**IPOH, 29 May 2025** – For the third quarter ended 31 March 2025 (Q3FY2025), Scanwolf Corporation Berhad (“SCANWOLF” or “the Group”) reported a revenue of RM22.714 million for the quarter, reflecting an increase of RM14.029 million or 161.53% compared to the same quarter of the previous year. This growth was primarily driven by higher revenue contributions from the Construction Division.

For the cumulative 9-month performance, the Group’s total revenue increased by 68.19% to RM42.818 million, compared to RM25.458 million recorded in the same period of the previous year. The Group reported a lower net loss of RM7.005 million for the 9-month period, compared to an LBT of RM8.849 million in the corresponding period of the previous year. This improvement was primarily driven by higher revenue in the Construction Division and improved profit margins in the Manufacturing Division.

The Group’s manufacturing industry grows amid strong global demand but faces tariff risks, while the construction sectors expand steadily, driven by urban housing and modern commercial projects despite the rising costs and supply chain challenges.

The Board continues its effort to achieve profitability through cost controls, securing more projects, and implementing strategies to navigate tariff challenges.
