The revenue recorded for the current quarter and the preceding year corresponding quarter was RM198.96 million and RM149.58 million respectively, increased by 33.0% or RM49.38 million.

The increase in revenue was mainly due to increase in revenue for trading and processing of steel products by 13.6% or RM7.78 and 44.9% or RM41.58 million respectively.

The increase in revenue for trading of steel products was mainly due to:

- higher revenue from trading of flat carbon steel products by 22.9% mainly attributable to higher tonnage sales by 23.8%; and
- higher revenue from trading of long carbon steel products by 23.1% mainly attributable to higher tonnage sales by 26.5%; partially offset by
- lower revenue from trading of other flat steel products by 23.9% mainly due to lower average selling price by 16.4% as well as decrease in tonnage sales by 8.9%.

The increase in revenue for processing of steel products was mainly due to:

- higher revenue from processing of flat carbon steel products by 48.2% mainly attributable to higher tonnage sales by 40.2% as well as higher average selling price by 5.7%. The higher tonnage sales by 40.2% includes contribution of 19.7% from production of welded steel pipes;
- higher revenue from processing of other flat steel products by 37.8% mainly attributable to higher tonnage sales by 32.7% as well as higher average selling price by 3.9%; and
- higher revenue from processing of long carbon steel products by 51.1% mainly due to increase in tonnage sales by 59.3% but slightly negated by a reduction in average selling price by 5.1%.

Our main business segments continued to be trading and processing of steel products, which collectively contributed approximately 100.0% of our total revenue for the current quarter. The trading segment and the processing segment contributed revenue of 32.6% and 67.4% respectively for the current quarter whereas the trading segment and the processing segment contributed revenue of approximately 38.1% and 61.9% respectively for the preceding year corresponding quarter.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B1. Review of Performance (Cont'd)****Current Quarter Compared To Preceding Year Corresponding Quarter (Cont'd)**

For the current quarter, our gross profit increased by 164.8% or RM20.59 million, from approximately RM12.50 million for the preceding year corresponding quarter to RM33.09 million for the current quarter. This was due to the increase in revenue by 33.0% or RM49.38 million, from RM149.58 million to RM198.96 million, as well as higher overall gross profit margin, from 8.4% for the preceding year corresponding quarter to 16.6% for the current quarter, mainly resulted from higher gross profit margin recorded for trading and processing of steel products by 5.7 percentage points and approximately 10.1 percentage points respectively as compared to the preceding year corresponding quarter.

The higher gross profit margin for trading of steel products was mainly due to the decrease in average cost for input materials by 12.4% while the average selling price had only decreased by 7.0%, whereas the higher gross profit margin for processing of steel products was mainly due to the decrease in average cost for input materials by 6.8% while the average selling price had increased by 3.1%.

The other income for the current quarter was RM1.38 million as compared to RM0.75 million for the preceding year corresponding quarter, higher by RM0.63 million, mainly due to increase in rental income by RM0.52 million contributed from letting bigger portion of our warehouse space in Port Klang Free Zone ("PKFZ"), as well as receiving RM0.18 million from Government under the Wage Subsidy Programme.

Our operating costs increased by RM0.72 million from RM11.74 million for the preceding year corresponding quarter to RM12.46 million for the current quarter, as a result of the following:

1. Increase in distribution costs by RM0.27 million mainly due to increase in staff related costs by RM0.29 million mainly caused by certain staff costs were allocated from administrative costs.
2. Decrease in administrative costs by RM0.13 million mainly due to lower administrative costs incurred for the current quarter in total by RM0.61 million, largely offset by higher provision of bonuses for directors.
3. Increase in net addition of impairment losses of financial assets (trade receivables) by RM1.03 million.
4. Decrease in other costs by RM0.44 million, mainly due to absence of capital work-in-progress written off and bad debts written off of RM0.37 million and RM0.12 million respectively.

Total finance costs for the current quarter was RM3.18 million, decreased by RM0.86 million as compared to RM4.04 million for the preceding year corresponding quarter. This was attributable to lower interest expense for overdraft facilities, bankers' acceptances, Islamic financing and term loans by RM0.18 million, RM0.40 million, RM0.07 million and RM0.16 million respectively, mainly due to decrease in interest rates following the reduction of Overnight Policy Rate by Bank Negara Malaysia in January 2020, March 2020, May 2020 and July 2020.

