

DRIVING TECHNOLOGY, ADVANCING SUSTAINABILITY

CREATING A BETTER TOMORROW

EDGENTA OF THE FUTURE 2025

UEM EDGENTA
IS PLEASED TO
PRESENT OUR 2022
INTEGRATED
ANNUAL REPORT,
THE PRINCIPAL
COMMUNICATION
TO OUR
STAKEHOLDERS.

INSIDE
THIS REPORT

DRIVING TECHNOLOGY,
ADVANCING SUSTAINABILITY

The cover of our 2022 Annual Report illustrates our strategic evolution towards becoming a Technology-Enabled Solutions Company, propelling technological innovations and sustainability advancements in our products and services and through market expansion. Guided by our Economic, Environmental, Social and Governance (“EESG”) initiatives, we will continue to accelerate digital and technology transformation while prioritising sustainability as a core consideration across our organisation.

As the region’s market leader in asset management and infrastructure solutions, we are committed to expanding our operations internationally and enhancing the lives of the communities we operate in. Always upholding our FIRST values (please refer to Page 4 of our report), we strive to deliver and meet the highest standards of quality for all our stakeholders and in every aspect of conducting our business.

ABOUT THIS REPORT

REPORTING BASED ON ESTABLISHED PRINCIPLES, FRAMEWORKS AND GUIDELINES

At UEM Edgenta, we strive to advance technology-based solutions with an emphasis on sustainability. Through technology, we enable our employees to work more productively, unlock cost savings and establish vital new revenue streams.

Moving forward, we have oriented our expansion to meet global requirements - inventing, adapting and enhancing better asset management and infrastructure solutions for our clients.

While our business methods have been intended to provide long-term profits for our shareholders, our responsibilities encompass a much broader scope.

SCOPE AND BOUNDARIES

This Annual Report 2022 ("report") covers the reporting period from 1 January 2022 to 31 December 2022 ("FY2022"), unless otherwise stated. The information presented relates to the activities of UEM Edgenta Berhad (otherwise referred to as "UEM Edgenta", "the Group" or "the Company"), comprising our subsidiaries, joint operations, joint ventures and associates.

The Sustainability Statement 2022 ("statement") contained within this report is the sixth that we have published on our continuing sustainability reporting journey. The statement communicates our key sustainability initiatives, commitments and performance in relation to sustainability material matters that we have prioritised for the year under review.

The statement covers our operations in Malaysia and other geographical regions we operate in, namely Singapore, Taiwan, Indonesia, the United Arab Emirates ("UAE") and the Kingdom of Saudi Arabia ("KSA").

The reporting period of the statement is aligned with that of the report.

OUR TARGETED READERS

This report serves as our primary means of providing information about our business and operations to our shareholders and potential investors. It further provides pertinent information on how we add value for other important stakeholders, such as our clients, employees, regulators and the communities we work closely with.

REPORTING GUIDELINES AND FRAMEWORKS

In presenting this report, we are confident that it showcases a fair and balanced representation of our performance during FY2022. Taking guidance from internationally recognised integrated reporting frameworks, as detailed below, this report addresses all our material matters and provides an accurate reflection of our strategic commitments for the short, medium and long-term.

Corporate Section

- ▶ Companies Act 2016
- ▶ Bursa Malaysia Securities Berhad's Main Market Listing Requirements
- ▶ Malaysian Code on Corporate Governance
- ▶ Bursa Malaysia's Corporate Governance Guide (4th edition)
- ▶ Bursa Malaysia's MD&A Disclosure Guide
- ▶ Bursa Malaysia's Sustainability Reporting Guide (3rd edition)
- ▶ International Integrated Reporting Framework ("<IR> Framework")
- ▶ The Global Reporting Initiative ("GRI") Standards
- ▶ The United Nations' Sustainable Development Goals ("UN SDGs")

Financial Section

- ▶ Bursa Malaysia Securities Berhad's Main Market Listing Requirements
- ▶ Malaysian Financial Reporting Standards ("MFRS")
- ▶ International Financial Reporting Standards ("IFRS")
- ▶ Requirements of the Companies Act 2016 in Malaysia

The credibility of this report is supported by strong governance practices and external verification by Ernst & Young PLT, our auditors for financial information.

ABOUT THIS REPORT

NAVIGATING OUR REPORT

We have aimed to produce a report that is interactive, engaging and easy to understand. To help readers navigate this report, we have adopted the following navigational icons that highlight our reporting of the six capitals of value creation as described in the <IR> Framework, as well as the material matters that impact our value creation process:

▶ CAPITALS

Financial Capital

Manufactured Capital

Intellectual Capital

Human Capital

Natural Capital

Social and Relationship Resource Capital

▶ MATERIAL MATTERS

M1
Business Ethics

M2
Innovation and Technology-based Operational Excellence

M3
Economic Development

M4
Supply Chain Management

M5
Climate Change and Energy

M6
Environmental Management

M7
Occupational Health and Safety

M8
Employment Culture

M9
Customer Satisfaction

M10
Human Rights Assessment

M11
Local Community

▶ UN SDGs

Our Group's sustainability efforts are aligned to the following UN SDGs, which were adopted and have been adhered to since FY2021.

▶ STAKEHOLDERS

S1 Board of Directors and Employees

S2 Clients and Partners

S3 Shareholders and Investors

S4 Government and Regulators, Industry and Business Associates

S5 Supply Chain Partners

S6 Media

*As at 31 December 2022 and for the financial year then ended.

As a global organisation, we have a responsibility to operate in ways that maximise shared value for our nation, communities, people and the planet. In this regard, we define sustainability as managing and operating a responsible business while securing profits and driving long-term value creation, striving to meet the needs of the present without compromising the ability of future generations to meet their own needs.

We are delivering on this imperative by integrating sustainability into our strategies and processes while developing technology-based solutions that drive the Environmental, Social and Governance (“ESG”) performance of asset owners, thereby maximising positive impact across our value chain.

In FY2022, we embarked on the next phase of our sustainability journey with the launch of our sustainability roadmap. Covering the period of FY2022 to FY2024, the roadmap defines tangible goals across six pillars of action, with the overarching objectives of shaping our sustainability journey and propelling us to join the ranks of industry leaders in sustainability.

The roadmap was developed through a comprehensive and holistic approach that included the gathering of insights from our stakeholders, enabling us to align our actions with our sustainability goals and objectives.

THE LAUNCH
OF OUR
SUSTAINABILITY
ROADMAP
WAS PARTICIPATED IN
PHYSICALLY AND
VIRTUALLY BY
MORE THAN 400
EDGENTA STARS,
INCLUDING MEMBERS
OF OUR SENIOR
MANAGEMENT TEAM

Following the inauguration of our sustainability roadmap, the Strategic Business and Market Development (“SBMD”) and the Health, Safety, Security and Environment (“HSSE”) unit hosted our first ESG Awareness Month 2022 at the UEM Edgenta Learning Centre (“UELC”). The event was participated in physically and virtually by more than 400 Edgenta Stars, including members of our senior management team, celebrating the unveiling of our sustainability roadmap.

The event kick-started with opening remarks by Rais Imran, our Chief Strategy Officer, stressing on the importance of cultivating ESG awareness and practices within the organisation. This led the way for Syahrulizam Samsudin, our MD/CEO, who delivered a keynote speech on how the group can leverage on being, thinking, and acting sustainably to drive long-term value.

The event was attended by practitioners and industry experts who contributed to a panel discussion on the topic, “Sustainable Value Creation: ESG as value Driver as opposed to Cost Center”. This was followed by the official launch of the roadmap by Syahrulizam Samsudin. Sharifah Bakar Ali, Head of SBMD, and Andrew Raj, Head of Operational Excellence & Health, Safety, Security and Environment (“OE & HSSE”), who presented the key components of the Sustainability Roadmap, including the timeline and major milestones to be achieved by 2024.

During the event, key members of our business units also shared inspiring notes on their ongoing ESG initiatives along with their future plans to embed sustainability within their daily operations. This session participated in by Opus Consultants, Infrastructure Services, Healthcare Support and Property & Facility Solutions teams, showcasing a display of various innovative ESG elements being integrated within their respective business activities. In summary, the sharing sessions further solidified our belief and commitment to champion sustainability within our diverse industries.

EMBEDDING SUSTAINABILITY INTO OUR BUSINESS

KEY INITIATIVES IN FY2022

To drive alignment and action towards achieving the goals of our roadmap, sustainability-based Key Performance Indicators (“KPIs”) have been included within our corporate scorecard. Detailed action plans have been developed for immediate focus areas identified through our materiality matrix, including Human Rights Assessment, Supply Chain Management, Climate Change and Energy, and Environmental Management. Focus groups, sustainability champions and working group members have been appointed to carry out engagements within these areas and across the roadmap as a whole.

Further to this, five priority initiatives were identified for FY2022, with key actions taken across each detailed below:

SUSTAINABILITY PERFORMANCE IN FY2022

In FY2022, our FTSE4Good rating improved from 2.5 to 3.1. With this improvement, we may potentially now meet the required rating to be included in the index for emerging market companies (subject to us meeting FTSE4Good’s other criteria for inclusion).

The improved rating was as a result of enhancements across our sustainability agenda, including to environmental, health and safety as well as governance-related data disclosure and practices. It signifies our deep commitment to leave a positive impact on the environment, provide safe and healthy work environments for our staff and clients - who are beneficiaries of our services - and ensure that we act in the best interests of our stakeholders.

Moving forward, to maintain and improve on our ratings, we will seek to find ways to better manage our climate footprint, enhance our labour standards and practices, and work more collaboratively with our suppliers to ensure that we continue to carry out our business in a responsible manner. We will also continue to work with partners who share our sustainability aspirations.

Other highlights of our sustainability performance during the past year include:

Sustainable Economic Growth

- Achieved 99.4% of procurement from local suppliers (across Peninsular and East Malaysia)
- Collaborated with HSBC Amanah Malaysia Berhad to develop a Syariah-compliant Supplier Financing Programme, with over 380 SMEs invited to join

Minimising Environmental Impact

- Managed 19 Green Building Index (“GBI”) and Leadership in Energy and Environmental Design (“LEED”)-certified buildings at various certification levels
- Achieved 38,178,319 kWh in energy savings for our clients per year between 2016 and 2022 through our energy performance contracting (“EPC”) services
- Conserved 6,000 m³ of natural water through the natural water harvester exercise
- Collected 6,603 containers through our in-house KLEAN reverse vending machine

Social Value Creation

- Received zero monetary fines or significant non-monetary sanctions for non-compliance with applicable laws and regulations
- Recorded 393,898.5 hours of employee development training, with 99.1% of our employees fulfilling their training requirements

WHAT WE DO

HEALTHCARE SUPPORT

→ The Healthcare Support division focuses on hospital support services for 250 healthcare institutions in Malaysia, Singapore and Taiwan.

We incorporate ESG considerations into our business practices to ensure sustainability and promote social responsibility. As the leading company in the implementation of sustainability programmes, our achievements include effective conservation measures through energy performance contracting, retrofitting projects, solar photovoltaic installation and adoption of energy management standards; enhanced indoor air quality systems; and the setting up of impactful waste management programmes to enable significant reductions in waste.

Our innovative solutioning mindset and continuous efforts in adopting new technologies that leverage on robotics, Internet of Things ("IoT") and data analytics provide real-time, reliable and precise information. This is crucial for our service execution efficiency and effectiveness as we strive to ensure enhanced patient outcomes, competitiveness and market leadership.

HEALTHCARE SUPPORT

▶ Preserve the lifespan of more than **54,000 BEMS** assets worth over RM1.7 billion

▶ Care for more than **RM900 million** worth of FEMS assets

▶ Process over **19,500 tonnes** of soiled linen annually

▶ Incinerate **8,200 metric tonnes** of clinical waste annually

▶ Maintain over **1.7 million sqm²** of cleanable area daily

▶ Over **1,000 units** of cleaning machineries

This data is for Edgenta Healthcare Management Sdn. Bhd. only.

WHAT WE DO

PROPERTY & FACILITY SOLUTIONS

PROPERTY & FACILITY SOLUTIONS

→ Empowered by cutting-edge technologies and data-driven insights, our Property & Facility Solutions division delivers performance-based programmes that optimise asset quality and improve the lives of occupants.

Our portfolio spans a wide range of commercial and industrial properties across Malaysia and the UAE. Within each facility, we aim to provide building owners with a holistic view of their assets, processes and people, facilitating decision-making that enhances liveability and asset performance while driving cost and process efficiencies. This is aided by the Edgenta SmartConnect platform, which integrates big data analytics and IoT technologies for improved asset governance. Meanwhile, we are progressing on the commercialisation of Asseto, a scalable and interoperable platform that will enable us to meet the demands of smart cities around the world.

With building owners increasingly attuned to the importance of climate action, our EPC and green building certification solutions enable effective transitions to greener and more energy-efficient operations, thereby further enhancing our proposition in the industry.

▶ Facility management services at more than **500** buildings and facilities

▶ Energy Efficiency Solutions implemented in **19 GBI** and **LEED CERTIFIED** buildings across Malaysia

▶ Reduction of **10% to 52%** of annual electrical energy savings for the systems and assets we replace and optimise

▶ Energy savings per year of more than **38 million kWh**, equivalent to **RM16.2 million** in cost savings

This data is for 11 EPC projects from year 2016 until 2022.

WHAT WE DO

INFRASTRUCTURE SERVICES

INFRASTRUCTURE SERVICES

→ With a portfolio spanning 4,000 km of highways and state roads and over 30 years of industry experience, our Infrastructure Services division is the nation's foremost name in infrastructure maintenance.

Utilising sophisticated technologies and process improvement concepts, our aim is to maintain the quality and enhance the performance of our clients' assets over time. This has enabled us to expand beyond our core of highway maintenance to provide services for rail, airports, ports, oil and gas, plantation roads and other commercial and industrial sectors.

Our commitment to excellence is upheld by our team of experienced professionals, enabling us to play a key role in continued infrastructural and economic development, both in Malaysia and Indonesia.

► Manage infrastructure assets worth **>RM10 billion**

► Maintain around **4,000 km** of expressways and state roads in Malaysia and Indonesia

► Road Asset Management System has enabled **1,500 km** of expressway and state road assets to be brought online

► Engaged in **expressways, state roads, airports, plantations and rail**

WHAT WE DO

ASSET CONSULTANCY

→ Our Asset Consultancy division is represented by Opus Consultants, a leading engineering, project and asset management consultancy with more than 30 years of experience in delivering large-scale infrastructure projects.

Through end-to-end collaboration with our clients, we deliver industry-leading standards across project management, asset management, engineering and technical consultancy services, striving to exceed stringent time, quality and budgetary requirements. As a result, we have developed a strong portfolio of infrastructure projects that span transportation, buildings and integrated developments.

Driven by our experienced and passionate team, our next frontier lies in driving the development of infrastructure in East Malaysia, to which end we have executed a shareholding agreement for a joint venture with PPES Consults Sdn. Bhd., a wholly-owned subsidiary of Sarawak Economic Development Corporation ("SEDC").

ASSET CONSULTANCY

► Represented by

OPUS
CONSULTANTS
AN EDGENTA COMPANY

► **2 Sectors**

- Highways and Bridges
- Rail

► Engaged in infrastructure projects valued at more than **RM110 billion**, which include ongoing construction projects

► A team of **400 professionals**, comprising engineers and project managers, located throughout Malaysia

WHAT DIFFERENTIATES US: OUR STRENGTHS

DIVERSIFICATION THROUGH GEOGRAPHIES AND PORTFOLIO

With a presence in six markets and across various sectors, we are able to capture high margin growth opportunities in emerging and fast growing markets while maintaining agile operations. Specifically, through our presence in the KSA, the UAE and Indonesia, we are well positioned to participate in tenders for Smart City projects and projects linked to the Saudi Vision 2030 and Nusantara infrastructure blueprints.

TECHNOLOGY DIFFERENTIATION

In a rapidly digitalising world, our technology-based solutions such as Asseto and UETrack™ provide our clients with a holistic view of their assets, enabling them to drive innovation and maximise efficiencies. By integrating technology in this way, we are moving up the asset management value chain towards becoming a Smart City enabler and a Technology-Enabled Solutions Company by 2025.

FINANCIAL STRENGTH

Our strong balance sheet and resurgent earnings provide us the ability to weather short-term volatility and deploy for growth opportunities, both organically and inorganically. This is supported by a Group-wide focus on optimising costs and harnessing group synergies, bolstering our resilience in a time of significant macroeconomic headwinds. Further to this, we are committed to our dividend policy of 50-80% of PATANCI with the aim of maximising shareholder value.

TRUST-BASED PARTNERSHIPS

Over the years, we have nurtured strong partnerships with private and public institutions across our markets of operation, providing us a sturdy base upon which to drive our expansion. Now, in line with our focus on technology, we are rapidly formalising strategic partnerships with a range of global innovation frontrunners, providing us with an ecosystem of integrated solutions that enable effective and efficient asset lifecycle management for our clients.

OPERATIONAL EXCELLENCE

Through the integration of digital technology and automation within our processes, we are equipped to deliver solutions more efficiently while maintaining our high standards of quality. At the same time, we seek to continuously strengthen our supplier base by providing access to upskilling initiatives and technology-based support.

FUTURE- READY WORKFORCE

Through initiatives such as the Edgenta Innovation Programme and our "Low Code No Code" platform, our employees are encouraged to go beyond their day-to-day job scopes and drive innovation that delivers bottom-line results. By providing such avenues for growth, alongside a wide range of training programmes and holistic care for their health and wellbeing, we are nurturing a future-ready workforce that is prepared for the challenges and opportunities of the global market.

SUSTAINABILITY

With the launch of our sustainability roadmap, we have set specific focus areas and targets that will guide our journey, empowering our teams to embed sustainability within our operations and enhance the value we create for communities, national economies and the environment. In addition, we provide sustainability-related solutions that align with our clients' sustainability agendas. Our solutions help our clients reduce their environmental impact, promote responsible business practices and contribute to a more sustainable future. Moving forward, we are set to launch our net zero targets in 2023.

2022 KEY SIGNIFICANT EVENTS

We made progress on several key fronts in 2022 – from establishing new partnerships and making headway on our global expansion plan to diversifying into new sectors – in line with our drive to become a Technology-Enabled Solutions Company. Our ongoing sustainability journey was also boosted with the launch of our two-year sustainability roadmap, paving the way for us to deliver greater impact across the ESG spectrum in the future.

● GROWING OUR INTERNATIONAL BUSINESS PRESENCE

- Acquired a 60% stake in MEEM, an established facility management company in the KSA, facilitating our entry into this high growth market

- Established a partnership with Byte Blanket and Disrupt-X to spearhead end-to-end, IoT-based IFM and Smart City solutions in the Middle East

- Formed a strategic collaboration with Sumitomo Corporation Asia and Softbank Corporation to offer their portfolio of technology and sustainability-based solutions to our customers
- Inked a deal with ITMAX System Berhad to set up Smart City solutions in the UAE and offer smart facilities monitoring and management programmes in Malaysia
- Secured the contract to manage assets and users for Towers 1, 2 and 3 of the Petronas Twin Towers under Asseto

● DEEPENING OUR COMMITMENT TO SUSTAINABILITY

- Spent RM195,000 and contributed 790 volunteering hours to community projects, benefitting 12,500 underprivileged communities across Malaysia

- Assisted 19 buildings in attaining GBI and LEED certification for resource-efficiency and environmental friendliness

- Launched our two-year sustainability roadmap, outlining detailed initiatives across six key pillars of action

2022 KEY SIGNIFICANT EVENTS

● CONTRIBUTING TO NATION BUILDING EFFORTS

- Mobilised 15 Field Hybrid ICUs to reduce the burden on public healthcare facilities and assist the nation's COVID-19 recovery efforts

- Won the Institution of Engineers Malaysia (IEM) Award 2022 (awarded to Opus Consultants) for their contributions to the engineering industry in Malaysia

- Collaborated with HSBC Amanah Malaysia Berhad ("HSBC Amanah") to develop a Syariah-compliant Supplier Financing Programme that provides Malaysian SMEs with affordable, collateral-free funding

- Received the 2022 Malaysia Outstanding ESG Impact Corporate Excellence Award from KSI Strategic Institute for Asia Pacific

- Expanded our presence in East Malaysia by setting up a regional office in Sarawak for our Asset Consultancy division

EDGENTA DIGITAL ECOSYSTEM PLATFORM

Edgenta
NXT

Transforming today.
Advancing tomorrow.

→ BRIDGING THE GAP BETWEEN PRESENT AND FUTURE SERVICE DELIVERY

The asset and facilities management industry is evolving fast, moving away from the traditional 'maintain-repair-restore' model towards an emphasis on asset quality preservation and continuous operational optimisation of buildings, townships and even cities. This paradigm shift opens the door for innovative technology-based solutions, which we are delivering through Edgenta NXT.

