The Group's revenue for the current quarter increased by approximately RM4.05 million or approximately 23.61% to approximately RM21.22 million from approximately RM17.17 million in the corresponding quarter of preceding financial period. The nameplates segment and the plastic injection moulded parts segment contributed revenue of approximately RM12.71 million (59.90% of the Group's total revenue) and approximately RM8.51 million (40.10% of the Group's total revenue) respectively for the current quarter under review.

The Group's profit after tax for the current quarter increased by approximately RM0.15 million or approximately 14.97% to approximately RM1.15 million from approximately RM1.00 million in the corresponding quarter of preceding financial period. This was mainly due to higher sales from the plastic injection moulded parts segment.

The Group's current 9 months cumulative revenue of approximately RM60.32 million represents an increase of approximately RM7.45 million or approximately 14.09% as compared with the corresponding 9 months period of preceding financial year of approximately RM52.87 million. Despite the increase in revenue, the Group recorded a lower profit after tax of approximately RM3.01 million for the current 9 months period ended 31 March 2025, a decrease by approximately RM0.95 million or approximately 23.93%, mainly due to higher total loss on foreign exchange of approximately RM0.74 million resulting from the weakening of USD against RM during the current 9 months period under review.

# PART B: EXPLANATORY NOTES PURSUANT TO ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES

The Group's revenue for the current quarter increased by approximately RM1.23 million or approximately 6.13% to approximately RM21.22 million from approximately RM20.00 million in the previous quarter.

The Group's profit after tax for the current quarter decreased by approximately RM0.61 million or approximately 34.66% to RM1.15 million from approximately RM1.76 million in the previous quarter mainly due to the total loss on foreign exchange of approximately RM0.31 million recorded in current quarter instead of the total gain on foreign exchange of approximately RM1.57 million in the previous quarter.

#### **B3.** Commentary on Prospects

The sales demand for the nameplates segment and the plastic injection moulded parts segment is expected to be challenging amid the rising global economic concerns over the reciprocal tariffs from the United States of America, inflation and softening demand from our products' end-user industries. Barring any unforeseen circumstances such as disruption to the supply chain, material fluctuations on foreign currency exchange rate and potential economic slowdown, we are of the opinion that our Group's financial results for the financial year ending 30 June 2025 will remain favourable.

The effective tax rate of the Group for the current year-to-date was slightly higher than the statutory tax rates of 20% for Thailand and 24% for Malaysia. This was mainly due to losses recorded by holding company and one of the subsidiaries.
