A EXPLANATION NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134: INTERIM FINANCIAL REPORTING

A1. Accounting Policies and Basis of Preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134: Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB"), International Accounting Standard ("IAS") 34: Interim Financial Reporting issued by the International Accounting Standards Board ("IASB"), and paragraph 9.22 and Part A of Appendix 9B of the Main Market Listing Requirements ("Listing Requirements") of Bursa Malaysia Securities Berhad ("Bursa Securities").

These interim financial statements should be read in conjunction with the Audited Financial Statements of the Company for the financial year ended 31 August 2019 and the accompanying explanatory notes attached to these interim financial statements.

These interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company and its subsidiaries ("the Group") since the financial year ended 31 August 2019.

The significant accounting policies and methods of computation applied in these unaudited condensed interim financial statements are consistent with those adopted as disclosed in the Audited Financial Statements of the Company for the financial year ended 31 August 2019, except for the following accounting standards, amendments and interpretations that have been issued by the MASB but have not been adopted by the Group:

 Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The initial application of the accounting standards, amendments or interpretations is not expected to have any material financial impact to the financial statements of the Group except for MFRS 16.

MFRS 16, Leases

The Group has adopted from 1 September 2019, MFRS 16, which replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases – Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

The Group has applied the modified retrospective method permitted under MFRS 16. Accordingly, the comparative information for 2019 has not been restated, i.e. it is presented, as previously reported, under MFRS 117 and related interpretations.

As a lessee, the Group leases various assets, including properties, printing and photocopy machines. These had been previously classified as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under MFRS 16, the Group recognises separately the rights-of-use assets in 'Non-Current Assets' and lease liabilities for most leases in 'Liabilities: Non-Current and Current' in the Statement of Financial Position.

Under the practical expedients of applying MFRS 16, the Group has elected not to recognise rights-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and some leases of low-value assets (e.g. printing and photocopy machines). The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. The Group has also used hindsights when determining the lease term if the contract contains options to extend or terminate the lease

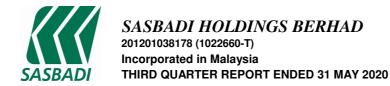

In summary, the adoption impact to the opening balances are as follows:

Statement of Financial Position

| | 31.8.19 RM'000 | MFRS 16 adjustments RM'000 | 1.9.2019 RM'000 |
|---------------------------------------|-------------------|----------------------------------|--------------------|
| Assets Rights-of-use assets | - | 2,374 | 2,374 |
| Liabilities Liabilities - non-current | - | 1,458 | 1,458 |
| Liabilities - current | | 916 | 916 |
| Impact to liabilities | <u> </u> | 2,374 | 2,374 |

The rights-of-use assets represent the remaining rights to use the underlying asset during the lease term. The rights-of-use assets are recognised at the commencement date and are measured at cost less accumulated depreciation and impairment losses if any, and adjusted for any re-measurement of the lease liability.

The lease liabilities are measured at present value of the lease payments that are not paid at 1 September 2019 using its incremental borrowing rate. Subsequently, the lease liabilities are adjusted for interest and lease payments, as well as the impact of lease modifications if any.

As a result of initially applying MFRS 16, in relation to the leases that were previously classified as operating leases, the Group recognised RM1,696,000 of rights-of-use assets and RM1,729,000 of lease liabilities as at 31 May 2020.

Also, in relation to those leases under MFRS 16, the Group has recognised depreciation and finance costs, instead of operating lease expense. During the 9 months ended 31 May 2020, the Group recognised RM719,000 of depreciation charges and RM82,000 of finance costs from these leases.

A2. Auditors' Report on Preceding Annual Financial Statements

The Auditors' Reports on the financial statements of the Company and its subsidiaries for the financial year ended 31 August 2019 were not qualified.

A3. Seasonality or Cyclicality of Operations

The Group's business operations are exposed to seasonality patterns as the Group generally experiences higher quarterly sales in the second financial quarter (December to February) and lower quarterly sales in the fourth financial quarter (June to August) compared to the other two (2) financial quarters. This is primarily caused by the timing of the start of the academic year for national schools. As a result, the seasonal sales patterns may adversely impact on the Group's quarterly revenue, profit and cash flow.

