B1. Review of performance

Comparison with Corresponding results of Last Quarter

For the current financial quarter under review, the Group reported a revenue of RM509.23 million, an increase of RM108.32 million or 27.02% as compared to RM400.91 million in the preceding year corresponding quarter. Higher revenue recorded in the current quarter was due to the higher volume of the wall panel and autoclaved aerated concrete ("AAC") blocks sold to private and government projects in Singapore. The distribution of the building materials sector's sales has grown by 9.01% in this quarter as compared to the preceding year corresponding quarter mainly contributed by cement and other building materials products. Moreover, the recent acquisition of Makna Setia Sdn. Bhd., together with Kayangan Kemas Sdn Bhd (which was acquired in December 2021), both under the construction division also brought in the revenue of RM123.86 million to Chin Hin in the current quarter. Besides, the revenue for manufacturing and trading of commercial vehicles and bodyworks has also increased by 26.50% as compared to the preceding year corresponding quarter as the division has managed to increase its pricing and sales for rebuilt vehicles due to the global semiconductor chip shortage. The global chip shortage that was triggered by the pandemic has been exacerbated by the ongoing Russia-Ukraine war. Therefore, it has boosted up the demand for rebuilt vehicles.

In line with the considerable increase in revenue, the Group's gross profit has increased by RM5.92 million or 15.03% from RM39.44 million in the preceding year corresponding quarter of 2021 to RM45.36 million in the current quarter of 2022. The gross profit margin for the current quarter was recorded at 8.91%, slightly reduced by 0.93% as compared to the preceding year corresponding quarter of 9.84%. The slight reduction in the gross profit margin was mainly due to the sudden escalation of steel and bulk cement price from mid December 2022. Coal is used as the main source of energy in the combustion process for the production of cement, therefore the increase in the price of coal is one of the reasons for the increase in the price of this material. Consequently, It has pulled down the profit margin of all our products and projects.

Other operating income has increased by RM2.49 million or 19.89% from RM12.52 million in the preceding year corresponding quarter to RM15.01 million in the current quarter. The increase is mainly due to the gain on disposal of the entire shareholdings in Solarvest of RM56.37 million offset against the reversal of fair value gain of RM43.43 million on Solarvest shares in the current quarter.

Administrative expenses have increased by RM9.95 million in this quarter as compared to the preceding year corresponding quarter mainly contributed from the expansion in property the development and construction division as mentioned in the first paragraph. Besides, the higher administrative expenses also contributed from the impairment of slow-moving stock in the distribution of building materials sector. Impairment in trade receivables in the current quarter was provided in the manufacturing of precast concrete and distribution of building materials division due to slow collection from certain customers.

B1. Review of performance (Cont'd)

Comparison with Corresponding results of Last Quarter (Cont'd)

The Group's finance cost for the current quarter has increased by RM2.14 million as compared to the preceding year corresponding quarter principally due to the drawdown of RM80.00 million term loan to part finance the acquisition of Ajiya Berhad, RM83.00 million term loan to part finance the acquisition of a freehold land located at 9 3/4 Mile, Kuchai Road and refinance a piece of leasehold land located at Mukim Kuala Lumpur in the property development division this year. Approximately RM13.07 million trade lines were drawdown to fund the working capital for the distribution of building materials, manufacturing of ready mixed-concrete, manufacturing and trading of commercial vehicles and bodyworks and construction division in the current quarter. The increase in bank borrowings was set-off partially by the reduction of existing term loans. Moreover, the higher finance cost also contributed from the raising of the overnight policy rate ("OPR") fourth consecutive time in 2022 totalling 100.00 basis points to 2.75 percent to curb inflation.

Share of profit from our associate companies have reduced by RM1.63 million or 53.29% as compared to the preceding year corresponding quarter primarily due to the reclassification of share of profit entitlement from Stellar 8 Sdn Bhd into joint venture account.

Significant increase in share of results of joint venture mainly contributed from the 8th & Stellar Joint Development project entitlement. Besides, profit recognised on the construction of Miri Hospital Annex Building, Sarawak (Design and Build Project) by R Synergy Sdn Bhd of RM1.09 million also contributed to the share of joint venture results in the current quarter.

Given the abovementioned increase in the revenue, gross profit, other operating income, share of results of the joint venture and gain on disposal of Solarvest shares offset against the reversal of fair value gain on Solarvest shares recognised previously, the increase in administrative expenses, finance costs and impairment on trade receivables, the Group reported an increase in profit before tax ("PBT") of RM6.22 million for this quarter as compared to the preceding year corresponding quarter.

