B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

B1. Analysis of performance

The Group's revenue for the current quarter and 9 months ended 30 September 2014 ("FY2014") saw a significant increase of approximately RM33.0 million (65.3%) and RM68.6 million (50.4%) respectively compared to corresponding period of the preceding year. The improvement was mainly attributable to the better business performance by the Group's subsidiaries in Taiwan and Malaysia. There was a ramp up in the semi-conductor business in Taiwan due to improved outlook in this sector. In the case of Malaysia, the better performance was mainly due to the recognition of progressive revenue from the ATB project in Tanjung Bin coupled with higher revenue from our oil and gas division.

Against the same period last year, the profit before tax ("PBT") for the current quarter and 9 months ended 30 September 2014 increased by approximately RM6.5 million and RM14.8 million respectively as a result of improved business. The disposal of investment in an associate company also significantly reduced the Group share of losses compared to the last corresponding period.

B2. Comparison with immediate preceding quarter

	3rd Quarter 30 Sept 2014	2nd Quarter 30 Jun 2014
	RM'000	RM'000
Revenue	83,554	73,037
Profit before tax	8,816	3,437

The Group's revenue increased by 14.4% or approximately RM10.5 million during the current quarter as compared to the immediate preceding quarter. This was mainly due to higher revenue recorded by its subsidiaries in Malaysia for its oil and gas division and subsidiary in Taiwan in the semi-conductor business.

The Group's unaudited PBT increased from RM3.4 million in the immediate preceding quarter to RM8.8 million in the current quarter, in line with the improved performance of the Group during the quarter.

B3. Prospects for the year

The Group continued with an improved Q3 results and saw its 9 months profit surged to RM15 million compared to RM1.6 million for the same period last year. The improvement in business and operating performance augur well with us and this represents an encouraging sign that the Group is on the right track of recovery from the slowdown and deferment of projects by our customers in 2013.

For the remaining 3 months of 2014, we will continue to focus our attention on the quality of our services and efficiencies so as to maintain our competitiveness for enhancing business performance. Over the years the Group had taken serious steps to continue looking for business opportunities that bode well and synergize with our current activities and the Group will continue this proven strategy in the future. The acquisition of 45% stake in TTES Team & Specialist Sdn Bhd ("TTES") in Q2 2014 has brought in positive contribution to the Group in Q3 of 2014, and thus enhance our confidence that the synergized effects from acquisition of TTES will continue to improve the Group's performance in 2014. Our Taiwan subsidiary had also recorded a positive growth in Q3 and contributed significantly in the overall performance of the Group.

The Group is encouraged by the performance for the 9 months period of this year. However, with the uncertainties in the domestic and overseas markets it needs to continue to be vigilant in monitoring its costs to mitigate any adverse condition it may face for the remainder of the year.

B4. Variance in profit forecast

Not applicable as no profit forecast or profit guarantee has been announced or disclosed in a public document previously.

B5. Taxation

	Current Quarter 30 Sept 2014	Current Year-to-date 30 Sept 2014
	RM'000	RM'000

Deferred tax	174	(273)
	1,775	3,209

The Group's effective tax rate for the period under review is lower than the statutory tax rate principally due to relatively lower statutory tax rate of an overseas subsidiary and gain not subject to tax.

B6. Status of corporate proposals

There were no corporate proposals that were announced but not completed.

B7. Group borrowings
