rose by 16.9% or RM1.605 million to RM11.086 million as compared to RM9.481 million in the preceding financial quarter, due to increase contribution from both the manufacturing and trading segments. The growth in both segments was attributed to higher sales of medical/healthcare beds, peripherals and accessories, as well as medical devices.

The manufacturing segment contributed RM7.438 million to the Group's revenue for the current financial quarter, increasing by 10.1% or RM0.684 million from RM6.754 million in the preceding financial quarter. Meanwhile, the trading segment registered revenue of RM3.648 million, rising by 33.8% or RM0.921 million from RM2.727 million in the preceding financial quarter.

The Group posted a PBT of RM0.023 million for the current financial quarter as compared to RM0.218 million in the preceding financial quarter due to lower gross profit margin as a result of the product mix sold and intense market competition.
