V NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1 Basis of preparation

These condensed consolidated interim financial statements, for the period ended 30 June 2018, have been prepared in accordance with MFRS 134 *Interim Financial Reporting* and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("**Bursa Securities**"). These condensed consolidated interim financial statements also comply with IAS 34 *Interim Financial Reporting* issued by the International Accounting Standards Board. These quarterly financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2017.

2 Significant accounting policies

The Group has adopted the following new accounting standards and interpretations (including the consequential amendments, if any) of the MFRS framework that have been issued by the Malaysian Accounting Standards Board ("MASB") with for the financial period on or after from 1 January 2018:-

• MFRS 9	:	Financial Instruments
• MFRS 15	:	Revenue from Contracts with Customers
• IC Interpretation 22	:	Foreign Currency Transactions and Advance Consideration
• Amendments to MFRS 2	:	Classification and Measurement of Share-based Payment Transactions
• Amendments to MFRS 140	:	Transfers of Investment Property
• Amendments to MFRS 1, MFRS 128	:	Annual Improvements to MFRS Standards 2014 – 2016 Cycle

Except for the adoption of MFRS 9 and MFRS 15 as further explained below, the adoption of the above accounting standards and interpretations (including the consequential amendments) do not have any material impact on the Group's financial statements.

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below:

(a) MFRS 9 Financial Instruments

Financial Instruments

Financial assets and financial liabilities are recognised in the statements of financial position when the Group has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Interest, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Classification

The Group classifies its financial assets in the following measurement categories:-

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

Quarterly Report On Consolidated Results For The Second Quarter Ended 30 June 2018

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt Instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are:-

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is determined using the effective interest rate method.
- **Fair value through other comprehensive income ("FVOCI"):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is determined using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss.

Equity Instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss when the Group's right to receive payments is established.

Changes in fair value of financial assets at fair value through profit or loss are recognised in profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Quarterly Report On Consolidated Results For The Second Quarter Ended 30 June 2018

Impairment of Financial Assets

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI, including contract assets. The expected credit loss model requires the Group to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets.

The Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit loss if the credit risk of that financial instrument has increased significantly since initial recognition. On the other hand, if the credit risk on a financial instrument has not increased significantly since initial recognition, the Group is required to measure the loss allowance for that financial instrument at an amount equal to 12-month expected credit loss.

For trade receivables and contract assets, the Group applies the simplified approach to measure the loss allowance at an amount equal to lifetime expected credit loss.

Transition to MFRS 9

The Group has chosen not to restate comparative figures of its financial instruments, in which case the cumulative effect of the initially application of the Standard has been adjusted to the opening balance of retained profits (or other appropriate component of equity) in the period of its initial application (i.e. 1 January 2018).

As allowed by the transitional provision of MFRS 9, the Group elected not to restate the comparatives. Adjustments arising from the initial application of the new impairment model has been recognised in the opening balance of the retained earnings and the carrying amount of the financial assets as at 1 January 2018 as disclosed below:

	Impact of adoption of MFRS 9 to opening balance at 1 January 2018 RM'000
Decrease in retained earnings	1,508
Decrease in fair value reserve	27
Decrease in other investments	27
Decrease in trade and other receivables	1,335
Decrease in cash and cash equivalents	152
Increase in deferred tax liabilities	21

(b) MFRS 15 Revenue from Contracts with Customers

Revenue is measured based on the transaction price agreed under a contract with a customer excludes amounts collected on behalf of third parties such as sales and service taxes or goods and services taxes. If the amount of consideration varies due to discounts, rebates, refunds, credits, incentives, performance bonuses, penalties or other similar items, the Group estimates the amount of consideration that it expects to be entitled based on the expected value or the most likely outcome but the estimation is constrained up to the amount that is highly probable of no significant reversal in the future.

If the contract with customer contains more than one distinct performance obligation, the amount of consideration is allocated to each distinct performance obligation based on the relative stand-alone selling prices of the goods or services promised in the contract.