Based on the foregoing factors, we achieved profit before tax of RM18.83 million for the current quarter as opposed to loss before tax of RM2.53 million for the preceding year corresponding quarter.

**B1. Review of Performance (Cont'd)**

**Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date**

	<b>Current Year- To-Date 31.12.2020 RM'000</b>	<b>Preceding Year- To-Date 31.12.2019 RM'000</b>	<b>Variance</b>	
			<b>RM'000</b>	<b>%</b>
Revenue	589,577	607,122	(17,545)	-2.9%
Gross profit	77,639	61,270	16,369	26.7%
Profit before interest and tax	46,447	26,070	20,377	78.2%
Profit before tax	33,497	10,977	22,520	205.2%
Profit after tax	28,575	5,533	23,042	416.4%
Profit attributable to owners of the Company	28,559	5,598	22,961	410.2%

Our revenue decreased by 2.9% or approximately RM17.54 million from RM607.12 million for the preceding financial year-to-date to RM589.58 million for the current financial year-to-date.

The decrease in revenue was generally caused by the impact of nationwide Movement Control Order ("MCO") and Conditional MCO which were implemented from 18 March 2020 and our Group was only able to commence operation in early May 2020 upon obtaining the necessary approval from MITI and complied with the standard operating procedures set up by the federal government of Malaysia in response to the COVID-19 pandemic in the country.

However, the decrease in overall revenue due to the impact of MCO and Conditional MCO was largely offset by higher revenue from the production of welded steel pipes, which saw its revenue increased significantly by 197.6%, which also contributed to the increase in revenue for processing of steel products by 18.5% or RM60.11 million, from RM325.01 million to approximately RM385.12 million. Production of welded steel pipes commenced commercial operation at end of second quarter of 2019. The significant increase in its revenue was due to increase in demand as well as having full year's operation in 2020 as compared to only approximately half year's operation in 2019.

Despite lower revenue by 2.9% or approximately RM17.54 million, from RM607.12 million to RM589.58 million, our gross profit increased by 26.7% or RM16.37 million, from RM61.27 million to RM77.64 million, mainly due to higher overall gross profit margin, from 10.1% for the preceding financial year-to date to 13.2% for the current financial year-to-date, resulted from higher gross profit margin recorded for trading and processing of steel products by approximately 2.9 percentage points and approximately 3.0 percentage points respectively as compared to the preceding financial year-to-date.

The higher gross profit margin for trading of steel products was mainly resulted from:

- higher gross profit margin for trading of flat carbon steel products by approximately 2.0 percentage points due to the decrease in average cost for input materials by 4.3% while the average selling price had only decrease by 1.7%;
- higher gross profit margin for trading of long carbon steel products by approximately 3.2 percentage points due to the decrease in average cost for input materials by 11.7% while the average selling price had only decrease by 8.4%; and
- higher gross profit margin for trading of other long steel products by approximately 4.6 percentage points due to the decrease in average cost for input materials by 12.9% while the average selling price had only decrease by 7.8%.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B1. Review of Performance (Cont'd)****Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date (Cont'd)**

The higher gross profit margin for processing of steel products was mainly due to the decrease in average cost for input materials by 10.2% while the average selling price had only decreased by 8.1%.

The other income for the current financial year-to-date was RM5.61 million as compared to RM2.86 million for the preceding financial year-to-date, higher by RM2.75 million, mainly due to increase in rental income by RM1.84 million contributed from letting bigger portion of our warehouse space in PKFZ, as well as receiving RM0.95 million from Government under the Wage Subsidy Programme.

Our operating costs decreased by RM1.20 million from RM37.15 million for the preceding financial year-to-date to RM35.95 million for the current financial year-to-date, as a result of the following:

