**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES****B1. Review of Performance****Current Quarter Compared To Preceding Year Corresponding Quarter**

	<b>Current Year Quarter 30.09.2019 RM'000</b>	<b>Preceding Year Quarter 30.09.2018 RM'000</b>	<b>Variance</b>	
			<b>RM'000</b>	<b>%</b>
Revenue	143,231	155,241	(12,010)	-7.7%
Gross profit	14,864	22,251	(7,387)	-33.2%
Profit before interest and tax	6,595	14,555	(7,960)	-54.7%
Profit before tax	2,647	11,388	(8,741)	-76.8%
Profit after tax	1,852	8,585	(6,733)	-78.4%
Profit attributable to owners of the Company	1,833	8,589	(6,756)	-78.7%

The revenue recorded for the current quarter and the preceding year corresponding quarter was RM143.23 million and RM155.24 million respectively, decreased by 7.7% or RM12.01 million.

The decrease in revenue was mainly due to decrease in revenue for trading of steel products by 21.3% or RM14.67 million, partially offset by improvement in revenue for processing of steel products by 3.6% or RM3.10 million.

The decrease in revenue for trading of steel products was mainly due to:

- lower revenue from trading of flat carbon steel products by 13.3% or RM4.13 million, mainly due to lower tonnage sales by 6.4%, coupled with lower average selling price by 7.4%; and
- lower revenue from trading of long carbon steel products by 45.5% or RM12.66 million, mainly due to lower tonnage sales by 37.3%, as well as lower average selling price by 13.0%; partially offset by
- higher revenue from trading of other flat steel products by 29.1% or approximately RM1.85 million, mainly attributable to increase in tonnage sales by 17.8%, as well as higher average selling price by 9.6%.

The increase in revenue for processing of steel products was mainly due:

- higher revenue from processing of long carbon steel products by 34.0% or RM1.69 million, mainly due to increase in tonnage sales by 48.5%, negated by a reduction in average selling price by 9.8%; and
- higher revenue from processing of other long steel products by 30.9% or RM0.82 million, mainly attributable to higher tonnage sales by 59.2%, despite lower average selling price by 17.7%.

Our main business segments continued to be trading and processing of steel products, which collectively contributed approximately 100.0% of our total revenue for the current quarter. The trading segment and the processing segment contributed revenue of approximately 37.9% and 62.1% respectively for the current quarter whereas the trading segment and the processing segment contributed revenue of approximately 44.4% and 55.3% respectively for the preceding year corresponding quarter.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B1. Review of Performance (Cont'd)****Current Quarter Compared To Preceding Year Corresponding Quarter (Cont'd)**

Our gross profit decreased by 33.2% or RM7.39 million, from RM22.25 million to RM14.86 million. This was due to the decrease in revenue by 7.7% or RM12.01 million, from RM155.24 million to RM143.23 million, as well as lower overall gross profit margin, from 14.3% for the preceding year corresponding quarter to 10.4% for the current quarter, mainly resulted from lower gross profit margin recorded for both trading and processing of steel products by 5.6 percentage points and 2.8 percentage points respectively as compared to the preceding year corresponding quarter.

The lower gross profit margin for trading of steel products was mainly due to:

- lower gross profit margin for trading of flat carbon steel products by 4.7 percentage points, due to the decrease in average selling price by 7.4%, while the average cost for input materials had only decreased by 2.1%;
- lower gross profit margin for trading of long carbon steel products by 6.8 percentage points, due to the decrease in average selling price by 13.0%, while the average cost for input materials had only decreased by 6.0%;
- lower gross profit margin for trading of other flat steel products by 6.5 percentage points, due to the increased in average cost for input materials by 20.0%, while the average selling price had only increased by 9.6%; and
- lower gross profit margin for trading of other long steel products by 8.9 percentage points, due to the decrease in average selling price by 4.7%, while the average cost for input materials had increased by 8.1%.

The lower gross profit margin for processing of steel products was mainly due to:

- lower gross profit margin for processing of long carbon steel products by 10.4 percentage points, due to the decrease in average selling price by 9.8%, while the average cost for input materials had increased by 1.2%;
- lower gross profit margin for processing of other long steel products by 13.8 percentage points, due to the decrease in average selling price by 17.7%, while the average cost for input materials had increased by 2.6%; and
- unabsorbed overhead costs of RM1.60 million incurred in the current quarter.

The other income for the current quarter was RM0.61 million as compared to RM0.74 million for the preceding year corresponding quarter, lower by RM0.13 million, mainly due to:

- absence of realised gain on foreign exchange by RM0.27 million which had been credited to the preceding year corresponding quarter; and
- lower interest income from the deposits with licensed banks by RM0.16 million as compared to the preceding year corresponding quarter; offset by
- rental income of RM0.19 million in the current quarter which was derived from letting of a portion of warehouse space;
- higher storage charges by RM0.03 million; and
- absence of the reversal of unrealised gain on foreign exchange by RM0.05 million which had been charged to the preceding year corresponding quarter.

