|-------------------|--|--|---|---|
| Revenue           | 54,826                                     | 54,156   | 226,317   | 212,100   |

For current quarter and current period to date, the Group has recorded higher revenue as a result of higher demand from customers in the snack food and confectioneries segment as compared to corresponding quarter and period to date in preceding year respectively. The increase was however, partially offset by the decrease in revenue from property development segment.

Profit before tax for the current period to date increased in line with the increase in revenue as compared to corresponding period to date in preceding year.

### 2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

|                   | Current<br>Quarter<br>RM'000 | Preceding<br>Quarter<br>RM'000 |
|-------------------|------------------------------|--------------------------------|
| Revenue           | 54,826                       | 61,396                         |

The decrease in revenue of approximately 10% for the current quarter as compared to the preceding quarter was mainly due to lower revenue from snack food and confectioneries segment.

The decrease in profit before tax in the current quarter as compared to the preceding quarter was due to lower revenue in the current quarter as well as higher unrealised foreign exchange losses being recognised during the current quarter.
