INDUSTRONICS BERHAD

CORPORATE STRUCTURE AS AT 30 MARCH 2018

 Note: Excluding dormant subsidiaries

CHAIRMAN'S STATEMENT

On behalf of the Board of Directors ("Board") of Industritronics Berhad ("IB" or "the Company"), I am pleased to present the Annual Report of IB for the financial year ended 31 December 2017.

Financial Performance

The past few years have been a challenging period for our Group due to factors such as increase in competition and slower economic growth.

The Group reported a higher revenue of RM75.33 million as compared to RM30.87 million in the previous year. The Group recorded lower loss after tax of RM6.55 million compared to a loss of RM13.63 million in the preceding year.

In order to improve the Group financial position and performance, our Group had continued to develop new businesses with growth potential and to build on the strength of existing product and market segments.

During year 2017, the Group has ventured into the provision of cloud computing services via the software development by its Hong Kong subsidiary, Industritronics Technology Limited in openstack cloud computing software platform, file hosting platform and game server platform.

In addition, the Group continued with its plan to reorganize its structure and operations to reduce operating expenses, focus on profitable and high growth business. There was also various measure adopted to strengthen its cash flow such as by disposing property of its subsidiary no longer required for business operations.

At 31 December 2017, the Cash and Bank Balances of the Group (excluding overdraft) stood at RM2.53 million. The Group's loss per share was 6.04 sen.

Operation Review

2017 was a challenging year for the Group due to external factors such as strong competition in those industries that the Group operates.

To strengthen the financial performance of the Group, the Group continued to look for ways to increase its revenue stream and streamline its operations to be more cost efficient.

Malaysia Operations

2017 projects were centred around the airport sector where the Company concentrated its efforts on the development of new applications and enhancements to meet the growing needs of the increasingly sophisticated transport industry. Such upgrading, expansion and maintenance works were also carried out for the KL International Airport, Penang International Airport and Gateway@klia2.

Demand of LED screens remained strong in 2017 with Industritronics continuing its efforts amidst an increasingly competitive market. The operations and maintenance business for its existing installations are robust with key customers considering maintenance as an alternative to purchasing new screens in the present economy.

Year 2017 was a challenging year for AV, ITS & Communication division (AIC) of Industronics Berhad, which handles System Integration mainly on Intelligent Transport Systems (ITS) , Audio Visual and CCTV Systems. The sales revenue in 2017 for the AIC division was maintained with a slight increase compared to 2016. Income was mainly generated from highway maintenance and several audio visual projects. 2017 saw the closure and final payments collection of many key projects undertaken in previous years which contributed to revenue increase.

Ademco (Malaysia) Sdn. Bhd. (Ademco), a subsidiary of IB, saw modest success in many projects in the Security, Fire & Safety sector of which the most notable include to maintain the Security Alarm System for AEON for whole Malaysia & to supply the Industronics manufactured fire alarm panels for many projects in Malaysia. Ademco endeavours to increase market share and interest through Industronics manufactured fire alarm products.

Hong Kong Operations

Industronics (HK) Limited, has achieved significant sales of precision instruments (watches) of HKD 120 million (approximately RM65.90 million) in FY2017 compared to HKD32.90 million (approximately RM18.62 million) in FY2016.

Industronics Technology Limited has recorded revenue of HKD4 million (approximately RM2.20 million) in FY2017 in the provision of usage of cloud computing services compared to HKD7.80 million (approximately RM4.42 million) in FY2016 from sales of clothes and cosmetics.

Singapore Operations

IB Singapore subsidiary, Industrial Electronics Pte Ltd, continued to build sales on its main product segments such as LED Sign Boards, LED Video Scoreboards and Lightning Surge Arresters. The company supplied its products to Sports Singapore, local authorities and system integrators. In addition, it also provided maintenance for LED Traffic Lights in Singapore.

CHAIRMAN'S STATEMENT (Continued)

Dividend

The Board of Directors does not recommend any payment of dividend for the financial year ended 31 December 2017.

Prospects

The prevailing uncertainties in the global economy continue to pose challenges to the Group financial performance.

External factors such as increased competition in the industry, changing business trends, slowdown of economic growth and other macro-economic factors are among those that will continuously affect the prospects of the Group future performance.

The Group will continue to explore new investment opportunities and improve the efficiency of its operations to enhance shareholders' values.

Acknowledgements

On behalf of the Board of Directors, I wish to extend our appreciation to all stakeholders, business partners, management personnel and employees for their support and contributions over the past year.

I look forward to your continued support in the coming year as we work hard to take IB up to the next level of success.

Thank you.

Chow Ricky Kam Hung
Executive Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

Revenue and Gross Profit

The Group achieved higher revenue of RM75.33 million in FY2017 compared to RM30.87 million in FY2016. The higher revenue is mainly due to higher sales achieved by Industronics (HK) Ltd, a subsidiary based in Hong Kong in the sales of precision instruments (watches) which amounted to about HKD120 million (approximately RM65.90 million) in FY2017 compared to HKD32.90 million (approximately RM18.62 million) in FY2016.

Industronics Technology Limited has recorded revenue of HKD4 million (approximately RM2.20 million) in FY2017 in the provision of usage of cloud computing services compared to HKD7.80 million (approximately RM4.42 million) in FY2016 from sales of clothes and cosmetics.

For Malaysia operation, Industronics Berhad (IB) achieved sales of approximately RM5.08 million in FY2017 excluding intercompany sales compared to about RM4.56 million in FY2016 excluding intercompany sales. Average gross profit margin achieved is around 22% for both years.

Ademco (Malaysia) Sdn Bhd, another subsidiary based in Malaysia has generated revenue of about RM1.30 million in FY2017 compared to RM1.34 million in FY2016.

Revenue excluding intercompany sales generated by Industrial Electronics Pte Ltd (IEPL), a subsidiary based in Singapore was about SGD0.12 million (approximately RM0.37 million) in FY2017 compared to SGD0.17 million (approximately RM0.52 million) in FY2016.

Other Operating Income

Other operating income of the Group was RM1.94 million in FY2017 compared to RM0.90 million in previous year. The increase is mainly due to reversal of provision for doubtful debts of RM1.25 million by a subsidiary as the debt with provision made in previous year has been recovered.

Operating Expenses

Administrative expenses of the Group has increased to RM13.00 million in FY2017 compared to RM12.32 million in FY2016. The higher expenses is mainly due to higher employee benefits expenses incurred in FY2017 (RM11.40 million) compared to FY2016 (RM10.67 million).

