NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE SECOND (2nd) QUARTER ENDED 30 JUNE 2022 (CONT'D)

B1. Analysis of performance

The Group's current quarter revenue for the financial period ended 30 June 2022 ("2QFY22") amounted to RM7.7 million, as compared to RM29.9 million in the preceding year's corresponding quarter ("2QFY21"). The softer performance was due to lower contribution from both supply of health foods to China and domestic manufacturing of nutritional products.

Further analyses of the performance of the Group's operating segments are as follows:

(i) Manufacturing of nutritional products

For 2QFY22, our manufacturing operations recorded a revenue of RM2.7 million (2QFY21: RM10.0 million). Domestic manufacturing turnover amounted to RM2.1 million (2QFY21: RM6.7 million). The decrease in turnover for domestic manufacturing was mainly due to supply chain disruptions that led to raw materials shortage and higher input cost.

(ii) Supply of health foods

For 2QFY22, the Group's supply of health foods to China had yet to recover, having posted a revenue of RM2.0 million against RM16.4 million in 2QFY21. This was primarily attributable to strict containment measures to curb COVID-19 infections in adherence to its zero-COVID policy, which led to intermittent lockdowns that had adversely impacted our delivery of nutritional meals.

(iii) Retail pharmacies

Revenue generated from this segment for the current quarter amounted to RM3.0 million as compared to RM3.6 million in the preceding year's corresponding quarter ended 30 June 2021. The decrease largely stemmed from major shortages in various prescription and over-the-counter drugs in Malaysia such as medicines for common flu, antibiotics, paracetamol and cough mixtures.

During the quarter under review, the Group incurred gross loss of RM2.3 million, chiefly arising from write-off of expired inventories due to slow moving goods as well as depreciation and amortisation charges, both of which are non-cash in nature. Our gross profit margin for manufacturing, supply of health foods, and retail pharmacies remained broadly similar.

Meanwhile, at the operating level, there was several one-off expenses that included the fair value charge on share-based payment (in relation to the Share Issuance Scheme or SIS), fair value loss on biological assets, loss on foreign exchange, and impairment losses on trade receivables, which collectively amounted to approximately RM1.2 million. Consequently, net loss attributable to the owners of the parent ("net loss") stood at RM7.6 million (2QFY21: net profit of RM1.5 million).

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE SECOND (2nd) QUARTER ENDED 30 JUNE 2022 (CONT'D)

B1. Analysis of performance (cont'd)

Comparison with immediate preceding quarter's results

The Group's revenue for the second (2nd) quarter ended 30 June 2022 amounted to RM7.7 million, as compared to RM9.7 million in the first (1st) quarter ended 31 March 2022, as we saw lower contribution from domestic manufacturing of nutritional products and retail pharmacy divisions due to reasons aforementioned. During the quarter under review, Bioalpha Hainan contributed sales of RM2.0 million (1QFY22: RM1.5 million).

B2. Prospects for the financial year ending 31 December 2022

The global economy, with the exception of China which is still sticking to a zero Covid policy, is gradually recovering post the Covid 19 pandemic. Nevertheless, new threats have emerged in the form of rising input cost and inflations. Against this backdrop, Bioalpha strives to maintain optimal operations across our key markets, while cognisant of the challenges and risks.

For the Group's domestic manufacturing business, we remain focused on growing our customer base and catering to the needs of our Original Design Manufacturing ("ODM") clients. We are also expanding our product pipeline especially for supplements that boost immune system which are seeing greater demand. Furthermore, following deferment in purchases in 2QFY22, we expect our ODM customers to resume placing their orders in the coming quarters.

Over in China, we foresee the contribution from our supply of health foods would only recover upon upliftment of lockdown measures. In the meantime, we strive our best to optimize our operating cost in the country, and concentrate our delivery efforts to customers where possible. Apart from that, our Group's plan to commercialise health formulations in China via joint venture with China-based Suzhou Medical system Technology Co. Ltd. is ongoing.

For our retail pharmacy business, expansion plans are afoot with new franchised outlets set to open by year-end. We continue to focus on establishing community pharmacies to serve customers in the neighbourhood as compared to shopping malls where rentals are much higher.

As we move forward, we continue to monitor the evolving situation and take appropriate mitigation actions. Amidst the taxing environment, we are keeping our operating cost in check and conserve our cash flow. Barring unforeseen circumstances, the Board of Directors opines that performance in the second half of 2023 to be better than the first half, underpinned by expected contributions from the manufacturing and retail pharmacy segments.
