The consolidated statement of cash flow for the year to date ended 30 September 2010 has been represented using the direct method of presentation.

The above consolidated statement of cash flow should be read in conjunction with the audited financial statements for the financial year ended 31 December 2010 and the accompanying explanatory notes attached to the interim financial statements.

### UNAUDITED INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 30 SEPTEMBER 2011

### PART A: EXPLANATORY NOTES PURSUANT TO FRS 134

### A1. BASIS OF PREPARATION

The unaudited interim financial report has been prepared in accordance with the reporting requirements as set out in Financial Reporting Standards No.134 – "Interim Financial Reporting" and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2010 and the attached explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2010. The results of the associates are based on management accounts.

The significant accounting policies and methods of computation applied in the unaudited interim financial statements are consistent with those adopted in the most recent annual financial statements for the year ended 31 December 2010, except for the adoption of the following Financial Reporting Standards ("FRS"), Amendments to FRSs and IC Interpretations:

Amendments to FRS 132	2 Financial Instruments: Presentation on Classification of Right Issues
FRS 3(revised)	Business combinations
FRS 127(revised)	Consolidated and separate financial statements

### UNAUDITED INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 30 SEPTEMBER 2011

## PART A: EXPLANATORY NOTES PURSUANT TO FRS 134 (Cont'd)

## A1. BASIS OF PREPARATION (Continued)

IC Interpretation 12 Service Concession Arrangements ("IC 12") applies to contractual arrangements whereby a private sector operator participates in the development, financing operation and maintenance of infrastructure for public sector services. Depending on the contractual terms, this interpretation requires the operator to recognize a financial asset if it has an unconditional contractual right to receive cash or an intangible asset if it receives a right (license) to charge users of the public service. This interpretation impacts Cambodia Utilities Pte Ltd, an associate of the Group, in which the Group has an effective interest of 12%, as the associate has signed a purchasing power agreement for the installation, operation and maintenance of a power plant in Cambodia. The purchasing power agreement is for a period of 20 years to 2015. The power plant will be transferred to the grantor in the final year of the concession. At that juncture, the Group's interest in the associate will largely be represented by financial assets held by the associate company.

The adoption of IC 12 has no material impact on the results of the Group.

The adoption of the revised FRS 3 and FRS 127 will potentially have a financial impact on the Group as it will result in changes in accounting for business combinations and the preparation of consolidated financial statements.

The revised FRS 3 introduces the option, on an acquisition-by-acquisition basis, to measure noncontrolling interest in a business combination either at fair value or at the non-controlling interest's proportionate share of the net identifiable assets acquired. Goodwill is measured as the difference between the aggregate of the fair value of consideration transferred, any non-controlling interest in the acquiree and the fair value at acquisition date of any previously held equity interest in the acquiree, and the net identifiable assets acquired. Any negative goodwill (i.e. bargain purchase) is recognised in the income statement. Any consideration transferred in a business combination is measured at fair value as at the acquisition date.

The main change introduced under the revised FRS 127 will be the accounting for changes in ownership interest in a subsidiary, wherein changes in ownership which do not result in the loss of control are now accounted for within equity instead of the income statement. Where changes in ownership interest result in loss of control, any remaining interest is re-measured at fair value and a gain or loss is recognised in the income statement. Minority interest is now referred to as "non-controlling interest". All total comprehensive income is proportionately allocated to non-controlling interest, even if it results in the non-controlling interests having a deficit balance.

There is no financial impact immediately upon adoption of these two accounting standards as they both only have prospective effect, and hence their adoption will only have impact on future acquisitions of the Group.

### PART A: EXPLANATORY NOTES PURSUANT TO FRS 134 (Cont'd)

### A1. BASIS OF PREPARATION (Continued)

The adoption of the Amendments to FRS 7, which promotes enhanced disclosures on fair value measurement of financial instruments via the introduction of the concept of the fair value hierarchy, will only affect disclosures and will not have any financial impact on the results of the Group. The adoption of the other FRSs, Amendments to FRSs and IC Interpretations generally did not have any material impact on the financial results of the Group, as they mainly deal with accounting policies affecting transactions which do not form part of the Group's normal business operations or transactions where the Group only has minimal exposure.

