NOTES TO THE INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER ENDED 31 JANUARY 2021

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of performance

For the current financial quarter ended 31 January 2021, the Group recorded a total revenue of RM11.588 million, a decrease of 14.0% or RM1.881 million compared to RM13.469 million in the preceding year corresponding quarter. The decrease in revenue was due to lower contributions from the manufacturing segment.

Revenue from the manufacturing segment stood at RM7.268 million, declining 21.5% or RM1.987 million from RM9.255 million in the preceding year corresponding quarter on lower sales of manufactured medical/healthcare beds, and medical peripherals and accessories. Meanwhile, revenue from the trading segment remained relatively stable at RM4.320 million, an increase of 2.5% or RM0.106 million from RM4.214 million in the preceding year corresponding quarter, supported by significantly stronger sales of distributed medical peripherals and accessories, which mitigated weaker sales of medical devices.

Geographically, local sales amounted to RM5.944 million, dipping 44.2% or RM4.708 from RM10.652 million in the preceding year corresponding quarter. As a result of lower local sales mainly from medical/healthcare beds, local market contributed to 51.3% of the Group's total revenue as compared to 79.1% in the preceding year corresponding quarter.

Export sales stood at RM5.644 million in the current financial quarter under review, representing a 100.4% or RM2.827 million increase from RM2.817 million in the preceding year corresponding quarter. This was driven by significantly improved sales of medical/healthcare beds across Europe, as well as gloves sales in Asian countries. Export market constituted 48.7% of the Group's total revenue in the current financial quarter compared to 20.9% in the preceding year corresponding quarter.

The Group's gross profit in the quarter under review amounted to RM3.886 million, moderating by 15.6% or RM0.720 million from RM4.606 million in the preceding year corresponding quarter, mainly due to decrease in Group's total revenue. The Group incurred a loss before taxation ("LBT") of RM0.118 million in contrast to a profit before taxation ("PBT") of RM0.905 million in the preceding year corresponding quarter, which was in line with the lower gross profit as well as higher administrative expenses.

B2. Comparison with preceding quarter's results

	UNAUDITED CURRENT QUARTER 31 JAN 2021 RM'000	UNAUDITED PRECEDING QUARTER 31 OCT 2020 RM'000
Revenue	11,588	9,620
LBT	(118)	(1,143)

In the current financial quarter under review, the Group's total revenue grew 20.5% or RM1.968 million to RM11.588 million from RM9.260 million in the preceding financial quarter, mainly due to increase sales in the trading segment.

The manufacturing segment's revenue of RM7.268 million remained relatively stable compared to RM7.207 million in the preceding financial quarter. Meanwhile, the trading segment contributed revenue of RM4.320 million in the current financial quarter under review, increased by 79.0% or RM1.907 million from RM2.413 million in the preceding financial quarter.

NOTES TO THE INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER ENDED 31 JANUARY 2021

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)

B2. Comparison with preceding quarter's results (Cont'd)

In line with the higher sales recorded across both segments, the Group's gross profit improved 27.1% or RM0.829 million to RM3.886 million from RM3.057 million in the preceding financial quarter. With more favourable product mix sold in the current financial quarter, gross profit margin improved to 33.5% compared to 31.8% in the preceding financial quarter. Consequently, the current financial quarter's LBT of RM0.118 million represented a substantial improvement over the preceding financial quarter's LBT of RM1.143 million.

B3. Prospects

The Group's total revenue for the nine months ended 31 January 2021 expanded significantly compared to the preceding year corresponding period, on the back of commendable performance in the trading segment. This highlights the Group's capabilities in capturing new market opportunities for medical peripherals and accessories to complement our core manufacturing expertise.

The Group's multi-faceted strategies helped the Group maintains resilience in the financial quarter under review despite temporarily weaker local sales within the healthcare sector. Notably, the Group registered significant growth in exports to Asia and Europe, primarily from the exports of gloves as well as new orders for medical/healthcare beds and medical peripherals and accessories.

Furthermore, LKL International signed an exclusive distributorship agreement in February 2021 to supply Trace Token, a COVID-19 contact tracing token to the Malaysian market. The token, which has been successfully rolled out across Singapore, would enhance current contact tracing efforts and complement the upcoming vaccination programme in Malaysia. The Group is targeting Selangor as the first state to adopt Trace Token, with more effective contact tracing required at hotspots such as workplaces, factories and construction sites.

Going forward, it is expected that medical expenditure by the public and private sectors will continue being ramped up to not only effectively combat the COVID-19 pandemic, but also to treat various illnesses in line with an ageing demography and more affluent society. The Group strives to continue strengthening its capabilities in assisting efforts to combat COVID-19, as well as consistently enhancing healthcare offerings beyond the pandemic.