The Group recognises revenue of each performance obligation when it transfers control of a product or service to a customer either at a point of time or over time. When revenue is recognised over time, the stage of completion for customised equipment is measured by reference to the surveys or appraisals of work performed to date. When the services rendered exceed the billings to customers, a contract asset is recognised. If the billings exceed the services rendered, a contract liability is recognised.

A trade receivable is recognised by the Group at a point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. The Group assesses the impairment of trade receivable using the simplified approach as disclosed in 'Financial Instruments – Impairment of Financial Assets' section above which requires expected lifetime losses to be recognised from initial recognition of the trade receivables

Quarterly Report On Consolidated Results For The Second Quarter Ended 30 June 2018

Transition to MFRS 15

The Group has chosen the simplified transition approach by applying apply MFRS 15 retrospectively only to contracts that are not completed at the date of initial application (1 January 2018) and recognised the cumulative effect of the initially application of the Standard as an adjustment to the opening balance of retained profits (or other appropriate component of equity) on that date.

The application of MFRS 15 does not have a material effect on the Group's financial statements.

3 Audit report in respect of the 2017 financial statements

The audit report on the Group's financial statements for the financial year ended 31 December 2017 was not qualified.

4 Seasonal or cyclical factors

The Group's operations are not subject to any seasonal or cyclical factors.

5 Unusual items due to their nature, size or incidence

There were no items affecting assets, liabilities, equity, net income, or cash flows that were unusual because of their nature, size or incidence in the current period.

6 Material changes in estimates used

There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current period.

7 Debt and equity securities

The Group did not undertake any issuance and/or repayment of debt and equity securities, share buy-backs, share cancellations, shares held as treasury shares and resale of treasury shares for the current period ended 30 June 2018.

8 Dividend

The Directors do not recommend the payment of any dividend for the period ended 30 June 2018 (2017: Nil).

Both Genaxis and IAC are deemed as subsidiary companies of the Group as of the acquisition date of 29 January 2018, pursuant to the terms and conditions of the SPA 1 and SPA 2 respectively, and in compliance with the requirements of the Malaysia Financial Reporting Standard (“MFRS”) 3 - Business Combination.

12 Contingent liabilities

There are no material contingent liabilities as at the date of this announcement, other than disclosed below:

Dagang Net Technologies Sdn. Bhd. (“Dagang Net”), a wholly-owned subsidiary of the Company, had on 10 July 2018 received a notice of proposed decision (“Proposed Decision”) from the Malaysia Competition Commission (“MyCC”) pursuant to Section 36 of the Competition Act 2010 [Act 712] (the “Act”). The Proposed Decision by MyCC is pursuant to the investigation on alleged infringement by Dagang Net of one of the prohibitions under Part 1 of the Act. MyCC issued the Proposed Decision under Section 36 of the Act against Dagang Net for engaging in conduct which amounts to an abuse of its dominant position in breach of Section 10(1) read with Section 10(2)(c) and Section 10(3) of the Act. In its Proposed Decision, MyCC proposed to impose:-

- (1) A financial penalty of RM17,397,695.30; and
- (2) Remedial action, as follows:-
 - (i) Dagang Net to cease and desist the infringing conduct of:-
 - (a) imposing any future clauses in its MyChannel Partner Agreements for the provision of front-end software solutions to end users for the transmission of the trade facilitation data to the National Single Window (“NSW”) under the uCustoms when it becomes operational which has the effect of its previous exclusivity clause and/or any other similar clauses which may disrupt competition in any market. Furthermore, Dagang Net is to ensure the complete removal of any exclusivity clause from its MyChannel Partner Agreement with all of its current front-end software solution provider business partners; and
 - (b) imposing any future conditions that new and/or additional mailboxes will not be provided to end users unless the users utilised authorised front-end software solutions from Dagang Net’s business partners only.
 - (ii) The Directors and senior management of Dagang Net and its related companies to enrol into a competition law compliance programme and training at their own expenses within 3 months of the issuance of the Proposed Decision.

