Reflecting this performance, profit before tax increased to RM12.7 million from RM9.9 million in the same quarter last year, supported by stable cost levels.

iii) Profit after tax for the quarter stood lower at RM9.8 million. The higher profit recorded in the corresponding quarter was mainly attributable to an income tax credit arising from a deferred tax provision.

B1. Review of performance (contd.)

Current quarter compared to immediate preceding quarter (Q3 2025 vs Q2 2025)

	Current quarter 30 Sept 2025 (Unaudited) RM	Preceding quarter 30 June 2025 (Unaudited) RM
Highway operations revenue	82,428,762	80,755,225
Total revenue	82,946,132	80,752,793
Profit from operations	47,738,550	50,384,247
Profit before tax	12,694,710	15,909,879
Net profit for the quarter	9,758,510	7,621,943
Profit attributable to owners	9,758,510	7,621,943

- i) The Trust Group reported RM82.4 million in highway operations revenue for Q3 2025, reflecting an increase from RM80.8 million in the preceding quarter. The uplift was mainly driven by higher traffic volumes, largely due to the absence of festive seasons and school holidays during the quarter.
- ii) Although revenue improved, profit from operations for the quarter declined to RM47.7 million from RM50.4 million in Q2 2025, primarily due to higher operational expenses arising from joint repair, pavement improvement and rock slope works.
- iii) Profit before tax for Q3 2025 stood at RM12.7 million, representing a quarter-on-quarter decline, primarily reflecting the impact of earlier factors. However, profit after tax was higher, driven by a lower income tax expense arising from a reduced deferred tax provision.

B2. Prospects of the Trust Group

On 17 October 2025, the Department of Statistics Malaysia (DOSM) released advance estimates showing that Malaysia's Gross Domestic Product (GDP) grow by 5.2% in the third quarter of 2025, improving from 4.5% growth in the previous quarter. This estimate is more than the Bank Negara Malaysia's (BNM) projected growth range of 4.5% to 4.8% for 2025, which reflects resilient domestic demand amid a challenging external environment.

The Highways which are strategically located within the Klang Valley are expected to benefit from the economic activity centred in the Klang Valley. Frost & Sullivan forecasts the market size in terms of revenue of urban highways in Klang Valley will grow at a CAGR of 4.6% from RM3.1 billion in 2023 to RM3.7 billion in 2027 (source: Independent Market Research on the Highway Concessionaires Industry in Klang Valley dated 9 February 2024).

The Trustee-Manager maintains an optimistic outlook regarding the future performance of the highways with key focus to establish the highways as preferred routes for travel.