Other operating expenses was lower in FY2017 (RM1.03 million) as compared to FY2016 (RM2.82 million). This is mainly due to higher provision for doubtful debts of RM2.54 million in FY2016.

Loss For The Year

Group loss for the year was lower at RM6.55 million compared to RM13.63 million in FY2016 mainly due to higher revenue and gross profit generated in FY2017.

STATEMENT ON CORPORATE GOVERNANCE

THE CODE

The Board of Industronics Berhad (“Industronics” or “Company”) continues to uphold our commitment and responsibilities in ensuring an appropriate and sound system of corporate governance throughout the Company and its subsidiaries (“Group”) and will strive to continuously improve its governance process and structure towards enhancing long-term shareholder value.

The Board is pleased to set out below the insight of application of the principles and compliance with the recommendations as laid down in the Malaysian Code on Corporate Governance (“the Code”) by the Group throughout the financial year ended 31 December 2017 up to the date of this Annual Report.

BOARD OF DIRECTORS

Composition and Size of Board

The Board at the date of this statement consists of five (5) members comprising two (2) Independent Non-Executive Directors, one (1) Non-Independent Non-Executive Director and two (2) Executive Directors. The Board composition complied with the Paragraph 15.02 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”) whereby at least one third (1/3) of the Board must be of Independent Directors.

Board Balance and Board Effectiveness

The Board views the number of its Independent Directors as ideal to provide the necessary check and balance to the Board’s decision-making process. The Board deems the Board composition is appropriate in terms of its membership and size. There is a good mix of skills and core competencies in the Board membership. The Board is well represented by individuals with diverse professional backgrounds and experiences in the areas of technology, finance and accounting.

The Board did not appoint a Senior Independent Non-Executive Director to whom concerns may be conveyed as the Chairman of the Board encourages the active participation of each and every Board member in the decision making process.

The Board carries out assessment on the performance and effectiveness of the Board as a whole and the Board Committees on annual basis with the assistance of the Nomination Committee.

The Board does not have any gender diversity policy. Nevertheless, the Group is an equal opportunity employer and all appointments and employments are based strictly on merits and are not driven by any racial or gender basis.

In addition, the Independent Non-Executive Directors do not participate in the day-to-day management of the Company and do not engage in any business dealing or other relationship with the Company so that they are capable of exercising independent views, advice and judgment and act in the best interest of the Company and its shareholders.

Board Balance and Board Effectiveness (Continued)

The Chairman is responsible for ensuring the Board's effectiveness and conduct whilst the Executive Director has overall responsibility over the operating units, organizational effectiveness and implementation of the Board's policies and decisions. The Board is of the view that the balance of power is in place and no individual or groups of individuals on the Board dominate decisions of the Board.

The Board is collectively responsible for setting policies which promote the success of the Group. The Board is entrusted with the proper stewardship responsibility of providing strategic leadership, overseeing the business conduct ensuring the adequacy and integrity of financial information and enhancing the effectiveness of the Group's system of internal control and risk management process.

Board Charter

As part of governance process, the Board has formalised and adopted the Board Charter. This Board Charter sets out the composition and balance, roles and responsibilities, operation and processes of the Board and is to ensure that all Board members acting on behalf of the Company are aware of their duties and responsibilities as Board members.

A copy of the Board Charter is available at the Company's website.

Board Meetings

The Board meets at least once every quarter on a scheduled basis and additional meetings may be convened when necessary should major issues arise that need to be resolved between scheduled meetings. The quarterly Board meetings are scheduled in advance prior to the start of the financial year to allow the Directors to plan their appointments ahead and as such to facilitate full attendance at Board meetings. All proceedings, deliberations and conclusions of the Board Meetings are duly minuted and signed by the Chairman of the meeting.

During the financial year ended 31 December 2017, five (5) Board Meetings were held and details of the attendance record of each Director is set out below:-

Name of Directors	Attendance	% of Attendance
Liu Wing Yee Amy	5/5	100%
Leung Kwok Kuen Jacob	5/5	100%
Tsui Kwok Ho	4/5	80%
Lu Zhi Qin	5/5	100%
Fung Ling Yip	5/5	100%
Chong Kin Wah	1/1	100%

The Board is satisfied with the level of time commitment given by the Directors of the Company towards fulfilling their duties and responsibilities. This is evidenced by all the Directors have complied with the minimum 50% attendance requirement in respect of Board meeting as stipulated in the Listing Requirements of Bursa Securities. In the intervals between Board meetings, for any matters requiring Board's decisions, the Board's approvals are obtained through circular resolutions.

Supply of Information

Notice of meetings, setting out the agenda and accompanied by the relevant Board report and documents are provided to the Directors on a timely manner to allow the Directors to review and consider the agenda items to be discussed at Board meetings.

The Chairman of the Audit Committee will report to the Directors of the Board meetings of any salient audit findings deliberated at the Audit Committee meetings which require the Board's notice or direction.

Directors have access to all information within the Company whether as a full Board or in their individual capacity, in furtherance of their duties and receive regular information updates from the Management.

In addition, all Directors have full access to the advice and the services of the Company Secretaries who is responsible for ensuring the Board's meeting procedures are adhered to and that applicable rules and regulations are complied with. The Board recognises that the Company Secretaries are suitably qualified and capable of carrying out the duties required. The Board is satisfied with the service and support rendered by the Company Secretaries in discharge of their functions. When necessary, Directors may whether as a full Board or in their individual capacity, seek independent professional advice at the Company's expense to enable the directors to discharge their duties with adequate knowledge on the matters being deliberated.

The Management is responsible in providing the Board with all the information that will assist the Board in discharging its responsibilities and to facilitate informed decision making. The Company Secretary(ies) attends all Board meetings and ensures that accurate and adequate records of the proceedings of the Board meetings and decisions made are properly recorded. Senior Management of the Group, internal auditor and external auditors are also invited to attend Board meetings on specific items on the agenda which may require further clarification.

Appointment of Directors

The Nomination Committee established by the Board, is responsible for ensure that the Board has the appropriate balance and size, and the required mix of skills and experience and other core competencies and recommends the appointment of new Director to the Board.

The Nomination Committee would also assess and review the performance and effectiveness of the Board as a whole and the Committees of the Board on annual basis through a formal assessment evaluation. The contribution of each individual Director is reviewed and assessed through the Board's performance as a whole.