Edgenta NXT is our in-house digital venture, established in July 2021 to commercialise technologies and technology-based intellectual properties to expedite Edgenta-wide digital transformation and facilitate rapid international expansion. We have developed three proprietary technology products - Asseto, Asseto for Health and QuickMed - each of which digitalise manual processes and facilitate data-driven insights to improve efficiency, enable better decision making and deliver bottom line results. We are continuously adding to these offerings through integration with ecosystem partners and reputable technology innovators globally.

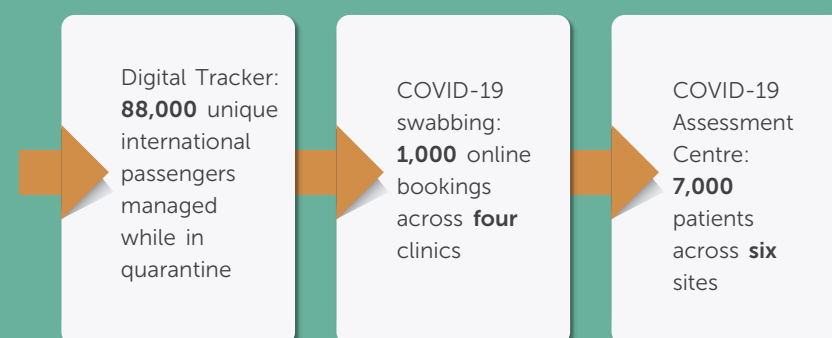

By driving our differentiation, deepening our solutions base and enabling cost optimisation, Edgenta NXT is not only growing a new revenue stream for the Edgenta Group but is also the key catalyst behind our Edgenta of The Future 2025 (EoTF2025) goals, empowering us on our journey to become a Technology-Enabled Solutions Company.

INNOVATION IN HEALTHCARE

In the wake of COVID-19, QuickMed was introduced as a timely solution to address the unprecedented challenges faced by the healthcare sector. As the pandemic situation evolved, the team behind QuickMed recognised the need to adapt and leveraged their learnings to develop Asseto for Health, an extension of our core product, Asseto.

QUICKMED

Incorporates clinic management, a COVID-19 screening booking platform and the Home Quarantine Management System ("HQMS"), enabling effective management of COVID-19 testing, quarantine and tracking at the national level

ASSETO FOR HEALTH

An evolution of our tech-based healthcare support, Asseto for Health combines key components of QuickMed's clinical capabilities with non-clinical capabilities under a usage-based, interoperable platform that meets the day-to-day needs of hospitals and other healthcare providers. Currently Asseto for Health is in the pilot phase, with the aim of launching a Minimum Viable Product in 2023.

asseto

Asseto is a powerful digital ecosystem designed to boost efficiency, intelligence and sustainability for businesses, governments and asset owners. Focusing on interoperability, Asseto seamlessly integrates key technologies such as automation, sensors, robots, and data aggregation to facilitate data-driven decisions that benefit all users.

At the heart of Asseto's value proposition is an integrated ecosystem that optimises energy consumption, waste management and user experience through AI and IoT capabilities. This approach encourages the development of smarter, greener assets and aids in selecting the "right" assets for greater sustainability.

Asseto also prioritises predictive maintenance, enabling proactive asset management for increased efficiency, reduced operational costs and extended asset lifespan. Furthermore, the platform streamlines communication and collaboration, enhances decision-making processes and improves user experience.

By fostering a cohesive and interoperable ecosystem, Asseto delivers exceptional value, promoting unbiased data-driven decision-making and a more sustainable future.

SCALABLE

→ Competitive pricing through a pay-as-you-grow model

CONFIGURABLE

→ Drag-and-drop capabilities with minimal customisations required

INTEROPERABLE

→ Easily integrates with third-party applications for extended value

GROWING ECOSYSTEM

→ Continuously expanding capabilities through strategic partnerships with technology leaders including Alibaba, ITMAX, Disrupt-X, Softbank and Sumitomo

In 2022, Asseto was selected by KLCC Urusharta to manage its assets, contractors and users across Towers 1, 2 and 3 of the Petronas Twin Towers. In addition, we have integrated Asseto into our processes at 11 different sites under our Property & Facility Solutions division.

KEY MESSAGES

| ▶ Chairman's Statement | 31 |
| ▶ Managing Director/Chief Executive Officer's Statement | 36 |
| ▶ Chief Financial Officer's Review | 42 |

CHAIRMAN'S STATEMENT

Dear valued stakeholders,

2022 was a seminal year for the Group. Driven to evolve by changing realities, we are now truly global both in presence and mindset, with an appetite to solidify our position as a technology-driven innovator across sectors and geographies. However, our drive to capture new opportunities has not swayed our attention from what matters most – delivering sustainable value for our people, our communities and our nation.

The notable progress that we have made across these dimensions is a testament to how fully the Edgenta Way of doing business has become embedded across our people and processes. It indicates, crucially, that we have secured the buy-in of our teams towards embracing transformation that delivers results for our bottom line and our sustainability agenda alike, in line with the theme of this year's report – Driving Technology, Advancing Sustainability.

It is this holistic approach – and its varied and encouraging outcomes – that I shall aim to articulate in this statement.

DELIVERING ON OUR STRATEGIC IMPERATIVES

Creating sustainable value begins with being a sustainable business and in this respect we have taken great strides during the past year.

By leveraging strategic partnerships and continuously investing in our digital capabilities through Edgenta NXT, our dedicated digital venture, we've made significant progress in the commercialisation of Asseto and our other digital solutions. Meanwhile, we have also gained traction in providing technology-driven green building solutions and integrated healthcare and facility solutions to our clients. These positive developments have served to further drive our differentiation in the increasingly competitive landscape for asset and facilities management.

As a result, we delivered a commendable 10.1% increase in both revenue and Normalised PAT during the year under review. This was achieved amidst a challenging, high cost operating environment and is a testament to the effectiveness of our operational efficiency and cost optimisation efforts. During 2022, we also secured RM1.36 billion in new wins – a 30% year-on-year increase – with 62% of these contracts being awarded for projects outside our home base of Malaysia.

As a result of our strong performance, we issued an increased dividend of 4 sen per share for the financial year ended 31 December 2022, consistent with our policy of providing optimum shareholder returns.

Just as important as our results, however, has been our attendant shift in mindset – from being a mere protector to an enhancer of asset value, integrating technologies into traditional setups in order to enhance the lives of people who use the facility and empower asset owners to track and improve their sustainability performance. By positioning ourselves as a technology and sustainability-centric company, we are moving up the value chain and strengthening our proposition in the global market.

CHAIRMAN’S STATEMENT

It has been equally encouraging to see the progress we have made in international expansion and diversification. During 2022, we officially entered the market of the KSA with the establishment of Edgenta Arabia Limited (“EAL”) and the impending purchase of a 60% stake in MEEM, one of the country’s leading facilities management companies. As a result, we are now in a strong position to bid for the sizeable Integrated Facilities Management (“IFM”) contracts that will become available under the government’s Saudi Vision 2030 masterplan.

At the same time, we have also deepened our penetration of the industrial and hospitality sectors while picking up key contracts for infrastructure services and asset consultancy in East Malaysia and Indonesia, thereby making strong headway on our Pan Malaysia strategy and building our regional presence. These wins are a testament to the dedication of our team, who are invested in our Edgenta of The Future 2025 (“EoTF2025”) strategy and making it a success.

Due to the proactive steps we have taken in the past year, we are now a more diverse organisation than before, both in terms of geography and sectoral presence. This means that we can access growth markets and quality earnings opportunities across Asia with agility, leveraging technology and sustainability-driven solutions to deliver added value to asset owners and enhance value creation for all stakeholders.

DEEPENING OUR ESG COMMITMENT

At UEM Edgenta, sustainability is a key driver of our value creation aspirations. By embedding sustainable practices into our operations and offering products and solutions that improve our customers’ sustainability performance, we aim to drive positive impact across our value chain and be recognised as an industry leader in ESG.

In June 2022, we launched our two-year sustainability roadmap (FY2022 – FY2024), outlining a focused, Group-wide sustainability pathway as well as a clear framework on governance, performance management and reporting that is in line with industry and global standards. Guided by our roadmap, we then commenced our inaugural emissions inventory exercise in August 2022 with the collection of emissions data from across the Group, while introducing capacity building programmes to empower our Board, management personnel and data owners in understanding our environmental footprint and how we can structure emissions reduction goals. Complementing these actions, we have also taken a more active role in climate action at the national level, becoming a member of Climate Governance Malaysia and shaping collective action through the CEO Action Network (“CAN”).

While we develop our long-term action plan, our waste management, material utilisation and water consumption efforts continue apace. Leveraging on our partnership with PLUS Malaysia, a recycling campaign was initiated across three Rest and Service Areas (“RSA”) along the North-South Highway, together with the rollout of the KLEAN machine, an AI-driven reverse vending machine. Conscious of the importance of effective stewardship in an increasingly water-stressed world, we are also looking to scale up our existing rainwater harvesting facilities beyond the eight sites they are currently situated at.

Beyond our own operations, we strive to deliver greater impact by embedding sustainability within our services and solutions. In 2022 alone, we delivered in this area by assisting eight hospital clients to receive the Green Building Index (“GBI”) certification and commencing the tracking of waste in client premises for enhanced waste management. We are also working with Alibaba to integrate their sustainability platform within AsseTO so that our customers can measure, analyse and manage their carbon emissions. In a world where sustainability performance is growing in importance, these solutions make a tangible difference for asset owners and are helping to drive our differentiation as a service provider.

AS A **TECH AND SUSTAINABILITY-CENTRIC** SOLUTION PROVIDER, WE ARE **FUTURE-ORIENTED** AND WELL POSITIONED TO CONTINUE ON OUR GROWTH PATH. MOREOVER, BY EMBEDDING TECHNOLOGY WITHIN OUR OWN OPERATIONS, WE ARE EQUIPPED WITH THE TOOLS TO BE MORE SUSTAINABLE AND TO DRIVE **SHARED VALUE FOR OUR PEOPLE, COMMUNITIES AND PLANET.**

CHAIRMAN’S STATEMENT

As a consequence of our focused efforts in sustainability, our FTSE4Good rating improved significantly – from 2.5 to 3.1 – during the past year. This places us above the emerging markets threshold for possible inclusion in the index and indicates that we are tracking well against global ESG standards. Meanwhile, we were honoured at the 2022 Malaysia Outstanding ESG Impact Corporate Awards by the KSI Strategic Institute for Asia Pacific, a testament to our strong performance across the ESG spectrum.

Our varied initiatives and their impacts are detailed in our expanded and enhanced Sustainability Statement, which provides insight into the role that sustainability will continue to play in building the Edgenta of The Future.

STANDING ASTRIDE OUR PEOPLE AND COMMUNITIES

Environmental action forms one focus area of our ESG framework, which also enshrines Education and Community Enrichment and Well-Being as pillars of our approach to creating long-term value.

In 2022, our community-based activities spanned 15 livelihood projects and stakeholder engagement activities, impacting more than 12,500 underserved communities nationwide and assisted by 790 volunteering hours contributed by our Edgenta Stars. These activities included support provided to underprivileged communities for festive celebrations, the donation of critical healthcare equipment, the refurbishment of school premises, the provision of school supplies to low-income families and disaster relief to mitigate against the impact of ever more frequent floods across Malaysia.

Looking forward, we will continue to attune ourselves to the evolving needs of communities in our vicinity, with the aim of delivering programmes that drive sustainable socio-economic development and further our impact as nation builders.

IN JUNE 2022, WE LAUNCHED OUR **TWO-YEAR SUSTAINABILITY ROADMAP** (FY2022 - FY2024), **OUTLINING A FOCUSED, GROUP-WIDE SUSTAINABILITY PATHWAY** AS WELL AS A CLEAR FRAMEWORK ON GOVERNANCE, PERFORMANCE MANAGEMENT AND REPORTING THAT IS IN LINE WITH INDUSTRY AND GLOBAL STANDARDS.

CHAIRMAN'S STATEMENT

NURTURING A PRODUCTIVE AND FULFILLED WORKFORCE

Advancing the nation also means advancing our people and providing them with employment that furthers their skills, rewards their performance and looks after their wellbeing. To this end, 2022 saw the launch of our Edgenta Workplace Wellness ("WoW") programme, providing comprehensive and personalised help to our Edgenta Stars in managing their work-life balance, health and other issues that may impact their work and personal lives. The programme reflects our commitment to supporting our employees in a more holistic and meaningful way, towards nurturing their capabilities and enhancing our proposition as a leading employer.

Supporting this, 32 wellness programmes were crafted for our workforce over the past year, providing support to our Edgenta Stars in enhancing their physical, emotional and financial wellbeing. We also organised a nationwide HR Roadshow in Malaysia to engage employees, address any concerns and enquiries, as well as educate them on our human resource tools, platforms, framework, policies and services. Further to this, we took the opportunity to educate Edgenta Stars on Human Rights through an initiative that was participated in by 1,083 employees.

With the pandemic having changed employee expectations, I am pleased to share that we have since formalised flexible work arrangements that enable our Edgenta Stars to achieve a more personalised balance between work and home-based duties. The arrangement is applicable to specific job functions where flexible work is feasible.

Meanwhile, from home to the world, our Global Talent Mobility Programme has been launched, providing our employees with the opportunity to take up placements of up to two years in our companies around the world. The programme seeks to improve employee engagement, motivation and retention while driving the cross-fertilisation of skills, knowledge and technologies across our increasingly global footprint.

Furthermore, and in cognisance of our growing responsibility as a globally diversified organisation, I am proud to note that we are elevating our commitment to Diversity, Equity and Inclusion ("DEI") through our active participation in CAN, utilising the network as a platform for collaborative discussion with other industry players on the development of a standard model for DEI policies, interventions and implementation across the country in 2023. The learnings from these engagements shall serve as a guide to our management-level teams in creating diverse and inclusive work environments where all our Edgenta Stars will feel equally supported by their peers and superiors, free of discrimination and any other unfair practices.

SAFEGUARDING AND FUTURE-PROOFING OUR BUSINESS

Today, we are a more global and diversified organisation than we have ever been. This means greater opportunity for growth, but it also heightens our responsibilities to safeguard value for our business and our stakeholders.

In today's rapidly changing digital landscape, we face the formidable challenge of increasingly sophisticated cyber-attacks. Therefore, as we transition to become a leading Technology-Enabled Solutions Company, our focus on fortifying cybersecurity defences is paramount. On this note, we are proactively deploying advanced technologies, such as EndPoint Detection & Response ("EDR") and Network Detection & Response ("NDR"), to bolster our capabilities in detecting and mitigating threats across our local and regional networks.

At the same time, the global scope of our operations necessitates that we remain vigilant in the face of heightened competition. Consequently, cost management has emerged as a strategic imperative for our organisation. Over the past year, we have executed comprehensive cost optimisation initiatives, emphasising the implementation of digitalisation and automation to maximise cost-efficiencies throughout our processes. A prime example of this innovative approach is the deployment of our "Low Code No Code" platform, an accessible solution that empowers our employees to become "citizen developers", enabling the transformation of manual processes into more cost-effective digital workflows.

Through the adoption of such cutting-edge strategies to achieve our cost optimisation objectives, we will not only enhance productivity but also promote data-driven decision-making and elevate the customer experience. In doing so, we are poised to future-proof our Group in multiple critical dimensions, ensuring long-term resilience and success.

Ultimately, however, our ability to deliver long-term value is predicated on responsible and foresighted governance that considers all aspects of value creation. On this note, our Fit and Proper Policy outlines clear standards and procedures in relation to the appointment and re-election of Directors of the Group and our subsidiaries. Meanwhile, the Board has approved our revised Terms of Reference for the Board Governance and Risk Committee and a revised Board Charter, with both incorporating updates on sustainability aspects from the Malaysian Code on Corporate Governance.

In striving to ensure effective stewardship of the Group in the next phase of its value creation journey, we were pleased to welcome En. Mohd Asrul Ab Rahim as a Non-Independent Non-Executive Director on 21 January 2022. I would also like to take this opportunity to thank our outgoing directors, Ms Wong Shu Hsien and Mr Robert Tan, for their sterling contributions to the Group's success over the years.

CHAIRMAN'S STATEMENT

SHARPENING OUR FOCUS ON FUTURE GROWTH

While our commendable performance in 2022 provides optimism, it should not distract us from the global macroeconomic challenges that remain. With geopolitical instability, inflation and supply chain disruptions persisting, the world's developed economies remain on a sluggish growth path, with Malaysia's economy forecasted to deliver moderate growth of between 4% to 5% in 2023.

To remain resilient amidst these headwinds, it is essential that we continue to focus on driving cost-efficiencies at all levels of our business. To facilitate this, we will continue to accelerate our ongoing digitalisation and automation efforts while implementing other measures to streamline our operations and business structure, including the disposal of underperforming assets where feasible. At the same time, bolstered by our strong cash position, we intend to explore further strategic partnerships in order to expand our addressable market while enhancing our margins by forging entry into high growth markets with high levels of tech readiness.

As we face up to the challenges and opportunities that lie ahead, we are emboldened by the foresighted moves we have made to make technology and sustainability central components of our solutions. As a result, we are now ahead of the curve and positioned to deliver greater impact for our business as well as our people, communities and planet.

This is a time for execution and in this respect, we can continue to count on the experience and know-how of our senior management and the over 16,000 Edgenta Stars who make up our workforce. Guided by the consistent and principled leadership of our Board, they will continue to be our rock of resilience and our driver of advancement as we breach brave new ground on our journey.

Lastly, I would like to thank you – our shareholders and stakeholders – for your continued support and faith. Together, we will surmount the challenges of today and bridge the gap to a brighter, smarter and more sustainable future for UEM Edgenta.

TAN SRI DR. AZMIL KHALID

Independent Non-Executive Chairman

MD/CEO'S STATEMENT

Dear Stakeholders,

I am pleased to announce that 2022 had been a positive year for UEM Edgenta. Despite the challenging external environment, we have achieved a remarkable growth momentum, surpassing even pre-COVID levels in terms of revenue growth. Our strong bottom line is a testament to the business and financial resilience of our company, reaffirming the success of our strategic vision. Throughout the year, we remained steadfast in executing our Edgenta of the Future 2025 ("EoTF25") strategy, which focuses on driving technology and advancing sustainability in all aspects of our business. This has allowed us to strengthen our international presence and enhance our capabilities to provide technology-enabled solutions that meet the evolving needs of our customers and stakeholders.

**SYAHRUNIZAM
SAMSUDIN**
Managing Director/
Chief Executive Officer

MD/CEO’S STATEMENT

OUR PIVOT TO
BECOME A
GLOBAL
ORGANISATION
IS BEARING
FRUIT, AS
INDICATED BY
THE FACT THAT
62% OF OUR NEW
WINS IN 2022
WERE FROM OUR
INTERNATIONAL
BUSINESS

REFLECTING ON THE YEAR

The year under review brought about new uncertainties, with external headwinds such as energy security, global inflation, and supply chain disruptions posing challenges for global economies. However, the reopening of borders and the lifting of movement control orders allowed us to expand our international business presence and deepen our foothold in the market.

In Malaysia, the reopening of the economy led to an increase in work orders secured by our Infrastructure Services division, resulting in a surge of infrastructure and construction projects. Digital and technology also continued to drive the business landscape, building on the pandemic’s momentum, which shifted how people worked and lived.

At UEM Edgenta, we adapted to these challenges and made the most of the opportunities. As an early adopter of technology in the asset and facilities management industry, we capitalised on its potential to deliver value and improve lives. Our advanced, technology-driven solutions enabled us to secure RM1.36 billion in new contracts, with half being technology-enabled, sustainable solutions that extract value from our customers’ assets powered by data-driven insights. We also formed strategic partnerships with global technology leaders, enhancing our solutions and propositions in our markets.

Our pivot to become a global organisation is bearing fruit, as indicated by the fact that 62% of our new wins in 2022 were from our international business. This shift unlocks new growth avenues and mitigates the threat of localised economic shocks, allowing us to allocate our resources towards high-quality earnings opportunities and operate with greater agility than ever before.

We also recorded a 30% growth in new wins from the previous year, driven by growth in infrastructure and international business. This growth is a testament to the quality of our service delivery and the strength of our

in-house tech capabilities, which have been instrumental in our success. These factors have allowed us to maintain our strong market position in our current operating markets, while also capturing market share in high-growth markets.

EoTF25: OUR STRATEGIC PROGRESS

UEM Edgenta’s EoTF25 Strategy has been instrumental in driving our strong performance in 2022, and we made significant progress in executing the strategy throughout the year. Our transformational plan is centred on leveraging technology to propel our growth, with three key pillars at the core of our strategy. We are on track to achieving the goals set out in these pillars, which drive our transformational journey.

