PRG HOLDINGS BERHAD (541706-V)
PART A: NOTES TO THE INTERIM FINANCIAL STATEMENTS

A1 BASIS OF PREPARATION

The interim financial statements are unaudited and have been prepared in accordance with the reporting requirements of MFRS 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB"), IAS 34 *Interim Financial Reporting* and applicable disclosure provisions of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the Group's audited financial statements for the financial year ended 31 December 2017. The consolidated financial statements of the Group as at and for the year ended 31 December 2017 were prepared under Financial Reporting Standards ("FRSs"). The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2017.

Malaysian Financial Reporting Standard ("MFRS Framework")

On 19 November 2011, the Malaysian Accounting Standards Board ("MASB") issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS Framework"). The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 *Agriculture* and IC Interpretation 15 *Agreements for Construction of Real Estate*, including its parent, significant investor and venture (herein called "Transitioning Entities").

Transitioning Entities are allowed to defer adoption of the new MFRS Framework. Consequently, adoption of the MFRS Framework by Transitioning Entities would be mandatory for annual periods beginning on or after 1 January 2018.

The Group falls within the scope definition of Transitioning Entities and accordingly, would be required to prepare financial statements using the MFRS Framework in its MFRS financial statements for the financial year ending 31 December 2018. In presenting its MFRS financial statements, the Group would be required to adjust the comparative financial statements prepared under the FRSs to amounts reflecting the application of the MFRS Framework. The majority of the adjustments required on transition would be made, retrospectively, against opening retained earnings.

This is the Group's condensed consolidated interim financial report for the period covered by the Group's MFRS framework and MFRS 1 *First-time Adoption of Malaysian Financial Reporting Standards* has been applied. Comparative figures, where applicable, have been restated as result of transition to MFRS framework. An explanation of how the transition to MFRSs has affected the reported financial position, financial performance and cash flows of the Group is provided in Note A2.

B1 ANALYSIS OF PERFORMANCE

The Group's revenue of RM26.7 million for second quarter of 2018 was RM33.3 million lower than the RM60.0 million revenue reported in the corresponding quarter of the preceding year. The Group's revenue for the 6 months ended 30 June 2018 was RM73.8 million, representing RM20.7 million decrease as compared to revenue of RM94.5 million recorded in the same period of the preceding year.

The Group recorded a loss before tax of RM2.4 million in the second quarter of 2018, which was RM7.7 million lower than profit before tax of RM5.3 million reported in the corresponding quarter of the preceding year. Profit before tax for the 6 months ended 30 June 2018 was RM1.6 million, representing RM5.7 million decrease as compared to profit before tax of RM7.3 million recorded in the same period of the preceding year.

Decrease in the Group's revenue and profit before tax during the financial period was mainly due to decrease in revenue from manufacturing segment resulted from decrease in sales volume and also strengthening of RM against USD, which is the major sales denomination currency as well as decrease in revenue from Picasso Residence development project due to lesser units sold during the financial period. The impact of decrease in revenue on profit before tax was slightly cushioned by lower administrative expenses and other expenses as compared to the same period of the preceding year.

a) Manufacturing

The revenue of RM23.5 million from manufacturing segment for the current quarter of year 2018 was RM6.4 million lower than RM29.9 million recorded in the corresponding quarter of 2017. The segment's revenue for the 6 months ended 30 June 2018 of RM44.5 million was RM13.9 million lower than RM58.4 million recorded in the same period of the preceding year.

Profit before tax of RM0.6 million from manufacturing segment for the current quarter of year 2018 was RM0.5 million lower than profit before tax of RM1.1 million recorded in the corresponding quarter of 2017. The segment's profit before tax for the 6 months ended 30 June 2018 of RM1.0 million was RM7.0 million lower than profit before tax of RM8.0 million recorded in the same period of the preceding year.

The decrease in revenue was mainly due to reduced sales for certain existing products as those customers were developing new specifications for their products, reduced procurement from certain customers as their local currencies depreciated against USD, depreciation of USD against RM, which lowered the revenue reported in RM for the sales denominated in USD, and the revenue from sales of metal components for furniture (from the subsidiary which has become an associate of the Company since 14 September 2017) was excluded from consolidation during the period. Decrease in profit before tax was in line with lower revenue, it was also impacted by higher crude-oil based raw materials such as yarn as well as additional corporate expenses such as the fees of the compliance adviser, legal adviser, stock exchange, company secretary and share registrar after the listing in Hong Kong Stock Exchange in last year October.

b) Property development & construction

The property development & construction segment recorded revenue of RM3.1 million for the current quarter of 2018, which is RM27.0 million lower than RM30.1 million recorded in the corresponding quarter of 2017. The segment's revenue for the 6 months ended 30 June 2018 of RM29.3 million was RM6.8 million lower than RM36.1 million recorded in the same period of the preceding year.

Loss before tax of RM2.8 million from property development & construction segment for the current quarter of year 2018 was RM7.4 million lower than profit before tax of RM4.6 million recorded in the corresponding quarter of 2017. The segment's profit before tax for the 6 months ended 30 June 2018 of RM1.1 million was RM2.6 million lower than profit before tax of RM3.7 million recorded in the same period of the preceding year.

Decrease in revenue and lower profit before tax for the current quarter and for the period ended 30 June 2018 was mainly due to lower sales from Picasso Residence project.

B2 COMPARISON WITH IMMEDIATE PRECEDING QUARTER

The Group recorded revenue of RM26.6 million and loss before tax of RM2.4 million for the current quarter ended 30 June 2018 as compared to revenue of RM47.2 million and profit before tax of RM4.1 million for the preceding quarter. Decrease in revenue and profit before tax were mainly due to decrease in revenue contribution from Picasso Residence project.

B3 PROSPECTS FOR CURRENT FINANCIAL YEAR

The Group anticipates the prospect of manufacturing business in the near future is continue to be challenging. However, we also foresee challenges from the recent crude oil price surge that will increase the price of certain crude-oil based raw materials which will impact on the gross profit margin. Further, any significant and abrupt movement in the exchange rate between the Ringgit and the US Dollar may result in foreign exchange gains or losses which may affect the Group's results as the Group derives a significant amount of its revenue in US Dollar.

In addition, the Group continues to focus on marketing and sale of the Picasso Residence units and is strengthening its presence in the property development market by venturing into affordable housing with strategic partners.

The Group is venturing into healthcare business as part of the Group's vertical integration along the value chain in the wellness segment of the healthcare industry which is thriving and has opportunity for growth. The investments into healthcare business are expected to diversify the stream of income of the Group and compensate for business cycle fluctuations.

B4 PROFIT FORECAST
