

ENVIRONMENTAL POLICY

Press Metal Aluminium Holdings Berhad and its subsidiaries (collectively known as “Press Metal” or “the Group”) recognizes the importance of environmental issues as the major concerns affecting the future generation and is determined to protect the environment from adverse impacts of our business operations by demonstrating commitments to pollution prevention, consumption reduction, and materials conservation. Our goal is to enhance our business resilience to environmental risks and operate in a responsible and sustainable manner.

This Policy applies to the management and its subsidiaries and is embedded into our business and forms a fundamental part of our journey toward sustainability and excellence. We encourage our business partners to also demonstrate their commitment to the environment. This Policy will be regularly reviewed to ensure effective implementation and continuous monitoring of our environmental performance objectives and targets.

To achieve this, Press Metal is committed to: -

- Conform as a minimum to any applicable local legislation and requirements related to the environment.
- Implement and maintain a functional Environmental Management System by assessing the environmental risks and impact throughout our operations, setting targets and objectives with the aim to achieve continual improvement and sustainable development.
- Address climate change issues by reducing carbon footprint across the value chain.
- Mitigate and prevent any pollution and environmental risks arising from manufacturing activities.
- Minimize waste and pollution from operation activities and use natural resources such as raw materials and water effectively and sustainably by safeguarding through 4Rs principle.
- Reduce consumption of resources and energy through operational optimization.
- Protect the biodiversity based on mitigation hierarchy and promote actions to protect biodiversity.
- Assess environmental issues and consider them as key criteria for decision-making for the business model and investments.
- Support and pursue scientific and technological development applied to environmental issues to mitigate the adverse impacts.
- Promote environmental awareness among the employees and encourage their participation to enhance collective environmental performance by regularly conducting training, auditing, and campaigns.
- Review the environmental performance annually and report transparently on the environmental activities and results.

Tan Sri Dato’ Koon Poh Keong
Group Chief Executive Officer