Nevertheless, the Group takes the seasonality patterns into consideration in our cash flow planning. In addition, the Group has implemented strategies to reduce the seasonality patterns such as expanding our market shares for non-academic segment which is less prone to seasonality, and entering into new market segments.

A4. Unusual Items Affecting the Financial Statements

The World Health Organisation (WHO) declared COVID-19 a global pandemic on 11 March 2020. Following this, the Government of Malaysia had imposed a series of Movement Control Order ("MCO") pursuant to the Prevention and Control of Disease Act 1988 ("PCDA"), which resulted in major distruptions to the Company's business operations all round.

Apart from the above, there were no significant items affecting the assets, liabilities, equity, net income, or cash flows of the Group that are unusual because of their nature, size and incidence during the current financial quarter.

A5. Changes in Estimates

There were no material changes in the estimates that have a material effect in the current financial quarter and financial year-to-date.

A6. Debt and Equity Securities

(i) Employees' Share Option Scheme ("ESOS")

The Company has implemented an ESOS of up to ten percent (10%) of the Company's issued and paid-up share capital (excluding treasury shares, if any) for the eligible employees and executive directors of the Group effective from 1 September 2016. On 6 December 2019, the Company offered 10,000,000 options at an exercise price of RM0.17 each to its eligible employees under the ESOS.

(ii) Repurchase of Shares

The Company did not repurchase any of its own shares from the open market during the current financial quarter.

Save as disclosed above, there was no issuance, cancellation, repurchase, resale or repayment of debt and equity securities in the current financial quarter and current financial year-to-date.

A7. Dividend Paid

No dividend was paid by the Company in the current financial quarter.

B1. Review of Performance

Current Quarter ended 31 May 2020 against Preceding Financial Year's Corresponding Quarter ended 31 May 2019

The Group recorded a significantly lower revenue of RM4.946 million for the current financial quarter as compared to RM17.795 million for the preceding financial year's corresponding quarter. This represents a decrease of RM12.849 million (equivalent to 72.21%), attributed mainly to our Print Publishing Division, which shown a decrease of RM12.683 million.

The significant drop in revenue was due to the imposition of MCO over an extended period to curb the COVID-19 pandemic resulting in the disruption of business operations all round.

The Group recorded a loss before tax ("LBT") of RM10.204 million for the current financial quarter vis-à-vis a profit before tax ("PBT") of RM1.212 million for the preceding financial year's corresponding quarter due to lower revenue achieved, provision of slow-moving stock of RM3.772 million, higher general provision for impairment loss on trade receivables of RM1.326 million as compared to RM0.250 million in the previous year corresponding quarter (calculated based on MFRS 9). These were partly set-off by the lower expenses incurred during the period as a result of various cost cutting measures implemented.

Current Financial Year-to-Date ended 31 May 2020 against Preceding Financial Year's Corresponding Year-to-Date ended 31 May 2019

The Group recorded a significant lower revenue of RM55.652 million for the current financial year-to-date as compared to RM72.630 million for the preceding financial year-to-date, representing a decrease of RM16.978 million (equivalent to 23.38%), attributed mainly to the Print Publishing Division, which shown a decrease of RM16.098 million.

The Group recorded a loss before tax ("LBT") of RM1.282 million for the current financial year-to-date vis-a vis a profit before tax ("PBT") of RM12.764 million for the preceding financial year-to-date, representing a decrease of RM14.046 million.

The decrease in revenue and PBT were mainly attributed to the reasons mentioned above.

