B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

B1. Analysis of performance

The Group's revenue for the current quarter ended 30 June 2015 ("FY2015") saw a decrease of approximately RM6.4 million (8.8%) compared to the corresponding period of the preceding year, mainly attributable to the lower revenue recognition from the ATB project as the same is at its completion stage. Despite that, the Group's revenue for 6 months ended 30 June 2015 saw an increase of approximately RM22.6 million (18.7%) compared to the preceding year due to better business performance from the Group's subsidiaries in Taiwan, Philippines and Malaysia.

The better performance in Taiwan was mainly due to positive growth of the semi-conductor business. The Group's subsidiary in the Philippines also achieved a better performance due to the improvement of its clientele coverage. However, the Group's subsidiary in Singapore encountered a drop in business caused by the slowdown in our customers' business due to the declining market condition.

Against the same period last year, the profit before tax ("PBT") for the 6 months ended 30 June 2015 increased by approximately RM2.9 million as a result of improved business and foreign exchange gain despite a one-off gain on disposal of an associate company in corresponding period of the preceding year. The PBT for the current quarter decreased by approximately RM1.9 million compared to corresponding period of the preceding year due to higher expenses and lower project revenue from the ATB project in the current quarter.

B2. Comparison with immediate preceding quarter

	2nd Quarter	1st Quarter
	30 Jun 2015	31 Mar 2015
	RM'000	RM'000
Revenue	66,643	77,218
Profit before tax	1,555	10,761

The Group's revenue was 13.7% or approximately RM10.6 million lower during the current quarter as compared to the immediate preceding quarter. This was mainly due to lower sales by its subsidiaries in Malaysia due to lower revenue and recognition of additional costs from the ATB project at Tanjung Bin.

The Group's lower unaudited PBT during the current quarter as compared to the immediate preceding quarter was primarily due to lower foreign exchange gain and impairment loss on plant and equipment in the current quarter. There was also write back of allowance for impairment losses on trade receivables in the immediate preceding quarter.

B3. Prospects for the year

The Group anticipates that the overall business conditions this year will continue to be challenging amidst subdued and uncertain global economic conditions and slower growth in the regional economies as can be seen in the Group's current quarter performance as compared to the same period last year and the immediate preceding quarter. The Group is cognizance of the potential increase in pressure from customers for price reduction and will strive to remain competitive.

In the year 2015, our priority will be to continue to focus our attention on the quality of our services and efficiencies so as to maintain our competitiveness. Over the years the Group has embarked on a series of improvement measures including cutting its cost base, improving cross selling for greater operational synergies and implementing best practice margin management and sourcing strategy to deliver better value propositions to customers.

The Group is pleased with the improved performance of its subsidiaries in Taiwan and Philippines and continues to be optimistic that they will contribute positively to the Group in 2015. However, the business in Singapore will continue to be challenging in light of the higher operating costs and business slow down in that market.

Amidst the encouraging business developments, the Group is cautious of year 2015 as the uncertainties of the domestic and overseas markets could continue to run through the rest of the year. The Group remains positive of its business and would continue to look for opportunity to grow.

B4. Variance in profit forecast

Not applicable as no profit forecast or profit guarantee has been announced or disclosed in a public document previously.

Following the resignation of a senior management personnel of FM, a wholly-owned subsidiary of the Company, in 2012 the Board of Directors of the Company (the "Board") was made aware that there may be some irregular dealings between FM and its suppliers.

On 1 October 2012, Messrs Crowe Horwath was appointed to carry out a special investigative audit. Messrs Crowe Horwath issued a report on 18 February 2013 followed by an Expanded and Revised Investigative Audit Report on 3 June 2013.

An ex-parte Mareva Injunction Order was subsequently obtained by FM against one of the Defendants on 2 August 2013. This was followed by an ex-parte Ad Interim order dated 16 August 2013. In essence, the purpose of the ex-parte Orders was to freeze his assets. FM's Mareva application against the one of the Defendant was allowed by consent on 18 March 2014. The main civil suit has been fixed for case management on 21 July 2015. The trial dates have been fixed from 16 to 18 November 2015.

In respect of the main civil suit, some of the Defendants filed Defences and Counterclaims against FM and some of its existing senior management. The aforesaid counterclaims are being resisted by FM as well as its senior management.
