IMMEDIATE RELEASE

OCK STRENGTHENS PRODUCT PORTFOLIO THROUGH DISTRIBUTORSHIP AGREEMENT WITH FUJIKURA

Catering to the growing demand for telecommunication network and digital infrastructure

28th JANUARY 2026, SHAH ALAM – OCK Group Berhad (“OCK” or the “Group”), Malaysia’s largest telecommunication network solutions provider and regional towerco, announced that its subsidiary OCK Datawave Sdn Bhd, has entered into a distributorship agreement with Fujikura Ltd. (“**Fujikura**”). The distribution agreement will take effect from January 2026 and will be valid until December 2026.

Fujikura is a leading Japanese manufacturer specialising in advanced optical fiber cable systems and connectivity solutions, including its flagship Wrapping Tube Cable™ (WTC™) series. With over a century of innovation, Fujikura delivers high-performance fiber optic cables, accessories, and integrated systems that enable reliable, high-speed data transmission for telecom operators, data centers, and smart city projects worldwide. Under this agreement, OCK will distribute Fujikura’s WTC™ solutions carrying a wide variety of related accessories, enabling the Group to further strengthen its supply chain capabilities and broaden its product offerings across the diverse business segments that it operates in. Fujikura will retain the right to modify product specifications and provide consistent updates on newly developed products to ensure continuous technological advancements from one of the leading fibre optic manufacturers.

The collaboration aligns with OCK’s ongoing commitment to support Malaysia’s accelerating fibre rollout and network upgrading initiatives. With expanding demand for high performance fibre infrastructure driven by Smart City, Data Center, AI adoption, enterprise digitalisation and 5G implementation, the addition of Fujikura’s optical cable solutions further enhances the Group’s value proposition as an end-to-end digital and telecommunication solutions provider.

OCK Group Managing Director Datuk Wira Sam Ooi Chin Khoon commented, “We are delighted to announce our distributorship working alongside strong counterparties such as Fujikura, a global name synonymous with innovation and quality in optical cable technologies. This partnership will enhance our capability to deliver reliable and future-ready fibre solutions to the market, supporting the activity for network infrastructure expansion as well as upgrades. By leveraging on Fujikura’s advanced product range, we believe that we will be able to better serve the evolving requirements of telecom operators, data centres and renowned enterprise clients nationwide.”

About OCK Group Berhad

OCK Group Berhad is Malaysia's leading telecommunication network solutions provider. The Group was listed on the ACE Market of Bursa Malaysia Securities Berhad in 2012 and was subsequently transferred to the Main Market on 20 November 2014 due to its strong business growth performance over the years and bright development prospects.

Since its incorporation in 2000, the Group has evolved from a maintenance and engineering company to a full turnkey solutions provider with four key business divisions covering telecommunication network services, green energy solutions, power solutions and trading of telecommunication network products.

With more than 3,800 employees, OCK remains dedicated to its vision of becoming the service partner of choice for telecommunication services across the Southeast Asian region. The Group has been strategically expanding its presence across Southeast Asia and continues to position itself in key emerging economies such as Myanmar, Vietnam and Indonesia.

OCK intends to become one of the largest independent Southeast Asian telecommunication tower companies and currently has a portfolio of more than 5,500 telecommunication towers.

On top of being a turnkey solutions provider in the solar business, OCK is well equipped with engineering, procurement and construction capabilities to build as well as own solar farms.