1. Increase in distribution costs by RM0.36 million, mainly caused by:
  - increase in staff related costs by RM0.75 million, mainly due to certain staff costs were allocated from administrative costs;
  - decrease in petrol, parking and toll expenses by RM0.16 million; and
  - decrease in transportation, travelling and accommodation expenses by RM0.20 million.
2. Decrease in administrative costs by RM2.50 million, mainly caused by:
  - decrease in staff related costs by RM0.89 million, mainly due to decrease in staff training expenses and certain staff costs were allocated to distribution costs;
  - decrease in depreciation charges by RM0.09 million;
  - decrease in advertising expenses by RM0.09 million;
  - decrease in entertainment expenses by RM0.49 million;
  - decrease in printing and stationery expenses by RM0.08 million;
  - decrease in professional fees incurred by RM0.41 million;
  - decrease in insurance and road tax expenses by RM0.14 million;
  - decrease in accommodation, travelling, petrol, parking and toll expenses by RM0.49 million; and
  - decrease in upkeep of motor vehicles, office and office equipment by RM0.13 million; partially offset by
  - higher provision of bonuses for directors by RM0.37 million.
3. Higher net addition of impairment losses of financial assets (trade receivables) for the current financial year-to-date as compared to the preceding financial year-to-date by RM0.41 million.
4. Increase in other costs by approximately RM0.53 million, mainly caused by:
  - tax penalty of RM0.87 million imposed on the additional taxation in respect of certain compensations received in relation to the compulsory acquisition of the Group's real estate properties which were treated as non-taxable items previously. An appeal against it has been filed and the outcome is still pending from the tax authority; and
  - higher stamp duty paid by RM0.20 million; largely offset by
  - lower bad debts written off by RM0.11 million;
  - absence of capital work-in-progress written off of RM0.37 million; and
  - lower gift and donation expenses by RM0.11 million.

**B1. Review of Performance (Cont'd)**

**Current Financial Year-To-Date Compared To Preceding Financial Year-To-Date (Cont'd)**

Total finance costs decreased by RM2.20 million as compared to the preceding financial year-to-date. This was mainly due to lower interest expense for bankers' acceptances, Islamic financing and term loans by RM0.91 million, RM0.43 million and RM0.69 million respectively, mainly due to decrease in interest rates following the reduction of Overnight Policy Rate by Bank Negara Malaysia in January 2020, March 2020, May 2020 and July 2020.

Based on the foregoing factors, our Group registered an increase in profit before tax by 205.2% or RM22.52 million from RM10.98 million for the preceding financial year-to-date to RM33.50 million for the current financial year-to-date.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B2. Material Variation of Profit Before Tax Against Immediate Preceding Quarter**

	<b>Current Quarter 31.12.2020 RM'000</b>	<b>Immediate Preceding Quarter 30.09.2020 RM'000</b>	<b>Variance</b>	
			<b>RM'000</b>	<b>%</b>
Revenue	198,963	163,821	35,142	21.5%

Profit attributable to owners of the Company	18,094	6,761	11,333	167.6%

Our Group achieved revenue of RM198.96 million for the current quarter, which was higher than the immediate preceding quarter's revenue by 21.5% or RM35.14 million.

The increase in revenue was mainly due to increase in revenue for trading and processing of steel products by 13.2% or RM7.54 million and 26.0% or RM27.65 million respectively, mainly due to higher tonnage sales by 8.9% and 18.9% respectively, as well as higher average selling price by 3.9% and 6.0% respectively.

For the current quarter, our gross profit increased by 79.6% or RM14.66 million, from RM18.43 million for the immediate preceding quarter to RM33.09 million for the current quarter, which was mainly due to the increase in revenue by 21.5% or RM35.14 million, from RM163.82 million to RM198.96 million, as well as higher overall gross profit margin from 11.2% for the immediate preceding quarter to 16.6% for the current quarter, resulted from:

- higher gross profit margin for trading of steel products by approximately 4.8 percentage points mainly due to the increase in average selling price by 3.9% while the average cost for input materials had decreased by 2.0%; and
- higher gross profit margin for processing of steel products by 6.1 percentage points mainly due to the increase in average selling price by 6.0% while the average cost for input materials remained fairly consistent.

The other income of RM1.38 million for the current quarter as compared to RM1.63 million for the immediate preceding quarter, was lower by RM0.25 million, mainly due to lower wage subsidy by RM0.23 million from Government under the Wage Subsidy Programme in the current quarter as compared to the immediate preceding quarter.

Our operating costs increased by RM4.73 million, from RM7.73 million for the immediate preceding quarter to RM12.46 million for the current quarter, mainly resulted from:

- increase in distribution and administrative costs by RM1.21 million and RM2.62 million respectively mainly due to provision of bonuses for directors and staff. The management has decided to provide bonuses at the last quarter of current financial year where it can be better determined instead of providing it at the beginning of the current financial year; and
- increase in net addition of impairment losses of financial assets (trade receivables) by RM1.39 million due to net addition of impairment losses of financial assets (trade receivables) of RM1.13 million for the current quarter as opposed to net reversal of impairment losses of financial assets (trade receivables) of RM0.26 million for the immediate preceding quarter.