The performance evaluation and the result of assessment was tabled to the Nomination Committee for review and reporting to the Board.

From this annual performance assessment, the Board would also be able to review and assess the required mix of skills and experience and other qualities of the Board on an annual basis.

Re-appointment and re-election of Directors

The Nomination Committee will assess the effectiveness of the Board as a whole and the contribution of each individual director, including review of the independency of the Independent Directors.

In respect of the financial year under review, the Nomination Committee had conducted the annual review and the performance of the Board Committees and the performance assessment of each individual Director.

In accordance with the provisions of the Company's Articles of Association, at least one-third (1/3) of the Board of Directors are required to submit themselves for re-election by rotation at each annual general meeting. Directors who are appointed by the Board are subject to re-election by shareholders at the first annual general meeting after their appointment.

The Articles of Association of the Company also requires all directors to retire from office once in every three (3) years, including the Managing Director and such Directors shall be eligible for re-election.

None of the current independent board members had served the company for more than nine (9) years as per the recommendations of the Code. Should the tenure of an independent director exceed nine (9) years, shareholders approval will be sought at a General Meeting or if the services of the director concerned are still required, the director concerned will be re-designated as a non-independent director.

In view thereof, the Board recommends that the retiring directors at the forthcoming 43rd AGM be re-elected.

Director's Training and Education

All the Directors of the Company, except for Directors joined in year 2018 have attended and successfully completed the Mandatory Accreditation Programme (MAP) prescribed by Bursa Securities for director of public listed companies.

Directors' training is an on-going process as the Directors recognize the need to continually develop and refresh their skills and knowledge and to update themselves on the developments in the related industry and business, relevant changes in laws and regulations and corporate governance matters from time to time.

The Directors will continue to undergo other relevant training programmes to enable them to enhance their knowledge and skills and be updated on new regulatory requirements.

Board Committees

The Board has established several Board Committees whose compositions and terms of reference are in line with the best practices of the Code. The functions and terms of reference of the Board committees as well as authority delegated to these Board Committees have been clearly defined by the Board.

The composition of the Board Committees comprises members of the Board. The Chairman of the committees will report to the Board on the outcome of the respective committee meetings and such reports are incorporated into the minutes of Board meetings.

INTERNAL AUDIT FUNCTION

The Board has engaged an independent professional firm for the provision of Internal Audit (IA) services to Industronics Group. The professional firm reviews the adequacy and integrity of internal control systems in key business areas within the Group operations and reports to the Audit Committee on a quarterly or half yearly basis.

The professional firm assisted the Audit Committee in discharging their roles and responsibilities with regards to assessing the adequacy and integrity of the system of internal control systems by undertaking an Internal Audit Plan for Industronics Group.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

The Malaysian Code on Corporate Governance ("Code") sets out the principle that the Board of Directors ("Board") of a listed company should establish a sound risk management framework and internal control system to safeguard shareholders' investments and the Group's assets.

The Statement on Risk Management and Internal Control outlines the nature and scope of the risk management and internal control of the Group during the year.

RESPONSIBILITY

The Board of Directors is committed to maintain a system of risk management and internal controls in financial, operational and compliance to achieve the following objectives:

- Safeguard assets of the Group and shareholders' interest;
- Identify and manage risks affecting the Group;
- Compliance with regulatory requirements; and
- Operational results are closely monitored and substantial variances are promptly explained.

The Board affirms the overall responsibility for maintaining a sound system of risk management and of internal controls and for reviewing its adequacy and integrity so as to safeguard shareholders' investment and the Group's assets.

However, there are limitations that are inherent in any system of risk management and internal controls and such systems are designed to manage and control risks appropriately rather than to eliminate them. Hence, it is imperative to note that these systems can only provide reasonable and not absolute assurance against material misstatement or loss.

Key risk management and internal control processes

The Group has instituted an on-going process for identifying, evaluating and managing the significant risks affecting the achievement of its business objectives.

This process includes identifying major risks involved in entering into major contracts.

The process is regularly reviewed by the Board and is in accordance with the "Statement of Risk Management and Internal Control: Guidelines for Directors of Issued Listers". The Board has delegated to management the implementation of the Board's policies, procedures and guidelines on risk and control to identify and evaluate the risks faced and design, operate and monitor a suitable system of internal control to manage these risks.

The Board has outsourced the internal audit functions to RMS Corporate Management Sdn Bhd ("RMS"), with the primary objective of assisting the Board on the following:

- Review the adequacy and integrity of the Group's system of internal controls to manage the risks faced by the Group;
- Check compliance to policies and procedures and recommended business practices; and
- Review and identify any potential areas for improvement in the effectiveness and efficiency of the business processes (where applicable).

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL (continued)

Towards this purpose, RMS has developed an annual Internal Audit Plan using a risk-based approach, which was presented to and approved by the Audit Committee. RMS performed periodic internal control reviews according to the approved Internal Audit Plan to assess the adequacy and integrity of the system of internal controls of the major business units within the Group. The audit observations, recommendations for improvement and status of actions taken by the management to address the issues were reported to the Audit Committee. Follow-up audits are conducted to assess the status of implementation of corrective actions and recommendations. The total cost incurred for the internal audit function for the financial year ended 31 December 2017 was RM16,000.

The Board also takes cognisance the improvement points highlighted by internal and external auditors and acknowledges that reviewing and enhancing the Group's system of internal controls is a continuing process.

Key elements of the system of internal controls are as follows:

Term of Reference

Clear definition of the terms of reference, i.e. functions, authorities and responsibilities of the various committees of the Board of Directors has been established.

Operating structure with clearly defined lines of responsibility

The operating structure includes defined delegation of responsibilities to the committees of the Board, the senior management and the operating units.

Independence of the Audit Committee

The Audit Committee comprises non-executive members of the Board who are majority independent directors. The Committee holds regular meetings to deliberate on findings and recommendations and reports back to the Board.

Control procedures

Operating Procedures Manuals that set out the policies, procedures and practices are adopted by all companies in the Group to ensure clear accountabilities and control procedures are in place for all business units.

Employee competency

Emphasis is placed on the continuing enhancement of the quality and abilities of employees where continuing education, training and development are actively carried out through various programmes.

Internal audit

Periodical internal control reviews were conducted by internal auditors to assess the adequacy and integrity of the system of internal controls and compliance with policies, procedures and recommended business practices. Control deficiencies and relevant recommendations for business improvement as well as management's actions to address the control deficiencies were reported to the Audit Committee.

Financial Reporting

Regular monitoring and review of financial results by the management and formulation of action plan to address areas of concern.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL (continued)

ISO 9001: 2008

An ISO 9001: 2008 Quality Management System, which is subject to regular review and improvement, continually manages and administers the quality requirement of the Group's products and services.

Insurance

Adequate insurance on major assets, i.e. stocks, property, plant and equipment of the Group is in place to ensure that the Group is sufficiently covered against any mishap that may result in material losses to the Group.

The Board remains committed to enhance the Group's control environment and processes

For the financial year under review, the Board is of the view that the existing system of risk management and internal controls are satisfactory and adequate and has received assurance from the Executive Director of the Company that the company's risk management and internal control system are operating adequately and effectively, in all material aspects, based on the risk management and internal control system of the company.

As an on-going process of improvement, the Group will continue to take necessary measures to further strengthen its risk management and internal controls.

Review of the statement by external auditors

The external auditors have reviewed this Statement on Risk Management and Internal Control for inclusion in the annual report of the Company for the year ended 31 December 2017 and reported to the Board that nothing come to their attention that causes them to believe that the statement is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and integrity of the system of internal controls.

INDEMNITY AND INSURANCE FOR DIRECTORS AND OFFICERS

There was no indemnity given to or liability insurance effected for any director or officer of the Group and the Company during the financial year.

OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were made out, the directors took reasonable steps:

- to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- to ensure that any current assets which were unlikely to realise their book values in the ordinary course of business had been written down to their expected realisable values.

At the date of this report, the directors are not aware of any circumstances:

- which would render the amounts written off of bad debts or the amount of the allowance for doubtful debts in the financial statements inadequate to any substantial extent or the values attributed to current assets misleading; and
- which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

In the interval between the end of the financial year and the date of this report:

- (a) no item, transaction or event of a material and unusual nature has arisen which, in the opinion of the directors, would substantially affect the results of the operations of the Group and of the Company for the current financial year; and
- (b) no charge has arisen on the assets of the Group and of the Company which secures the liabilities of any other person nor has any contingent liability arisen in the Group and in the Company.

No contingent or other liability of the Group and of the Company has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may affect the ability of the Group and of the Company to meet their obligations when they fall due.

At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements misleading.

SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

The significant events during the financial year are disclosed in *Note 38* to the financial statements.

SIGNIFICANT EVENT SUBSEQUENT TO THE FINANCIAL YEAR

The significant event subsequent to the financial year is disclosed in *Note 39* to the financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF INDUSTRONICS BERHAD (Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Industronics Berhad, which comprise the statements of financial position of the Group and of the Company as at 31 December 2017, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set on pages 41 to 123.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2017, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of Companies Act 2016 in Malaysia.

Basis of Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Company No. 23699-X

We have fulfilled the responsibilities described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements of the Group and of the Company. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Risk area and rationale

Our response

Intangible Assets (Note 8 to the financial statements)

The Group has capitalised significant software development expense on openstack software platform, file hosting platform and game server platform.

As at 31 December 2017, the carrying amount of software development represents 34% of the Group's total assets, we considered this as a key audit matter.

Our audit procedures included, amongst others:

- assessed the appropriateness of the Group's intangible assets recognition accounting policies;
- reviewed the classification and capitalisation in accordance to the nature of the intangible assets; and
- obtained the list of additions during the financial year and verified to the supporting documents.

Trade and Other Receivables (Note 11 to the financial statements)

Receivables are subject to credit risk exposure.

As at 31 December 2017, trade and other receivables represent 25% of the Group's total assets.

We considered this as a key audit matter as the assessment of recoverability of receivables involved judgements and estimation uncertainty in analysing historical bad debts, customer concentration, customer creditworthiness, current economic trends, customer payment terms, etc.

Our audit procedures included, amongst others:

- obtained an understanding of the Group's control over the receivable collection process and making inquiries regarding the action plans to recover the overdue amounts;
- reviewed the ageing analysis of receivables and testing the reliability thereof;
- reviewed subsequent collections from receivables; and
- evaluated the reasonableness and adequacy of the impairment losses provided.

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Company No. 23699-X

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Company No. 23699-X

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report the subsidiary companies of which we have not acted as auditors, are disclosed in *Note 6* to the financial statements.

Company No. 23699-X

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content for this report.

INDUSTRONICS BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 December 2017

1. GENERAL INFORMATION

The Company is a public limited company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad.

The principal activities of the Company are designing, manufacturing and installation of electronics and microprocessor controlled products, telecommunication system, audio video multimedia systems, intelligent transportation systems and information communication technology related system. The principal activities of the subsidiary companies are as set out in *Note 6*. There were no significant changes in the nature of these activities during the financial year.

The address of the registered office of the Company is Suite 18.06, 18th Floor, Wisma Zelan, No. 1, Jalan Tasik Permaisuri 2, Bandar Tun Razak, 56000 Kuala Lumpur.

The address of the principal place of business of the Company is No. 9, Jalan Taming 3, Taman Tanming Jaya, 43300 Seri Kembangan, Selangor.

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency").

The financial statements of the Group and of the Company are presented in Ringgit Malaysia ("RM"), which is also the Company's functional currency.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Group and of the Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act 2016 in Malaysia. The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

On 1 January 2017, the Group and the Company adopted the following Amendments to MFRSs issued by the Malaysian Accounting Standards Board, effective for the annual periods beginning on or after 1 January 2017:

Amendments to MFRS 107 Statement of Cash Flows - Disclosure Initiative

Amendments to MFRS 112 Income Taxes - Recognition of Deferred Tax Assets for Unrealised Losses

Annual Improvements to MFRS Standards 2014 - 2016 Cycle

- Amendments to MFRS 12 Disclosure of Interests in Other Entities

The adoption of the Amendments to MFRS 107 has required additional disclosure of changes in liabilities arising from financing activities. Other than that, the adoption of these amendments did not have any material impacts to the financial statements of the Group and of the Company.

MFRSs, Amendments to MFRSs and Issue Committees (“IC”) Interpretation that have been issued but are not yet effective

The Group and the Company have not adopted the following MFRSs, Amendments to MFRSs and IC Interpretation that have been issued but not yet effective:

MFRSs/Amendments to MFRSs/IC Interpretation	Effective for annual periods beginning on or after

Amendments to MFRS 128 Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be announced

The adoption of these standards and amendments that have been issued but not yet effective are not expected to have a material impact to the financial statements of the Group and of the Company except as discussed below:

MFRS 9 Financial Instruments (IFRS 9 as issued by IASB in July 2014)

MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces earlier versions of MFRS 9 and introduces a package of improvements which includes a classification and measurement model, a single forward looking ‘expected loss’ impairment model and a substantially reformed approach to hedge accounting. MFRS 9 when effective will replace MFRS 139 Financial Instruments: Recognition and Measurement.

MFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity’s business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income not recycling. There is now a new expected credit loss model that replaces the incurred loss impairment model used in MFRS 139. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. MFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the ‘hedged ratio’ to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under MFRS 139.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a goods or service and thus has the ability to direct the use and obtain the benefits from the goods or services. The standard replaces MFRS 118 Revenue, MFRS 111 Construction Contracts and related Issues Committee Interpretations.

MFRS 16 Leases

MFRS 16 eliminates the lessee's classification of leases as either operating leases or finance leases and introduces a single lessee accounting model. Applying the new model, a lessee is required to recognise right-of-use assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value.

The adoption of the above MFRSs will result in a change in accounting policy. The Group and the Company are currently assessing the financial impact of adopting these MFRSs.

3. SIGNIFICANT ACCOUNTING POLICIES

All significant accounting policies set out below are consistent with those applied in the previous financial year unless otherwise stated.

(a) Basis Of Consolidation

The financial statements of the Group include the audited financial statements of the Company and its subsidiary companies made up to the end of the financial year. The financial statements of the subsidiary companies used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

(i) *Acquisition method of accounting for business combinations*

Acquisition of subsidiary companies is accounted for by applying the acquisition method. Under the acquisition method of accounting, identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

In business combinations achieved in stages, previously held equity interests in the acquiree are re-measured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

The Group elects, for each individual business combination, whether to recognise non-controlling interest in the acquiree (if any) at fair value on the acquisition date, or the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill in the statements of financial position. In instances where the latter amount exceeds the former, the excess is recognised as a gain on bargain purchase in profit or loss on the acquisition date.

Subsidiary companies are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

(ii) *Non-controlling interest*

Non-controlling interest represents the equity in subsidiary companies not attributable, directly or indirectly, to owners of the Company, and is presented separately in the consolidated profit or loss and within equity in the consolidated financial position, separately from equity attributable to owners of the Company.

Changes in the Company's ownership interest in a subsidiary company that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary company. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

(b) Property, Plant And Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses where applicable.

Land and buildings are revalued periodically, at least once in every 3 years. Surpluses arising from the revaluation are recognised in other comprehensive income and accumulated in equity under the revaluation reserve. Deficits arising from the revaluation, to the extent that they are not supported by any previous revaluation surpluses, are recognised in profit or loss.

Property, plant and equipment are depreciated on a straight line basis to write off the cost of each asset to their residual values over their estimated useful lives.

Property, plant and equipment are depreciated on a straight line basis to write off the cost of each asset to their residual values over their estimated useful lives at the following annual rates:

	%
Buildings	2
Plant and machinery	10 - 20
Factory tools and equipment	10 - 15
Motor vehicles	20
Computer and office equipment	10 - 33
Furniture, fittings and renovation	5 - 50

Freehold land is not depreciated.

The residual value, useful lives and depreciation method of property, plant and equipment are reviewed at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

On disposal of property, plant and equipment, the difference between the net disposal proceeds and the carrying amount is credited or charged to profit or loss in determining profit from operations.

(c) Investment In Subsidiary Companies

Subsidiary companies are entities, including structured entities, controlled by the Group. The Group controls the entities when it is exposed, or has rights, to variable returns from its involvement with the entities and has the ability to affect those returns through its power over the entities.

In the Company's separate financial statements, investment in subsidiary companies is stated at cost less any impairment, unless the investment is classified as held for sale. The impairment loss is recognised in profit or loss.

On disposal of an investment, the difference between net disposal proceeds and their carrying amounts is charged or credited to profit or loss.

(d) Investment Properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Such properties are stated at cost less accumulated depreciation and any accumulated impairment losses. No depreciation is provided on the freehold land within investment properties as it has an indefinite useful life. Depreciation on the building is provided at 2% based on the straight line basis to write off the cost of property to its residual value over its estimated useful life.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in profit or loss in the year of retirement or disposal.

Transfer is made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. For a transfer from owner-occupied property to investment property, the property is accounted for in accordance with the accounting policy for a property, plant and equipment set out in *Note 3(b)* up to the date of change in use.

(e) Intangible Assets - Research And Development Expenditures

Research expenditure is recognised as an expense when it is incurred.

Development expenditure is recognised as an expense except that expenditure incurred on development projects relating to the design and testing of new or improved products or process are recognised as intangible assets if, and only if an entity can demonstrate all of the following:

- i. its ability to measure reliably the expenditure attributable to the assets under development;
- ii. the product or process is technically and commercially feasible;
- iii. its future economic benefits are probable;
- iv. its ability to use or sell the developed assets; and
- v. the availability of adequate technical, financial and other resources to complete the assets under development.

Capitalised development expenditures are measured at cost less accumulated amortisation and impairment losses, if any. Development expenditure initially recognised as an expense is not recognised as asset in the subsequent period.

Development expenditures are amortised on a straight-line basis over a period of five years. Impairment is assessed whenever there is an indication of impairment and the amortisation period and method are also reviewed at each reporting date.

(f) Financial Instruments

Financial instruments are recognised in the statements of financial position when the Group and the Company have become a party to the contractual provisions of the instruments.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument classified as a liability, are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Group and the Company have a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially, at its fair value, plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

Financial instruments recognised in the statements of financial position are disclosed in the individual policy statement associated with each item.

(i) *Financial Assets*

On initial recognition, financial assets are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate.

- *Financial Assets at Fair Value Through Profit or Loss*

Financial assets are classified as financial assets at fair value through profit or loss when the financial asset is either held for trading or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. Derivatives are also classified as held for trading unless they are designated as hedges.

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. Dividend income from this category of financial assets is recognised in profit or loss when the Group's and the Company's rights to receive payment is established.

- *Held-to-maturity Investments*

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the management has the positive intention and ability to hold to maturity. Held-to-maturity investments are measured at amortised cost using the effective interest method less any impairment loss, with revenue recognised on an effective yield basis.

- *Loans and Receivables*

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment loss. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

- *Available-for-sale Financial Assets*

Available-for-sale financial assets are non-derivative financial assets that are designated in this category or are not classified in any of the other categories.

