Quarter Ended 31 December 2021 compared to Quarter Ended 31 December 2020

The Group's revenue for the current quarter ended 31 December 2021 increased by 32% to RM15.417 million compared to RM11.663 million in the preceding corresponding quarter ended 31 December 2020. The increase was mainly due to reasons as explained below.

During the current quarter ended 31 December 2021, Animal Health Product Division recorded revenue of RM7.977 million as compared to RM8.247 million in the preceding corresponding quarter ended 31 December 2020. The decrease of approximately 3% was due to decrease in demand by customers.

During the current quarter ended 31 December 2021, Foodservice Equipment Division recorded revenue of RM7.416 million as compared to RM3.407 million in the preceding year quarter ended 31 December 2020. The increase of approximately 118% was mainly due to a surge in demand by customers, mainly cinema chains which reopened since late September after a long hiatus compared to the preceding year quarter which was seriously undermined by imposition of the Conditional Movement Control Order (CMCO) since mid-October 2020.

During the current quarter ended 31 December 2021, Food Manufacturing Division recorded revenue of RM0.024 million as compared to RM0.009 million in the preceding year quarter 31 December 2020. The increase of approximately 167% was due to orders from new customers.

The profit before tax for the current quarter ended 31 December 2021 decreased by almost 8% as compared to the preceding corresponding quarter ended 31 December 2020, mainly due to the much lower administrative expenses in the latter that resulted from a significant reversal of provision for staff expenses.

Twelve Months Ended 31 December 2021 compared to Twelve Months Ended 31 December 2020

The Group achieved revenue of RM47.978 million for the current year ended 31 December 2021 as compared to RM45.410 million in the preceding year to date ended 31 December 2020. The increase in revenue by approximately 6% was mainly due to reasons as explained below.

During the current year to date ended 31 December 2021, Animal Health Product Division recorded revenue of RM30.104 million as compared to RM30.453 million in the preceding year to date ended 31 December 2020 due to decrease in demand by customers.

QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2021

Review of performance (cont'd)

During the current year to date ended 31 December 2021, Foodservice Equipment Division recorded revenue of RM17.831 million as compared to RM14.938 million in the preceding year ended 31 December 2020. The increase of approximately 19% was due to overall increased demand for our food service equipment and food supplies by our customers, mainly cinemas and restaurant chains as business activities resumed to near pre-pandemic levels following the lifting of movement control restrictions by the Government.

During the current year to date ended 31 December 2021, Food Manufacturing Division recorded revenue of RM0.043 million as compared to RM0.019 million. The increase of 126% was due to increase in demand from customers during the current year to date.

B2. Material changes in the profit before taxation for the current quarter as compared to the immediate preceding quarter

	3 months ended		
	31/12/2021	30/09/2021	Change
	RM'000	RM'000	%
Revenue	15,417	10,194	51%
Operating profit	2,298	379	506%
Profit before interest and tax	2,298	379	506%
Profit before tax	2,278	368	519%
Profit after tax	1,990	195	921%

For current quarter ended 31 December 2021, the Group recorded a profit before tax of approximately RM2.278 million as compared to a profit before tax of RM0.368 million in the immediate preceding quarter ended 30 September 2021. The significant increase in profit before taxation compared to the immediate preceding quarter was mainly due to a surge in revenue during the current quarter.

B3. Prospects

The announcement of a planned reopening of borders has helped to lift general market sentiment and provided businesses with some earnings clarity. Bank Negara's recent positive announcement that Malaysia's gross domestic product (GDP) expanded 3.1% in 2021, after posting 3.6% year-on-year growth in the fourth quarter (Q4 2021) also signals the country's economic recovery to continue this year.

However, a resurgence of Covid-19 cases in recent weeks, mostly from the highly transmissible Omicron variant could potentially slow down the recovery progress. Considering the renewed uncertainty along with rising cost of goods sold and risks from supply-related disruptions, the Group expects business to remain challenging and is cautious on the prospects for its Foodservice Equipment segment in particular.

Despite the headwinds, the Group is still confident of its long-term sustainability as it continues to maintain a healthy cash flow position with zero gearing coupled with the fact that the government has repeatedly vowed not to reimpose lockdowns amid accelerated Covid-19 vaccine booster inoculations.

The Group will continue to prioritize cost management efforts and be vigilant in the procurement process to mitigate disruption caused by supply shortage as well as comply with SOP requirements to safeguard the health and safety of its employees and their families.

As the Group reaches another milestone and celebrates its "Golden Jubilee" this year, it is well-positioned to draw on its five decades of experience to navigate through yet another challenging year ahead.
