**B. ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD**

**B1. Review of performance**

The Group recorded revenue of approximately RM33.89 million for the current quarter, an increase of approximately RM4.50 million compared to the revenue of approximately RM29.39 million in the preceding year's corresponding quarter. Revenue from animal health products increased by approximately RM1.98 million from approximately RM22.22 million in the preceding year's corresponding quarter to approximately RM24.20 million in the current quarter. Revenue from food ingredients increased by approximately RM2.38 million from approximately RM6.60 million in the preceding year's corresponding quarter to approximately RM8.98 million in the current quarter.

Despite the approximately RM4.50 million increase in revenue, the Group's profit before tax for the current quarter of approximately RM3.24 million was only approximately RM0.44 million higher compared to the profit before tax of approximately RM2.80 million reported for the preceding year's corresponding quarter as a result of the increase in distribution costs of approximately RM0.40 million, higher administration expenses of approximately RM0.85 million and increase in finance costs of approximately RM0.14 million. Additional distribution expenditures were incurred for promotional activities conducted for animal health products as well as product related trials during the current quarter. The increase in administration expenses was mainly due to higher foreign currency exchange loss of approximately RM0.30 million during the current quarter and the fact that there was a reversal of over provision in prior year's staff costs of approximately RM0.29 million during the preceding year's corresponding quarter.

**B2. Material changes in the quarterly results compared to the immediate preceding quarter**

The Group's revenue of approximately RM33.89 million for the current quarter was approximately RM3.00 million higher compared to the revenue of approximately RM30.89 million reported for the preceding quarter. Revenue from animal health products increased by approximately RM2.25 million from approximately RM21.95 million in the preceding quarter to approximately RM24.20 million in the current quarter. Revenue from food ingredients increased by approximately RM0.76 million from approximately RM8.22 million in the preceding year's corresponding quarter to approximately RM8.98 million in the current quarter.

Despite the approximately RM3.00 million increase in revenue, the Group's profit before tax for the current quarter of approximately RM3.24 million was only RM0.01 million higher compared to the profit before tax of approximately RM3.23 million reported for the preceding quarter. This was mainly due to the current quarter foreign currency exchange loss of approximately RM0.31 million compared to the foreign currency exchange gain of approximately RM0.53 million recorded in the preceding quarter.

**B3. Prospects**

The continued expansion of our capacity and operations through our future plans would provide a platform to grow and sustain our business. The Group will continue to focus on strengthening its production capabilities, product competitiveness and market position, while constantly seeking ways to mitigate the risks associated with its business. The Group will also continue to improve its internal controls and processes based on prudent management practices.

In addition to improving on current operations, the Group is vigilant in identifying new business opportunities that has the potential for continuous growth and expansion.

Accordingly, the Group has proposed to undertake the acquisitions of One Lazuli Sdn Bhd (“OLSB”), Nor Lazuli Nutrition Sdn Bhd (“NLN”) and Nor Livestock Farm Sdn Bhd (“NLF”) in view of the favourable outlook of the livestock industry and dairy industry in Malaysia. The proposed acquisitions are in line with the Group’s strategy to tap into other segment of the animal health products i.e. ruminant segment and to venture into other related businesses with growth prospects in order to deliver positive and sustainable growth to its shareholders. Upon completion of the proposed acquisitions, the Group would be able to broaden its product offerings, gain immediate increase in market share in the ruminant segment and create new revenue stream in the future. This is expected to contribute positively to the Group’s future earnings and enhance its financial performance in the medium to long term.

The Board believes that with the completion of the proposed acquisitions as well as our forward looking strategy of continuing to improve on our operating efficiency and effectiveness and investing in our people’s development and training whilst operating responsibly, we are well placed to meet the challenges ahead and perform within expectations.

The Covid-19 pandemic that has been sweeping the globe in recent times has been anticipated to have a negative impact on the Malaysian macro-economy as well as on the economic welfare of its population. The main sources of the economic damage in Malaysia are two-fold; the first is the knock-on effect from the impacts of the Covid-19 virus abroad and the second is generated domestically due to the movement control measures imposed by the government. Notwithstanding these developments, the Group which is actively involved in the animal health and nutrition market which is within the ambit of the food industry’s supply chain is cautiously optimistic of the minimal impact the pandemic will have on our operations as well as our performance.
