MFRS 16 will affect primarily the accounting by lessees and requires a lessee to recognise assets and liabilities for all leases on the statement of financial position with an optional exemption for short term and low-value leases.

The statement of profit and loss and other comprehensive income will be affected as rental expenses will be replaced by interest expense and depreciation. The principal portion of the lease liability are classified within financing activities and only part of the payments that reflects interest expense can continue to be presented as operating cash flows in the statement of cash flow.

The Group has applied the modified retrospective approach with no restatement of comparative, under which the cumulative effect of initial recognition is recognised in retained earnings.

The effect arising from the initial application on the statement of financial position of the Group are as follow:
