### MFRS 16 Leases

The Group adopted MFRS 16: *Leases* on 1 January 2019. MFRS 16 supersede MFRS 117 *Leases* on introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statements of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non- cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

In respect of the lessor accounting, MFRS 16 substantially carries forward the lessor accounting requirements in MFRS 117. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The changes in accounting policies have been applied retrospectively from 1 January 2019. In accordance with the transition requirements without restating the comparatives.

The following table analyses the impact of transition to MFRS 16 on the statement of financial position of the Group:

### B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

### **B1.** Analysis of performance

The Group's current quarter and cumulative revenue for the financial period ended ("FPE") 31 March 2019 increased marginally to RM12.48 million as compared to RM12.46 million in the preceding corresponding FPE 31 March 2018. The growth was achieved on the back of higher contribution from the manufacturing division. Further analyses of the performance of the Group's operating segments are as follows:

### (i) Manufacturing and sale of finished health supplement products

The revenue generated from this segment for the FPE 31 March 2019 was RM6.53 million as compared to RM6.49 million in the preceding corresponding FPE 31 March 2018, representing an increase of RM0.04 million.

The higher revenue was mainly due to increase in export sales of health supplement products to Indonesia and China. Sales to Indonesia and China for the FPE 31 March 2019 increased from RM2.40 million and RM0.98 million to RM2.54 million and RM1.91 million or 5.83% and 94.90% respectively, as compared to the preceding corresponding FPE 31 March 2018. The growth was attributed to increase in orders for new and existing products from current clientele.

Meanwhile, the Malaysian market experienced slower sales as customers were still running down inventory following the high stocking-up activities during the tax-free window from June to August 2018 and 2018 year-end purchasing activities. Consumers were more prudent with their spending, leading to weaker sentiment in first quarter 2019.

### (ii) Retail pharmacies

The revenue generated from this segment for the current quarter was RM5.96 million as compared to RM5.97 million in the preceding corresponding FPE 31 March 2018, representing a slight decrease of RM0.01 million.

Gross profit margin showed a decline to 32.60% in the FPE 31 March 2019 in comparison to 39.22% in the preceding corresponding FPE 31 March 2018. This was due to higher depreciation and amortisation charges, as well as manufacturing overheads incurred, following the upgrading of machineries in the plant.

Net profit attributable to the owners of the parent for the FPE 31 March 2019 was RM0.86 million. By comparison, the Group recorded a net profit of RM0.94 million in the current quarter and RM0.60 million in the preceding corresponding quarter.

### B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS (CONT'D)

### B1. Analysis of performance (cont'd)

### Comparison with immediate preceding quarter's results

The revenue for the first (1<sup>st</sup>) quarter ended 31 March 2019 decreased by RM4.83 million or 27.90% from RM17.31 million to RM12.48 million as compared to the fourth (4<sup>th</sup>) quarter ended 31 December 2018 due to seasonality factor.

The Group's business activities are subject to seasonal trends where the first (1st) quarter performance is usually the softest due to fewer working days as a result of festive holidays, as well as lower purchasing activities by customers, having stocked up in the prior two quarters. The Group's sales typically peak in the third (3<sup>rd</sup>) and fourth (4<sup>th</sup>) quarter of the calendar year with strong purchasing activities by customers in conjunction with their year-end festive promotional and marketing campaigns.

### B2. Prospects for the financial year ending 31 December 2019

The Group remains positive on the prospects for both its manufacturing and retail pharmacy segments in 2019. For the manufacturing business, the Group anticipates steady recurring orders from Original Design Manufacturing ("ODM") clients for its health supplement products. Additionally, the Group is also in the midst of discussions with several potential new clients to grow its customer base and product offerings. The Group expects the solid demand from local market to prevail going into 2019.

Following the strong performance in 2018 that was led by domestic growth, the Group will now be focusing on strengthening its presence in its key export markets. In China, the Group is entering the Business-to-Consumer ("B2C") scene to market its house brand products — Apotec and Nushine. As part of our B2C strategy, a distributor has been appointed to promote and distribute Bioalpha's health supplement products in the Guangxi province. Apart from physical presence, the Group is also planning to feature its products on China's popular ecommerce platforms such as JD.com and Taobao.com. We shall be appointing a local partner from Hainan to facilitate the listing on the platforms.

### B2. Prospects for the financial year ending 31 December 2019 (cont'd)

In Indonesia, the Group currently produces functional food products. Recently, the Group has received approvals to produce several health supplement products for existing ODM clients. With this, the Group expects revenue from Indonesia to pick up over time with more orders slated to come in.

Overall, the Group's outlook on its manufacturing segment in 2019 is positive, underpinned by growing export sales and recurring orders from ODM customers, in addition to acquiring new clients.

Meanwhile, for the retail pharmacy business, the Group remains committed to expanding its Constant pharmacy network by franchising more outlets. There are more than 20 Constant pharmacy outlets nationwide at the moment and the Group plans to launch more outlets in the next 12 months. The Group's strategy is to open new outlets in locations outside the Klang Valley, with a focus on the Southern region, where the competition is less stiff and Constant pharmacies can offer better value-added services such as free consultation, free basic checkups and special discounts on member days. With the increase in number of outlets, the Group expects demand for its house brand products to also improve in 2019.

As for the agriculture division, land clearing activities at the 1,003-acre of land in Pasir Raja, Dungun, Terengganu is currently ongoing, with 260 acres already developed. Meanwhile, 100 acres of land at the Desaru Herbal Park in Johor is already planted with herbs, while the remaining 200 acres has been under development. The Group is currently planting herbs such as Tongkat Ali, Misai Kucing, Kacip Fatimah, Betik Sekaki, Lada Hitam, Durian Belanda, Pokok Kari, Mas Cotek and Serai, which are high in demand. The Group is also cultivating high-yielding crops such as soursop and coconut trees at its herbal parks. With more herbs and crops reaching maturity stage in 2019 from both Pasir Raja and Desaru Herbal Parks coupled with the overall increase in planted acreage, the Group expects to harvest greater tonnage of raw fresh herbs in 2019.

There is also an opportunity to sell herbs to external customers with a rise in the tonnage volume.

In the development of botanical drugs, the Group have achieved 3 patents approved and several more are still ongoing in process. For the studies, the Group is currently working towards entering clinical trials.

In view of the aforementioned growth prospects across the business divisions, the Board of Directors of the Company ("Board") is optimistic on the Group's performance for the financial year ending 31 December 2019.