MD/CEO’S STATEMENT

OUR 2025 GOAL IS
TO **REACH 12%**
REVENUE GROWTH
PER ANNUM OVER
FIVE YEARS, AND WE
HAVE ALREADY
ACHIEVED A 12%
COMPOUND
ANNUAL GROWTH
RATE (“CAGR”) SINCE
2020

Pillar 1

EXPAND FOOTPRINT AND DEEPEN SOLUTIONS

Our 2025 goal is to reach 12% revenue growth per annum over five years, and we have already achieved a 12% compound annual growth rate (“CAGR”) since 2020. A key area of progress has been the development of new products, including our innovative Integrated Healthcare Support. We have already rolled out 15 Integrated Hybrid Intensive Care Units (“ICU”) and implemented a Replacement-Through-Maintenance (“RTM”) programme for 62 units of Biomedical Engineering Maintenance Services (“BEMS”) assets between 2020 and 2022. These solutions are helping us to stay at the forefront of the industry, and we’re always looking for new ways to innovate.

In terms of international expansion, we entered the Kingdom of Saudi Arabia (“KSA”) in 2022, which became our sixth overseas market for business operations. Our acquisition of a 60% stake in MEEM through the partnership with MASIC, a reputable Saudi-based investment company, strengthened this establishment and opened up opportunities to tender for mega infrastructure and healthcare projects under the government’s ambitious Saudi Vision 2030 strategy. Our healthcare support services and facility management contracts in Singapore, Taiwan, and the United Arab Emirates (“UAE”) continue to experience success, evidenced by an impressive 90% renewal rate during 2022, which is a testament to the quality of our work and the strong relationships we have built with local clients.

We are also expanding into new sectors that offer higher margins and more promising growth opportunities, such as manufacturing, education and hospitality industries across Singapore and Taiwan. We are leveraging our technology and sustainability solutions in asset and facilities management to expand our addressable market.

MD/CEO'S STATEMENT

Pillar 2

EXTRACT VALUE FROM CORE BUSINESSES

We have made strong progress towards achieving our EoTF2025 goal of delivering cost savings of RM100 million over five years. In just two years, we achieved RM51.9 million in cost savings through a variety of initiatives, including bulk purchasing to reduce input unit costs, implementing LEAN programmes to identify operational efficiency opportunities, and driving ongoing digitalisation and mechanisation efforts.

We also implemented a Supplier Financing Programme and conducted data analysis under the Strategic Vendor Programme to drive rate reductions while creating a fit-for-purpose organisation by optimising work processes and right-sizing manpower to reduce costs and deliver effective solutions.

A key factor in our success is the smart and effective use of technology. By leveraging data analytics and machine learning capabilities, we have been able to extract valuable insights that have enabled us to develop more cost-effective resource utilisation strategies and implement predictive maintenance schedules across our assets, among other areas of impact.

In addition to these efforts, we have also been monetising mature and non-core businesses to streamline our portfolio and prioritise our resources towards growth markets. As an example, we have divested Fabor Sindoori Management Services Private Limited to Apollo Sindoori Hotels. This allows us to reinvest the proceeds and allocate more resources towards expediting our international expansion strategy and propelling our investments in technology and innovation.

Pillar 3

ENHANCE PRODUCT AND TECHNOLOGY PROPOSITION

Our goal is to differentiate ourselves through technology-based solutions, and we have achieved over RM1 billion in tech-enabled wins since 2020. This year, we made significant progress on commercialising our Asseto platform, the digital asset management solution developed by our technology innovation arm, Edgenta NXT. Asseto was chosen by KLCC Urusharta to consolidate and aggregate data from various sources, enabling better asset and user management across Towers 1, 2 and 3 of the Petronas Twin Towers.

We have also seen a strong interest in digital asset management in the healthcare industry, resulting in the development of Asseto for Health. This solution is specifically designed for hospitals, allowing healthcare providers to gain better insights, improve asset quality and comply with increasingly complex healthcare regulations.

Furthermore, we focused on building a tech ecosystem of Smart City solutions. Our partnerships with companies like Alibaba, ITMAX, Disrupt-X, Softbank and Sumitomo have enabled our customers to adopt advanced technologies for carbon emissions accounting, facial recognition-based access and security, smart traffic management and IoT into their building and operational management systems. As the Smart Facility Management industry matures, these new technologies help us shift our focus from managing individual assets to driving value, connectivity and efficiency across entire townships and eventually cities, leading our evolution towards becoming a holistic Smart City enabler.

Our efforts to enhance our product and technology offerings have allowed us to differentiate ourselves in the market and win significant contracts while providing innovative and efficient solutions to our clients.

INNOVATING FOR A SUSTAINABLE FUTURE

We view sustainability as a core element in the value we provide to our clients. We understand that by offering environmentally-friendly solutions, we can optimise our clients' assets and stand out in our competitive asset management and infrastructure services markets.

To further our commitment to sustainability, we began construction of a Recycled Asphalt Premix Plant in 2022. This plant is designed to produce recycled asphalt pavement and is expected to reduce up to 800 tonnes in CO₂ emissions annually. We aim to launch this solution commercially in the second half of 2023. This is just one example of how we are integrating business and sustainability to create synergies.

Furthermore, we launched a Green Building certification program to help our clients adapt to sustainability-related demands from authorities and society. This program assists building owners in achieving certifications such as Green Building Index ("GBI"), Leadership in Energy and Environmental Design ("LEED"), or Malaysian Carbon Reduction and Environmental Sustainability Tool ("My CREST"). With our assistance, eight hospitals received GBI certification in 2022 alone.

Our own actions towards sustainability also match our commitments to our clients. With this in mind, we launched a sustainability roadmap spanning from FY2022 to FY2024. It outlines crucial actions across the ESG spectrum and measurable goals embedded within our corporate scorecard. This provides momentum for our leaders at all levels to adopt sustainable thinking and processes in our everyday operations. We started digitising our backend systems for sustainability data collection as well as delivering capacity-building programs for our teams to establish our net zero targets by 2023.

As a testament to our sustainability endeavours, we improved our FTSE4Good rating from 2.5 in 2021 to 3.1 in 2022, indicating that our corporate sustainability practices are comparable to global companies. In addition, we are proud to announce that we have been recognised by the KSI Strategic Institute and the All-Party Parliamentary Group on SDGs ("APPG-SDG") at the 2022 Malaysia Outstanding ESG Impact Corporate Awards. This award recognises Malaysian organisations that demonstrate exemplary ESG practices in their business model and respective industries.

NEW FRONTIERS IN FACILITIES MANAGEMENT

The Facilities Management industry is undergoing unprecedented change with increasing client standards and demand with technological advancements and sustainability considerations driving disruption and transformation. At UEM Edgenta, we have embraced this change by integrating digital and tech-enabled solutions and sustainability programs across all our core businesses.

Our tech subsidiary, Edgenta NXT, offers a suite of technology-enabled solutions across the healthcare, infrastructure, facility management, and asset management consultancy sectors through its end-to-end digital transformation capabilities. With growing expertise in technology-based solutions, we provide hospital support services in 250 healthcare institutions across Malaysia, Singapore, and Taiwan. Additionally, our Property & Facility Solutions business arm manages over 500 building assets in Malaysia and the Middle East.

Through the Asseto platform, our digital transformation capabilities enable real-time, Internet of Things ("IoT") data analytics, predictive maintenance, and early detection of anomalies to manage our clients' assets more effectively. By harnessing the power of technology, we strive to deliver services that positively impact our everyday lives, from ensuring the cleanliness and safety of highways to maintaining top-notch healthcare delivery services.

Our goal is to continue scaling up our technology to surpass high delivery standards and benefit society well into the future. We are committed to resilient growth through tech-enabled solutions and sustainability programs across our business operations, and we will continue to work towards digital transformation through Edgenta NXT, offering end-to-end services and technology solutions.

MD/CEO'S STATEMENT

LOOKING FORWARD

The market landscape in the upcoming year is expected to remain challenging, marked by geopolitical instability, high raw material and labour costs, and global inflation. Despite the moderate growth of major developed economies, we remain cautiously optimistic about our future. Our proactive technology-based innovations, combined with our expanding global presence, position us well to weather any headwinds that may come our way. We have diversified our business across geographies, industries, and technologies, enabling us to quickly capitalise on opportunities in growth markets while mitigating against any country-level economic shocks.

Our long-term success depends on our ability to adapt to a constantly evolving asset and facility management industry. Today's asset owners demand more than just basic asset restoration, repair, and maintenance. They seek solutions that improve asset longevity, create new revenue streams, enhance user experience through technology and digitalisation, and help them reduce emissions and improve their overall ESG performance. Our technology-driven solutions provide us with a competitive edge, allowing us to offer holistic asset lifecycle management solutions that enable our customers to achieve their sustainability goals. This approach positions us higher up the value chain and enables us to tap into opportunities as a Smart City enabler, integrating intelligent and sustainable solutions.

As we embark on another year of uncertainty, I am confident in UEM Edgenta's ability to adapt and emerge stronger than ever. We have demonstrated time and again our ability to seize opportunities and build our resiliency. Our diverse stakeholders have played a crucial role in navigating this dynamic environment and encouraging our teams to approach challenges from different perspectives.

Therefore, I want to express my sincere gratitude to our stakeholders, including our loyal customers, dedicated management team, committed employees, suppliers, shareholders, and the wider community for their unwavering trust and support. With their continued backing, we are well on our way to achieving our vision of becoming a Technology-Enabled Solutions Company that drives innovation and advances sustainability.

SYAHRUNIZAM SAMSUDIN
Managing Director/Chief Executive Officer

CHIEF FINANCIAL OFFICER'S REVIEW

Dear valued stakeholders,

In the face of a challenging global operating environment, I am thrilled to announce that 2022 marks a milestone year for our organisation. Our Group has achieved an outstanding financial performance, recording our highest revenue in the past five years. This remarkable accomplishment is a testament to our unwavering focus on delivering value to our stakeholders and our commitment to innovation and resilience. Moreover, this achievement has put us firmly on track towards realising our EoTF2025 plan, which aims to transform our business, streamline our operations, and strengthen our position as a leader in our industry. With a strengthened balance sheet, we are well-positioned to continue this momentum and create long-term, sustainable value for all our stakeholders.

CHIEF FINANCIAL OFFICER’S REVIEW

The COVID-19 pandemic has been a game-changer for businesses worldwide, including ours. Despite the challenging global operating environment, we have demonstrated resilience and adapted our strategies to cater to our customers’ evolving needs. We have implemented a revenue diversification strategy that is gradually taking shape, and we have successfully expanded our global presence, including in the Kingdom of Saudi Arabia (“KSA”). Our new contract wins amounting to RM1.36 billion in 2022 saw a notable 62% coming from international business.

However, even with the strong revenue growth, we are facing numerous headwinds which are placing pressure on our bottom-line. These challenges include cost escalation and margin compression, which are attributed to global supply chain disruptions, inflationary pressures and minimum wage legislation. In addition, we are also investing in exploring new markets and developing technology enabler products, which is impacting our business. Though these initiatives are in their gestation period and yet to contribute positively to our bottom line, we are confident that they will in time.

Given the current business challenges, we have initiated a range of strategic cost-saving and operational efficiency measures to proactively mitigate the effects of the rising costs and fierce competition.

GROUP FINANCIAL PERFORMANCE

During the year in review, the Group achieved a noteworthy increase in revenue of RM231.2 million (10.1% Y-o-Y), from RM2,292.4 million to RM2,523.6 million, with all business divisions except Property & Facility Solutions recording revenue growth. This positive trend is attributed to the resumption of business-as-usual in the post pandemic era, particularly with the significant increase in infrastructure service works for expressways under PLUS Malaysia Berhad and the securing of key contracts in healthcare support services, especially in Singapore and Taiwan, being two of the most notable value drivers of our revenue growth.

As previously noted, our bottom-line was impacted by the general cost escalation resulting from external economic factors and our preliminary expenses related to exploring new technology and markets. As a result, our net profit growth did not keep pace with the increase in revenue. Despite these challenges, we were able to secure an increase in PAT of RM2.3 million (5.3% Y-o-Y) through our effective cost management and operational efficiency improvements to mitigate the impact of cost escalation and protect our profit margin.

OPERATIONAL RESILIENCE AND MITIGATING BUSINESS CHALLENGES

Across our operations, we were impacted by escalating labour, energy and material costs driven by existing supply chain imbalances and geopolitical instability. To mitigate against these pressures, we sought to drive savings through stringent cost management and control, operational efficiency initiatives and the optimisation of our practices. Amongst the various actions taken, we undertook a staff rationalisation exercise to reduce costs related to our workforce, continued to strategically optimise our procurement cost and streamlined our supply chain processes. In addition, we also leveraged our LEAN programme to identify operational efficiency opportunities across our processes. Our ongoing digitalisation and mechanisation initiatives have enabled us to unlock digital processes that will generate long-term cost savings and quality improvements.

In delivering improved cost management, our procurement practices will continue to play a key role. In collaboration with HSBC Amanah Malaysia Berhad, we launched the Supplier Financing Programme (“SFP”), whereby our suppliers can access financing without collateral, leveraging on our strong financing position. The SFP complements the Government of Malaysia’s Bumiputera Vendor Development Programme to nurture SME suppliers to grow into larger companies and obtain hassle-free access to affordable financing, and ensure the suppliers have sufficient cash flow to carry out their obligations and deliver goods and services on time.

The programme allows us to help our suppliers to reshape their business towards a sustainable future, which indirectly has contributed as our social responsibility under our ESG initiatives. This initiative benefits us by ensuring our suppliers have ample cash flow and lower financing costs to carry out their obligations, thereby building better supplier relationship and strengthening our position when undertaking price negotiations.

In parallel to the SFP, we also initiated our Strategic Vendor Management Programme. Through this programme, we are able to foster close working relationships with our vendors through capacity building, which in turn will help us to achieve better pricing, improved delivery schedules and higher quality products or services. The programme also allows us to gain a better understanding of our vendors’ business strategies and priorities, which enables us to align our requirements with their capabilities, especially in areas of ESG which benefit both parties in the long run.

Overall, the Strategic Vendor Management Programme is a crucial component of our procurement strategy, allowing us to build strong partnerships with our vendors, improve our procurement cost, and deliver value to our customers.

Supported by these wide-ranging initiatives, I’m pleased to report that we have achieved RM51.9 million in Group-wide cost savings in just two years, placing us on track to achieve our EoTF2025 goal of RM100 million in cost savings over 5 years ahead of time.

STREAMLINING OUR PORTFOLIO FOR FUTURE GROWTH

Over the past few years, the asset and facilities management industry has become increasingly competitive, with players engaging in price wars to stay afloat amidst the global cost escalation. This heightened competition has adversely affected our margins and profitability across all business segments.

To position ourselves for future growth, we have directed concerted investment towards integrating cutting-edge technologies within our offerings, leveraging strategic partnerships with innovative companies including Alibaba, ITMAX, Disrupt-X, Softbank and Sumitomo to offer our clients access to technologies that drive enhanced cost-efficiencies and sustainability, amongst other benefits. Our technology-driven solutions also act as a key differentiator and competitive advantage from other active players in the IFM market.

We have also expanded our presence in adjacent sectors that offer higher margins and growth opportunities with our entry into IFM services for the hospitality and manufacturing sectors in Singapore and Taiwan. Additionally, we established a subsidiary company, Edgenta Arabia Limited (“EAL”), and acquired a 60% equity stake in MEEM, a prominent facilities management company in the KSA. This places us in a strong position to tender for mega projects under the Saudi Vision 2030 plan, which has an investment value of USD1 trillion.

As part of our portfolio restructuring efforts, we also divested our India-based associate, Faber Sindoori Management Private Limited, allowing us to streamline our portfolio and allocate resources towards our growth markets, ensuring optimal capital reallocation and recycling. By focusing on high-growth and high-margin markets and reallocating capital from underperforming assets, we are confident that we will continue to drive sustainable growth and create long-term value for our stakeholders.

While our investment has impacted our bottom line during FY2022, it positions us to move up the asset and facilities management value chain, ensuring access to lucrative growth opportunities in international and high-growth markets.

CHIEF FINANCIAL OFFICER’S REVIEW

FINANCIAL PERFORMANCE BY SEGMENT

- **Healthcare Support**

The largest contributor to the Group’s revenue, the division recorded a 3.8% Y-o-Y increase from a substantial revenue base of more than RM1.4 billion per year, contributing to a RM53.9 million increase in revenue for FY2022. The increase was driven by the mobilisation of new contracts secured in Singapore and Taiwan, and the appreciation of the Singapore Dollar (SGD) against the Malaysian Ringgit (MYR). However, the implementation of the minimum wage in Malaysia and inflationary pressure led to cost escalation, which caused a RM4.7 million (-5.0% Y-oY) decrease in Normalised PBT.
- **Property & Facility Solutions**

The division experienced a decline in revenue of RM5.0 million (-2.9% Y-o-Y) due to the completion of key projects in Malaysia and the UAE, as well as the delayed handover of some new contracts. The impact was further hampered by the margin compression due to global supply chain disruptions and inflation across all costs including manpower, sub-contractors and operating costs, resulting in a decrease of RM13.3 million (-63.3% Y-o-Y) in PBT.
- **Infrastructure Services**

The division performed strongly, benefiting from increased pavement works on expressways from core clients, PLUS Malaysia Berhad and Jabatan Kerja Raya, as well as new wins in East Malaysia and Indonesia. This contributed to commendable increases of RM175.9 million (29.5% Y-o-Y) in revenue and RM24.3 million (59.3% Y-o-Y) in Normalised PBT. The division’s strong performance was further supported by operating efficiency initiatives, including staff rationalisation exercises conducted over the past two years, which helped to streamline costs and refresh the division’s talent pool.
- **Asset Consultancy**

The division saw a RM17.1 million (20.7% Y-o-Y) increase in revenue due to higher staff utilisation rate and the resumption of major infrastructure projects. Amid the significant impact of COVID-19 pandemic to the division, we took steps to optimise costs by implementing staff rationalisation and stringent cost management measures in recent years. The efforts, coupled with the resumption of projects, led to positive outcomes in FY2022. The division successfully achieved a turnaround in the current financial year, generating a profit of RM1.8 million compared to a loss before tax of RM17.2 million in FY2021. This represents a significant improvement of RM19.0 million (110.5% Y-o-Y).

CHIEF FINANCIAL OFFICER’S REVIEW

FINANCIAL POSITION

Overall, our financial restructuring efforts have enabled us to strengthen our financial position and better navigate the challenges of the economic situation. In FY2022, we implemented various

initiatives to improve our financial position, including strengthening our collections process and optimising our payment terms with suppliers through the SFP programme.

CHIEF FINANCIAL OFFICER’S REVIEW

NORMALISED PBT* (RM million)

Through these initiatives, we were able to increase our net operating cash flow from RM44.6 million in FY2021 to RM104.3 million in FY2022. This resulted in a healthy net cash position of RM247.9 million (FY2021: RM185.2 million) and cash and bank balances (including fixed deposits and cash placed in money market funds) of RM706.7 million (FY2021: RM628.7 million).

Our financial performance and cash flow management strategy have resulted in a stronger balance sheet and enhanced liquidity. At the end of the year, the Group’s total assets increased to RM2.87 billion from RM2.86 billion in FY2021, while net assets per share also rose to RM1.90 per share (FY2021: RM1.85 per share). Our working capital remained strong, and we maintained a low gearing ratio of 0.29x (FY2021: 0.29x), which demonstrates our ability to manage our debt effectively. With a solid financial foundation, we are well-positioned to scale our operations and pursue inorganic growth opportunities when they arise, allowing us to continue creating long-term value for our stakeholders.

In addition, our strong performance during the year gave us the opportunity to issue a single-tier interim dividend of 4 sen per share for the financial year ended 31 December 2022, an increase from the 3 sen per share dividend issued in FY2021. Our increased dividend payment is a testament to our commitment to delivering value to our shareholders while pursuing new growth opportunities in new markets and technology-driven solutions. This is in line with our dividend policy of 50%-80% of PATANCI, which is geared towards delivering sustainable long-term shareholders return.

OUTLOOK

Whilst the Group delivered a good financial performance in the year under review, we remain cautious about our near-term prospects due to the persisting fragility of the global economy and the inflationary pressures that continue to dampen sentiment within the business community. Having said this, we are now more resilient than before, both from a financial and operational standpoint. This is because of the challenges of the past few years, which spurred us to reposition

our portfolio and accelerate changes to our business and operating structure.

Looking ahead, our top priority will be safeguarding and protecting our core and concession businesses while further pursuing our diversification strategy to access high growth markets and high margin sectors. We will continue to focus on delivering world-class services and maintaining our position as the champion in our industry, driven by stringent cost management and improved operational efficiencies.

Over the past two years, we have focused towards international opportunities and have tapped into new areas of growth by adopting technology and incorporating sustainable asset management solutions. As a result of these efforts, we can now look forward to a wider range of revenue-generating opportunities across our expanded geographical footprint, especially in KSA and across the island of Borneo. We will continue to implement our pan-Borneo strategy within our Infrastructure Services business segment, ensuring that we maximise our potential in this region.

