The Construction division reported a loss of RM98.39 million in the current financial year as compared to a profit before tax of RM12.02 million in the previous financial year. The substantial losses in 2019 was mainly due to the following factors:

- Additional costs incurred during finalisation of certain projects completed in prior and current year.
- Lower finalised contract sum upon account finalisation with project awarders as compared to progressive revenue recognised over the construction period.
- Finance cost is still substantial due to delay in payment collection and retention money has yet to be released from the completed projects. There is a 24-months defect liability period for most of our completed projects.
- Depreciation charges for idling assets. The Division has incurred CAPEX of RM140.5 million on construction equipment for the past 4 years and depreciation charges incurred in 2019 amounting to RM29.12 million.

The division has been carrying out various measures to review current fixed overhead cost to ensure our Construction division's cost structure is competitive and sustainable. In addition, substantial collection from both completed and on-going projects in January 2020 has successfully brought down the bank borrowings. Hence, finance cost is expected to reduce in 2020.

B4 Prospects for the current financial year ending 31 December 2020

In view of the current weak sentiment in the global and local economy due to the outbreak of Covid-19 virus, it had impacted all industries either in a direct and indirect manner. As such, the Group envisage that the operating performance in both Construction and Property Development divisions in the financial year ending 31 December 2020 will be challenging.

The current outstanding order book from our Construction division is RM714.31 million which can sustain the division until mid-2022. This division will focus on the project implementation and execution to ensure quality products are delivered to the clients on time. This division is also working aggressively on various project tender to replenish the construction order book.

The Property Development division has completed and handed over phase 1 (Block B & C) of Wangsa 9 Residency in March 2019. The take up rate for phase 1 consisting of 338 units condominium was 77.2%. Phase 2 consisting of 227 units in Block A achieved take up rate of 7.9%. The division will concentrate its efforts on disposing its current stock of completed properties. The current unbilled sales for this division amounts to RM63.80 million including an affordable homes 'Rumah SelangorKu' project to be completed in March 2020.

Meanwhile amid the slower property market, we are very cautious in launching of new property projects. We focus our future property development on affordable homes with strategic location and infrastructure. We expect to launch 67 units of double storey terrace houses at Bukit Sentosa, Rawang in near future. Besides, there is another project under early planning stage which is the proposed mixed development project for service apartments and affordable service apartments on 22.2 acres land located at Kota Warisan in Sepang.

Revenue contribution from our investment in South Africa in 2020 will be dependent on the sales of 42 units of apartment built within the Blue Valley Golf & Country Estate. The Group expects to complete the 42 units of serviced apartment in April 2020 and the units will be opened for sales in March 2020. Total estimated GDV is Rand 55 million.
