The initial application of the abovementioned standards and amendments, where applicable are not expected to have any material financial impact to both the current year and prior year financial statements of the Group.

Change in accounting estimates

During the financial year ended 31 December 2023, the Group has undertaken a review of asset valuation methodologies, which have led to a change in the useful life of certain categories of telecommunications network assets. Previously, certain network cards in the Group's submarine cable assets were depreciated in accordance with the remaining useful life of the specific submarine cables which ranges from 7 years to 14 years. The Group has carefully reassessed and adjusted the useful life of these assets to 7 years from their acquisition dates to align with the Group's continuous advancement and upgrade of technology in our submarine cables. As a result of this exercise, the depreciation expenses will be recognised at an accelerated pace, resulting in a notable impact on the asset's carrying value. The change to this accounting estimates is applied prospectively from 1 January 2023.

- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.