To support our growth and expansion, we will strive to ensure sufficient capital allocation of growth CAPEX for the development of technology-based solutions. Bolstered by our healthy cash position, we are also in an ideal position to invest in further strategic partnerships and inorganic growth opportunities, thereby driving our differentiation in ever more competitive markets.

With new market expansion, digitalisation and digital technology as our core drivers, we are confident that we can navigate challenges in our operating environment while growing our bottom line, positioning ourselves to achieve our EoTF2025 goals and complete our transformation to become a globally-recognised Technology-Enabled Solutions Company by 2025. Our ultimate goal is to drive sustainable growth and create long-term value for our shareholders.

FORMULATE

FORMULATE BUSINESS STRATEGIES

Guided by our material matters, we develop strategies that deliver shared value between our business and our stakeholders. Strategies are also aligned with our overarching EoTF2025 vision, which is geared towards transforming UEM Edgenta into a leading Technology-Enabled Solutions Company by 2025:

Our EoTF2025 pillars:

- ▶

Expand business footprint and deepen solutions base
- ▶

Extract value from core businesses
- ▶

Enhance product and technology proposition

ALLOCATE OUR RESOURCES

We formulate our strategies to maximise the productive use of our resources across the six capitals.

INTEGRATE INTO OUR BUSINESS MODEL

Leveraging our global resources, strategies are implemented through our four business divisions.

CREATE VALUE

Our strategies serve our Vision – Optimising Assets to Improve Lives – while delivering positive outcomes:

- FOR SHAREHOLDERS
- FOR CUSTOMERS
- FOR GREATER SOCIAL EQUITY
- FOR COMMUNITIES
- FOR A BETTER ENVIRONMENT

BASE OF MODEL

INTEGRATING SUSTAINABILITY

Sustainability is the thread that connects all the elements of our value creation process, informing the assessments of our stakeholders, influencing the risks we face and shaping the way we formulate our strategies. By embedding sustainability at all levels of our business, we are best placed to deliver shared value across our business, national economies, people and the planet.

KEY CAPITALS

Our ability to create value for all stakeholders is premised on the effective use of the resources we possess. These resources can be categorised by the six capitals: Financial, Manufactured, Intellectual, Human, Social and Relationship Resource, and Natural.

FINANCIAL CAPITAL

We possess a healthy pool of funds to support our existing operations and continued expansion. Our prudent approach to cash and liquidity management allows us to weather short-term economic downturns and other setbacks.

Revenue:
RM2,523.6 million
(2021: RM2,292.4 million)

Cash, bank balances, deposits and short-term investments:
RM706.7 million
(2021: RM628.7 million)

Gearing ratio:
0.29x
(2021: 0.29x)

MANUFACTURED CAPITAL

We invest in cutting-edge machinery and equipment to ensure optimum performance and meet the highest industry standards, thereby enhancing the performance of our clients' business assets over time and improving our position in the regional market for infrastructure solutions.

Over 1,000 units
of cleaning machineries under Healthcare Support

Invested more than
RM10 million
in mechanised vehicles to increase efficiency and productivity

6 major
machineries for each Pavement Team
(10 competent in-house Pavement Teams)

INTELLECTUAL CAPITAL

Through our proprietary solutions - Asseto, Asseto for Health and QuickMed - and our growing list of technology partnerships, we provide our clients with data-driven insights that enable improvement in asset performance, customer satisfaction and sustainability. We also leverage digital technology and automation to streamline our processes and optimise our cost base.

Edgenta NXT, our dedicated digital venture, is committed to developing
innovative, interoperable and scalable digital solutions,
taking facilities management to the next level.

Technology solutions:
Asseto, UETrack™ and RAMS

Assets under management:
47,039 assets
in 363 buildings across 13 sites nationwide

KEY CAPITALS

HUMAN CAPITAL

Our diverse workforce are central to achieving our goal of becoming a Technology-Enabled Solutions Company by 2025. We support our people by investing in their continuous professional development, looking after their wellbeing and providing them with avenues to drive innovation both internally and for our clients.

A diversified workforce of
over 16,000
across six countries

Investment in Employee Training and Development:

- Implementing various strategies to stabilise manpower concerns in order to achieve service level deliverables
- Addressing staff concerns through clear and regular communication
- Providing on-the-job and structured trainings to provide employees with skills needed to perform their roles
- Holding management town halls, dialogue sessions and feedback meetings
- Developing a 2-year sustainability roadmap which defined our sustainability action plans based on our material matters
- Formulating intervention plans to mitigate sustainability risks

KEY TOPICS AND CONCERNS RAISED

- Quality of service delivery
- Enhancement of technical knowledge in service delivery and the sharing of best practices across hospitals
- Contingency planning to mitigate business risks impacting service delivery
- Operating in the endemic environment and our approach to its challenges
- Our approach to manpower shortages, maintaining employee wellbeing and maintaining a strong talent pool
- Transformation of products and services through innovation, automation and technological advancements
- Sharing of best practices in managing sustainability, e.g., procurement processes, environmentally friendly products
- Health and safety compliance at work and construction sites
- Enhancement of safety requirements and the fostering of a safety-first culture

OUR RESPONSE

- Maintaining open dialogues with clients and partners to develop shared understanding and establish mutually beneficial solutions in addressing challenges
- Implementing automation and digital solutions to enhance productivity and mitigate against manpower shortages
- Implementing sustainability solutions, e.g., procurement of environmentally friendly cleaning solutions, paper and plastic products
- Implementing various measures to enhance safety, e.g., heightened safety inspections by workplace safety and health leads to reinforce and enhance safety culture across various projects

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

With the reopening of borders and ceasing of movement control orders, 2022 provided us with the opportunity to deepen our foothold across our international business presence. Nevertheless, our ability to execute our strategies was impacted by an uncertain macroeconomic outlook and continued supply chain disruptions which led to escalating costs of raw materials and fuel, causing businesses to rein in spending and adopt a cautious stance.

In Malaysia, the reopening of the economy resulted in a surge of infrastructure and construction projects, equating to an increase in work orders secured by our Infrastructure Services division. This is set to be bolstered by further infrastructure projects under the Public Private Partnership ("PPP") 3.0 model as well as upcoming projects in East Malaysia. Meanwhile, political uncertainty was eased with the formation of the unity government, providing optimism for a more stable and globally competitive national economy.

MALAYSIA

Malaysia is our home country and the hub of all four of our business divisions – Healthcare Support, Property & Facility Solutions, Infrastructure Services and Asset Consultancy.

TRENDS:

- Escalation in operating costs due to manpower sourcing challenges and implementation of new minimum wage
- Infrastructure boom in East Malaysia
- Resumption of traffic volume in the endemic phase
- Increased demand for sustainability solutions in infrastructure and asset management

ACTIONS TAKEN:

- Continued our cost optimisation exercise by implementing automation and mechanisation, streamlining finance and procurement processes and rationalising our business structure
- Enhanced process efficiency by implementing smart building technologies for asset owners
- Delivered sustainable solutions to support our clients' sustainability agenda
- Developed a strong presence in East Malaysia by partnering with the Sarawak Economic Development Council ("SEDC")
- Developed new ESG solutions, including our recycled asphalt premix plant

SINGAPORE

We provide healthcare support solutions to a wide range of public and private hospitals in Singapore, steadily expanding our presence to include IFM, hospitality sector services and digital solutions.

TRENDS:

- Rising operating costs due to inflation and manpower scarcity
- Growth in demand for asset and facility management services across sectors
- Intense business competition
- Stringent demands in service and quality

ACTIONS TAKEN:

- Implemented cost optimisation measures to minimise margin erosion
- Diversified our sources of manpower while increasing our hiring of local talent
- Implemented technology-based solutions - including our *UETrack*™ system and robotics solutions - to drive operational excellence and lower costs
- Entered the hospitality market with the provision of room attendant and laundry attendant services at two hotels
- Launched and commercialised our digital solutions business with the implementation of the *UETrack*™ – Smart Toilet System at a chain of polyclinics

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

TAIWAN

In Taiwan, we deliver hospital support services that include portering, housekeeping and cleaning, with our housekeeping services progressively expanding into other commercial sectors.

TRENDS:

- Rising operating costs due to inflation and manpower scarcity
- Increasingly stringent service standard demands

ACTIONS TAKEN:

- Diversified our clientele base into the high tech, arts and leisure, transportation and education sectors
- Implemented technology-based solutions – including *UETrack*™

INDONESIA

We established a presence in Indonesia by providing maintenance services for toll roads and have since expanded our presence by becoming involved in highway construction projects.

TRENDS:

- Rising operating costs due to inflation and manpower scarcity
- Intense business competition

ACTIONS TAKEN:

- Adopted strategic pricing while focusing on mid-size projects
- Gained a better understanding of the local supply chain with the aim of tendering more competitively
- Partnered with local entities to improve market access

UNITED ARAB EMIRATES

Through Operon Middle East, we provide end-to-end facility management solutions in Dubai.

TRENDS:

- Increasing adoption of advanced data-driven technologies such as IoT, Artificial Intelligence ("AI") and machine learning
- Rapid emergence of Smart City developments

ACTIONS TAKEN:

- Became a smart city solution implementation partner for the Middle East by collaborating with Al-Futtaim Technologies as the master integrator
- Became an IoT Platform Solution Reseller for the Middle East while securing sole distributorship of the Disrupt-X IoT platform in the UAE
- Established other strategic partnerships to deliver value-added services to our clients, with the overarching aim of reshaping facilities management through interoperable solutions that seamlessly connect all parties

KINGDOM OF SAUDI ARABIA

We are present in KSA through Edgenta Arabia Limited ("EAL"), a wholly-owned operating company in Riyadh under UEM Edgenta Berhad's international business division. Edgenta Arabia aims to deliver value through technology and sustainability-driven solutions, supplemented by traditional IFM services.

TRENDS:

- Saudi Vision 2030 is driving the growth of new sectors, companies and jobs, spearheaded by the Public Investment Fund ("PIF")
- Giga and mega projects worth around USD1.3 trillion provide great opportunities for the integration of IFM and value-added services
- Multiple Public-Private Partnership ("PPP") projects are being launched across the country, with IFM a key part of the solution

ACTIONS TAKEN:

- Partnered with MASIC by taking a 60% stake in MEEM, an established facilities management company, to provide EAL with accelerated participation in the country's facility management industry
- Built relationships and engaged with various stakeholders in KSA, such as the Ministry of Investment, PIF and PPP entities, for potential direct and indirect participation in mega and giga projects
- Formed strategic partnerships to deliver end-to-end, best-in-class IFM services with value-added solutions in sustainability and energy efficiency

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

The post-pandemic environment presents us with a variety of challenges and avenues for growth. With the acceleration of digitalisation and increasing importance placed on sustainability, we have the opportunity to position ourselves as a progressive and future-oriented company. At the same time, we must remain attuned to the evolving expectations of employees and maintain cost excellence to mitigate against global economic headwinds.

These key market trends and our response to them are outlined below.

MACROECONOMIC CHALLENGES

Driven by geopolitical instability and widespread inflation, the growth of the world economy is expected to slow from 3.4% in 2022 to 2.9% in 2023, representing its weakest growth profile since 2001 (with the exception of the global financial crisis and the earliest stages of the pandemic). This economic slowdown is expected to be most pronounced in the world's largest economies – including the USA, the Eurozone and China – with far-reaching consequences for businesses across the globe.

POTENTIAL IMPACTS

Risks:

- Dampening sentiment for investment among business owners and governments
- Continued inflationary pressure, leading to erosion of margins
- Inability to renew existing contracts and secure new projects

Opportunities:

- Utilising our cost advantage and agility to secure new contracts in international markets
- Differentiating ourselves through technology and sustainability-based asset management solutions that drive cost savings and efficiency

HOW WE RESPONDED

- Accelerated our digitalisation, automation and mechanisation efforts to drive cost optimisation
- Commercialised proprietary technology solutions under Edgenta NXT as our unique selling proposition in the asset management market
- Pursued partnerships with global technology leaders to enhance our suite of technology-based solutions
- Entered the high growth market of KSA to access opportunities for mega projects under Saudi Vision 2030
- Diversified into high growth and adjacent markets sectors that offer good earnings quality, such as manufacturing and hospitality
- Secured new infrastructure-based business in East Malaysia and Indonesia

OUTLOOK

We will continue to harness cost efficiency across our business divisions in alignment with our Edgenta of the Future ("EoTF2025") vision while pursuing our diversification strategy to access high growth markets and quality earnings sectors, thereby mitigating against the potential impact of global economic headwinds.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

TRANSITION TO LOW-CARBON ECONOMY

With the urgency of climate change now firmly embedded in our collective psyche, the sustainability and environmental impact of corporate players has become a key consideration for clients, governments and investors alike. Further to this, companies in Malaysia are expected to adopt net zero targets and contribute to the government's drive to cut carbon intensity against gross domestic product ("GDP") (by 45% by 2023 compared to 2005 levels).

POTENTIAL IMPACTS

Risks:

Non-compliance with environmental regulations or failure to meet globally-accepted environmental standards could lead to:

- Loss of access to international markets
- Difficulty in securing renewal of existing contracts and winning new projects
- Diminished reputation amongst clients, investors and governments, leading to significant financial impact

Opportunities:

- Accelerating our growth by establishing ourselves as an industry leader in sustainability
- Introducing technology and sustainability-based solutions that drive improvement in our clients' sustainability performance

HOW WE RESPONDED

- Launched our two-year sustainability roadmap with tangible targets across six sustainability pillars
- Delivered strong performance across our sustainability material matters, leading to a commendable improvement in our FTSE4Good rating from 2.5 to 3.1
- Took a leading role as a member of Climate Governance Malaysia and the CEO Action Network ("CAN")
- Deepened our action in waste management, material utilisation and water consumption, including by installing a reverse-vending machine and initiating a recycling campaign with our client, PLUS Malaysia Berhad
- Supported our clients' sustainability journeys through EPC services and green building certification solutions, amongst other solutions

OUTLOOK

Bolstered by our sustainability roadmap, we intend to accelerate our climate action journey in the coming years, including via the setting of net zero targets in 2023. This journey will be assisted by continued capacity-building across our workforce and improved data collection methodologies.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

EVOLVING
WORKFORCE
CHALLENGES

The pandemic changed the calculus for employees and employers, ushering in a new age where hybrid, work-from-home and remote work arrangements have become the norm rather than the exception, with employees putting a premium on companies that support their holistic wellbeing. Parallel to this, there is a growing need to future-proof employees by providing them with training in digital technology, sustainability and other key areas, which is especially important given our global presence and increasing digital-centricity.

POTENTIAL IMPACTS

Risks:

Failure to meet the shifting expectations of employees could lead to:

- Loss of competitiveness in the talent market
- Reduced ability to retain existing employees
- Reduced ability to execute strategic plans and reach our EoTF2025 goals

Failure to adequately upskill our employees could lead to:

- Reduced ability to meet our targets in technology integration, sustainability and cybersecurity, amongst other areas
- Reduced ability to attract and retain talent

Opportunities:

- Establishing ourselves as a leading employer through purpose-fit engagements and initiatives
- Harnessing a wider talent pool and driving talent attraction and retention by embracing hybrid and flexible work structures

HOW WE RESPONDED

- Formalised flexible work arrangements that enable employees in specific job functions to work from home
- Initiated our Edgenta Workplace Wellness ("WoW") programme to support our employees' physical, emotional and financial wellbeing
- Delivered role-specific and general training through our Career Development Programme, supported by our Learning Management System, Learn on Edge
- Employee Mobility Programme as part of future-proofing employees for our international expansion

OUTLOOK

As the expectations of employees and the demands placed on our workforce continue to evolve at a fast pace, we will strive to improve our approach to employee wellness and career development, including through the impending launch of our Diversity, Equity and Inclusion ("DEI") Policy in 2023.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

THE
DIGITALISATION
OF EVERYTHING

From IoT to AI, cloud-based technologies to automation, IR4.0 technologies are now ubiquitous in companies around the world, driving cost and operational efficiencies while opening the door to new business models and sources of revenue. With this rapid shift, our ability to compete and succeed in the global arena will be determined by how effectively we can leverage digital technologies to drive value as well as our ability to mitigate against increasingly complex cybersecurity and data privacy challenges.

POTENTIAL IMPACTS

Risks:

- Inability to compete – on services and pricing – with more effectively digitalised industry players
- Loss of key contracts and inability to acquire new projects due to lack of technology-based solutions
- Reduced ability to attract and retain tech-skilled talent
- Leaks of customer information and intellectual property due to cyber attacks

Opportunities:

- Increasing revenue generation and driving differentiation by adding more technology-based solutions to our suite of offerings
- Unlocking new tech-based business opportunities across different industries and markets
- Streamlining our business processes and driving cost optimisation through digitalisation
- Establishing ourselves as a cyber-ready organisation by adopting leading edge cybersecurity technologies and approaches

HOW WE RESPONDED

- Commercialised our Asseto asset management solution and undertook a pilot phase for our Asseto for Health solution
- Pursued partnerships with technology leaders including ITMAX, Disrupt-X, Alibaba, Sumitomo and Softbank, which will provide our clients with access to technologies for energy savings, facial recognition-based access and security, smart traffic ordering and IoT-enabled buildings
- Continued to digitise our internal processes in order to drive cost efficiencies
- Utilised data analytics and machine learning for resource utilisation, performance benchmarking and predictive maintenance
- Empowered our employees to digitise internal processes through Low Code No Code solutions
- Drove digital innovation amongst our employees through the Edgenta Innovation Programme
- Implemented EndPoint Detection & Response ("EDR") Network Detection & Response ("NDR") and SIEM technologies to bolster our cybersecurity defences

OUTLOOK

We anticipate that demand for digital solutions will drive the asset management industry to an even greater degree in the years ahead. With this in mind, our proactive investment in improving our digital capabilities and solutions positions us ideally to move up the asset management value chain and achieve our vision of becoming a Technology-Enabled Solutions Company by 2025.

OUR MATERIAL MATTERS

Our material matters represent the issues that are most important to our business and stakeholders, guiding us in developing strategies and initiatives that maximise shared value creation.

Reflecting the importance of sustainability to the organisation, our material matters are identified by shortlisting key matters across the ESG spectrum. These matters are prioritised by assessing each matter’s significance to our stakeholders and impact on our business, a process which was last carried out in full during FY2022. In January 2023, we leveraged on the assessment carried out in FY2022 and obtained further input from external stakeholders through interviews and online surveys on the existing list of 11 material matters.

The finalised list of material matters, as presented in this section, forms the focus of our reporting, communications and disclosures both within this report and the Sustainability Statement contained within it.

MATERIALITY ASSESSMENT PROCESS

STEP 1 Topic Identification

Material ESG matters are identified based on their relevance to the Group

STEP 2 Stakeholder Engagement

Internal and external stakeholders are engaged to score the material ESG matters based on its importance

STEP 3 Analysis of Importance

Stakeholder responses are collated and analysed

STEP 4 Matrix Generation

Based on the responses, a materiality matrix is generated for effective visualisation of the relative importance of the matters

STEP 5 Validation

The materiality matrix is presented to the Group’s ESG Working Group and Board of Directors for validation

MATERIALITY MATRIX

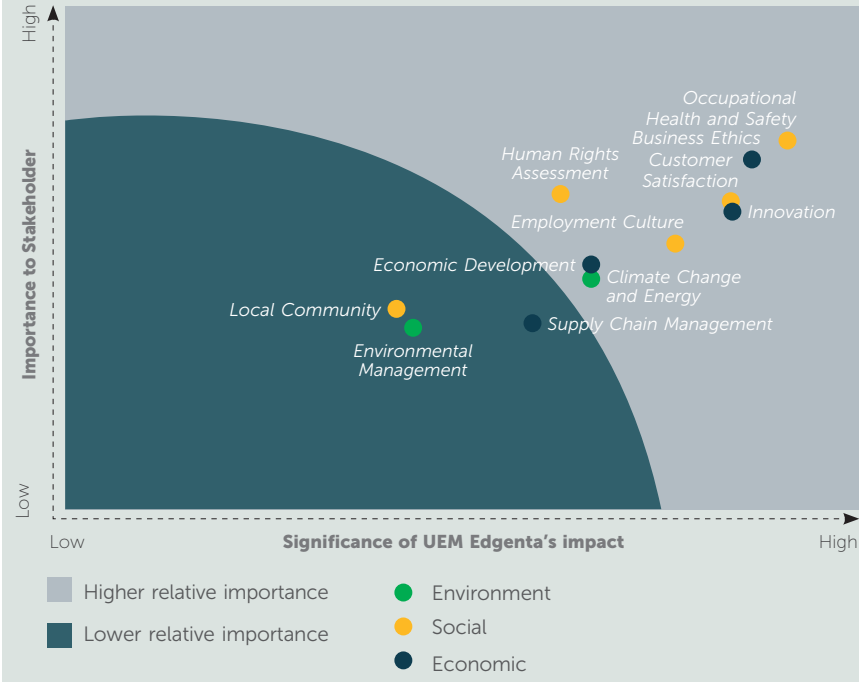

Based on the responses provided, a materiality matrix was generated, showing the average score assigned to each matter by our stakeholders across FY2022. Changes in the relative positions on the material matters allow us to align our material ESG matters/issues with our business strategy for the year 2022.