The Proposed Decision is not final as Dagang Net has been given until 20 August 2018 to submit its written representation and also indicate to MyCC whether it intends to make an oral representation before MyCC. The Company and Dagang Net in consultation with their external legal counsel will take all necessary and appropriate actions to challenge the Proposed Decision.

Quarterly Report On Consolidated Results For The Second Quarter Ended 30 June 2018

19 Comparison between the current quarter and the immediate preceding quarter

	Current year quarter 30/6/2018 RM'000	Immediate preceding quarter 31/3/2018 RM'000	Variance %
Revenue	51,183	71,107	-28.0
- Information Technology ("IT")	39,622	59,308	-33.2
- Energy	11,561	11,799	-2.0
Profit before tax ("PBT")	13,089	30,175	-56.6

The core revenue drivers of the Group for current year quarter are:

- i) trade facilitation & B2B business;
- ii) OGPC's energy equipment & maintenance;
- iii) Vehicle Entry Permit and Road Charge ("VEP & RC") operations & maintenance services; and
- iv) Post acquisition revenue from Genaxis Group Sdn. Bhd. and its subsidiary company Innovation Associates Consulting Sdn. Bhd. ("Genaxis Group").

The Group's PBT reduced by 56.6% to RM13.09 million in current quarter due to higher revenue from Genaxis Group recorded in immediate preceding quarter. Genaxis Group contributed RM12.52 million revenue in the current quarter (RM28.58 million in first quarter 2018) based on completion of work done of its contracts in hand.

20 Detailed analysis of the performance for the current quarter and year-to-date

(a) Quarter ended 30 June 2018 compared with quarter ended 30 June 2017

	Current year quarter 30/6/2018 RM'000	Preceding year corresponding quarter 30/6/2017 RM'000	Variance %
Revenue	51,183	49,108	+4.2
- Information Technology ("IT")	39,622	31,601	+25.4
- Energy	11,561	17,507	-34.0

The Group recorded higher revenue in current year quarter by 4.2% as compared to preceding year corresponding quarter. The increase in revenue was mainly due to post acquisition results from Genaxis Group, in addition to the recurring incomes from operating & managing the VEP & RC system and continued growth in the Group's B2B and B2G businesses.

The Energy division continues to experience significant competitive pressure in an environment of declining oil & gas activities.

Quarterly Report On Consolidated Results For The Second Quarter Ended 30 June 2018

	Current year quarter 30/6/2018 RM'000	Preceding year corresponding quarter 30/6/2017 RM'000	Variance %
Profit before tax ("PBT")	13,089	13,308	-1.6
- Information Technology ("IT")	6,786	8,263	-17.9
- Energy	6,140	1,800	>+100.0
- Corporate, net of elimination	163	3,245	-95.0

The Group's trade facilitation remains strong, with expected annual growth of 5%, however the current quarter performance was affected by the new start up businesses.

The Group share of results in an associate company has improved in tandem with the improving crude oil price in current quarter.

(b) Year-to-date ended 30 June 2018 compared with year-to-date ended 30 June 2017

	Six months to 30/6/2018 RM'000		Six months to 30/6/2017 RM'000		Variance %
Revenue	122,290	%	92,933	%	+31.6
- Information Technology ("IT")	98,930	81	61,279	66	+61.4
- Energy	23,360	19	31,654	34	-26.2

The Group recorded RM122.29 million in revenue for the current year-to-date as compared to the preceding year of RM92.93 million. The overall 32% higher revenue in the current year-to-date was mainly due to the consolidation of post acquisition results from Genaxis Group, in addition to continued growth in the Group's B2B and B2G businesses.

The IT segment's recorded revenue of RM98.93 million was also attributable to the recurring income from the VEP & RC operations & maintenance services, trade facilitation and B2B business.

The Group's Energy business was affected by increased competition and weak recovery of domestic oil & gas activities.

	Six months to 30/6/2017 RM'000		Six months to 30/6/2017 RM'000		Variance %
Profit before tax ("PBT")	43,264		29,451		-46.9
