NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SECOND QUARTER ENDED 31 OCTOBER 2020

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of performance

For the current financial quarter ended 31 October 2020, the Group recorded revenue of RM9.620 million, a 9.9% or RM1.056 million dip from RM10.676 million in the preceding year corresponding quarter. The decrease in revenue was mainly due to lower contributions from the Group's manufacturing and trading segments.

Segmentally, manufacturing revenue moderated 4.6% or RM0.350 million to RM7.207 million from RM7.557 million as reported in the preceding year corresponding quarter on lower sales of medical beds, while contributions from manufactured medical peripherals and accessories remained relatively stable. The trading segment posted a 22.6% or RM0.706 million drop in revenue to RM2.413 million from RM3.119 million in the preceding year corresponding quarter, mainly due to weaker performance of medical devices partially offset by stronger sales of the distributed medical peripherals and accessories.

Geographically, local sales contracted 18.8% or RM1.519 million to RM6.554 million from RM8.073 million, accounted for 68.1% of the Group's total revenue compared to 75.6% in the preceding year corresponding quarter. On the other hand, export sales made up 31.9% of the Group's total revenue compared to 24.4% in the preceding year corresponding quarter, with a significant increase in revenue contributions from other Asian countries. Accordingly, export sales grew 17.8% or RM0.463 million to RM3.066 million from RM2.603 million in the preceding year corresponding quarter.

In line with the decrease in Group's total revenue, gross profit dropped by 28.9% or RM1.240 million to RM3.057 million compared to RM4.297 million in the preceding year corresponding quarter. The Group recorded a loss before taxation ("LBT") of RM1.143 million in the current financial quarter under review compared to a profit before taxation ("PBT") of RM0.772 million in the preceding year corresponding quarter, due to lower gross profit margin and increase in certain administrative expenses.

B2. Comparison with preceding quarter's results

	UNAUDITED CURRENT QUARTER 31 OCT 2020 RM'000	UNAUDITED PRECEDING QUARTER 31 JULY 2020 RM'000
Revenue	9,620	19,278
(LBT)/PBT	(1,143)	1,715

The Group's total revenue for the current financial quarter declined by 50.1% or RM9.658 million to RM9.620 million from RM19.278 million in the preceding financial quarter. The decrease in revenue was attributed to a downtrend in sales witnessed across both the manufacturing and trading segments.

The manufacturing segment's revenue contribution of RM7.207 million was 17.1% or RM1.485 million lower compared to RM8.692 million in the preceding financial quarter. Meanwhile, topline contributions from the trading segment fell by 77.2% or RM8.173 million to RM2.413 million from RM10.586 million in the preceding financial quarter.

Despite gross profit decreased by RM2.753 million or 47.4% to RM3.057 million from RM5.810 million in the preceding financial quarter, the gross profit margin of 31.8% was an improvement over the 30.1% achieved in the preceding financial quarter mainly driven by better product mix sold. In tandem with the decrease in revenue and gross profit, the Group posted a LBT of RM1.143 million in the current financial quarter as compared to a PBT of RM1.715 million in the preceding financial quarter.

B3. Prospects

Despite the current financial quarter's weaker financial performance, the Group's six-month to date revenue outperformed last year's corresponding period as both manufacturing and trading segments posted higher sales in the first half of the current financial year.

In supporting the country's COVID-19 response, the Group has supplied more than 40 units of medical beds and various medical peripherals worth more than RM150,000 in value to government healthcare providers in Sabah from October to November 2020. This underscores the Group's competitive edge in delivering critical medical equipment at quick notice.

In extending its support to other countries, the Group had in September 2020 secured a glove supply contract of USD18.960 million (approximately RM78.494 million) from Weihai Textile Group Import and Export Co., Ltd., which the delivery has commenced in November 2020 and to be completed progressively. Further to this, the Group signed a USD40.071 million (approximately RM163.209 million) sales contract with Shang Hong International (Hong Kong) Limited for the supply of nitrile examination gloves, which will commence in December 2020.

It is expected that medical expenditure by the public and private sectors will continue being ramped up to effectively combat the COVID-19 pandemic and other illnesses. In addition, ageing demography and more affluent society would also reinforce the demand uptrend for high-quality healthcare.

B4. Income tax expense

	UNAUDITED INDIVIDUAL QUARTER 31 OCT 2020 RM'000	UNAUDITED CUMULATIVE QUARTER 31 OCT 2020 RM'000
Current tax expense:		
- for the financial year	<u>(44)</u>	<u>549</u>
Effective tax rate (%)	-	96.0

The effective tax rate is higher than the statutory tax rate mainly due to deferred tax assets not recognised for business losses incurred by certain subsidiary and non-deductible expenses in certain subsidiaries of the Group.

B5. Variance of actual profit from profit forecast and profit guarantee

The Group has not issued any profit forecast or profit guarantee in any form of public documentation and announcement during the current financial quarter under review.