After initial recognition, available-for-sale financial assets are remeasured to their fair values at the end of each reporting period. Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in the fair value reserve, with the exception of impairment losses. On derecognition, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified from equity into profit or loss.

Dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's and the Company's rights to receive payments is established.

Investments in equity instruments whose fair value cannot be reliably measured are measured at cost less accumulated impairment losses, if any.

(ii) *Financial Liabilities*

Financial liabilities are recognised in the statements of financial position when, and only when the Group and the Company have become a party to the contractual provision of the financial instrument.

All financial liabilities are initially measured at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method other than those categorised as fair value through profit or loss.

- *Financial Liabilities at Fair Value Through Profit or Loss*

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. Derivatives are also classified as held for trading unless they are designated as hedges or a derivative that is a financial guarantee contract.

- *Other Financial Liabilities*

Other financial liabilities are non-derivatives financial liabilities. Other liabilities are subsequently measured at amortised cost using the effective interest method.

A financial liability is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iii) *Equity Instruments*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from proceeds.

Dividends on ordinary shares are recognised as liabilities when approved for appropriation.

A financial asset is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(g) Impairment

(i) *Impairment of Financial Assets*

All financial assets (other than those categorised at fair value through profit or loss) are assessed at the end of each reporting period whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. For an equity instrument, a significant or prolonged decline in the fair value below its cost is considered to be objective evidence of impairment.

An impairment loss in respect of held-to-maturity investments and loans and receivables is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

An impairment loss in respect of available-for-sale financial assets is recognised in profit or loss and is measured as the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the fair value reserve. In addition, the cumulative loss recognised in other comprehensive income and accumulated in equity under fair value reserve, is reclassified from equity to profit or loss.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised. In respect of available-for-sale equity instruments, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss made is recognised in other comprehensive income.

(ii) *Impairment of Non-financial Assets*

The carrying amounts of assets, other than those to which MFRS 136 - Impairment of Assets does not apply, are reviewed at the end of each reporting period for impairment when there is an indication that the assets might be impaired. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. The recoverable amount of the assets is the higher of the assets' net selling price and their value-in-use, which is measured by reference to discounted future cash flow.

An impairment loss is charged to profit or loss immediately unless the asset is carried at its revalued amount. Any impairment loss of a revalued asset is treated as a revaluation decrease to the extent of a previously recognised revaluation surplus for the same asset.

In respect of assets other than goodwill, and when there is a change in the estimates used to determine the recoverable amount, a subsequent increase in the recoverable amount of an asset is treated as a reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairment loss been recognised. The reversal is recognised in profit or loss immediately, unless the asset is carried at its revalued amount.

A reversal of an impairment loss on a revalued asset is credited to other comprehensive income. However, to the extent that an impairment loss on the same revalued asset was previously recognised as an expense in profit or loss, a reversal of that impairment loss is recognised as income in profit or loss.

(h) Inventories

Inventories are valued at the lower of cost and net realisable value.

Cost is determined using the weighted average method. The cost of raw materials comprises the original cost of purchases plus the cost of bringing these inventories to their intended location and condition. The cost of finished goods and work-in-progress includes the cost of raw materials, direct labour and appropriate allocation of manufacturing overheads.

Net realisable value is the estimate of the selling price in the ordinary course of business, less the estimated cost of selling expenses. Write down is made where necessary for damaged, obsolete and slow-moving inventories.

(i) Amount Due From/To Contract Customers

Construction contracts are stated at cost plus attributable profits less applicable progress billings and allowances for foreseeable losses, if any.

When the outcome of a construction contract can be estimated reliably, contract revenue and contract cost are recognised as revenue and expenses respectively by reference to the stage of completion of the contract activities at the reporting date. The stage of completion is determined by the actual costs incurred for work performed to-date in relation to the estimated total contract costs.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable and contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

The aggregate of the costs incurred and the profit or loss recognised on each contract is compared against the progress billings up to the period end. Where costs incurred and recognised profits (less recognised losses) exceed progress billings, the balance is shown as amount due from contract customers. Where progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is shown as amount due to contract customers.

(j) Finance Lease

Assets acquired under finance lease arrangements are capitalised at their purchase cost and the total instalments payable less undue interests under finance lease agreements are recorded as liabilities. The interests are allocated to profit or loss over the year of the respective agreements based on the remaining balance of liability for each period during the finance lease term. Assets acquired under finance lease arrangements are depreciated over the expected useful lives of equivalent owned assets.

(k) Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

(l) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Group and of the Company. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

(m) Provisions For Liabilities

Provisions for liabilities are recognised when the Group and the Company have a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and when a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

Any reimbursement that the Group or the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision. The expense relating to any provision is presented in profit or loss, net of any reimbursement.

(n) Related Parties

A party is related to an entity if:

- (i) directly, or indirectly through one or more intermediaries, the party:
 - a. controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiary companies and fellow subsidiary companies);
 - b. has an interest in the entity that gives it significant influence over the entity, or
 - c. has joint control over the entity;
- (ii) the party is an associate of the entity;
- (iii) the party is a joint venture in which the entity is a venture;
- (iv) the party is a member of the key management personnel of the entity or its parent;
- (v) the party is a close member of the family of any individual referred to in (i) or (iv);
- (vi) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- (vii) the party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is a related party of the entity.

Close members of the family of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

Key management personnel is defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Company either directly or indirectly. The key management personnel includes all the directors of the Company and directors of the subsidiary companies, members of senior management and chief executive officer of the Company as well as members of senior management and chief executive officers of major subsidiary companies of the Group.

(o) Foreign Currency Translation

(i) *Transactions And Balances*

Foreign currency monetary assets and liabilities have been converted into Ringgit Malaysia (“RM”) at the rates of exchange ruling at the end of the reporting period. Transactions in foreign currencies have been converted at rates ruling at the transaction dates. Exchange differences arising from the settlement of foreign currency transactions and from the translation of foreign currency monetary assets and liabilities are included in profit or loss. Non-monetary assets and liabilities are translated using exchange rates that existed when the values determined.

(ii) *Foreign Operations*

Assets and liabilities of foreign operations, including goodwill and fair value adjustments arising from the acquisition of foreign operations, are translated into RM for consolidation at the rates of exchange ruling at the end of the reporting period. Revenues and expenses of foreign operations are translated into RM at the average rates for the financial period. All exchanges differences arising from translation are recognised directly to other comprehensive income and accumulated in equity under translation reserve. On disposal of a foreign operation, accumulated translation differences recognised in other comprehensive income relating to that particular foreign operation is reclassified from equity to comprehensive income.