**B1.      Review of Performance (Cont'd)**

**Current Quarter Compared To Preceding Year Corresponding Quarter (Cont'd)**

Our operating costs increased by RM0.39 million from RM8.25 million for the preceding year corresponding quarter to RM8.64 million for the current quarter mainly due to net addition of impairment losses on financial assets (trade receivables) of RM0.31 million for the current quarter as compared to negligible net addition of impairment losses for the preceding year corresponding quarter.

Total finance costs for the current quarter was RM4.18 million, increased by approximately RM0.83 million as compared to RM3.35 million for the preceding year corresponding quarter. This was mainly due to higher utilisation of overdraft facilities and term loans where their interest expenses increased by RM0.20 million and RM0.39 million respectively, as well as the interest expense on lease liabilities amounting to RM0.19 million arising from the changes in accounting treatment for operating leases upon applying new MFRS 16.

Based on the foregoing factors, our Group registered a decrease in profit before tax by 76.8% or RM8.74 million to RM2.65 million as compared to RM11.39 million for the preceding year corresponding quarter.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B1. Review of Performance (Cont'd)****Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date**

	<b>Current Year- To-Date 30.09.2019 RM'000</b>	<b>Preceding Year- To-Date 30.09.2018 RM'000</b>	<b>Variance</b>	
			<b>RM'000</b>	<b>%</b>
Revenue	457,540	442,773	14,767	3.3%
Gross profit	48,775	66,780	(18,005)	-27.0%
Profit before interest and tax	24,739	40,318	(15,579)	-38.6%
Profit before tax	13,504	31,736	(18,232)	-57.4%
Profit after tax	9,730	23,487	(13,757)	-58.6%
Profit attributable to owners of the Company	9,780	23,583	(13,803)	-58.5%

Our revenue increased by 3.3% or RM14.77 million from RM442.77 million for the preceding financial year-to-date to RM457.54 million for the current financial year-to-date. This was mainly resulted from the increase in revenue for our trading of steel products by 11.5% or approximately RM23.21 million, from RM201.73 million to RM224.94 million, reduced by the decrease in revenue for processing of steel products by 3.4% or RM8.07 million, from RM240.54 million to RM232.47 million.

The increase in revenue for trading of steel products was mainly due to:

- higher revenue from trading of flat carbon steel products by 26.0% or RM28.72 million, mainly due to increase in tonnage sales by 44.3%, negated by a reduction in average selling price by 12.7%; and
- higher revenue from trading of other flat steel products by 59.8% or RM9.54 million, mainly attributable to higher tonnage sales by 56.4%, as well as higher average selling price by 2.2%; partially offset by
- lower revenue from trading of long carbon steel products by 24.1% or RM15.36 million, mainly due to lower tonnage sales by 16.9%, coupled with lower average selling price by 8.7%.

On the other hand, the decrease in revenue for processing of steel products was mainly resulted from:

- lower revenue from processing of flat carbon steel products by 14.9% or RM24.37 million, which saw its demand decreased by 10.9%, as well as lower average selling price by 4.5%; largely mitigated by
- higher revenue from processing of long carbon steel products by 35.9% or RM5.12 million, which saw its demand increased by 53.4%, negated by a reduction in average selling price by 11.4%; and
- higher revenue from processing of other flat steel products by 18.6% or RM10.01 million, mainly due to increase in tonnage sales by 9.0%, as well as higher average selling price by 8.8%.

Despite higher revenue by 3.3% or RM14.77 million, from RM442.77 million to RM457.54 million, our gross profit decreased by 27.0% or approximately RM18.01 million, from RM66.78 million to RM48.77 million, due to lower overall gross profit margin, from 15.1% for the preceding financial year-to-date to 10.7% for the current financial year-to-date, mainly due to lower gross profit margin for both trading and processing of steel products by 7.2 percentage points and 1.9 percentage points respectively as compared to the preceding financial year-to-date.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B1. Review of Performance (Cont'd)****Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date (Cont'd)**

The lower gross profit margin for trading of steel products was mainly resulted from:

- lower gross profit margin for trading of flat carbon steel products by approximately 6.5 percentage points, due to the decrease in average selling price by 12.7%, while the average cost for input materials had only decreased by 5.4%;
- lower gross profit margin for trading of long carbon steel products by 7.4 percentage points, due to the decrease in average selling price by 8.7%, while the average cost for input materials remained fairly consistent with the average cost for input materials recorded for the preceding year corresponding quarter;
- lower gross profit margin for trading of other flat steel products by 6.4 percentage points, due to the increase in average cost for input materials by 12.9%, while the average selling price had only increased by 2.2%; and
- lower gross profit margin for trading of other long steel products by 7.8 percentage points, due to the decrease in average selling price by 4.2%, while the average cost for input materials had increased by 7.9%.

