Note:

The Condensed Consolidated Statement of Cash Flows should be read in conjunction with Audited Financial Statements for the FYE 31 December 2018 and the accompanying explanatory notes attached to the interim financial statements.

## QUARTERLY REPORT FOR THE QUARTER ENDED 30 JUNE 2019

## NOTES TO THE INTERIM FINANCIAL REPORT FOR THE FINANCIAL PERIOD ENDED ("FPE") 30 JUNE 2019

## A. NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARDS (MFRS 134):

## A1. Basis of Preparation

These condensed consolidated interim financial statements ("interim financial report") have been prepared in accordance with MFRS 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The interim financial statements should be read in conjunction with the Audited Financial Statements for the FYE 31 December 2018 and the accompanying explanatory notes attached to the interim financial statements.

The significant accounting policies and methods adopted for the unaudited condensed financial statements are consistent with those adopted for the audited financial statements for the FYE 31 December 2018.

## A2. Summary of Significant Accounting Policies

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the most recent audited financial statements for the FYE 31 December 2018 except for the adoption of the following MFRSs, IC Interpretation and Amendments to MFRSs effective for financial year beginning on or after 1 January 2019.

New MFRSs: MFRS 16 Leases

Amendments/Improvements to MFRSs:

MFRS 9	Financial Instruments
MFRS 11	Joint Arrangements
MFRS 112	Income Taxes
MFRS 119	Employee Benefits
MFRS 123	Borrowing Costs
IC Interpretation 23	Uncertainty over Income Tax Treatments

The adoption of the above did not have any significant effects on the interim financial report of the Group, except for:

## 1. MFRS 16 Leases

The Group has adopted MFRS 16 retrospectively from 1 January 2019, but not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The adjustments arising from the new leasing rules are therefore recognised in the opening of financial position on 1 January 2019.

## OCK GROUP BERHAD (Company No: 955915 - M)

#### A2. Summary of Significant Accounting Policies (cont'd)

1. MFRS 16 Leases (cont'd)

Prior to 1 January 2019, the leases under MFRS 117 were classified either as finance leases or operating leases. A lessee recognises on its statement of financial position assets and liabilities arising from the finance leases.

MFRS 16 eliminates the distinction between finance and operating leases for lessees. All leases will be brought onto its statement of financial position except for short-term and low value asset leases.

On initial adoption of MFRS 16, there may be impact on the accounting treatment for leases, which the Group as a lessee currently accounts for as operating leases. On adoption of this standard, the Group will be required to capitalise its rented premises and equipment on the statements of financial position by recognising them as "rights-of-use" assets and their corresponding lease liabilities for the present value of future lease payments.

#### A3. Auditors' Report

There was no qualification on the audited financial statements of the Company and its subsidiary companies for the FYE 31 December 2018.

### B3. Prospects

To date, OCK is the largest Telecommunication Network Services ("TNS") provider in Malaysia and a rapidly-growing regional independent Tower Company ("TowerCo"). Despite a competitive telecommunication ("telco") industry landscape, OCK is expecting a positive growth trajectory for the Group going forward.

OCK's outlook on the industry in Malaysia is in line with the rest of the Mobile Network Operators ("MNOs") and that is to expand and upgrade their 4G long-term evolution ("LTE") network coverage. The Group is also optimistic about the new direction taken by the Government with regard to implementation of the National Fiber Optic and Connectivity Plan outlined in Budget 2019, as well as opportunities to build and own telecommunication sites in various states. In addition, OCK sees prospects from an aggressive geographical expansion from one of the MNO in Malaysia, which will allow the Group to build its tower portfolio.

Where managed services is concerned, the Group has identified a new trend in Malaysia, where MNOs are starting to outsource internal managed services to third parties in the industry. This is positive for the Group since we currently manage more than 28,000 telco sites in Malaysia and Indonesia. As such, the prospects going forward seems positive, as we strive to maintain our leadership position as the largest TNS provider in Malaysia.

In Malaysia, the Group currently owns in excess of 424 Towers and is rapidly undergoing expansion to increase its tower ownership with support from major MNOs.

In Myanmar, to date, the Group has completed and handed over 969 telecommunication sites and is still rolling out its current outstanding orderbook of more than 500 telecommunication sites. The Group has achieved a milestone of securing built-to-suit and co-location contracts with all four MNOs, namely Telenor Myanmar Limited, Myanmar Posts and Telecommunications, Telecom International Myanmar Company Limited and Ooredoo Myanmar Limited. That said, the Group will be aggressive in its initiatives to build more sites to cater to the growing demand of daily data usage in this greenfield telecommunication market.

In Vietnam, the Group is currently the largest independent TowerCo, owning more than 2,673 sites. As the Towerco ecosystem is fragmented, the Group foresees consolidation opportunities. The focus in this country will be on both brown and greenfield opportunities as the market gears up for the rolling out of 4G LTE network.

To date, The Group has built a tower portfolio of more than 4,000. In 2019, the group is on track to be an independent tower portfolio of more than sites across Malaysia, Myanmar, and Vietnam. In our aspirations to build an Asean TowerCo, the Group will continue to venture into the Asean region to secure more valuable telco sites.

As for the Group's Green Energy business segment. The Group is optimistic with the recent announcement from the government to open tender for the third round of the 500MW large-scale solar projects worth an estimated value of RM2 billion.