(p) Revenue Recognition

- (i) Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services rendered in the ordinary course of the Group's activities. Revenue from sale of goods and services is recognised upon delivery of goods and customers' acceptance and services are performed, and where applicable, net of returns and trade discounts.
- (ii) Revenue on contracts is recognised on the percentage of completion method unless the outcome of the contract cannot be reliably determined, in which case revenue on contracts is only recognised to the extent of contract costs incurred that are recoverable.

The stage of completion is determined based on total costs incurred to date over the estimated total project costs.

- (iii) Service income from provision of usage of cloud services is recognised when the services are rendered.
- (iv) Interest income is recognised using the effective interest rate.
- (v) Rental income is accounted for in straight line basis over leased terms.
- (vi) Management fees are recognised when the services are rendered.

(q) Income Tax Expense

Income taxes for the year comprise current and deferred tax.

Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences other than those that arise from goodwill or excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the business combination costs or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the tax rates that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax is recognised in profit or loss, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also charged or credited directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the business combination costs. The carrying amounts of deferred tax assets are reviewed at end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilised.

(r) Employee Benefits

(i) *Short Term Employee Benefits*

Wages, salaries, paid annual leave, paid sick leave, bonuses and non-monetary benefits are accrued in the period in which the associated services are rendered by employees of the Group and of the Company. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick and medical leave are recognised when the absences occur. The expected cost of accumulating compensated absences is measured as additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period. Past-service costs are recognised immediately in profit or loss.

(ii) *Defined Contribution Plan*

The Group's and the Company's contributions to defined contribution plans regulated and managed by the government, are charged to profit or loss in the period to which they relate. Once the contributions have been paid, the Group and the Company have no further financial obligations.

(s) Borrowing Costs

Borrowing costs, directly attributable to the acquisition and construction of property, plant and equipment are capitalised as part of the cost of those assets, until such time as the assets are ready for their intended use or sale. Capitalisation of borrowing costs is suspended during extended periods in which active development is interrupted.

All other borrowing costs are recognised in profit or loss as expenses in the period in which they incurred.

(t) Cash And Cash Equivalents

For the purposes of the statements of cash flows, cash and cash equivalents comprise cash in hand, bank balances, bank overdrafts and short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(u) Earnings Per Ordinary Share

The Group presents basic and diluted earnings per share (“EPS”) data for its ordinary shares.

Basic EPS is calculated by dividing the profit or loss attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

Diluted EPS is determined by adjusting the profit or loss attributable to owners of the Company and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(v) Operating Segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group’s other components. An operating segment’s operating results are reviewed regularly by the chief operating decision makers to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available. An operating segment may engage in business activities for which it has yet to earn revenues.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and judgements that affect the application of the Group's and the Company's accounting policies and disclosures, and have a significant risk of causing a material adjustment to the carrying amounts of assets, liabilities, income and expenses are discussed below.

(a) Depreciation of Property, Plant and Equipment and Amortisation of Intangible Assets

The estimates for residual values, useful lives and related depreciation or amortisation charges for the property, plant and equipment and intangible assets are based on commercial and production factors which could change significantly as a result of technical innovations and competitors' action in response to the market conditions.

The Group and the Company anticipate that the residual values of their property, plant and equipment and intangible assets will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable or amortisable amount.

Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation or amortisation charges could be revised.

The carrying amount of property, plant and equipment and intangible assets are disclosed in *Notes 5 and 8*.

(b) Impairment of Loans and Receivables

An impairment loss is recognised when there is objective evidence that a financial asset is impaired. Management specifically reviews its loans and receivables and analyses historical bad debts, customer concentrations, customer creditworthiness, current economic trends and changes in the customer payment terms when making a judgement to evaluate the adequacy of the allowance for impairment loss. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. If the expectation is different from the estimation, such difference will impact the carrying value of receivables.

The carrying amount of loans and receivables are disclosed in *Note 32(c)*.

32. FINANCIAL INSTRUMENTS

The Group's and the Company's activities are exposed to foreign currency risk, interest rate risk, equity price risk, credit risk and liquidity risk. The Group's and the Company's overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's and the Company's financial performance.

(a) Financial Risk Management Policies

The Group's and the Company's policies in respect of the major areas of treasury activity are as follows:

(i) *Foreign Currency Risk*

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rate. The currencies giving rise to this risk are primarily Singapore Dollar ("SGD"), United States Dollar ("USD") and Hong Kong Dollar ("HKD").

The Group is exposed to foreign currency risk on transactions and balances that are denominated in currencies other than the respective functional currencies of the Group's entities. Foreign currency risk is monitored closely on an ongoing basis to ensure that the net exposure is at an acceptable level.

The net unhedged financial assets/liabilities of the Group not denominated in their functional currencies of the respective companies are as follows:-

<i>Group</i>	Singapore Dollar (SGD) RM	United States Dollar (USD) RM	Hong Kong Dollar (HKD) RM	Others RM	Total RM

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the Group's and of the Company's financial instrument will fluctuate because of changes in market interest rates.

The Group's and the Company's exposures to interest rate risk arise mainly from its interest bearing financial liabilities. The Group's policy in dealing with interest bearing financial liabilities is to obtain the financing with the most favourable interest rates in the market.

Fair Value Sensitivity Analysis For Fixed Rate Instrument

The Group and the Company do not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the end of the reporting period would not affect profit or loss.

Interest Rate Risk Sensitivity Analysis

The following table details the sensitivity analysis on the floating rate instruments to a reasonably possible change in the interest rate as at the end of the reporting period, with all other variables held constant:

	<i>Group</i>		<i>Company</i>	
	2017	2016	2017	2016
	RM	RM	RM	RM
Effects on loss before taxation/ equity				
Increase of 100 basis points	3,341	1,180	3,226	849
Decrease of 100 basis points	<u>(3,341)</u>	<u>(1,180)</u>	<u>(3,226)</u>	<u>(849)</u>

(iii) Equity Price Risk

Equity price risk is the risk that the fair value or future cash flow of the financial statements will fluctuate because of changes in market prices (other than currency or interest rate).

The Group is exposed to equity price risk arising from their investment in quoted shares. The quoted shares in Malaysia are listed on Bursa Malaysia Securities Berhad. These instruments are classified as available-for-sale financial assets. The Group does not have exposure to commodity price risk.