**B2.      Material Variation of Profit Before Tax Against Immediate Preceding Quarter (Cont'd)**

The finance costs for the current quarter was RM3.18 million, decreased by RM0.17 million as compared to RM3.35 million for the immediate preceding quarter mainly due to lower interest expenses incurred for bankers' acceptances and bank charges by RM0.13 million and RM0.04 million respectively.

Based on the foregoing factors, our profit before tax increased by 109.6% or RM9.85 million, from RM8.98 million for the immediate preceding quarter to RM18.83 million for the current quarter.

**B ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)****B3. Commentary on Prospects**

Our business operations mainly comprise trading and processing of a diverse range of flat and long steel products. Our processing facilities which include an extensive range of cutting, levelling, shearing, profiling, bending and finishing are cater for specific product requirements of our large customer base from diverse industries and to provide a one-stop solution to potential customers. The cutting and profiling facilities include a fiber laser cutting machine complete with automated loading and unloading facilities for inputs and outputs with overall processing speed of up to 5 times more than conventional machines. In addition, as an effort to build a more resilient business, our Group had also embarked on a downstream production of steel pipes which commenced commercial operations at end of the second quarter of 2019.

The production of steel pipes has gone through a full year's operation in 2020 and has achieved satisfactory results with increasing demand. We expect the trend of increasing demand for this division to continue for 2021.

The profitability of our business is very much dependent on prices of our steel products besides demand from customers. In this respect, global factors such as volatility in commodities and crude oil prices as well as significant fluctuation in exchange rate of foreign currencies against Ringgit Malaysia will affect our suppliers pricing and hence the profitability of our steel products as some of our merchandise are sourced from overseas.

Global factors such as the direction of US's new administration lead by President Joe Biden towards the ongoing US-China geo-political and trade tension and the current worldwide outbreak of COVID-19 pandemic have posed various uncertainties in the rate of recovery of global economies. Although recent vaccine approvals have raised hopes of a turnaround in the pandemic later this year, renewed waves and new variants of the virus pose concerns for the outlook. Amid exceptional uncertainty, the global economy is projected to grow 5.5% in 2021 by International Monetary Fund (IMF), reflecting expectations of a vaccine-powered strengthening of activity later in the year and additional policy support in a few large economies. The strength of the recovery is projected to vary significantly across countries, depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spillovers, and structural characteristics entering the crisis

Locally, we are similarly not spared of the COVID-19 pandemic. Following a spike COVID-19 cases, our government reimposed the strict Movement Control Order (MCO) commencing on 13 January 2021. Furthermore, a proclamation of emergency has also been declared taking effect from 11 January 2021 to 1 August 2021 under the Emergency Ordinance 2021. Vaccination for the COVID-19 is expected to be rolled out in various stages commencing end of February 2021 to contain the pandemic. Coming out from a negative growth of 5.6% in 2020, Malaysian economy is expected to record a positive growth of between 6.5% and 7.5% in 2021. The growth will be supported by strong economic fundamentals and a well-diversified economy. However, the favorable outlook hinges on the successful containment of the pandemic and sustained recovery in external demand.

Mindful of the risks arising from global and local factors mentioned above, our Group will constantly keep vigilant on the movement of steel prices and related foreign currencies and will take proactive measures including negotiating forward contracts, where necessary, as well as prudent inventory management, to reduce any negative impact which may arise therefrom. Our Group will also continuously enhance the operating capabilities and efficiencies to meet customers' requirements and to ensure timely satisfaction of customer orders while keeping our operating costs at a manageable level. The risk of COVID-19 pandemic has also been actively addressed with implementation of various preventive measures including inculcating work place hygiene and regular sanitisation, limiting the movements of staffs as well as adhering to other Standard Operating Procedures required by the relevant authorities. The Group has also put in place emergency response team ('ERT') in three of its subsidiaries to deal with emergencies arising from the pandemic as well as other health and workplace related emergencies, and is currently considering having a Groupwide ERT.
