Part A: Explanatory Notes Pursuant to MFRS 134, Interim Financial Reporting (Cont'd)

Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following or a combination thereof:-

- (i) Market approach which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.
- (ii) Cost approach which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

Any transfers between the levels of fair value hierarchy are deemed to have occurred at the end of the reporting period.

Non-financial Assets

The fair values of buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

Financial Assets and Financial Liabilities

The carrying amounts of receivables, cash and bank balances and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

The fair values of short-term funds are directly measured using their unadjusted market values quoted by financial institutions (i.e. Level 1).

Current Period vs Corresponding Preceding Period

For the current quarter, the Group recorded a revenue of RM15.481 million and profit before tax ("PBT") of RM1.627 million.

The decrease in revenue for the current quarter by RM0.436 million or 2.74% as compared to RM15.917 million in the corresponding preceding quarter ended 31 December 2022 ("Corresponding Preceding Quarter") is mainly attributed to the lower sales from precision engineering segment and laser stencils segment, offset by higher sales from the cables and connectors segment.

Export sales remained as the primary contributor to the Group's total revenue, which accounted for RM10.068 million or 65.03% of the Group's total revenue for the current quarter against RM10.034 million or 63.04% for the Corresponding Preceding Quarter. The marginally higher export sales percentage was due to the reduction in local sales from automation segment.

The Group recorded a PBT of RM1.627 million for the current quarter, representing a decrease of RM0.394 million or 19.51% as compared to PBT of RM2.021 million recorded in the Corresponding Preceding Quarter. The decrease in PBT was mainly due to the reduction in revenue from the precision engineering segment as demand remained lacklustre with customers deferring orders.

Current Cumulative Period vs Corresponding Preceding Cumulative Period

For the current financial period to-date, the Group recorded a revenue of RM33.068 million and PBT of RM3.694 million.

The decrease in revenue for the current financial period to-date, representing a reduction of RM3.643 million or 9.92% was mainly attributable to the lower revenue from precision engineering segment and laser stencils segments, offset by higher sales from the cables and connectors segment.

Export sales accounted for RM21.084 million or 63.76% of the Group's total revenue for the current cumulative period against RM24.402 million or 66.47% of the Group's total revenue for the Corresponding Preceding Cumulative Period. The decrease in export sales percentage was mainly because of lower export sales recorded by the precision engineering segment.

The Group recorded a PBT of RM3.694 million for the current financial period to-date, representing an decrease of RM3.179 million or 46.25% as compared to PBT of RM6.873 million recorded in the Corresponding Preceding Cumulative Period. The decrease in PBT was attributable to the lower revenue across precision engineering and laser stencils as well as lower profit margins from the cables and connectors segment.

B2 Review of Performance

Comparison between Current Quarter and Immediate Preceding Quarter

	Individual	Quarter			
	3 Months Ended				
	31/12/2023 30/09/2023		Variance		
	RM'000	RM'000	RM'000	%	
Revenue	15,481	17,587	(2,106)	(11.98)	
Profit before tax	1,627	2,067	(440)	(21.30)	
Profit for the financial period	1,075	1,150	(75)	(6.51)	
Profit attributable to owners of the Company	1,333	1,595	(262)	(16.42)	

The Group recorded a revenue of RM15.481 million in the current quarter, which was lower by RM2.106 million or 11.98% than RM17.587 million recorded in the immediate preceding quarter mainly due to lower revenue from both the precision engineering as well as cables and connectors segments.

PBT for the current quarter was RM1.627 million, decreased by RM0.440 million or 21.30% as compared to RM2.067 million in the immediate preceding quarter. This was mainly due to the decrease in revenue and the impact of the lower gain on foreign exchange from the cables and connectors segment in the current quarter.

B3 Commentary on Prospects

Demand for the quarter remained subdued with customers scaling back production especially towards the end of the year. Nevertheless, the Group foresees a gradual recovery in 2024 as we expect companies to replenish their drawn down stocks. In the interim, the Group continues to explore new avenues to drive long term growth and profitability while focusing on optimising its business processes across all operations in the Group.
