B3 Future prospects

The Group has encountered several ongoing challenges in the event industry, particularly the concert management which include but not limited to the following:

- a. Consistently sourcing for a sustainable business model, securing funding, and rebuilding audience trust are ongoing priorities in this industry;
- b. The availability of artists for touring and live performances may be affected by scheduling conflicts or changes in touring preferences. This can impact the lineup and pricing of concerts, as well as competition among venues and promoters for top talent;
- c. Compliance with evolving regulations, including health and safety protocols and tax requirements etc; and
- d. The concert industry faces increasing pressure to address its environmental footprint and adopt sustainable practices. Reducing energy consumption, waste generation and carbon emissions at events requires investment in eco-friendly technologies and practices.
- e. The Group will thus be shifting its focus to organising more events that we eventually will own the intellectual property associates with the event concept, brand and content. We will explore more corporate events such as product launches, clients' appreciation events and etc.

As we move forward, we will continue to expand and innovate the digital and media management as well as the financial solutions segment, ensuring that we remain at the forefront of facilitating economic activities.