B2. Comparison with immediate preceding quarter's results

CURRENT QUARTER vs. PRECEDING QUARTER

| | Unaudited Individual quarter | Unaudited Individual quarter | |
|--|---------------------------------|---------------------------------|---------|
| | 31 December 2022 | 30 September 2022 | Changes |
| | RM'000 | RM'000 | % |

| Operating Profit | 19,491 | 25,160 | -23% |
| Profit Before Interest and Tax | 19,491 | 25,160 | -23% |
| Profit Before Tax | 21,310 | 22,059 | -3% |
| Profit After Tax | 18,253 | 16,458 | 11% |
| Profit Attributable to Ordinary Equity | | | |
| Holders of the Parent | 16,610 | 16,409 | 1% |

For the quarter under review, the Group posted a revenue of RM509.23 million as compared to RM418.12 million in the preceding quarter, an increase of RM91.11 million or 21.79%. The Group reported a profit before tax ("PBT") of RM21.33 million, a reduction of RM0.73 million as compared to the preceding quarter. The slight reduction in the gross profit margin was mainly due to the sudden escalation of steel and bulk cement price from mid December 2022 as a result of energy crisis as mentioned above. Consequently, It has pulled down the profit margin of all our products and projects.

B3. Prospects

The past two to three years have witnessed several major global events which have greatly disrupted supply chain continuity and adversely impacted production levels worldwide. The rising electricity tariffs, ICPT surcharge from 3.7 sen/Kwh to 20 sen/Kwh with effect from 1 January.2023 due to a combination of surging energy demand, fuel supply disruptions, and the growing shortages of oil, gas, and coal globally have caused global energy prices to skyrocket. As such, all building material's unit price index has rose significantly between 0.7 per cent to 11.4 per cent in January 2023 as compared to the same period the previous year. Inflation has already crept upwards. It has posted greater challenges to our manufacturing sector and Company as a whole. The Group has repositioned itself to cope with the challenges and remain vigilant for new prospects.

Our Starken AAC 2's autoclaved aerated concrete ("AAC") production line with 600,000 m3 installed capacity located at Kota Tinggi, Johor is maintaining its production utilisation rate at 58% level. Starken AAC 2's majority deliveries are to the private high-rise projects, hospital, Housing & Development Board (HDB) projects, landed property, MRT, nursing home and hospital in Singapore. Almost all the panel produced by Starken AAC 2 are being exported to Singapore.

Our rebuilt commercial vehicles division has upgraded their services by offering customer with warranty, free service and more service centres throughout Peninsula Malaysia. The pandemic has caused the bank to withdraw and stringent the loan application in view of a higher default risk. Hence, many consumers have to turn to rebuilt vehicles with lower cost and flexible easy payment offered by our dealers. Many new entrepreneurs emerged due to the success of online business and hence spring up more logistic partners that are enjoying the lower vehicles cost with the same efficiency as new vehicles.

Chin Hin Group Property Berhad ("CHGP") is planning two new launches i.e., Avantro Residences at Bandar Kinrara and Ayanna Resort Residences at Bukit Jalil in 2023 with a total GDV of RM1.32 billion. Our "8th & Stellar" Joint Development Project is due for completion by Q3 2023. This almost fully sold project, is strategically located at the prime address of Sri Petaling, KL is an integrated development comprising apartments, office, and retail spaces. In the pipeline, CHGP is developing three new projects at KLCC, Taman Connaught and Jalan Sungai Besi which has a total estimated GDV of RM2.20 billion. The projects are targeted to be launched in 2024.

All the major infrastructure construction projects i.e., MRT3 Circle Line's four major contract packages, East Coast Rail Link (ECRL) project and the Malaysian government's recent announcement on their planning to expedite the revival of the aborted High Speed Railway project (HSR) with Singapore are expected to keep driving the growth of the construction industry in Malaysia over the next three to four years. The recent acquisition of Makna Setia Sdn Bhd will enable the construction division to diversify further and tap into the infrastructure projects. The construction division's outstanding order book currently stands at RM1.30 billion.

B3. Prospects (Cont'd)

Our associate company, Signature International Berhad ("Signature") has carried out multiple acquisitions in 2022 which comprised the following: -

- i) Acquisition of 51% equity stake in Space Alliance Contract Group, an Interior Fit-out specialist.

Following these acquisitions, Signature Group already owned a strong presence across the wider home and living supply chain and became a total interior design solutions provider. Signature's New Smart Factory located at Bandar Enstek is expected to be completed by Q2 2023. This Smart Factory is a key component of Signature's Industry 4.0 effort. As at end December 2022, Signature Group's total order books stood at RM626.00 million i.e., RM177.00 million for Kitchen and Wardrobe System, RM235.00 million for Aluminium and Glass Products and RM214.00 million for Interior Fit-Out Works.

Our newly acquired associate company, Ajiya Berhad ("Ajiya") who involve in the high value-added safety glass products, metal roofing, metal door and window frames business continue sourcing for cheaper cost of raw materials with good quality to improve its profitability and to remain competitive for a sustainable long-term growth.