## A2. COMMENTS ABOUT SEASONAL OR CYCLICAL FACTORS

The Group's operation is not affected by any significant seasonal or cyclical factors in the financial year-to-date review. It should be noted that the Group operates predominantly in the oil and gas sector in Malaysia. Accordingly, the level of the Group's business activities is closely co-related with that of the oil and gas operators and contractors in Malaysia. Any change in their level of activities will likewise have an impact on the Group.

# A3. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE, OR INCIDENCE

There were no significant unusual items affecting the assets, liabilities, equity, net income or cash flows during the financial year-to-date.

### A4. SIGNIFICANT ESTIMATES AND CHANGES IN ESTIMATES

There were no material changes to estimates that have had any material effect on the financial year-to-date result.

### A5. EQUITY AND DEBT SECURITIES

There were no issuances, cancellations, repurchases, resale and repayments of debt and equity securities during the financial year-to-date.

### A6. OUTSTANDING DERIVATIVES

The Group had not entered into any new type of derivative in the current interim quarter that was not disclosed in the preceding year's annual financial statements. In addition, the Group does not have any outstanding derivative as at 30 September 2011.

### A9. SEGMENT INFORMATION

During the second quarter of the current financial year, the Group revised its segments following a management change. This change resulted in a refinement of the internal reporting information provided to the new chief decision maker. With this change, it was concluded that the Group is now primarily engaged in the following segments:

- Power and Machinery Mainly consist of provision of gas turbine packages, supply of gas turbine parts, gas turbine overhaul, maintenance and technical services, combined heat and power plant, supply, repair, maintenance and installation of valves and flow regulators and other production related equipment and services.
- Oilfield Services Mainly consist of provision of wireline equipment and services, integrated wellhead maintenance services, oilfield chemicals and other oilfield products and technical services.
- Maintenance, Repair and Overhaul Mainly consist of repair, servicing, maintenance and overhaul of motors, generators, transformers and pumps.

Inter-segment revenue comprise marketing fees charged to Turboservices Sdn. Bhd. based on agreed terms and conditions between the relevant parties.

The comparative segmental information of the immediate preceding quarter and the corresponding individual quarter and cumulative quarter of the previous year have been represented accordingly.

## **B1. PERFORMANCE REVIEW**

### Revenue for the quarter

The Group recorded revenue of RM80.7 million for the current quarter compared to RM89.9 million for the corresponding quarter.

The Group's revenue was primarily contributed by the Power and Machinery segment, however contributions from this segment decreased by RM12.6 million compared to the corresponding quarter mainly due to the completion of a combined heat and power plant project and lower sales of valves and flow regulators on account of fewer installations. The lower revenue contribution is offset by higher contributions from Oilfield Services segment, an increase of RM2.7 million during the quarter which was largely due to the improved sales of oilfield products and wireline services and higher contributions from the Maintenance, Repair and Overhaul segment, an increase by RM0.7 million which was contributed entirely by Rotary Technical Services Sdn Bhd ('Rotary'), a subsidiary of the Group, acquired in July 2010.

### Profit before tax for the quarter

The Group recorded a profit before tax of RM13.5 million for the current quarter compared to RM11.8 million in the corresponding quarter. The increase for the quarter was largely due to higher associates' results of RM1.6 million.

The segments recorded an increased performance of RM15.3 million for the current quarter compared to RM14.8 million in the corresponding quarter. The higher segments' result was from the Oilfield Services segment by RM1.8 million and was offset by lower results from Maintenance, Repair and Overhaul segment by RM0.6 million and the Power and Machinery segment by RM0.7 million.

Power and Machinery segment recorded a lower result of RM9.7 million for the current quarter compared to RM10.4 million in the corresponding quarter. The reduction was mainly due to the increase in operating expenses to support business activities.

Oilfield Services segment recorded a higher result of RM6.0 million for the current quarter compared to RM4.2 million in the corresponding quarter. The increase was on the back of the higher revenue earned in the current quarter.

Maintenance, Repair and Overhaul segment recorded a loss of RM0.4 million for the current quarter compared to a profit of RM0.2 million in the corresponding quarter. The reduction was mainly due to impairment for doubtful debts of RM0.5 million.

## B1. PERFORMANCE REVIEW (CONT.)

### Profit before tax for the quarter (cont.)

Share of associates' results increased from RM1.9 million in the corresponding quarter to RM3.5 million in the current quarter. The increase was mainly due to higher contributions from Malaysian Mud and Chemicals Sdn Bhd ( "2MC") on an account of the provision of storage facilities to a new customer.