The matrix indicates the relative importance of each matter to one another, with each matter deemed to be important within the Group’s overall strategic and ESG agendas.

Key Takeaways:

While acknowledging the significance of all material matters, the materiality matrix provides a visual representation of the comparative significance of each matter in relation to others.

Compared to last year’s matrix, a few material matters were viewed as very important to stakeholders, namely Occupational Health and Safety, Business Ethics, Customer Satisfaction and Innovation.

Note: Innovation = Innovation and Technology-based Operational Excellence

OUR MATERIAL MATTERS

DEFINITION OF MATERIAL MATTERS

| Sustainability Pillar | Material Matters | Definition and Detailed Description |
|-----------------------|--|--|
| ECONOMIC | BUSINESS ETHICS | Conducting business ethically by preventing abuse of entrusted power for private gain, remaining compliant with laws and regulations and protecting the Group’s and our stakeholders’ data from cybersecurity breaches, while incorporating business ethics into our business practices and governance structure |
| | INNOVATION AND TECHNOLOGY-BASED OPERATIONAL EXCELLENCE | Using technology to transform our processes for enhanced efficiency and reduced costs, and to provide our customers with more effective and technologically-advanced solutions |
| | ECONOMIC DEVELOPMENT | Generating economic value from our business activities and sharing this value with local communities through remuneration and local hiring while driving continued market expansion |
| | SUPPLY CHAIN MANAGEMENT | Maintaining fair practices across our supply chain while developing local suppliers through purpose-fit programmes such as the Malaysian government’s Bumiputera Vendor Development Programme |
| ENVIRONMENT | CLIMATE CHANGE AND ENERGY | Taking concerted climate action by reducing our direct and indirect greenhouse gas (“GHG”) emissions and reducing energy consumption across our operations |
| | ENVIRONMENTAL MANAGEMENT | Adopting responsible environmental management strategies across waste management, material use and water consumption |
| SOCIAL | OCCUPATIONAL HEALTH AND SAFETY | Actively anticipating, recognising, evaluating and controlling hazards arising in or from our workplaces that could impair the health and wellbeing of our employees, including their mental health |
| | EMPLOYMENT CULTURE | Ensuring a non-discriminatory and merit-based approach to employment while supporting talent growth and carrying out succession planning |
| | CUSTOMER SATISFACTION | Meeting our customers’ quality standards while ensuring their health, safety and data privacy are safeguarded at all times |
| | HUMAN RIGHTS ASSESSMENT | Actively monitoring and managing human rights matters across our value chain |
| | LOCAL COMMUNITY | Devising and delivering community engagement initiatives and development programmes that create positive, long-term social impact |

RISKS AND MITIGATION

The Group remains vigilant in managing risks and is mindful of the presence of risks in our business decisions and activities. As such, effective risk management is important in managing our risk exposure whilst pursuing our strategic and business objectives successfully.

Risks, inherent to our business, as well as external risks, are identified and managed through our robust risk management framework. Going beyond compliance, we adopt policies, principles and practices which help to minimise our risk exposure, maximise our performance performance, provide greater certainty and strengthen stakeholders' confidence.

We see risks as opportunities to strengthen our internal controls, compliance procedures and management strategies. The risks identified are mapped against their likelihood of occurrence and potential business impact.

The principal risks described below, whilst not exhaustive or in any order of priority, are those which we believe could have a significant impact on our business.

The Board regularly reviews these risks in the knowledge that currently unknown, non-existent or immaterial risks could turn out to be significant in the future.

Details of our risk management framework and control processes can be found on pages 237 – 245 under the Statement on Risk Management and Internal Control of this Integrated Annual Report.

1

STRATEGIC RISK

Risk Description

Strategic risks are risks related to the fundamental decisions that the Board and the Management take concerning UEM Edgenta's objectives and potential exposure to the changing market environment and industry demands which could affect UEM Edgenta's business strategy and growth. Essentially, strategic risks are the risks of failing to achieve these business objectives.

The risks evolve the market environment, inclusive of industry uncertainties or emerging issues that could impact our strategy, performance (i.e., market share and growth), shareholders' value, or even reputational damage.

Strategic risks are often risks that UEM Edgenta may have to take in order to expand its business and even to continue in the long-term.

Context

- Our presence in the countries where we operate exposes UEM Edgenta to economic, regulatory, political, and social development conditions that could impact our strategy and operations
- The operating landscape continued to be competitive with our customers, comprising existing, new and potential, shifting their focus requirements from traditional services requirements to value-adding services encompassing technology, performance-based model, and sustainability
- The nature of our business (which tends to be deprioritised as a strategic business imperative by clients/potential clients in price-sensitive industries). Service commoditisation leads to competitive pricing
- Margin compression in the market continues to pose challenges to growing our revenue stream and maintaining a healthy order book
- The pandemic and resulting response (i.e., MCOs) were challenging for the Malaysian infrastructure industry due to the deferment of higher-value infrastructure projects, which are now making a comeback following the transition to the endemic phase

Mitigation

- Expansion and broadening of the addressable market to diversify revenue streams through Pan-Malaysia Strategy, regional expansion, and new adjacency sectors
- Developing and deploying technology solutions to set new benchmarks and enhance service delivery in the healthcare and infrastructure sectors
- Productisation and scalability of existing sector technology solutions to current and potential clients
- Continue focus on cost optimisation initiatives, driving organisational efficiency and increasing competitiveness via product and technology proposition
- Cross-selling, expanding client base and new delivery model via performance-based contracting in addition to sustaining existing concession businesses

2

OPERATIONAL RISK

Risk Description

Operational risk is the risk of loss resulting from inadequate internal controls or failed internal processes, people and systems or from external events which include uncertainties and hazards a Company faces when it attempts to undertake its day-to-day business operational functions within the industry.

Context

Our continuing challenges are:

- Manual and labour-intensive aspects of operations
- Focusing on cost stewardship and improving service efficiency to protect margins and improve cash flow
- Inculcating a safety-first mindset and continuous monitoring of our work environment to ensure compliance with HSSE standards
- Unanticipated circumstances impacting Edgenta's operations due to factors beyond our control such as the COVID-19 pandemic, wages concerns, inflationary pressures, supply chain disruptions, and geopolitical tensions

Mitigation

- Continuous enhancement of operational processes and embedding the use of technology and digitisation to improve overall operational efficiency and productivity
- Manage cost and preserve margins by keeping fundamentals strong
- Implementation of occupational HSSE programmes designed to improve UEM Edgenta's safety culture
- Close monitoring of unanticipated circumstances and their impact, with a continuous review of the Group's strategies to ensure operational sustainability
- Business Continuity Plans are in place for effective response to enable continuous operations and delivery of critical services in the event of any business disruption

3

FINANCIAL RISK

Risk Description

Financial risks are risks that will directly impact the Group's financial performance and cash flow.

Context

Our continuing challenges are:

- Reduced margins and profitability amid higher competition and an increase in operating costs
- Delayed collection from customers for trade and other receivables, which could impede cash management

Foreign exchange risk, i.e., a risk that the fair value or future cash flow of a financial instrument will fluctuate due to changes in foreign exchange rates against the Malaysian Ringgit.

Mitigation

- Focus on managing cost and preserving margin through tighter cost controls, leveraging technology and operational excellence to derive work and cost efficiencies
- Leverage on Enterprise Resource Planning ("ERP") to streamline financial information and processes across our companies, improve spending and strategic sourcing analysis, as well as cost control and increase the visibility of spending
- Diligently manage credit risk by undertaking credit evaluations, and monitoring recovery procedures by customers and receivables respectively. We keep the Company's balance sheet healthy with a low gross gearing ratio and strong net cash position
- Maintain a natural hedge by borrowing in the same functional currency as the future revenue stream to be generated from the overseas entities

RISKS AND MITIGATION

4

COMPLIANCE RISK

Risk Description
Compliance risks relate to the potential of a breach of any laws and/or non-adherence with any regulatory requirement. Non-compliance may impact the Group’s business operations, legal and regulatory penalties, financial implications, and reputational damage.

Context

- A sizeable portion of our businesses is in concessions, especially Healthcare Support and Infrastructure Services, and is subject to a broad range of rules and regulations
- Potential exposure to non-compliance and litigation due to the Group’s geographical diversity of its business and customers
- Adherence to good corporate governance practices, regulatory and listing requirements in upholding integrity throughout our business undertakings and proceedings
- Any adversity could result in the suspension of a necessary authorisation, license, and/or rights. Lack of regulatory certainty impacts our operations, reputation, and investment decisions

Mitigation

- The Group has put in place service-level agreements and contracts to govern contractual agreements with its customers, contractors, and vendors
- Regular review assessments are undertaken to ensure compliance at all times, with continuous updates on policies and procedures to ensure adequacy, effectiveness, and relevance
- Instil a culture of integrity and compliance within the organisation, with the enforcement of internal processes to operations
- Maintain close collaboration with regulatory bodies on emerging legal and regulatory requirements and industry standards and practices
- Have put in place appropriate Whistleblowing channels as an avenue for employees, stakeholders, and members of the public to report any actual or suspected malpractice, misconduct, or violation of the Group’s policies and procedures

5

PEOPLE RISK

Risk Description
Obtaining and fostering an engaged and talented team that has the knowledge, training, skills, and experience to deliver our strategic objectives is vital to our success. Difficulties in attracting, integrating, and retaining talents and competencies required may impact UEM Edgenta’s sustainable growth and performance.

Context

- Our people are one of our greatest assets and key pillars of success for the Group as it underpins our ability to implement the Group’s strategies and deliver the required services and deliverables to our customers and stakeholders

Mitigation

- Establish an Employee Value Proposition to offer the best experience for our employees in exchange for productivity and high performance. We don’t only hire the right talent, but also retain the best talent by continuously benchmarking against competitive industry practices
- Succession planning framework and plan in place to identify and develop appropriate talents for mission-critical positions
- Continuous training and development programs to be undertaken by Edgenta Academy to upskill and reskill our people, and equip them with new skills and knowledge

RISKS AND MITIGATION

6

CYBERSECURITY RISK

Risk Description
Cybersecurity risks relate to the loss of confidentiality, integrity, or availability of information, data, or information (or control) systems and reflect the potential adverse impacts to Edgenta’s operations (i.e., mission, functions, image, or reputation).

Context

- Organisation-wide, we see technology as a key enabler and the biggest game changer which will allow UEM Edgenta to productise existing technology solutions, develop digital healthcare support, optimise resources, reduce costs, increase productivity and improve our offerings for better customer and operational outcomes
- Due to the growing connectivity of our systems, there is an increasing risk of exposure to cyber threats, malicious threats to corporate cloud networks, breaches of information security, compromised data integrity and privacy and prolonged disruption of UEM Edgenta’s IT ecosystem

Mitigation

- Continuous monitoring and strengthening of IT security measures via cybersecurity solutions covering the network, application, information, end-user and data security. This includes the enhancement of cloud security, monitoring of critical information, security control (utilising infrastructure security protection solutions via firewall, anti-spam/virus, vulnerability assessment, penetration tests, and etc).
- Regular awareness and constant updates related to cyber threats are provided to all employees to instil the importance of cybersecurity
- Disaster Recovery Plan put in place to ensure continuity of key business operations in the event of information and communications technology failure such as malicious activities, cyber-attacks, malware or major equipment malfunction

Cybersecurity risk is linked to the Group’s expansion and growing footprint into the IT environment and digitalisation, increased reliance on the internet as well as increased instances of remote/offsite network access.

7

ESG RISK

Risk Description
Investors today have increasingly shifted their attention towards the ESG factors to assess the sustainability and risk profile of companies. ESG considerations can have a range of impacts on an organisation’s financial performance and underlying shareholder value. Researchers found a positive correlation between financial performance and strong corporate ESG policies and practices.

Context

- ESG programmes and disclosure have become increasingly important with stakeholders emphasising on disclosures related to environmental responsibilities, fair wages, health and safety practices, diversity, and corporate governance
- This has resulted in the Group’s concern on ESG matters and its continuous upholding and compliance of these ESG values as a good corporate citizen

Mitigation

- The Group has put in place a Sustainability Policy, Sustainability Governance Structure and Sustainability Roadmap to ensure the philosophy of sustainability is embraced and incorporated into Edgenta’s operations and activities and the way we deliver our products and services
- Ongoing compliance with existing ESG requirements, with continuous monitoring of and adherence to changes in these ESG requirements and policies
- Periodic review assessments are undertaken to ensure ESG compliance at all times, with continuous updates on policies and procedures to ensure adequacy, effectiveness, and relevance
- Regular engagement with stakeholders across our value chain to understand our material matters, risks, and threats allowing UEM Edgenta to formulate ways and implement initiatives to mitigate these issues
- Continuous communication and awareness by fostering conscientious and responsible ESG behaviour among employees, clients, and vendors at all levels

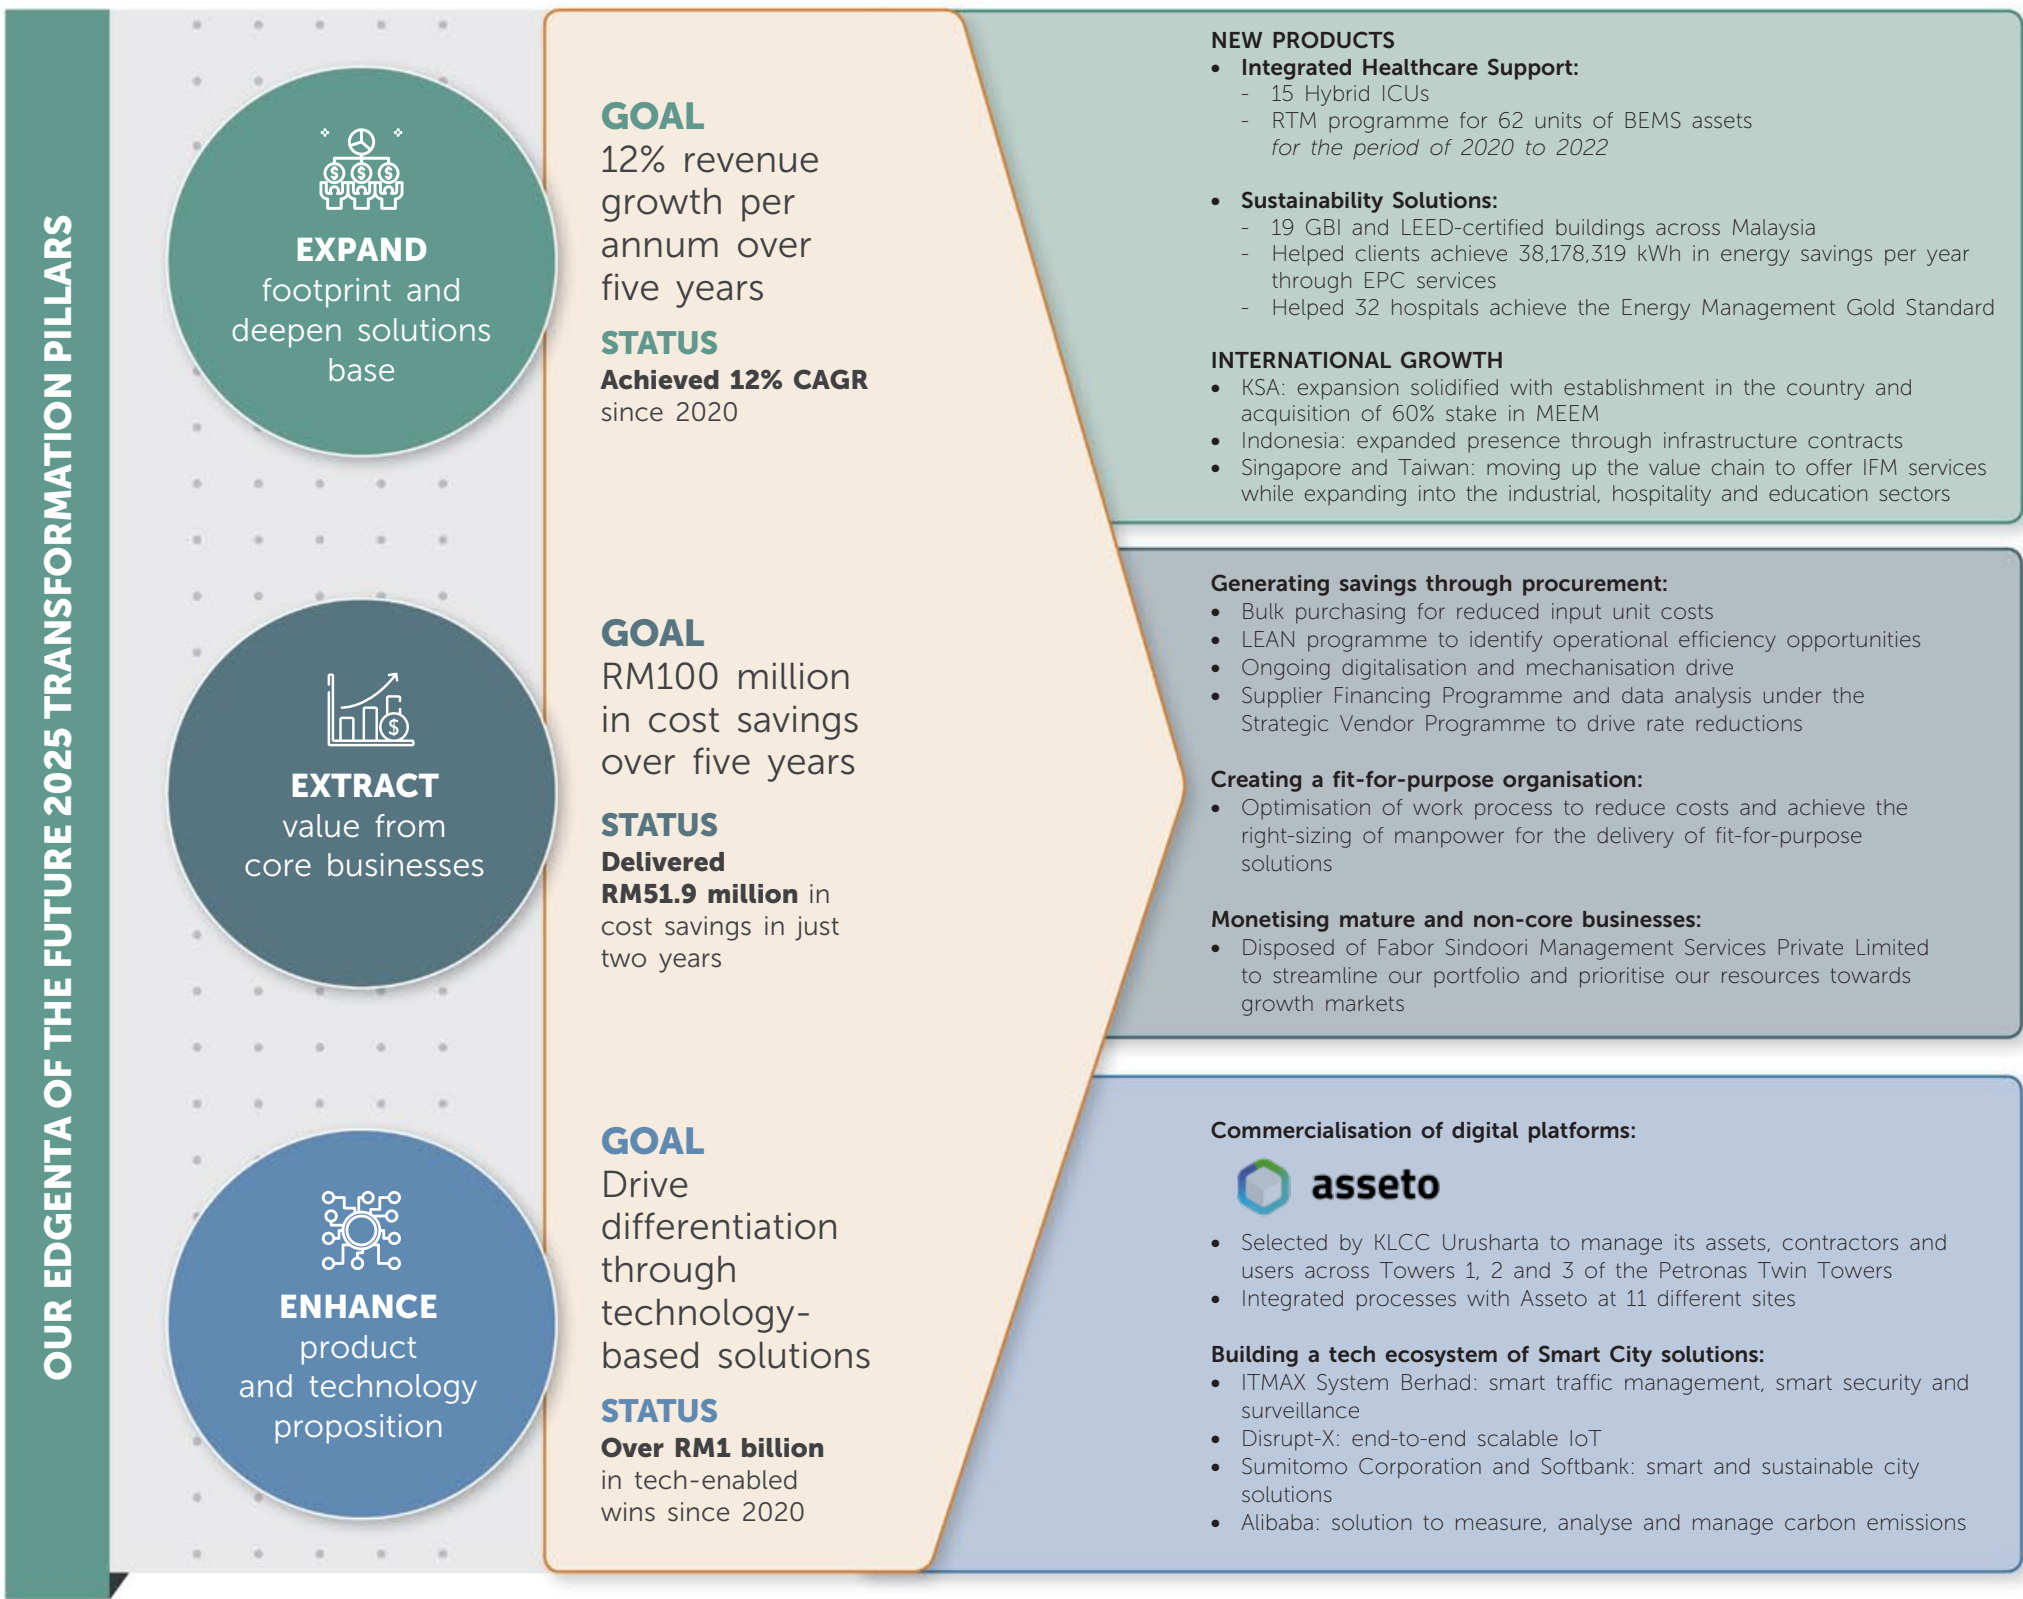

ESG risks are those uncertainties and threats to continual improvement of business strategies and operations to sustain growth, trajectory, and long-term resource availability in our value chain through ESG matters.

