## Explanatory Notes to Condensed Consolidated Financial Statements – 30 September 2022

#### Part A: Explanatory Notes Pursuant to MFRS 134, Interim Financial Reporting (cont'd)

#### A13 Financial Instruments

#### **Derivatives**

There were no outstanding derivatives as at 30 September 2022.

#### Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

#### **Fair Value**

The Group uses use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following or a combination thereof:-

- (i) Market approach which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.
- (ii) Cost approach which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

Any transfers between the levels of fair value hierarchy are deemed to have occurred at the end of the reporting period.

#### **Non-financial Assets**

The fair values of buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

#### **Financial Assets and Financial Liabilities**

The carrying amounts of receivables, cash and bank balances and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

The fair values of short-term funds are directly measured using their unadjusted market values quoted by financial institutions (i.e. Level 1).

For the current quarter, the Group recorded a revenue of RM20.794 million and profit before tax ("PBT") of RM4.851 million.

The increase in revenue for the current quarter, representing an increase of RM8.346 million or 67.05% as compared to RM12.448 million in the corresponding preceding quarter ended 30 September 2021 ("Corresponding Preceding Quarter") was mainly attributable to the revenue contribution from the group's new segment, accessory cables and connectors of RM3.800 million and higher revenue from the precision engineering segment by RM4.079 million.

Export sales remained the main contributor to the Group's total revenue, which accounted for RM14.369 million or 69.10% of the Group's total revenue for the current quarter against RM9.991 million or 80.26% of the Group's total revenue for the Corresponding Preceding Quarter. The decrease in export sales percentage was mainly because revenue from the accessory cables and connectors segment were largely from domestic market.

The Group recorded a PBT of RM4.851 million for the current quarter, representing an increase of RM1.614 million or 49.86% as compared to PBT of RM3.237 million recorded in the Corresponding Preceding Quarter. The increase in PBT was mainly due to higher revenue recorded from the precision engineering segment.

#### B2 Review of Performance

## Comparison between Current Quarter and Immediate Preceding Quarter

	Individual 3 Months			
	30.9.2022 30.6.2022 Variance			ce
	RM'000	RM'000	RM'000	%
Revenue	20,794	22,756	(1,962)	(8.62)
Profit before tax	4,851	5,543	(692)	(12.48)

Profit attributable to owners of the Company	3,670	4,123	(453)	(10.99)

The Group recorded a revenue of RM20.794 million in the current quarter, which was lower by RM1.962 million or 8.62% than RM22.756 million recorded in the immediate preceding quarter. The Group recorded a PBT of RM4.851 million in the current quarter, decrease by RM0.692 million or 12.48% as compared to RM5.543 million. These were mainly attributable to the lower revenue contribution from automation as well as the accessory cables and connectors segments.

## Explanatory Notes to Condensed Consolidated Financial Statements – 30 September 2022

## B3 Commentary on Prospects

The Group is mindful of the challenges ahead in a rising interest rate environment in the midst of a global inflationary setting resulting in escalation of material costs, the ongoing Russia and Ukraine conflict and continuing lockdowns in China. Under these circumstances, the Group will continue to exercise prudence in its operation and stay focused on its strategic business roadmap to deliver favourable business performance going forward. The Group expects the overall operating performance for the remaining periods of the current financial year to be satisfactory on the back of a cautiously optimistic performance from the precision engineering segment.

## B4 Profit Forecast

The Group does not issue any profit forecast in any form of public documentation and announcement.

## B5 Tax Expense

	Individual Quarter Ended 3 Months Ended		Cumulative Financial Period Ended	
	30.9.2022 RM'000	30.9.2021 RM'000	30.9.2022 RM'000	30.9.2021 RM'000

Deferred tax	(21)	(21)	(21)	(21)
	1,427	879	1,427	879

The effective tax rate of the Group was higher than statutory tax rate of 24%. This was mainly due to losses in certain subsidiaries which were not available for set off against taxable profit in other subsidiaries within the Group.

## B6 Status of Corporate Proposals

There were no other corporate proposals announced but not completed as at the date of this interim financial report.

#### B7 Borrowings

There were no borrowings as at the end of the current quarter under review.