Equity Price Risk Sensitivity Analysis

A 10% (2016: 10%) increase in the market price of the quoted shares as at the end of the reporting period would have increased equity by RM8,748 (2016: RM11,858). A 10% (2016: 10%) decrease in market price would have had equal but opposite effect on equity.

(iv) Credit Risk

Credit risk is a risk of loss that may arise on outstanding financial instruments should a counterpart default on its obligations. The Group's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from trade and other receivables. The maximum exposure to credit risk is represented by the carrying amount of this financial asset in the statements of financial position reduced by the effects of any netting arrangements with counterparties.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of the trade and other receivables as appropriate. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. Impairment is estimated by management based on prior experience and the current economic environment.

Exposure to Credit Risk

At the reporting date, the Group's and the Company's maximum exposures to credit risk are represented by the carrying amount of each class of financial assets recognised in the statements of the financial position.

Credit Risk Concentration Profile

The Group has no significant concentration of credit risk that may arise from exposure to a single receivable or to groups of receivables at reporting date.

The Group determines concentrations of credit risk by monitoring the business segment of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's and the Company's trade receivables at the end of the reporting period are as follows:

	2017		2016

	<u>3,612,432</u>	<u>(2,262,835)</u>	<u>1,349,597</u>

Trade receivables that are neither past due nor impaired are regular customers of the Group. The Group uses ageing analysis to monitor the credit quality of the trade receivables. Any receivables having significant balances past due or more than 12 months, which are deemed to have higher credit risk, are monitored individually.

Trade receivables that are past due but not impaired are unsecured in nature. They are creditworthy receivables.

At the end of the reporting period, trade receivables that are individually impaired were those that have defaulted in payments. These receivables are not secured by any collateral or credit enhancement.

The collective impairment is determined based on estimated irrecoverable amounts, determined by reference to past default experience.

(v) *Liquidity Risk*

Liquidity risk is the risk that the Group and the Company will encounter difficulty in meeting financial obligations due to shortage of funds.

The Group's and the Company's exposures to liquidity risk arise mainly from general funding and business activities. The Group and the Company practise risk management by maintaining sufficient cash balances and the availability of funding through certain committed credit facilities.

The following tables set out the maturity profile of the financial liabilities as at the end of the reporting period based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on the rates at the end of the reporting period):

(b) Capital Risk Management

The Group and the Company manage their capital to ensure that the Group and the Company will be able to maintain an optimal capital structure so as to support their businesses and maximise shareholders' value. To achieve this objective, the Group and the Company may make adjustments to the capital structure in view of changes in economic conditions, such as issuing new shares.

The Group and the Company manage their capital based on debt-to-equity ratio. The debt-to-equity ratio is calculated as net debt divided by total equity. Net debt for the Group is calculated as term loans, trade and other payables less cash and cash equivalents. Net debt for the Company is calculated as term loans, trade and other payables plus amount owing to subsidiary companies less cash and cash equivalents.

The debt-to-equity ratios of the Group and of the Company as at the end of the financial year were as follows:

	<i>Group</i>		<i>Company</i>	
	2017	2016	2017	2016
	RM	RM	RM	RM
Trade and other payables	10,230,993	10,690,750	3,883,729	6,511,739

(d) Fair Values Of Financial Instruments

The carrying amounts of the financial assets and financial liabilities of the Group and of the Company reported in the financial statements approximated their fair values due to the short term nature, except for:

(i) Quoted shares in other investments

Quoted shares in other investments are carried at fair value by reference to their quoted closing prices at the end of the reporting period.

- (ii) Financial instruments that do not approximate their fair values are as follows:

	<i>Group</i>		<i>Company</i>	
	Carrying amount RM	Fair value RM	Carrying amount RM	Fair value RM
2017				
<u>Financial liabilities</u>				
Finance lease liabilities	11,309	11,164	11,309	11,164
2016				
<u>Financial liabilities</u>				
Finance lease liabilities	130,050	129,211	19,728	18,889

The fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at market rate of interest at the end of the financial year.

Fair value estimates are made at a specific point in time and based on relevant market information and information about the financial instruments. These estimates are subjective in nature, involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(e) Fair Value Hierarchy

The fair value measurement hierarchies used to measure assets and liabilities carried at fair value in the statements of financial position as at 31 December 2017 are as follows:

- (i) Level 1: fair value is derived from quoted prices (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2: fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.
- (iii) Level 3: fair value is estimated using unobservable inputs for the financial assets and liabilities.

	<i>Group and Company</i>	
	2017	2016
	RM	RM
<u>Level 1</u>		
Quoted shares	87,480	118,584

The Group and the Company do not have any financial liabilities carried at fair value nor any financial instruments classified as Level 2 and Level 3 as at 31 December 2017.

33. OPERATING SEGMENTS

During the year, for management purposes, the Group was reorganised into business units based on their services and has four reportable business segments as follows:

Electronics and system integration	Design, manufacturing and installation of electronics and microprocessor controlled products. Trading, maintenance and supply of industrial electronic equipment. Intelligent transportation system and major system integration projects involving Information Communication Technology, supply and service of telecommunication equipment, audio visual multimedia systems.
Security systems, mechanical and electrical engineering ("M&E")	Supply and installation of security systems. Specialist in fire protection system design and installation works and mechanical engineering services. Industrial maintenance and service works. Trading of transport equipment and provision of related services. Manufacturing of filter inclusive of import and marketing.
Sheet metal fabrication	Involving in precision sheet metal fabrication works and manufacturing of precision fabrication.
Other operations	Involving in provision of mobile entertainment services, trading of precision instruments, integrated internet marketing services, development of IT applications, general trading and provision of hospitality services.

Geographical segments

The Group operates in three principal geographical areas based on location of assets:

Malaysia	All main businesses disclosed in primary reporting format-business segments.
Hong Kong	Provision of mobile entertainment services, trading of precision instruments, integrated internet marketing services, development of IT applications, general trading and provision of hospitality services.
Singapore	Provision of services for maintenance of industrial equipment, general contractors and commission agents.

Allocation basis and transfer pricing

Segment revenue, results, assets and liabilities include items directly attributable to a segment as well as those can be allocated on a reasonable basis.

Inter-segment sales comprise revenue from projects and trading, office rental and secretarial and management fees. The inter-segment transactions have been entered into in the ordinary course of business at terms mutually agreed between the companies concerned.