UEM Edgenta’s non-compliance on ESG-related matters may lead to loss of revenue/market share due to a shift in customer preference, loss of investors’ and rating agencies’ confidence, financial penalties from enforcement agencies, and negative brand perception and publicity.

EDGENTA OF THE FUTURE 2025 (EoTF2025) (2020-2025)

Our Edgenta of the Future 2025 (“EoTF2025”) strategy encapsulates the pillars of our transformation to become a Technology-Enabled Solutions Company by the year 2025. It outlines what we need to achieve to compete effectively in global markets, with a focus on differentiating our solutions, driving cost optimisation and entering new markets and sectors, all while embedding technology and sustainability as core components of our strategic outlook.

Two years into our EoTF2025 journey, we are tracking well against our goals, placing us in an ideal position to secure our long-term value creation potential.

EDGENTA OF THE FUTURE 2025 (EoTF2025) (2020-2025)

The building of a global IFM franchise through technology and sustainability solutions - as detailed below - is a key component of our EoTF2025 vision.

- Productising tech solutions**

For more information about our technology solutions, please refer to page 26.
- Driving sustainability solutions**

For more information about our sustainability solutions, please refer to page 102.
- Driving clients’ operational efficiency through digitalisation of their processes and systems, implementation of data analytics, and the integration of IoT devices within their operations**
- Enhancing our IFM franchise in international markets**

INVESTOR RELATIONS

We aim to provide the investment community with timely and transparent information on our strategies, initiatives, performance and future outlook. Specifically, we engage with analysts, fund managers, institutional investors, retail investors and the media through various purpose-fit channels, enabling the building of trust while providing us with greater insight into the interests and expectations of each stakeholder.

ANALYST AND MEDIA BRIEFINGS

We host regular briefing sessions for analysts and the media where we disseminate information relating to our quarterly, half-yearly and full-year financial performance. All briefing materials, including financial statements to the stock exchange, an investor presentation and a press release, are made available via our corporate website.

| Financial Results | Date of Announcement | Date of Briefing |

| UEM Edgenta FY21 Results | 24 February 2022 | 25 February 2022 |

INVESTOR RELATIONS

We also communicate with our shareholders via our corporate website, which provides a wider suite of information within the following segments:

The Company has put in place a Corporate Disclosure Policy that outlines our approach towards the determination and dissemination of confidential information, the circumstances under which the confidentiality of information will be maintained and restrictions on insider trading. The policy also provides guidelines for achieving consistent disclosure practices across the Group.

OUR ANNUAL GENERAL MEETING

We held our 59th Annual General Meeting (“AGM”) on 16 June 2022. Since 2020, UEM Edgenta has hosted its AGMs virtually, leveraging on technology to facilitate voting in absentia and remote shareholders’ participation at the AGM.

The AGM was led by our Chairman and focused on our commendable results in the face of a challenging economic and operating environment, in addition to our progress in strategy execution and our future plans. Reflecting the centrality of sustainability to our business, our ESG goals and strategies were also communicated and discussed during the meeting.

Given time constraints, answers to shareholders’ questions were provided wherever possible, with queries that could not be answered immediately duly noted and followed up subsequent to the meeting.

INVESTOR RELATIONS

Focus Areas

Focus areas discussed during the meeting are detailed below:

INVESTOR RELATIONS EVENTS

We engaged with the investment community through the following meetings, conferences and briefings held from January 2022 to March 2023.

| Events | Venue | Date |

Performance-based Contracting

Cloud-based Maintenance

Systems Integration for Smart Building Conversion

Performance-based Maintenance Services

| KEY INITIATIVES | RESULTS |
|-----------------------------------|--|
| Acquire new customers | <ul style="list-style-type: none"> Secured contracts with leading companies in Malaysia, including: <ul style="list-style-type: none"> Hard services maintenance for Maybank and Tenaga Nasional Berhad ("TNB") Building Condition Assessment ("BCA") for the Employees Provident Fund ("EPF") Board Provided services to a range of customers, including: <ul style="list-style-type: none"> Non-comprehensive facilities management for Imperia Office Tower in Iskandar Puteri, Johor and four assets of Bank Negara Malaysia – Recovery Centre Shah Alam, JB, Sasana Kijang and Tunas Kijang Air-conditioning maintenance work for all Maybank branches in Pahang Building condition auditing for selected assets within EPF's domestic real estate portfolio and TNB's hard services in Pahang |
| Grow our sustainability portfolio | <ul style="list-style-type: none"> Secured a contract for energy efficiency performance with Avisena Hospital, Shah Alam Secured our first solar energy project through a contract with Hotel Permai, Kuala Terengganu |

PROPERTY & FACILITY SOLUTIONS

FINANCIAL PERFORMANCE

KEY CHALLENGES

Increased manpower costs due to the new minimum wage and laws relating to working hours and overtime claim allowances

Manpower shortages (specifically amongst skilled technicians and unskilled workers)

MITIGATING ACTIONS

- ▶ Furthered our implementation of automation and mechanisation, especially in the housekeeping and cleaning service delivery sectors
- ▶ Explored the use of security management software and smart building technologies to drive process efficiency

- ▶ Collaborated with local higher institutions to develop local talents that meet our hiring needs
- ▶ Explored the viability of deploying robotic cleaning at suitable client sites

KEY ACHIEVEMENTS

- ▶ Added RM118 million to our order book
- ▶ Key achievements in sustainability:
 - Secured EPC valued at RM110 million with a five to eight year tenure
 - Reduced electrical energy consumption from 10% to 52%
 - Saved a total of 38 million kWh in electricity, amounting to RM16 million in cost savings
 - Achieved an 11% reduction in water consumption
 - Achieved 7,441 tCO₂ in carbon emissions reductions from EPC projects
 - Assisted 19 buildings in achieving GBI-rated and LEED certifications

OUTLOOK

- ▶ The return to pre-pandemic routines, with all economic sectors allowed to resume operations, will lead to an improved environment for business and investment in 2023
- ▶ Increases in FDI inflows, especially within the manufacturing sector, and the continued growth of e-commerce means that demand for industrial space will continue to rise
- ▶ The biggest threat to our business will come from cost escalation in goods and services, continued staff shortages and caution in spending caused by the anticipated global economic slowdown
- ▶ On a positive note, the formation of a unity government in Malaysia augurs well for political stability and should further encourage investment and business growth
- ▶ Nevertheless, our pace of growth will be affected by whether a global recession occurs, as well as its severity and duration

BUSINESS REVIEW

INFRASTRUCTURE SERVICES

As Malaysia's foremost name in infrastructure maintenance, our Infrastructure Services division manages approximately 4,000 km of highways and state roads across the country and in Indonesia. Bolstered by our longstanding expertise and our commitment to excellence, we have expanded our portfolio to include railways, airports, ports, oil and gas, plantation roads and other commercial and industrial sectors.

KEY FOCUS AREAS

Network Maintenance Services

Pavement Products and Services

Traffic Management and Safety Services

Environmental and Material Testing Services

Road Asset Management System

| KEY INITIATIVES | RESULTS |
|---|--|
| Expand our business footprint | <ul style="list-style-type: none"> Secured the contract for the Coastal and Second Trunk Road project in Sarawak, making further progress on our Pan-Malaysia expansion strategy Expanded our presence in Indonesia with new contract wins, including the Serpong-Balaraja Toll Road and Bawen-Jogja Toll Road |
| Deepen our solutions base | <ul style="list-style-type: none"> Secured road work projects for the Public Works Department ("JKR") Kelantan, the Royal Malaysian Air Force and the Pasir Gudang Highway. |
| Drive improved sustainability performance | <ul style="list-style-type: none"> Launched initiatives including the Infra Maintenance Squad ("IMS"), an in-house routine team responsible for troubleshooting, to improve quality of service delivery Launched Infra Support Services ("ISS") to patrol and attend to emergencies in order to improve operating costs Introduced gamification, which makes work fun by introducing incentives, thereby increasing motivation and enhancing our services Enhanced sustainability and cost efficiency with the development of a premix plant to produce Recycled Asphalt Premix ("RAP"), with the plant expected to be operational from Q4 2023 Undertook an ESG initiative with PLUS |
| Enhance our product and technology proposition | <ul style="list-style-type: none"> Introduced Tech Brigade, a team of young high-potentials who will drive innovation towards SMART Highway and infrastructure sustainability Implemented mechanised grass cutting with the use of rabbit mowers, resulting in a 20% increase in productivity Initiated digitalisation for pavement works monitoring with PLUS Implemented RAMS and PLUS TEMAN interfacing, resulting in reduced paperwork, shorter turnaround times and the elimination of ambiguity |

INFRASTRUCTURE SERVICES

FINANCIAL PERFORMANCE

KEY CHALLENGES

Maintaining competitiveness for continued market relevance

Growing our addressable market to capture future value

Managing heavy traffic on highways

MITIGATING ACTIONS

- Innovated our current concessions by:
 - Implementing quality and standards measures, e.g., setting up an infrastructure maintenance squad
 - Developing an ecosystem of infrastructure support services
 - Leveraging digitalisation and mechanisation for enhanced service delivery

- Focused our efforts towards generating growth in the non-toll road and road construction sectors
- Strengthened our presence in the Pan Borneo region and Indonesia as a whole
- Grew our subcontractor and supply chain network, especially in new markets and product portfolios
- Developed new ESG solutions while implementing our Tech Brigade Programme

- Implemented a Traffic Safety Campaign that targets the general public across two phases, with the first phase featuring a TikTok influencer and the second phase comprising roadshows and competitions across 26 RSAs
- Adhered strictly to SOPs regarding policy compliance and monitoring
- Revolutionised traffic management plans and emergency works through the use of Truck Mounted Attenuators ("TMA")

KEY ACHIEVEMENTS

- Added more than RM250 million to our order book
- Expanded our list of external clientele
- Launched new operational initiatives with PLUS for continuous quality and service improvement
- Won the Institution of Engineers Malaysia ("IEM") Award 2022 (Asset Management - Industries Category) for our contributions to the local engineering industry

OUTLOOK

- We will look to preserve our market share with PLUS by uplifting our current services and driving new project origination
- We will also seek to enhance our local supply chain towards delivering greater value within the local business ecosystem
- We shall endeavour to diversify our portfolio through the introduction of new products, such as RAP and other offerings from our PRC, to support our growth strategy and sustainability agenda
- We will further develop our Tech Brigade Programme with the aim of driving innovation within the division

BUSINESS REVIEW

ASSET CONSULTANCY

Represented by Opus Consultants, our Asset Consultancy division boasts more than 30 years of experience in delivering mega infrastructure projects, during which time they have amassed a portfolio that includes transportation, buildings and integrated developments.

KEY FOCUS AREAS

Project Management

Engineering and Technical

Asset Management

| KEY INITIATIVES | RESULTS |
|---|--|
| Drive infrastructure development across Malaysia | <ul style="list-style-type: none">Executed a shareholding agreement for a joint venture with PPES Consults Sdn. Bhd., a wholly-owned subsidiary of Sarawak Economic Development Corporation ("SEDC")Initiated the setting up of a regional office in Kuching, Sarawak, as a permanent investment to intensify our business development activities, drive local capacity-building and enhance technology transfer in the region |
| Pursue opportunities in new services | <ul style="list-style-type: none">Received an Extension of Time ("EOT") for the provision of Independent Safety Audit services for the Sungai Besi - Ulu Kelang Expressway ("SUKE") projectBuilt a pipeline of opportunities in sustainability-related projects that leverage our core competencies in engineering and project management |
| Consistently achieve high standards in engineering practice levels | <ul style="list-style-type: none">Adopted advanced and leading solutions in network planning management, resulting in optimised long-term budgeting due to refined deterioration analysis and a greater focus on highway maintenanceManaged the inspection and implementation of the first maintenance of the Penang cable-stayed bridge, which occurs once every four years to optimise asset lifecycle and ensure user safety |
| Achieving positive outcomes from our initial exploration of cold recycled mix as an alternative sustainable pavement technology | <ul style="list-style-type: none">Collaborated with the Taiping Municipal Council and achieved comparably good results in using sustainable pavement technology at Jalan Taming Sari, Taiping, when compared to conventional methodsConducted and completed the overall field trial lay monitoring using cold recycled mix along the North-South Expressway ("NSE"), with the initial findings indicating encouraging resultsTransferred the operations of our Pavement Research Centre ("PRC") to the Infrastructure Services division to centralise, optimise and expand the adoption of resource-efficient technologies |

ASSET CONSULTANCY

FINANCIAL PERFORMANCE

KEY CHALLENGES

- ▶ Uncertainty of some projects (which are reliant on government spending and the nation's continued pandemic recovery)
- ▶ Highly competitive tendering in limited projects available for bidding

MITIGATING ACTIONS

- ▶ Continued to pursue diversification into new services and projects related to sustainability
- ▶ Made further inroads on our Pan Malaysia expansion strategy by setting up a regional office in Kuching, Sarawak
- ▶ Continued to build competencies in areas of core focus while enhancing readiness for potential growth opportunities
- ▶ Consistently delivered excellence in project execution while providing other value-added services for client satisfaction

KEY ACHIEVEMENTS

- ▶ Executed a shareholding agreement for a joint venture with PPES Consults Sdn. Bhd., a wholly-owned subsidiary of Sarawak Economic Development Corporation ("SEDC"), through Opus Consultants (Sarawak) Sdn. Bhd.
- ▶ Achieved more than 50% of local hiring for ongoing projects in Sarawak and Sabah
- ▶ Secured an Extension of Time ("EOT") for the provision of Independent Safety Audit services to the Sungai Besi - Ulu Kelang Expressway ("SUKE") project
- ▶ Secured industry awards from three prominent industry bodies:
 - IEM Award 2022 for Contribution to Asset Management (Industries category)
 - Occupational Safety and Health Award (Gold Class 1) from the Malaysian Society for Industrial Safety ("MSOSH")
 - Malaysia Industry Excellence Gold Award from the Institution of Engineering and Technology ("IET")

OUTLOOK

- ▶ Despite the impact of COVID-19, the infrastructure sector is expected to enter a stage of recovery and we anticipate that funding will be allocated towards the continuation of existing projects such as the Pan Borneo Highway, thereby benefitting our business
- ▶ We will also continue to explore opportunities in new services and sustainability-related projects while ensuring the successful delivery of ongoing projects

SUSTAINABILITY AT UEM EDGENTA

At UEM Edgenta Berhad, we define sustainability as managing and operating a responsible business while securing profits and driving long-term value creation. In this regard, we strive to meet the needs of the present without compromising the ability of future generations to meet their own needs.

We acknowledge our responsibility to ensure that our services, practices and offerings are delivered in a way that recognises the interconnectedness of environmental, social and economic issues, striving to address these considerations in a balanced and sustainable way. Ultimately, we trust that sustainability is significantly key to our current balanced success and future viable growth.

Backed by such a commitment, we envision becoming an industry leader with sustainability as our hallmark of excellence and corporate citizenry, building positive and impactful relationships with our stakeholders for the long-term. This is aligned with our Edgenta Way - delivering quality services to our customers across our Healthcare Support, Property & Facility Solutions, and Infrastructure Services, along with Asset Consultancy. We aim to do so while maintaining industry standards, advanced technology-based, efficiency and robust safety considerations.

In enhancing our approach towards sustainability, we have established a two-year Sustainability Roadmap (FY2022 – FY2024) that will provide the overarching steer to our sustainability journey. The roadmap outlines our strategy and initiatives surrounding our

material matters and provides a framework for governance, performance management as well as reporting and communication in line with leading industry standards. Similarly, the roadmap will adequately complement our existing Sustainability Policy, which has guided the integration of sustainability into our operations. In view of the introduction of the roadmap, we will also be reviewing and updating the Sustainability Policy in FY2023.

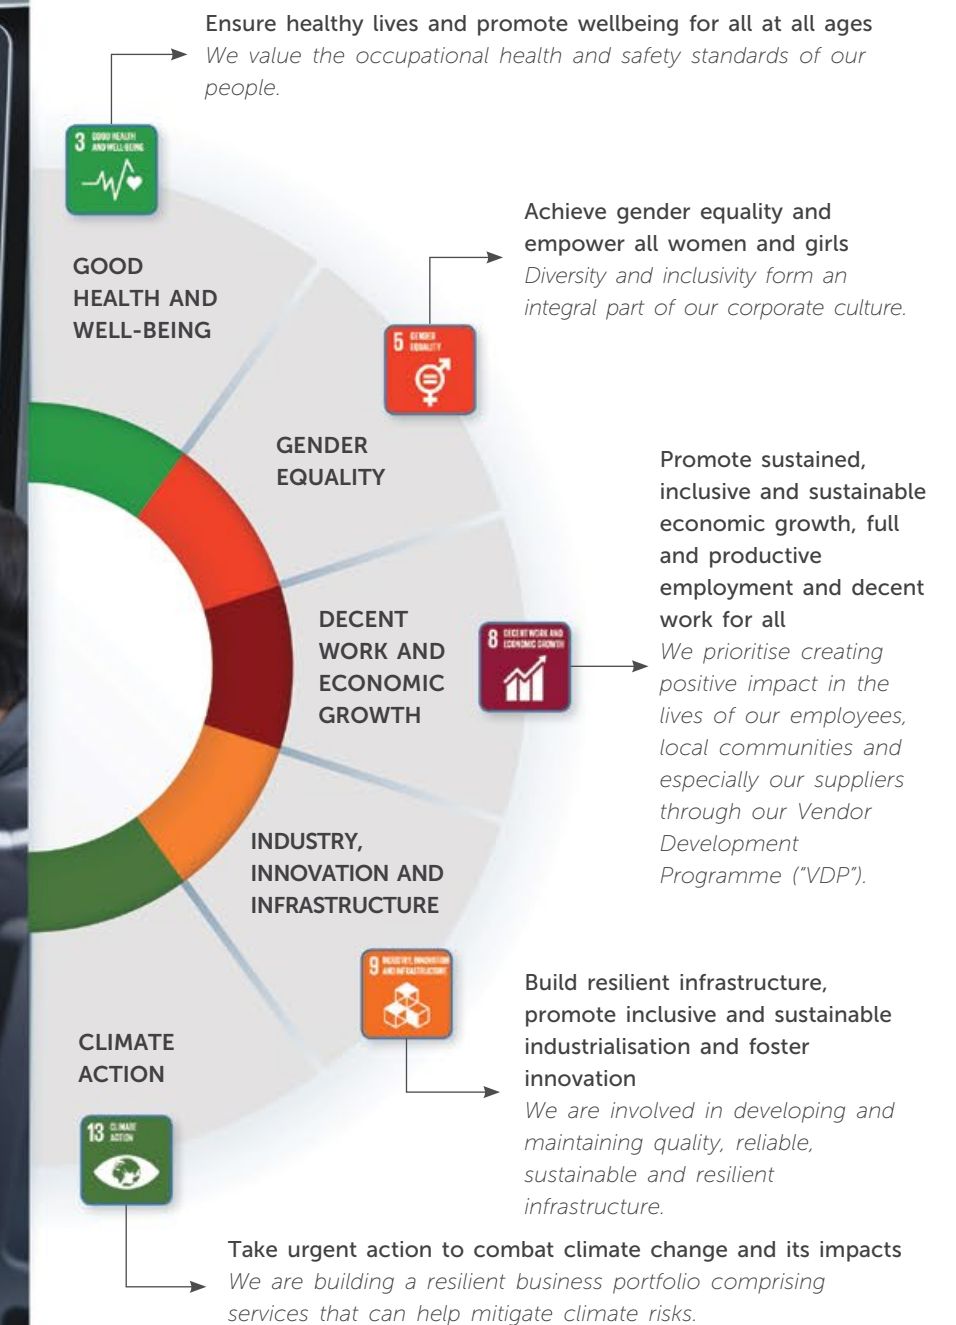

To ensure that we further align and commit ourselves to the Sustainability Roadmap that we have developed in June 2022, we have embedded ESG KPIs as part of our corporate scorecard. The ESG KPIs are cascaded down to all Business Units and Corporate Support Departments in our effort to further integrate sustainability culture within the organisation and work together towards our sustainability goals. In the reporting year, we have achieved more than 80% of the initiatives that are listed in our 2022 roadmap.