The lower gross profit margin for processing of steel products was mainly due to the unabsorbed overhead costs of RM3.28 million incurred in the current financial year-to-date.

The other income for the current financial year-to-date was RM2.11 million as compared to RM2.06 million for the preceding financial year-to-date, slightly higher by approximately RM0.05 million, mainly due to higher insurance claims by RM0.20 million and rental income of RM0.47 million in the current financial year-to-date, largely offset by lower interest income from the deposits with licensed banks by RM0.33 million and absence of realised gain of RM0.29 million which had been credited to the preceding financial year-to-date.

Our operating costs decreased by RM2.57 million from RM27.98 million for the preceding financial year-to-date to RM25.41 million for the current financial year-to-date, as the result of the followings:

1. Decrease in distribution costs and administrative costs by RM0.55 million and RM1.88 million respectively mainly due to absence of provision of bonuses for directors and staff. The management has decided to provide bonuses at the last quarter of current financial year where it can be better determined instead of providing it at the beginning of the current financial year.
2. Higher net addition of impairment losses on financial assets (trade receivables) for the current financial year-to-date as compared to the preceding financial year-to-date by RM0.29 million.
3. Decrease in other costs by RM0.42 million, mainly due to:
  - absence of unrealised loss on foreign exchange of RM0.10 million which had been charged to the preceding financial year-to-date;
  - absence of relocation expenses of approximately RM0.07 million incurred during the preceding financial year-to-date in relation to the compulsory acquisition of the two affected plots of land which house the steel processing plant, office and warehouse of a wholly owned subsidiary, Supreme Steelmakers Sdn Bhd;
  - lower penalty charges by RM0.15 million, mainly due to the absence of penalty in relation to income tax under estimated for the year of assessment 2017; and
  - lower quit rent and assessment expenses by RM0.14 million due to certain portion of these expenses were allocated to direct overhead costs.

**B1.      Review of Performance (Cont'd)**

**Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date (Cont'd)**

Total finance costs increased by RM2.85 million as compared to the preceding financial year-to-date. This was mainly due to higher interest expenses incurred for overdraft facilities and term loans by RM0.32 million and RM1.76 million respectively for the current financial year-to-date, as well as the interest expense on lease liabilities amounting to RM0.51 million arising from the changes in accounting treatment for operating leases upon applying new MFRS 16.

Based on the foregoing factors, our Group registered a decrease in profit before tax by 57.4% or approximately RM18.24 million from RM31.74 million for the preceding financial year-to-date to RM13.50 million for the current financial year-to-date.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B2. Material Variation of Profit Before Tax Against Immediate Preceding Quarter**

	<b>Current Quarter 30.09.2019 RM'000</b>	<b>Immediate Preceding Quarter 30.06.2019 RM'000</b>	<b>Variance RM'000</b>	<b>%</b>
Revenue	143,231	169,844	(26,613)	-15.7%
Gross profit	14,864	21,665	(6,801)	-31.4%

Profit attributable to owners of the Company	1,833	7,494	(5,661)	-75.5%

Our Group achieved revenue of RM143.23 million for the current quarter, which was lower than the immediate preceding quarter's revenue by 15.7% or RM26.61 million.

The decrease in revenue was mainly due to decrease in revenue for trading of steel products by 41.4% or RM38.44 million, mitigated by higher revenue for processing of steel products by 15.4% or RM11.84 million.

The decrease in revenue for trading of steel products was mainly due to:

- lower revenue from trading of flat carbon steel products by 55.1% or RM33.08 million, mainly due to lower tonnage sales by 58.8%, mitigated by an increase in average selling price by 9.0%; and
- lower revenue from trading of other flat steel products by 31.1% or RM3.69 million, mainly due to decrease in tonnage sales by 33.4%, mitigated by higher average selling price by 3.6%.

The increase in revenue for processing of steel products was mainly attributable to:

- higher revenue from processing of flat carbon steel products by 19.7% or RM9.24 million, mainly due to increase in tonnage sales by 23.6%, negated by a reduction in average selling price by 3.2%; and
- higher revenue from processing of other flat steel products by 12.7% or RM2.55 million, mainly due to increase in tonnage sales by 14.0%, negated by lower average selling price by 1.1%.

