Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

Fair Value

The Group uses use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following or a combination thereof:-:-

- (i) Market approach which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.
- (ii) Cost approach which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

Non-financial Assets

The fair values of land and buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

Financial Assets and Financial Liabilities

The carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

Current Period vs Corresponding Preceding Period

For the current quarter, the Group recorded revenue of RM12.415 million and profit before tax ("PBT") of RM4.758 million respectively.

Increase in revenue for the current quarter, which representing increase of RM0.377 million or 3.13% as compared to revenue of RM12.038 million recorded in the corresponding preceding quarter ended 30 June 2019 ("Corresponding Preceding Quarter"), was mainly attributable to the higher revenue contribution in export sales from precision engineering segment.

The export sales remained the main contributor to our Group's total revenue for the current quarter, which accounted for RM10.239 million or 82.47% of our Group's total revenue for the current quarter. Export sales recorded in the current quarter is higher by RM0.613 million or 6.37% as compared to RM9.626 million recorded in the Corresponding Preceding Quarter. This was mainly due to increase in revenue generated from our customers in Europe by RM1.847 million and partially offset against decrease in revenue contributed by our customers in Other Asian Countries by RM1.534 million.

Despite increase in revenue, our Group recorded lower PBT at RM4.758 million for the current quarter, representing decrease of RM0.268 million or 5.33% as compared to PBT of RM5.026 million recorded in the Corresponding Preceding Quarter. This was mainly due to impairment loss on receivables of RM0.197 million in the current quarter.

Current Cumulative Period vs Corresponding Preceding Cumulative Period

For the current financial year-to-date, the Group recorded total revenue of RM51.502 million and total PBT of RM21.294 million respectively.

The higher revenue for the current financial year-to-date, which representing an increase of RM6.106 million or 13.59% as compared to revenue of RM44.946 million recorded in the corresponding preceding cumulative year ended 30 June 2019 ("Corresponding Preceding Cumulative Period"), was mainly attributable to the higher revenue contribution from both precision engineering and laser stencils segments.

Our Group recorded PBT of RM21.294 million for the current financial year-to-date, representing an increase of RM4.703 million or 28.35% as compared to PBT of RM16.591 million recorded in Corresponding Preceding Cumulative Period. The increase in PBT was mainly due to higher revenue.

There was no unusual or material one-off gain/loss affecting the revenue or profit for the current quarter.