Our sustainability aspirations are underpinned by our economic, environmental and social commitments, with the objective of driving the initiatives and actions taken across our key sustainability material matters, which are:

SUSTAINABILITY AT UEM EDGENTA

Further to the key pillars established, we have also committed to the following UN SDGs, which we believe may assist us at setting our strategic approach towards fulfilling our sustainability ambitions.

SUSTAINABILITY AT UEM EDGENTA

SUSTAINABILITY HIGHLIGHTS AND ACHIEVEMENTS

As we continue to align our efforts towards our sustainability ambitions, the following highlights put into perspective the impact and value that we are achieving through our business and our relationships with our stakeholders. Towards this goal, our achievements also represents our strong commitment for our employees and peers to embrace and support our continued success.

General

- ▶ During the year under review, we achieved a marked improvement in our FTSE4Good rating – from 2.5 to 3.1 – driven largely by enhancements to our disclosures and in our social practices
- ▶ Looking forward, we are confident that we can continue to boost our FTSE4Good rating by undertaking initiatives within the material matters prioritised within our Sustainability Roadmap, namely Supply Chain Management, Climate Change and Energy, Environment Management and Human Rights Assessment
- ▶ This will help pave the way for us to become an industry leader in sustainability, furthering our reputation as a provider of quality services amongst existing and potential clients

Sustainable Economic Growth

- ▶ Achieved a commendable 99.4% procurement ratio from companies based in Peninsular and East Malaysia
- ▶ Collaborated with HSBC Amanah Malaysia Berhad ("HSBC Amanah") to develop a Syariah-compliant Supplier Financing Programme, with over 380 SMEs and Micro Small-to-Medium Enterprises ("MSME") vendors offered to join the programme since the first phase of its implementation

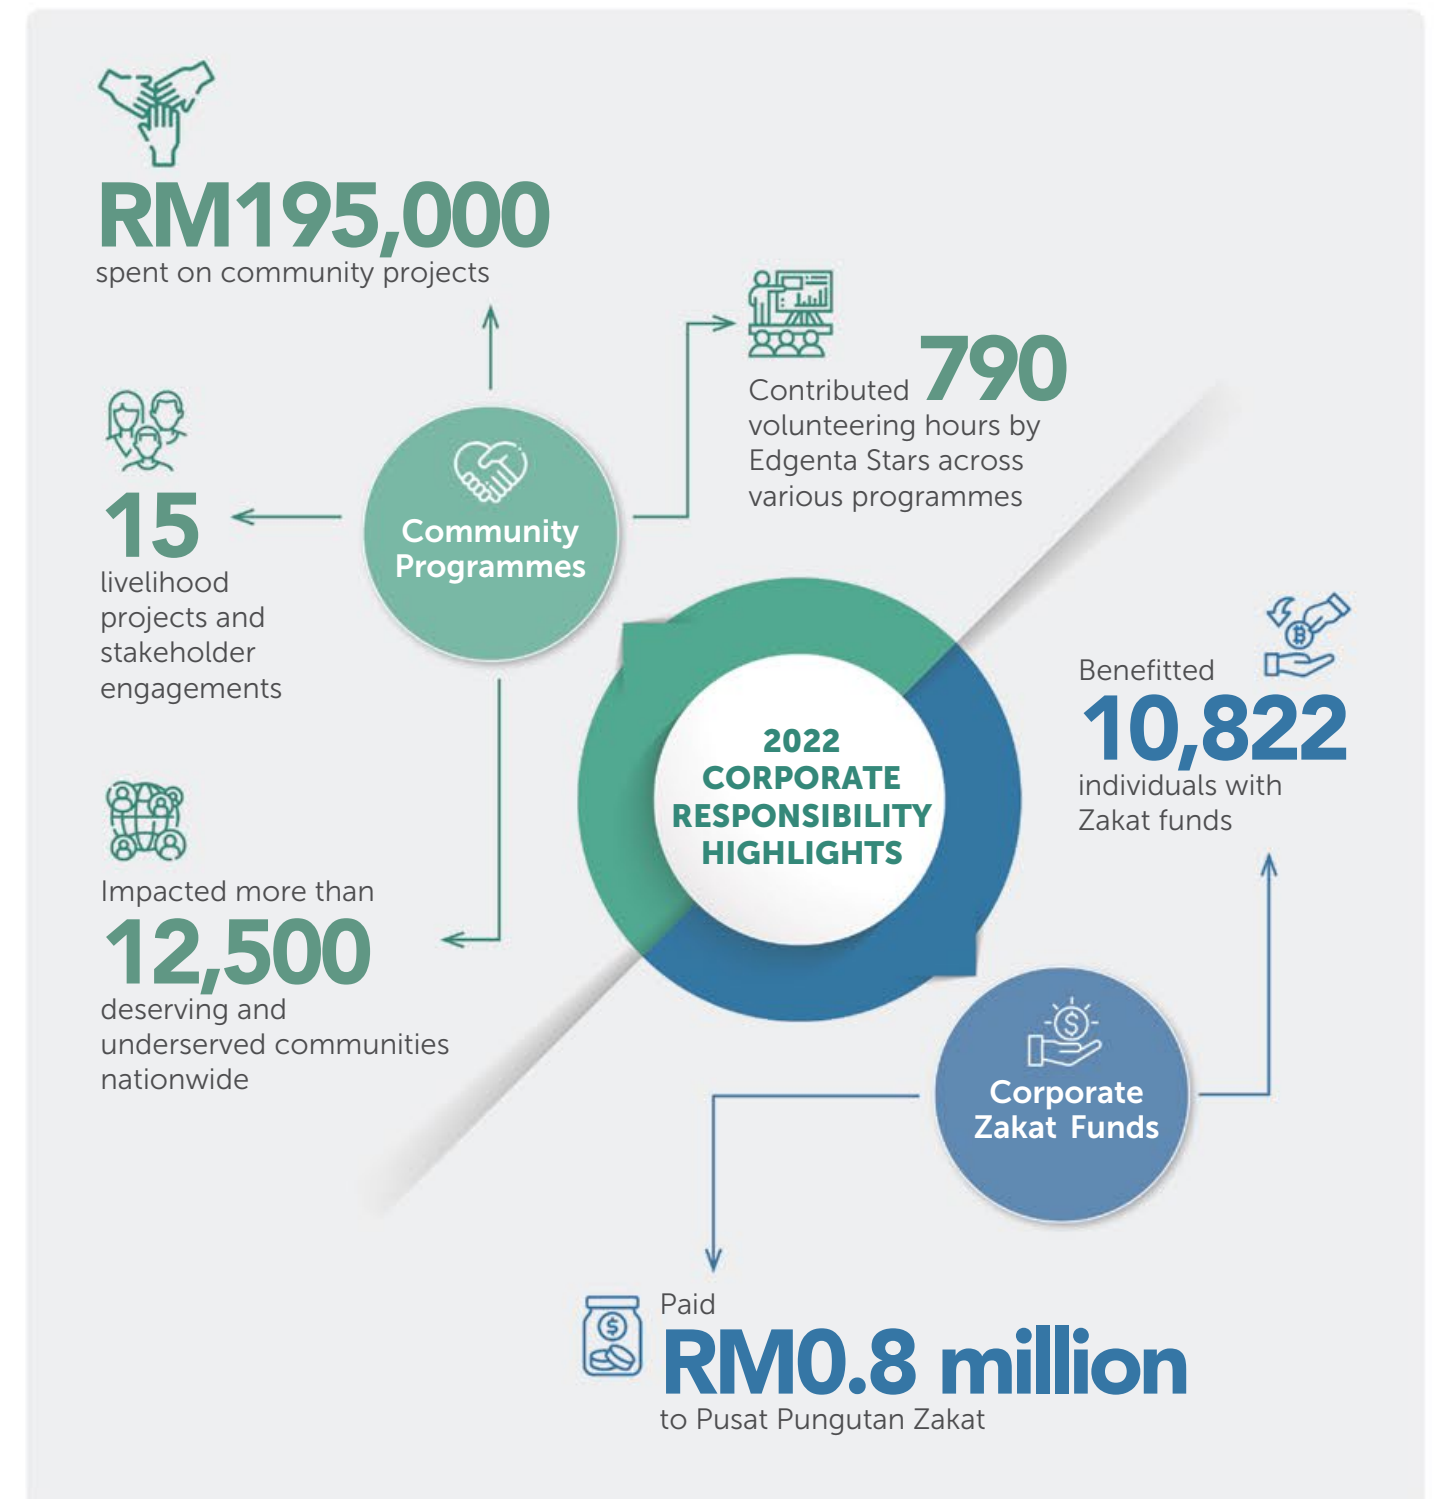

Minimising Environmental Impact

- ▶ Achieved approximately 38,178,319 kWh in energy savings in 2022, through our Energy Performance Contracting ("EPC") services, which translates to approximately RM16.2 million of total electricity cost savings for our clients
- ▶ Continued to manage high quality sustainable assets comprising nineteen (19) GBI and LEED certified buildings at various levels from 2021
- ▶ Developed a greenhouse gas ("GHG") emission inventory for Scope 1 and 2
- ▶ Conserved a total of 6,000 m³ of natural water through the Natural Water Harvester exercise, a collaborative water conservation effort between the Group and PLUS Malaysia Berhad ("PLUS") that leverages facilities in Rest and Service Areas ("RSAs") along the North-South Expressway
- ▶ Collected a total of 6,603 containers through our in-house KLEAN Machine, leading to an indirect reduction of our carbon footprint by 341 kg CO₂eq
- ▶ Developed a central data repository for ESG data

On Social Value Creation

- ▶ Recorded a total of 393,899 hours of employee development training, with 99.1% of our employees fulfilling their training requirements, comparing well to our target of achieving between 85% to 89% completion
- ▶ Introduced various ESG capacity buildings programmes to our Board of Directors ("Board"), Senior Management and Executives
- ▶ Completed 15 livelihood projects and stakeholder engagement activities, spending RM0.2 million to impact 12,500 communities nationwide
- ▶ Disbursed RM1.2 million of Zakat funds to Asnaf recipients, benefitting 10,822 individuals

SUSTAINABILITY AT UEM EDGENTA

SUSTAINABILITY AT UEM EDGENTA

MESSAGE FROM THE MANAGING DIRECTOR/CHIEF EXECUTIVE OFFICER

OUR SUSTAINABILITY JOURNEY OVER THE PAST YEARS HAS BEEN NOTE-WORTHY DESPITE THE CHALLENGES AND UNCERTAINTIES WE FACED. WHILE WE AIM TOWARDS ACHIEVING OUR GOALS, WE ARE CONSTANTLY GUIDED BY OUR COMMITMENT ON SUSTAINABILITY, WHICH IS TO ACHIEVE EQUITABLE BUSINESS GROWTH WHILE DELIVERING IMPACTFUL SOCIAL AND ENVIRONMENTAL STEWARDSHIP.

In defining sustainability, we believe that it is key for us to protect the value of the business and ensure that our stakeholders continue to reap the benefits and value that the Group generates. At the same time, we must make conscious efforts towards addressing key ESG issues that matter to the organisation and our stakeholders. While striking a balance in this respect is challenging, we are committed to taking the necessary strides, thereby leading this transition as an entity that truly embraces the value of sustainability. With that, our commitment has been truly exemplified through our efforts, initiatives and achievements during the year under review, as defined within this report.

SUSTAINABILITY AT UEM EDGENTA

MESSAGE FROM THE MANAGING DIRECTOR/CHIEF EXECUTIVE OFFICER

In FY2022, we took a big step forward with the development of our first Sustainability Roadmap. The roadmap is a result of our approach to further solidify our sustainability commitments with a comprehensive structure and fundamental targets. Being in sync with our Edgenta of The Future 2025 ("EoTF2025") vision, it enables us to determine our focus areas, benchmark our achievements to date and, most importantly, define our future outlook on addressing issues that are key to us. Similarly, as a vital component of our sustainability framework, the pillars defined in the roadmap guide our general approach to our initiatives and actions, performance measurement, reporting and communication as well as governance and culture.

In forging the true value of our roadmap, the Board continues to provide us with the necessary guidance, leadership and insights required to embrace sustainability in our practices and business. With this, we are able to maintain effective processes and procedures that are central to our sustainability policy, in line with what would be expected of a global entity with deep sustainability aspirations.

DELIVERING SUSTAINABLE ECONOMIC GROWTH

Recognising the nature of the present-day global economy, we continue to prioritise market expansion, operational optimisation and technological innovation. Through our continued expansion, we are better equipped to integrate our operations with the markets that we serve, thereby not only creating value for the Group but also delivering positive economic impact for our stakeholders. Likewise, our wide-ranging cost and operational efficiency measures have empowered us to stay ahead of our targeted milestones on overall savings, with this effort bolstered by our introduction and commercialisation of technology-based solutions and platforms.

To this end, we launched Asseto, our new performance-based Computerised Maintenance Management System ("CMMS") platform, during the year under review, paving the way for the implementation of expanded and improved smart building solutions. Since October 2022, Asseto has been rolled out to all buildings managed under our Property & Facility Solutions division, with more than 30,000 assets already connected to the platform. Asseto has also been implemented to enhance maintenance work orders and business processes for the Petronas Twin Towers and Menara 3 buildings.

While it is clear that our successful growth is dependent on the overall economic landscape, it is also imperative to us to embrace the benefits of establishing a responsible supply chain that is local to our operations. Further to establishing key policies that govern our suppliers, we will be enhancing our Procurement Vendor Management Policy to include ESG factors as part of the criteria for vendor performance evaluation. This will allow us to support our vendors in adopting sustainability considerations within their operations.

99.1%
OF OUR EMPLOYEES
FULFILLED THEIR TRAINING
REQUIREMENTS
DURING FY2022

In addition, we remain committed to supporting the Bumiputera Vendor Development Programme ("BVDP"), which is derived from the government's Bumiputera Empowerment Agenda. During the year under review, we awarded 47% of all contracts to Bumiputera vendors, exceeding our target of 35%. In line with this initiative, we have also collaborated with HSBC Amanah to develop a Syariah-compliant Supplier Financing Programme ("SFP") that aims to provide fund assistance to SMEs without collateral requirements.

MINIMISING OUR ENVIRONMENTAL IMPACT

Cognisant of the physical and transitional risks of climate change, we are working proactively to seek out opportunities that may reduce our climate footprint and reduce any negative impacts to the environment. Through key leaders and competent teams within our organisation, we actively monitor changes in regulatory requirements, advancements in eco-technology as well as general developments in our natural ecosystem. Further to this, our dedicated Board Governance and Risk Committee ("BGRC") oversees sustainability risks for the Group as a whole, with their remit including overseeing and guiding actions to mitigate climate change and its impacts. Our approach in this regard is bolstered by the adoption of practices in line with the ISO 14001:2018 Environmental Management System and ISO9001:2018 Quality Management System certifications.

One of the main highlights of our approach to climate change is our deployment of energy efficiency technologies and solutions. This is exemplified through our EPC services, whereby we provide our clients with data-driven solutions that enable them to reduce their energy consumption and drive greater energy efficiency. Our EPC services generated 38,178,319 kWh in energy savings in 2022, which equates to approximately RM16,246,116 of total electricity cost savings for our clients.

SUSTAINABILITY AT UEM EDGENTA

MESSAGE FROM THE MANAGING DIRECTOR/ CHIEF EXECUTIVE OFFICER

AS THE NEXT STEP IN OUR ENVIRONMENTAL JOURNEY, WE WILL BE DEVELOPING A CARBON NEUTRALITY OR NET ZERO STRATEGY WHICH WE AIM TO LAUNCH IN FY2023.

Taking the next steps in our environmental journey, we have begun the process of developing a carbon neutrality or net zero strategy which we aim to launch in FY2023. We have also enhanced our data collection processes and expanded our data points, while ensuring our data owners and preparers are well equipped with knowledge on carbon accounting by organising and collaborating numerous trainings and knowledge sharing sessions with subject matter experts. We have also set up a working team to define boundaries, research suitable emission factors and set up an enhanced data template. On a related note, the results of our FY2022 emissions inventory indicated total Scope 1, 2 and 3 emissions of 17,447.41 tCO₂.

Meanwhile, echoing our approach to energy efficiency, we have also expanded our waste management efforts, with focus placed on assessing and adapting circular economy practices. In line with this, our KLEAN reverse vending machine collected a total of 6,603 containers during a period of just four months, leading to an indirect reduction of our carbon footprint of 341 kg CO₂eq. In further supporting the circular economy, we have built on the success of our recycled asphalt programme with the Taiping Municipal Council by beginning construction of a Recycled Asphalt Premix Plant. We expect the plant to be operational by Q4 2023 and to drive up to 800 tonnes in CO₂ emissions reductions annually.

CREATING SOCIAL VALUE

Social stewardship is a core element of the sustainability of our business. With our Edgenta Stars being the foundation of our success, we have always been committed to creating an environment that is safe, secure and that supports equality, diversity and non-discrimination. This has led to the implementation of our health and safety framework, which focuses on providing crucial platforms for safety in addition to aid-related policies and procedures.

Having seen the impact of the pandemic, we have been made aware of the importance of our employees' emotional wellbeing. This led us to actively identify employees in need through our Depression Anxiety Stress Scale ("DASS") surveys and provide them with access to psychologist and psychiatrist consultations. Likewise, for this year, we further enhanced the psychological support we offer with the appointment of an in-house psychologist.

Looking beyond employee support, our commitment to empowering career and professional development remains undimmed. To this end, we recorded a total of 393,899 hours of employee development training in FY2022, with 99.1% of our employees fulfilling their training requirements. We also hold deep to our belief that our employees come first. To this end, we have continued to invest in employee engagement activities, welfare assistance, equal opportunity benefits and other measures to ensure that our employees feel appreciated and cared for.

Sustainability remains at the forefront of our engagement with employees. To ingrain sustainability values in our employees we launched ESG awareness campaigns across the organisation, commencing with our ESG Awareness Month in 2022.

Besides, various ESG awareness programs were carried out, such as the official launch of the roadmap, panel discussions on sustainability topics by industry experts, vibrant webinars on current ESG topics, carbon emission training for data owners and emission training for data owners.

SUSTAINABILITY AT UEM EDGENTA

MESSAGE FROM THE MANAGING DIRECTOR/ CHIEF EXECUTIVE OFFICER

To cascade the values of the roadmap down to our businesses and our international offices, we also successfully ran ESG awareness sessions in various locations across our operations.

As a diversified organisation, we deeply understand and embrace our responsibility to uplift the communities we engage and interact with. In view of driving impactful contributions to society, we recently updated our Corporate Responsibility policy and framework. With our focus remaining true to our three pillars of Education, Community Enrichment and Well-being, and Environment, we have channelled our growing efforts to 15 livelihood projects and stakeholder activities with a combined spend of RM0.2 million, impacting 12,500 communities across Malaysia during the past year. The lessons learned and experiences gathered via these initiatives have provided us with greater hope that we will be able to engage with more communities and contribute to further needs in the future.

