Overall, the Group registered a lower profit before tax of RM4.71 million in the current financial quarter under review as compared with a profit before tax of RM8.66 million recorded in previous financial quarter ended 31 December 2020 due to there being loss making subsidiaries and fluctuations in the price of raw materials (i.e. steel plates and steel pipes) which fluctuates according to global steel prices.

B2. Comparison with immediate preceding quarter's results

	< Individua	< Chan	< Changes>		
	(Unaudited) 31 December 2021	(Unaudited) 30 September 2021		<i></i>

The increase in revenue is mainly due to government has opened the economy phase by phase under the National Recovery Plan in September 2021 which has improved our scheduled deliveries of products to customers for current financial quarter ended 31 December 2021.

B3. Prospects and outlook

The recent outbreak of the COVID-19 virus since the end of 2019 had disrupted the global operating environments and restricting global travelling and the outbreak had soften economic growth both in Malaysia and internationally.

The World Health Organisation had on 11 March 2020 declared the outbreak to be a pandemic and the Malaysian Government had imposed the MCO commencing 18 March 2020 and has been extended to 28 September 2021. The government implemented MCO 3.0 commencing 1 June 2021 and subsequently moved to Phase 1 of NRP starting 29 June 2021 to 10 September 2021. The measures undertaken by the Government, such as international and domestic travel restrictions, control of non-essential services, reduced operating hours and work force, are necessary to curb and slow down the spread of the COVID-19.

Whilst the Government has gradually eased the restriction and businesses are allowed to operate under strict standard operating procedures, the recovery of our economy, as well as the return to our normal social behaviour will require more time and efforts from all stakeholders.

B3. Prospects and outlook (cont'd)

With the current uncertainty in the local and international economy due to the COVID-19 outbreak, the performance of the Group for the financial year ending 31 December 2021 will remain challenging. However, the Group will exercise extra vigilance in the business and will strive to deliver satisfactory performance for the year despite the COVID-19 pandemic. The group will explore other opportunities and is looking to diversify the business to expand our sources of revenue and include other sources of recurring income as a source of our business income.

B4. Profit forecast or profit guarantee

The Group does not have any profit forecast or profit guarantee for the current quarter under review in any public documents.
