Current Quarter vs Previous Year Corresponding Quarter

For the current quarter under review, the Group recorded a lower revenue of RM35.11 million as compared to preceding year corresponding quarter of RM66.72 million. The lower revenue in current quarter was mainly due to the lower revenue recognised by the Property Development Division for Fortune Centra due to lower percentage of work completed as compared to the preceding year corresponding quarter which had 2 active projects under construction.

However, both the Mall and Car Park operations had generated an increase in revenue of RM2.59 million and RM641,000 respectively due to higher occupancy and turnover rent for the Mall and an increase in car park rates and higher volume of traffic for car park division.

The Group recorded a profit before tax of RM13.51 million in the current quarter as compared to RM2.75 million in the preceding year corresponding quarter. The higher profit before tax was mainly contributed by the higher revenue and lower operation costs in the Mall and higher margin from Fortune Centra project as well as other project cost savings in the Property Development operations which resulted in increase in profit of RM4.91 million and RM1.81 million respectively.

B2 Comment on Financial Results (Current quarter compared with the preceding quarter)

	Current Quarter 31/12/17 RM'000	Preceding Quarter 30/9/17 RM'000	Variance RM'000
Profit before tax	13,513	4,718	8,795

The Group recorded a higher pre-tax profit of RM8.80 million in the current quarter as compared to the preceding quarter. The increase in profit before tax was mainly from the Mall and Car Park division as a result of higher turnover rent from retailers, higher volume of traffic at the carparks and higher margin from Fortune Centra project.

B3 Prospects

The Group currently has three active divisions contributing to the Group's results, namely, Property Development, Mall Operations and the Car Park Operations. The Group anticipates all the three active divisions to contribute positively toward its performance for the remaining financial year.

B4 Profit Forecast / Guarantee

There were no profit forecast or profit guarantee issued by the Group.

The tax charge in the current quarter and current year-to-date arises from the operating and investment income of subsidiary companies.

The difference between the income tax expense at the statutory income tax rate and the income tax expense at the effective income tax rate of the Group is due to certain income not subject to tax, certain expenses not deductible for tax purposes, utilisation of previously unrecognised tax losses and deferred tax assets not recognised during the current quarter and current year-to-date.
