SENTRAL recorded gross revenue of RM40.5 million in 3Q 2021, a decrease of RM1.2 million or 2.9% compare to 3Q 2020. The decrease was mainly due to lower revenue generated from QB3-BMW, Plaza Mont Kiara, Wisma Technip and Menara Shell.

Property operating expenses for 3Q 2021 were RM8.0 million, an decrease of approximately RM1.3 million or 13.6% compared to 3Q 2020, mainly due to lower operating expenses incurred for some of the properties under the portfolio.

## **B3 REVIEW OF THE MARKETS IN WHICH SENTRAL INVESTS IN DURING THE PERIOD AND GENERAL ASSESSMENT OF THE FUTURE PROSPECTS OF THESE MARKETS**

### **Review of office market - Klang Valley**

The cumulative supply of office space in Klang Valley stood at circa 111.4 million sq. ft. as of 1H2021 with the addition of 1.7 million sq. ft. of space added during the period. By the end of 2021, the Klang Valley office market will see a flood of new supply with 5.0 million sq. ft. of office space added to the existing cumulative office stock.

The overall occupancy rate of purpose-built office space in KL City continued to decline to record at 67.4% as of 1H2021(p) (2H2020: 69.1%) due to growing mismatch between supply and demand, “flight-to-quality” and continued COVID-19 impact. As for KL Fringe, the overall occupancy remained flat at 85.8% during the review period (2H2020: 85.8%) as improved rail links continue to drive demand for quality decentralized office space. Similar to KL City, the overall occupancy for Selangor was also under pressure and declined to 75.8% in 1H2021(p) (2H2020: 77.9%).

The average rentals of office space in KL City, KL Fringe and Selangor continued to retreat in 1H2021 as the year started on a more challenging note with the re-imposition of movement control orders (MCO 2.0, MCO 3.0 and FMCO) in January, May and June. In KL City, the average rental rate declined to RM6.88 per sq ft per month in 1H2021(p) (2H2020: RM7.03 per sq ft per month), KL Fringe dropped to RM5.69 per sq ft per month (2H2020: RM5.75 per sq ft per month), whilst for Selangor, it was also lower at RM4.15 per sq ft per month (2H2020: RM4.25 per sq ft per month).

The office market outlook for KL City remains challenging as supply continues to outstrip demand, placing significant pressure on rental and occupancy levels. In KL Fringe, however, occupancy is expected to stabilize during the year, supported by sustained demand for quality decentralized office space available at competitive rates. There will also be growing pressure on the rental and occupancy in Selangor due to the challenging business environment.

Despite the ‘wait-and-see’ approach among tenants and investors, an increasing number of them appear to have clearer business continuity plans now and as such, we expect to see more enquiries moving forward as they identify strategies for managing workplace requirements in the new normal. These plans are, however, delayed amid the current strict containment measures.

### **Review of retail market - Klang Valley**

With only mall completed during 1H/2021 and the Greater KL total retail stock stands about 68.1 million sq. ft. of NLA. Within the next three years, Greater KL will see the completion of 13 new malls, adding at least 8.9 million sq. ft. of NLA to the market. More than half of it (54.3%) are to be completed this year and are located in the suburbs.

### **B3 REVIEW OF THE MARKETS IN WHICH SENTRAL INVESTS IN DURING THE PERIOD AND GENERAL ASSESSMENT OF THE FUTURE PROSPECTS OF THESE MARKETS (CONT'D)**

Retail malls in Greater KL have seen a slender increase in occupancy rates by 0.2% in 1Q/2021. This is mainly attributable to the slight progression in leasing activities made by newly-completed malls. Continuous pressure on occupancy is expected until the COVID-19 pandemic is contained. Many tenants in non-prime and neighborhood malls have struggled to survive, and the current standard operating procedures (SOP) are seen as an obstacle to recovery. However, occupancy rates for prime malls remained steady, largely due to major landlords' financial abilities to maintain zero tenancy termination.

Prime rental index in 1H/2021 did not change, due to minimal movement observed in leasing activities in prime retail floors. The drop in prime base rent in the previous period (2H/2020) was based on new leases being signed, as several retailers did not renew certain leases due to the impact of the pandemic. The prime base rent saw a slight drop of 5% to 10% in offer rates for new leases in some prime malls, especially for larger format retailers and some new-to-market international brands.

### **B4 PROSPECTS**

In 2021, 22% of SENTRAL's total committed net lettable area ("NLA") or approximately 440,000 sq. ft. are due for renewal. Approximately 160,000 sq. ft. or 81% of leases due up to 3Q 2021 have been successfully renewed. Negotiations for the balance of leases due in 4Q 2021 are on-going.

With the on-going uncertainties due to pandemic, the Klang Valley office and retail markets are expected to remain challenging. We will continue to focus on asset management and leasing strategies that are centred on cost optimisation and tenant retention to overcome the challenging operating environment.
