B. ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Review of performance

The Group recorded revenue of approximately RM29.39 million for the current quarter, a decrease of approximately RM12.55 million compared to the revenue of approximately RM41.94 million in the preceding year's corresponding quarter. The decrease was mainly due to the decrease in revenue from animal health products of approximately RM11.36 million of which approximately RM9.02 million was due to the importation as well as transfer of discontinued products by Rhone Ma Malaysia Sdn Bhd to third parties nominated by a previous supplier at cost during the preceding year's corresponding quarter. Revenue from food ingredients for the current quarter of RM6.60 million was also RM1.11 million lower than the RM7.71 million recorded in the preceding year's corresponding quarter as a result of reduction in orders from certain customers.

The Group's profit before tax for the current quarter of approximately RM2.80 million was approximately RM1.34 million lower compared to the profit before tax of approximately RM4.14 million reported for the preceding year's corresponding quarter. Despite recording a decrease in gross profit of approximately RM1.46 million, the decrease was mitigated by the reduction in operating expenses of approximately RM0.08 million and the increase in other income of approximately RM0.04 million.

Although RMM had discontinued the distribution of swine, veterinary public health and ruminant products of a previous supplier from 1 January 2018 and poultry products of the same supplier from 31 March 2018, contributions from the new Ceva and Zoetis products enabled the Group to mitigate the impact of the loss of revenue from the discontinuation of the previous supplier's products.

B2. Material changes in the quarterly results compared to the immediate preceding quarter

The Group's revenue of approximately RM29.39 million for the current quarter was approximately RM1.24 million lower compared to the revenue reported for the preceding quarter of approximately RM30.63 million. Revenue from animal health products increased by approximately RM1.08 million whereas revenue from food ingredients decreased by approximately RM2.05 million compared to the preceding quarter as a result of reduction in orders from certain customers.

Consistent with the decrease in revenue, the Group's profit before tax for the current quarter of approximately RM2.80 million was approximately RM0.52 million lower than the profit before tax of approximately RM3.32 million reported for the preceding quarter.

B3. Prospects

The continued expansion of our capacity and operations through our plans would provide a platform to grow and sustain our business amidst the favourable outlook of the animal health products market and food ingredients market in Malaysia. The animal health products market has emerged as a market of prime importance in the past few years. The increased focus on animal health and nutrition which is largely attributable to the outbreak of new animal diseases in recent years as well as changes in factory farming practices for bulk production, resulted in an increase in requirement for good quality animal feed additives, vaccines, pharmaceuticals and hygiene management products. This has allowed the animal health products market to expand. In addition to this, we are also expectant of growing our food ingredients business alongside the processed food industry as the consumption of processed food continues to expand with the trend likely to persist in the foreseeable future.

The Group will continue to focus on strengthening its production capabilities, product competitiveness and market position, while constantly seeking ways to mitigate the risks associated with its business. The Group will also continue to improve its internal controls and processes based on prudent management practices.

The Board believes that with our forward looking strategy of continuing to improve on our operating efficiency and effectiveness and investing in our people's development and training whilst operating responsibly, we are well placed to meet the challenges ahead and perform within expectations.

B4. Profit forecast

The Group has not issued any profit forecast in any form of public documentation and announcement.

B5. Tax expense

Current year	543	870	543	870

The effective tax rates of the Group for the current quarter and financial year-to-date of 19.39% was lower than the statutory tax rate of 24.00%. This was due principally to one of the Company's subsidiaries, Asia-Pacific Special Nutrients Sdn Bhd, being awarded the BioNexus status incentive and has been granted 100% income tax exemption on the statutory income for a period of ten (10) years from the first year the company derives taxable statutory income under the Income Tax (Exemption) (No.17) Order 2007 effective 23 July 2007. The first year whereby the abovementioned subsidiary commences to derive taxable statutory income was in the year 2011, thus the ten (10) years period commenced from the year 2011 until the year 2020.