### Revenue for the 9 months

The Group's revenue for the 9 months ended 30 September 2011 increased from RM250.8 million in the corresponding cumulative quarters to RM289.8 million in the current cumulative quarters.

This increase was contributed by an increase in contribution from the Power and Machinery and the Maintenance, Repair and Overhaul segments. The increase in the Power and Machinery segment revenue by RM37.1 million was largely attributed to higher revenue earned from a gas turbine supply project. The increase in revenue contribution from the Maintenance, Repair and Overhaul segment of RM7.7 million was contributed entirely by Rotary, a subsidiary acquired in July 2010.

The increase in revenue contribution of RM44.8 million from both these segments was offset by a reduction in revenue contribution from the Oilfield Services segment of RM5.8 million. This reduced contribution was largely due to the conclusion of contracts for the provision of wellhead supply compared to the previous year.

### Profit for the 9 months

Group profit before tax for the 9 months ended 30 September 2011 increased from RM27.4 million in the corresponding period to RM33.2 million in the current period.

The increase in profit before tax for the period was largely due to higher segment results of RM1.6 million and results from associates of RM2.4 million.

The segments recorded a higher result of RM37.4 million for the 9 months ended 30 September 2011 compared to RM35.8 million for the corresponding cumulative quarters. Higher results were recorded by all the segments.

# PART B – EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD (Cont'd)

## B1. PERFORMANCE REVIEW (CONT.)

Power and Machinery segment recorded higher result of RM29.5 million for the 9 months ended 30 September 2011 compared to RM28.7 million for the corresponding cumulative quarters. The increase was mainly due to better margins earned mainly from retrofit and gas turbine supply projects.

Oilfield Services segment recorded higher result of RM7.6 million for the 9 months ended 30 September 2011 compared to RM6.9 million for the corresponding cumulative quarters. The increase was mainly due to higher activities in the wireline business and oilfield chemical business.

Maintenance, Repair and Overhaul segment recorded a higher result of RM0.3 million for the 9 months ended 30 September 2011 compared to a profit of RM0.2 million for the corresponding cumulative quarters. This result was contributed entirely by Rotary, a subsidiary acquired in July 2010.

Share of associates' results increased from RM7.2 million for the corresponding cumulative quarters to RM9.6 million for the 9 months ended 30 September 2011, due to the increase in contribution from 2MC.

Lower corporate expenses and finance cost by RM1.5 million is mainly attributable to gratuity expenses incurred in the corresponding cumulative quarters.

# B2. MATERIAL CHANGE IN THE PROFIT BEFORE TAX AS COMPARED WITH THE IMMEDIATE PRECEDING QUARTER PROFIT BEFORE TAX

The Group's profit before tax improved from RM11.7 million in the immediate preceding quarter to RM13.5 million in the current quarter. The increase was mainly due to higher segment results of RM1.0 million and higher share of associates' results of RM1.1 million.

The segments recorded a higher result of RM15.3 million for the current quarter compared to RM14.3 million in the preceding quarter as follows:

Power and Machinery segment recorded a lower result of RM9.7 million for the current quarter compared to RM14.0 million in the preceding quarter. The reduction was mainly due to the lower supply of gas turbine parts, maintenance and technical services. The reduction was then offset against lower operating expenses by RM0.1 million and higher other income of RM0.3 million, which is largely due to write back of liquidated damages.

Oilfield Services segment recorded a higher result of RM5.9 million for the current quarter compared to RM0.1 million in the preceding quarter, mainly due to higher revenue generated from the provision of wireline equipment and services.

Maintenance, Repair and Overhaul segment recorded a loss of RM0.4 million for the current quarter compared to a profit of RM0.2 million in the preceding quarter, mainly due to an impairment for doubtful debts of RM0.5 million..

Share of associates' results increased from RM2.4 million in the preceding quarter to RM3.5 million in the current quarter mainly due to the increase in contribution from 2MC.

### B3. 2011 PROSPECTS

The ongoing financial uncertainties are expected to have a negative impact on the global economy. Malaysia, in which the Group primarily operates, is an open economy and therefore can be adversely affected. However, in respect to the Group, on the basis of the results achieved to date and the current level of business activities, the Board is satisfied that the results for the financial year will show an improvement compared to the previous financial year.
