NOTES PURSUANT TO THE FINANCIAL REPORTING STANDARD 134 (MFRS 134): INTERIM
FINANCIAL REPORTING

- Reclassification of certain expenses previously presented as selling and distribution expenses to revenue.

A2. Summary of significant accounting policies

The significant accounting policies adopted in the preparation of the interim financial statements are consistent with those used in the preparation of the Group's audited financial statements for the financial year ended 31 December 2018 except for the adoption of the pronouncements that become effective from 1 January 2019.

MFRS 16: Leases

IC Interpretation 23, Uncertainty over Income Tax Treatments

Amendments to MFRS 9: Prepayment Features with Negative Compensation

The adoption of the above pronouncement did not have a material impact on the financial statements of the Group. The adoption of the above pronouncement did not have a material impact on the financial statements of the Group, other than as disclosed below

MFRS 16 'Leases'

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and will replace the current guidance on lease accounting when it becomes effective. Under MFRS 16, the classification of leases as either finance leases or operating leases is eliminated for lessees. All lessees are required to recognise their leased assets and the related lease obligations in the statement of financial position (with limited exceptions). The leased assets are subject to depreciation and the interest on lease liabilities are calculated using the effective interest method.

The following table presents the impact of changes to the consolidated statement of financial position of the Group resulting from the adoption of MFRS 16 Leases as at 1 January 2019:

QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2019

A2. Summary of significant accounting policies (cont'd)

Group	As at 31 December 2018 RM'000	Changes RM'000	As at 1 January 2019 RM'000
Non-current assets			
Right-of-use assets	-	1,359	1,359
Non-current liabilities			
Lease liabilities	-	727	727

Equity			
Retained Earnings	-	(80)	(80)

The Group recognised right-of-use of assets for office and factory leases, except for short-term leases and leases of low-value assets. Lease liabilities are recognised based on the present value of the remaining lease payments, discounted using the weighted average incremental borrowing rate of the Group.

Subsequent to initial recognition, the Group measure the lease liabilities by increasing the carrying value to reflect the interest on the lease liabilities, reducing the carrying amount to reflect lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications

The Group has not applied the following new MFRSs, new interpretations and amendments to MFRSs that have been issued by the MASB but are not yet effective for the Group:

		Effective dates for financial periods beginning on or after
		<hr/>
Amendments MFRS 3	Definition of a Business	1 January 2020

B3. Prospects

The instability caused by the escalation of the trade war between the US and China, which is likely to drag on beyond the 2020 US presidential election, coupled by fears of a disorderly Brexit pose a challenging backdrop for the country's economy.

The prolonged presence of such disruptive uncertainties has dented economic sentiments and hence economic activities both at home and abroad.

Having said that, Bank Negara's latest quarterly review shows that the country's economic growth is expected to remain resilient amid a slower global growth.

Despite the challenges it faces, the Group will continue to align and diversify its business strategies in order to thrive in the face of a dynamic business environment.

The Board of Directors would exercise extra caution in conducting their duties during these periods and are optimistic of the Group's long term prospect.

B4. Profit forecast

No profit forecast has been issued by the Group previously in any public document.
