### **NEW ONE-STOP AMBULATORY CARE FACILITY - PARKWAY MEDICENTRE - OPENS AT WOODLEIGH TO SERVE COMMUNITY HEALTHCARE NEEDS**

**Singapore, 18 May 2023** – IHH Healthcare Singapore today opened Parkway MediCentre Woodleigh, a new concept ambulatory care facility that provides convenient and comprehensive outpatient care to the community in the northeastern region of Singapore.

Bridging the gap between family GP clinics and tertiary hospitals, Parkway MediCentre Woodleigh is conveniently located within the newly opened Woodleigh Mall and operates from 8.00am to 10.00pm daily (excluding public holidays) to offer patients extended access to medical care beyond regular business hours.

Providing a wider range of care than the typical GP clinic, Parkway MediCentre Woodleigh is equipped to offer radiology imaging and health screening services starting June 2023. Specialist services such as Obstetrics & Gynaecology and Paediatrics will be introduced progressively. Patients will eventually also be able to use the Community Health Assist Scheme (CHAS) and Medisave to pay for services at Parkway MediCentre.

Beyond GP services and chronic disease management, residents in the area will be able to seek professional medical support for dietetics, rehabilitative care and general health screening supported by on-site radiology imaging, as well as specialist care and urgent care for non-life-threatening conditions like fractures, burns or open wounds, when the centre is fully operational.

Parkway Medicentre Woodleigh's expanded care offering is aimed at empowering the community to embrace preventive care by offering ancillary and specialist care services alongside the family doctor for immediate access as well as simpler referral and follow up. The centre aims to make quality healthcare services more conveniently available to its patients and their families.

For more information about Parkway Medicentre and its services, please visit <https://www.parkwaymedicentre.com.sg/> .

## **ABOUT PARKWAY MEDICENTRE WOODLEIGH**

**Parkway MediCentre** is IHH Healthcare Singapore's first ambulatory care unit, bridging the gap between a family medicine clinic and a tertiary hospital. Situated at Woodleigh Mall, Parkway MediCentre offers a wide range of outpatient medical services under one roof – from family medicine and urgent care, to health screening, physiotherapy, dietetics services and an on-site diagnostic imaging centre. It also provides specialist care services including obstetrician and gynaecology (O&G), paediatrics, gastroenterology and dermatology. Parkway MediCentre seeks to empower patients to take charge of their health while providing quality care and greater convenience for their patients and their families.