B2. Variation of Results for the Current Financial Quarter ended 31 May 2020 against the Immediate Preceding Financial Quarter

| | Current Quarter 31.05.2020 RM'000 | Preceding Quarter 28.02.2020 RM'000 | Change RM'000 |
|-------------------------------------|--|--|------------------|
| Revenue Profit/(Loss) Before Tax | 4,946 (10.559) | 22,961 | (18,015) |
| FIUIIV(LUSS) Delute Tax | (10,559) | 3,045 | (13,604) |

The Group recorded a revenue of RM4.946 million for the current financial quarter as compared to RM22.961 million for the immediate preceding financial quarter, representing a decrease of RM18.015 million (equivalent to 78.46%). The decrease was mainly due to the decrease by our Print Publishing Division of RM18.103 million during the current quarter which was partly impacted by the MCO. The better results recorded in the immediate preceding financial quarter was related to the seasonality patterns where higher sales was recorded due to the start of the school academic year.

The Group recorded a loss before tax ("LBT") of RM10.204 million for the current financial quarter vis-à-vis a profit before tax ("PBT") of RM3.045 million for the immediate preceding financial quarter due to the reasons mentioned in Note B1.

B3. Group's Prospects for the financial year ending ("FYE") 31 August 2020

The imposition of MCO over an extended period has significantly disrupted the Company's business operations and the entire supply chain. However, as the COVID-19 pandemic enters into the Recovery Movement Control Order ("RMCO") phase, we anticipate several changes to the Group's outlook.

With the reopening of schools, the Group is experiencing a strong rebound arising from the pent-up demand for our print publishing products as students try to catch up with the syllabus, particularly in relation to the upcoming SPM and STPM examinations. The Group aims at expanding its market share going forward as we expect the market to consolidate further as a result of the pandemic. This would benefit the Group as it further strengthens our economies of scale.

The Group's competitive advantage in content development remains strong and relevant in the current situation. We are able to leverage and adopt our contents to meet the wide and diverse range of educational needs, including the home-based learning needs arising out of the pandemic. This includes both the production of conventional print publishing products and digital education solutions.

In our digital solutions segment, we have seen an increase in demand and inquiry from both end-users and businesses. As announced on 30 June 2020, the Group has entered into a Memorandum of Collaboration with Huawei Technologies (Malaysia) Sdn Bhd. This collaboration enables us to further strengthen our digital capabilities and enhance our competitiveness as an education solutions provider. The Group's digital & network marketing segment has shown resilience throughout the duration of the MCO and was able to carry out business canvasing activities via digital platform. The Group hopes to ride on the catalytic effect on digital solutions created by the MCO and achieve higher growth for the digital segment going forward.

The demand for our English upskilling products i.e. the Cambridge Assessment English Linguaskill and New York City English program are expected to pick up due to the fast changing and competitive nature of the current job market, post MCO. The Group has also capitalised on the opportunity to make our products available to the HRDF's Place and Train program, which is designed to aid workers who were retrenched due to MCO, in terms of upskilling and training. Being fully digitalised and highly functional, both products are able to meet the diverse demands of the situation today.

Considering the initiatives currently in the pipeline, we are conservatively optimistic about the Group's future growth despite these challenging times.

B11. Earnings Per Share

The basic earnings per share for the current financial quarter is computed as follows:

| | INDIVIDUAL QUARTER | | CUMULATIVE QUARTER | |
|--|---|---|---|---|
| · | Current Year Quarter 31.05.2020 RM'000 | Preceding Year Quarter 31.05.2019 RM'000 | Current Year-To-Date 31.05.2020 RM'000 | Preceding Year-To-Date 31.05.2019 RM'000 |
| Net profit/(loss) attributable to owners of the Company | (8,771) | 635 | (2,748) | 8,646 |
| Weighted average number of ordinary shares in issue ('000) | 419,099 | 419,099 | 419,099 | 419,099 |
| Basic earnings/(loss) per ordinary share (sen) | (2.09) | 0.15 | (0.66) | 2.06 |
| Diluted earnings/(loss) per ordinary share (sen) | (2.09) | N/A | (0.66) | N/A |

Diluted EPS of the Group for the individual and cumulative quarter 31 May 2020 is equivalent to the basic EPS as the share option had an anti-dilutive effect on the basic EPS and the Group has no other dilutive potential ordinary shares in issue at the end of the reporting period.

B12. Derivative Financial Instruments

The Group did not enter into any derivative financial instruments which were outstanding as at 31 May 2020.