For the current quarter, our gross profit decreased by 31.4% or approximately RM6.81 million, from RM21.67 million for the immediate preceding quarter to RM14.86 million for the current quarter, which was due to the decrease in revenue by RM26.61 million, from RM169.84 million for the immediate preceding quarter to RM143.23 million for the current quarter, as well as lower overall gross profit margin from 12.8% for the immediate preceding quarter to 10.4% for the current quarter, mainly caused by lower gross profit margin recorded for processing of steel products by 3.8 percentage points, from 14.4% to 10.6%.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B2. Material Variation of Profit Before Tax Against Immediate Preceding Quarter (Cont'd)**

The lower gross profit margin for processing of steel products was mainly due to:

- lower gross profit margin for processing of long carbon steel products by 3.5 percentage points, due to the decrease in average selling price by 1.4%, while the average cost for input materials had increased by 3.5%;
- lower gross profit margin for processing of other long steel products by 2.9 percentage points, due to the decrease in average selling price by 8.1%, while the average cost for input materials had only decreased by 4.3%;
- lower gross profit margin for processing of flat carbon steel products by 3.9 percentage points, due to the decrease in average selling price by 3.2%, while the average cost for input materials had increased by 0.7%; and
- lower gross profit margin for processing of other flat steel products by 2.6 percentage points, due to the decrease in average selling price by 1.1%, while the average cost for input materials had increased by 1.6%.

The other income of RM0.61 million for the current quarter as compared to RM0.84 million for the immediate preceding quarter, was lower by RM0.23 million, mainly due to lower unrealised gain on foreign exchange, rental income and compensation from insurance claims in the current quarter by RM0.08 million, RM0.09 million and RM0.07 million respectively as compared to the immediate preceding quarter.

Our operating costs increased by RM0.24 million, from RM8.40 million for the immediate preceding quarter to RM8.64 million for the current quarter, resulted from:

1. Decrease in distribution costs by RM0.17 million, mainly due to decrease in transportation, travelling and accommodation expenses by RM0.18 million.
2. Increase in administrative costs by RM0.30 million, mainly caused by:
  - increase in staff related costs by RM0.21 million; and
  - higher professional fees by RM0.13 million.
3. Lower net addition of impairment losses on financial assets (trade receivables) for the current quarter as compared to the immediate preceding quarter by RM0.25 million.
4. Increase in other costs by RM0.36 million, mainly due to:
  - higher quit rent and assessment expenses paid in the current quarter by RM0.12 million; and
  - higher stamp duty paid by approximately RM0.29 million; offset by
  - Net realised gain on foreign exchange of RM0.02 million in the current quarter as opposed to the realised loss on foreign exchange of RM0.07 million which had been charged to the immediate preceding quarter.

The finance costs for the current quarter was RM4.18 million, increased by approximately RM0.18 million as compared to RM4.00 million for the immediate preceding quarter mainly due to higher interest expenses incurred for overdraft facilities by RM0.19 million.

Based on the foregoing factors, our profit before tax decreased by 73.8% or approximately RM7.45 million, from RM10.10 million for the immediate preceding quarter to RM2.65 million for the current quarter.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B3. Commentary on Prospects**

Our business operations mainly comprise trading and processing of a diverse range of flat and long steel products. Our processing facilities which include an extensive range of cutting, levelling, shearing, profiling, bending and finishing are cater for specific product requirements of our large customer base from diverse industries and to provide a one-stop solution to potential customers. The cutting and profiling facilities include a fiber laser cutting machine complete with automated loading and unloading facilities for inputs and outputs with overall processing speed of up to 5 times more than conventional machines and believed to be the first fiber laser machine with the highest power in South East Asia.

In addition, as an effort to build a more resilient business, our Group had also embarked on a downstream production of steel pipes which commenced commercial operations at end of the second quarter of 2019. However, as a new player in this market segment, we expect a modest revenue contribution from this operation for the current financial year and more significant contribution in ensuing years.

The profitability of our business is very much dependent on prices of our steel products besides demand from customers. In this respect, global factors such as volatility in commodities and crude oil prices as well as significant fluctuation in exchange rate of foreign currencies against Ringgit Malaysia will affect our suppliers pricing and hence the profitability of our steel products as more than half of our merchandise are sourced from overseas. The prolonged trade tension between the United States of America and several countries including China, and the global growth slowdown may also affect prices of steel.

In the local front, domestic demand should firm up on government consumption although there may be some headwinds on private investment, as business sentiments softened in the face of trade uncertainties. The uncertain impact of the more expansionary fiscal stance on government finances and financial market volatility may also threaten the outlook and thus demand from our customers.

To address the risks arising from global and local factors mentioned above, our Group has been and will continue to be vigilant on the movement of steel prices and related foreign currencies and will take proactive measures including negotiating forward contracts, where necessary, as well as prudent inventory management, to reduce any negative impact which may arise therefrom. Our Group will also continuously enhance the operating capabilities and efficiencies to meet customers' requirements and to ensure timely satisfaction of customer orders while keeping our operating costs at a manageable level.

Taking into consideration of the above and our performance for the past three quarters of the current financial year and barring any unforeseen circumstances, the Board is cautiously optimistic on the financial performance of the Group for the remaining quarter of the current financial year.
