PART B: EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA

B1. Performance review

a) Performance of the current quarter against the preceding year corresponding quarter (Q4-2024 vs. Q4-2023)

The Group's financial performance for Q4-2024 slightly decline compared to the Q4-2023. Revenue fell by RM0.3 million, from RM25.8 million in Q4-2023 to RM25.5 million in Q4-2024. This decline was mainly attributed to reduced contributions from the property development segment. Further details on this performance are provided in the segmental review.

The Group encountered challenging market conditions, particularly within Malaysia's property sector. The slowdown in property demand, high construction costs, and fluctuating consumer confidence have impacted the company's financial performance.

The Group's profit before tax for Q4-2024 was RM6.5 million, a significant improvement from a loss before tax of RM1.4 million in Q4-2023. This turnaround in profitability is largely attributable to a reversal of RM6.6 million on cost of sales provided in prior years now no longer required, accounting gains from fair value adjustments on investment property and the reversal of inventory write-offs, totaling RM2.1 million and RM1.8 million respectively.

Despite challenges, the Group recorded a strong recovery in profitability. The reversal of cost provision helped boost financial results.

Property Development

The property development revenue increased by RM0.6 million, from RM11.9 million in Q4-2023 to RM12.5 million in Q4-2024, representing a 5% growth.

The improvement in profitability, shifting from a higher loss before tax of RM22.9 million in Q4-2023 to a loss before tax of RM9.8 million in Q4-2024, demonstrates a notable 57% reduction in losses. A key factor in this improvement is the reversal of RM6.6 million on the cost of sales that had been provided in previous years. This reversal had a positive impact on the overall performance for the quarter, helping to reduce the loss more significantly.

B1. Performance review (contd.)

a) Performance of the current quarter against the preceding year corresponding quarter (Q4-2024 vs. Q4-2023) (contd.)

Investment Property

The segment's performance showed a positive revenue growth of 66%, from RM 1.1 million in Q4-2023 to RM 1.8 million in Q4-2024. This was largely driven by improvement in the occupancy rates and rental rates at both Strand Mall and Warna Avenue.

The segment registered a loss before tax of RM0.5 million as compared to profit before tax of RM0.3 million loss in the same quarter last year.

Concessionaire

The concession division experienced a decline in revenue, recording RM9.5 million in Q4-2024, down from RM11.8 million in Q4-2023. This represents a reduction of RM2.3 million or approximately 20% in revenue between the two periods.

Pursuant to the Privatisation Agreement, the concession income is payable by the Government following completion and handover of each cluster of the teachers' quarters up to the end of the concession period.

Accordingly, the Group will receive a fixed deferred payment from the government throughout the concession period.

B2. Comparison with Immediate Preceding Quarter

In Q4-2024, the Group experienced an increase in revenue by RM4.5 million, rising from RM21.0 million in Q3-2024 to RM25.5 million. The primary contributor to this growth was the property segment, which accounted for RM3.3 million (37% of total revenue), driven by sales from completed projects.

The Investment Properties segment showed a slight increase of RM0.2 million, from RM1.6 million in Q3-2024 to RM1.8 million in Q4-2024. This minor increase was attributed to stable occupancy rates and rental agreements, with little impact on overall revenue.

The construction segment also saw an increase, with a revenue increase of RM1.5 million, rising from RM0.3 million in Q3-2024 to RM1.8 million in Q4-2024, mainly due to a FELDA contract for replanting palm oil and coconut.

In terms of profitability, the Group successfully registered a loss of RM13.1 million in Q3-2024 to a profit before tax of RM6.5 million in Q4-2024, with the property segment playing a key role in this positive shift. Overall, the Group's performance in Q4-2024 reflects strong growth in key segments, leading to a significant improvement in profitability.

B3. Commentary on prospects

As of February 2025, Bank Negara Malaysia (BNM) has kept the Overnight Policy Rate (OPR) at 3.00%, a level maintained since May 2023. This decision supports economic stability, driven by strong domestic demand and manageable inflation. Analysts expect the OPR to stay unchanged throughout 2025, in line with BNM's neutral outlook on inflation and the economy.

The ongoing development of Tilia Shah Alam, which features 112 two-storey superlink homes, is a critical phase in the broader Encorp Cahaya Alam township. This project, expected to complete in the fourth quarter of 2025, presents a valuable opportunity for buyers looking for quality residential options in Shah Alam.

Encorp is expanding into East Malaysia through the ongoing Cahaya Kristal project in Kota Kinabalu, expected to be completed by the third quarter of next year. The development offers both residential opportunities and represents a strategic move to diversify geographically, tapping into the vibrant Kota Kinabalu market.

The East Coast Rail Link (ECRL), now over 78% complete as of early February 2025, is set to significantly enhance connectivity in Malaysia, with the first phase linking Kota Bharu to Gombak expected to begin operations by January 2027. This infrastructure development is poised to drive economic growth and tourism, particularly in areas like Teluk Cempedak in Kuantan, Pahang.

A joint venture project in Teluk Cempedak is strategically positioned to capitalise on this boost in accessibility. The improved transportation network is anticipated to attract both residents and tourists, ensuring a strong market response to the development. The timing aligns well with the ECRL's impact on the region, promising positive prospects for the project.

Our strategic partnership with FELDA has yielded successful outcomes, notably the completion of the Lamanda Chuping Phase 1 development project. Looking ahead, Phase 2 is scheduled to begin planning in the latter part of the year, with a dedicated emphasis on medium-cost housing to address community needs.

The Group's successful completion of palm oil replanting contracts with FELDA strengthens its industry position. Now, the Group is looking to partner with FELDA on more projects, using its combined role as contractor and developer to drive growth and improve operations for both parties.

The Investment Property segment is thriving with rising rental occupancy at Strand Mall and Warna Avenue, and Strand Mall's integration into the SEDA program highlights the Group's commitment to sustainability and ESG standards.