ACCELERATING OUR COMMITMENT TO FUTURE GENERATIONS

Sustainability has become a fundamental aspect of our operations and a key consideration of our customers. As we move forward, each and every one of us has an important role to play in advancing our sustainability objectives and creating a culture that values sustainability. To this end, I am proud to say that we are making strong progress against our goals, and that our momentum for continued positive change remains strong.

Having said this, our continued success will not be possible if not for the unwavering support, trust and contribution of all of our stakeholders. As we look forward at accelerating our sustainability journey, we trust that you will be part of the legacy we want to leave behind for our future generations.

SYAHRUNIZAM SAMSUDIN

Managing Director/Chief Executive Officer

SUSTAINABILITY AT UEM EDGENTA

ABOUT THIS REPORT

This sustainability report represents the strong commitment of UEM Edgenta to disclose its plans, progress and performance consistently throughout its sustainability journey. To this end, the publishing of this sixth (6th) year report is aimed towards providing an in-depth account of the Group's collective focus and efforts at creating and sustaining its ESG values and achievements.

Reporting Scope and Boundary

The content of this report, covering the period 1 January 2022 to 31 December 2022 ("FY2022"), is scoped to the Group's operations in Malaysia and other jurisdictions, namely Singapore, Indonesia, Taiwan and the UAE and the KSA. Further consideration will be placed on expanding our reporting to include performance data from more locations within these jurisdictions in the future.

Reporting Framework

This report has been prepared with reference to the Global Reporting Initiative Standards, with its content guided by the 3rd Edition of the Sustainability Reporting Guide issued by Bursa Malaysia Securities Berhad. The following five UN SDGs remain relevant in this report and have material impact on our business and stakeholders.

Assurance

We have not sought external assurance for this report. However, we are embarking on obtaining internal assurance for our upcoming report in FY2023.

As our reporting matures, we will be embarking on obtaining external assurance to comply with Bursa's Malaysia's guidelines that require public listed companies to seek assurance on Sustainability Reporting.

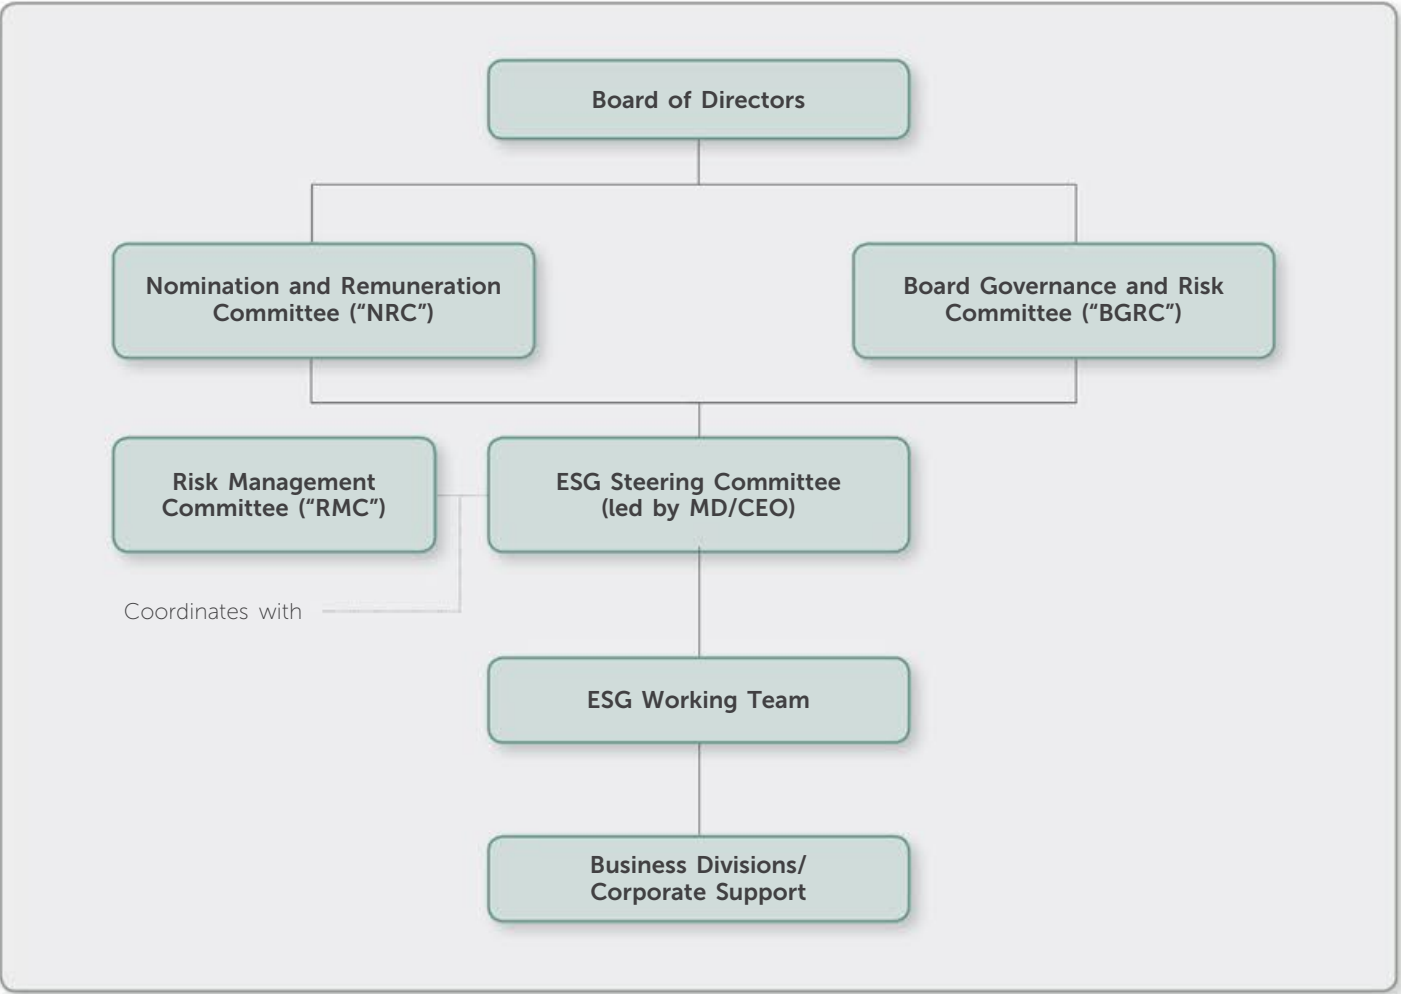

SUSTAINABILITY GOVERNANCE

We are cognisant of the fact that in order to run a sustainable business, we must be rigorous with our sustainability governance framework and structure as this shapes our sustainability direction and drives the effectiveness of our sustainability initiatives.

Our governance framework reflects our intention to integrate sustainability as part of our business, aligning with the call for greater accountability in managing our sustainability performance, forming an essential aspect of stakeholder accountability.

SUSTAINABILITY AT UEM EDGENTA

Governance Structure

Our robust and comprehensive governance structure is guided from the top, with the Board setting the tone and maintaining oversight of the overall sustainability strategy and ambitions of the Group. With this leadership role, the Board is responsible for monitoring all sustainability-related matters on a constant basis, and assessing and deliberating on sustainability strategies across the cycle of conception, implementation, development and completion through its quarterly meetings. Along with the key guidance that the Board provides, the Board discharges its responsibilities directly and through its committees, i.e. the Board Governance and Risk Committee ("BGRC"), which oversees the approval and implementation of sustainability programmes and monitors sustainability performance and risk management (which include environmental risks) and the Nomination and Remuneration Committee ("NRC"), which reviews Board and senior management performance against agreed KPIs. In January 2023, the BGRC affirmed the Group's commitment to align its sustainability disclosures with the recommendations made by the Financial Stability Board's Task Force on Climate-Related Financial Disclosure ("TCFD") by FY2025. This pledge is in line with Bursa Malaysia's Enhanced Sustainability Reporting Framework issued on 26 September 2022. In FY2023, the Group will prepare a TCFD work plan to meet this commitment.

SUSTAINABILITY AT UEM EDGENTA

Working with senior management, our Risk Management Committee ("RMC") plays a significant role in institutionalising our enterprise risk management framework, which entails assessing, monitoring and managing key risks, including sustainability risks, throughout the Group. In line with this, the RMC acknowledges that environmental or climate risks form one of the key components of the Group's sustainability risk profile.

In further complementing the role of the RMC, we have also established an ESG Steering Committee which is delegated the role of developing and monitoring our strategies, policies, processes and initiatives related to sustainability as approved by the Board. In addition, the ESG Steering Committee periodically reviews the sustainability performance of the Group and recommends action plans for further improvements as part of our overall sustainability framework.

Moreover, the Board has elected our Managing Director/Chief Executive Officer to be our dedicated focal point in embedding the intentions of our sustainability framework within our operations and to exemplify good leadership relating to our day-to-day sustainability performance.

Coordinating with the RMC to consider and incorporate sustainability risk within the Group's risk profile, an ESG Working Team has been formalised and is tasked with monitoring, tracking and reporting sustainability performance on a quarterly basis. The roles of the ESG Working Team include:

- ▶ Developing sustainability strategy and frameworks
- ▶ Coordinating the implementation of sustainability related projects
- ▶ Supporting the development of sustainability targets and KPIs
- ▶ Connecting, engaging and educating the various internal stakeholders on ESG matters
- ▶ Monitoring, evaluating and reporting on a regular basis the progress of sustainability initiatives/programmes/events to the ESG Steering Committee/Board
- ▶ Overseeing the preparation of the Group's Sustainability Report and other required disclosures related to sustainability

In supporting the pillars of our governance structure, our affiliation with the CEO Action Network ("CAN") has been impactful during the year, allowing us to further engage and interact on key issues that matter within a network of peers advocating sustainability. Since our acceptance to the network in 2021, we have leveraged on this extended grid of collaboration to build awareness, expand capacity and initiate actions addressing matters such as climate change, social stewardship and others. As part of our affliance with CAN, our Edgenta Stars were also provided with opportunities to participate and collaborate with CAN on several knowledge sharing sessions during the year, including on sustainability assurance and carbon tax.

Besides, the Board also participated in several other sustainability engagement and awareness sessions, including the Path to Net Zero Webinar. Furthermore, ESG awareness sessions at business units also led to a collaboration between our team at Infrastructure Services and PLUS in initiating a recycling 3R (Reduce, Reuse and Recycle) campaign at rest areas along the North-South Expressway ("NSE").

RISK MANAGEMENT

A formal Risk Management Framework - developed based on the principles of ISO:31000 - has been established to set clear guidelines in relation to the risk management methodology of the Group. Based on the framework, a structured process has been established to identify, evaluate and manage significant risks, including thorough significant consideration of ESG risks. In managing ESG risks, the organisation defines its context and lists down measures to mitigate potential exposure to such risks.

For further information on the way we manage our ESG risks, please refer to Risks and Mitigation on page 72 of this report.

The risk management process includes identifying key risks at areas of significance, assessing the likelihood and impact of risk exposure, determining the relevant risk mitigation and remedial plans, and presenting key matters for review and deliberation. In addition, our risk ratings and mitigating actions are subjected to regular reviews in order to identify emerging risks, update our risk profile and follow up on the implementation of proposed initiatives.

For more details on our risk management framework and control processes, please refer to Statement on Risk Management and Internal Control on pages 237 to 245 of this report.

SUSTAINABILITY AT UEM EDGENTA

OUR SUSTAINABILITY ROADMAP

As we embark on the next phase of our sustainability journey, we have taken the initiative to develop our first Sustainability Roadmap as a key component of our sustainability framework. With the target of better defining our vision and strategy, the roadmap was developed by aligning our actions with our sustainability goals and objectives while staying true to the UN SDGs we have adopted.

The two-year roadmap (FY2022 - FY2024) was developed through a comprehensive and holistic approach which included gathering insights from stakeholders through various workshops and taking into consideration the material matters that are significant to our business operations and our stakeholders. Through the exercise, the roadmap defined six sustainability pillars to guide our journey moving forward.

SUSTAINABILITY AT UEM EDGENTA

SUSTAINABILITY AT UEM EDGENTA

| Pillars | Achievements in FY2022 | Future Outlook (by 2024) |
|---|--|---|
| Approach <i>Focus Areas:</i> Sustainability strategy, vision and mission | Established a two-year Sustainability Roadmap | Develop a sustainability policy and strategy while: 1. Enhancing material matter-level policies 2. Monitoring the implementation of sustainability policies across the Group 3. Integrating our overall ESG commitment within our corporate vision and mission 4. Communicating our sustainability policy to our stakeholders |
| Materiality <i>Focus Areas:</i> Identification of material matters and communication of matters with stakeholders | <ul style="list-style-type: none">Published a materiality matrix in our FY2022 statementEnhanced material matter data collection methodologies | Enhance sustainability data disclosure and communication processes by: 1. SUSTAINABILITY AT UEM EDGENTA

STAKEHOLDER ENGAGEMENT

As we progress on our sustainability journey, we deeply recognise the role of our stakeholders as an essential element in aligning our approach and performance towards our ESG goals. Through constant, two-way, open and transparent engagements with our stakeholders, we keep abreast of their feedback and expectations while providing crucial communication on our sustainability performance. With input from our stakeholders, we are able to enhance the foundation of our sustainability agenda and business priorities while responding to their needs more effectively, ultimately enabling us to deliver greater long-term value.

The stakeholders that we actively engage with include Boards of Directors and Employees, Client and Partners, Shareholders, Investors and Analysts, Government and Regulators, Industry and Business Associations, Supply Chain Partners, Community and Media.

For more information on our stakeholders, please refer to Stakeholder Engagement on page 56 of this report.

MATERIALITY ASSESSMENT

As part of our ongoing efforts to further understand our material issues, our material assessment exercise for this year included the views of our external stakeholders. Interviews and surveys were conducted across a broad set of stakeholders, with an 80% response rate. These engagements helped reaffirm our materiality matrix, highlight strengths and opportunities and call out areas for improvements.

In FY2022, we continued to acknowledge our 11 ESG matters as major drivers of our sustainability efforts. As a result of the materiality assessment performed in 2021, the matters included four with economic impact (Business Ethics, Economic Development, Supply Chain Management and Innovation); two with environmental impact (Climate Change and Energy, and Environmental Management); and the remaining five with social impact (Human Rights Assessment, Occupational Health and Safety, Customer Satisfaction, Employment Culture and Local Community). By focusing on these matters, we were able to better manage our stakeholders' expectations and create long-term value for them in a manner that is consistent with our business strategies and objectives.

Furthermore, through the assessment, we also developed a detailed action plans for our four primary material sustainability matters - Human Rights Assessment, Supply Chain Management, Climate Change and Energy, and Environmental Management - which were identified as our immediate focus areas. For these matters, we further elected focus groups, champions and working group members to reinforce our approach in addressing these issues towards meeting our roadmap targets.

For more information on these material matters, please refer to Our Material Matters on page 70 of this report.

SUSTAINABILITY AT UEM EDGENTA

BUSINESS ETHICS

We strive to inculcate a culture and belief in our DNA which is anchored on our core values, FIRST – Future Focused; Imagine New Ways; Respect For All; Solutioning Mindset; and True to Our Word. Through these core values, we commit to show Respect for All – where we treat our colleagues and stakeholders with respect and True to Our Word – where we are guided by integrity to build trust. As we strive towards becoming a Technology-Enabled Solutions Company, integrity, ethics and accountability are essential components which we must harness at both the professional and personal levels. Defining our ethical stance also enables us to achieve better brand recognition and growth, improve our customer retention, attract greater talent and establish wider appeal to our stakeholders.

With attention on our core values, the BGRC is tasked to provide oversight and guidance, aided by the support of the Risk, Integrity and Compliance Department ("RICD"). The primary role of the RICD is to assist with the management of our Enterprise Risk Management ("ERM") framework, Business Continuity Management ("BCM") plan and any other matters that relate to compliance and integrity. In summation, this structure provides adequate governance over the control and execution of our key focus areas.

For more information on our focus areas of good business ethics, please refer to the Corporate Integrity and Ethical Business Conduct section on page 246 of this report.

Sustainable Economic Growth

SUSTAINABLE ECONOMIC GROWTH

Economic Development

COMMITTING TO RESPONSIBLE ECONOMIC DEVELOPMENT

Positive economic performance generates the funds necessary to reinvest in the Group's workforce and surrounding communities. We see this positive outcome as being pivotal to our ability to continuously create value and deliver meaningful impact across our business footprint in the long run. With the aim of delivering strategic economic impact and driving the sustainable development of our communities, business ecosystem and national economies, we consistently invest in innovative and efficient solutions that enhance our operations and products.

This goal has driven us to further expand on our EoTF2025 vision, which was first developed and introduced in 2021. In its 2nd year of implementation, significant progress has been made that paves the way for the Group to become a global tech-enabled asset and facilities management company. In doing so, entrenching sustainability into our operations becomes a key paradigm towards building a resilient ecosystem – enriching people's livelihoods, protecting and preserving the environment and enabling value creation for the communities that we interact with.

The objectives of EoTF2025 are anchored on enhancing profits through the scalability of our business in the various markets we operate in. This is predicated on the ability to replicate the Group's franchise through market expansion strategies, optimising the way we operate through efficiencies in our value chain, enhancing the value proposition to our clients through the use of technology to accelerate the deployment of services, and increasing transparency and data on asset performance.

Furthermore, we have continued to support Bumiputera vendors as well as SME suppliers through our development and financing programme. Ultimately, with our structure and capabilities, we believe that we are well-placed to support our nation in reviving the economy from the impacts of the pandemic over the last few years.

SUSTAINABLE ECONOMIC GROWTH

EXPAND FOOTPRINT AND DEEPEN SOLUTIONS BASE

In today's global economy, market expansion is imperative to foster economic growth as it broadens our customer base and income stream. Furthermore, participation in international markets can lead to increased trade and economic integration between the Group and the markets that we serve, which in turn sets us up for future business opportunities.

A central theme of EoTF2025 is the ability of the Group to replicate its franchise in international markets by expanding into adjacencies within existing core markets and entering into new markets. Presently, we operate in six countries – Malaysia, Singapore, Indonesia, Taiwan, the United Arab Emirates and the Kingdom of Saudi Arabia. In developing our growth themes for each of these markets, the Group is committed to creating positive economic impact for stakeholders and the local economy through our operations, either by contributing to development in the local areas or communities in which we operate (e.g., through local hiring), by engaging with local suppliers or by developing sustainable solutions that meet the needs of our clients.

With 38% of our revenue and 62% of new contracts originating from international markets, our diversified portfolio across different geographies gives us the advantage of a far-reaching network with broader sources of income to sustain the Group financially in the long run.

Revenue generated from international markets

Moreover, as a result of our conscientious planning and implementation of market expansion strategies, we have been able to drive and distribute value to our stakeholders and the countries that make up our operational footprint by accruing meaningful contributions to our operation, as depicted here:

A. Direct economic value generated from revenue:

UEM Edgenta and its subsidiaries (RM million)

SUSTAINABLE ECONOMIC GROWTH

B. Economic value distributed through:

SUSTAINABLE ECONOMIC GROWTH

The Group received and utilised tax benefits as follows:

Tax relief and tax credits

► For UEM Edgenta and its subsidiaries, there was utilisation of previously unrecognised losses and reinvestment allowance against current year income tax amounting to RM6.6 million in tax reliefs/credits. There was no actual cash inflow as this amount was deducted from respective companies' chargeable income, thereby reducing the amount of estimated income tax payable for the financial year ending 2022

In line with Group-level principles of non-discriminatory compensation to improve the welfare of the local communities in areas that we operate in, the Human Resource Department has continually maintained insightful statistics in relation to these efforts, enabling close monitoring and progressive improvement to compensation schemes. With that, the Group is pleased to disclose the following performance data as a testament to our local recruitment and minimum wage compliance efforts:

| Male to female minimum wage ratio | |
|--|--|
| Entity | Minimum wage ratio* |
| UEM Edgenta and its local subsidiaries | 1:1 (at significant locations of operations ¹) |
| UEMS Singapore | 1:1 |

*Note: Operon, which operates in the UAE, is not governed by minimum wage requirements.

| Local recruitment performance | |
|----------------------------------|---|
| Entity | Senior management ² hired locally |
| UEM Edgenta and its subsidiaries | 100% |
| UEMS Singapore | 85% |
| Entity | Senior management from the local ³ community |
| UEMS Singapore | 0.30% |
| Operon | 0.38% |

Guided by our central tenet that an empowered workforce plays an integral part in driving long-term business performance and economic growth, we will continue to champion equitable pay for our employees that sufficiently reflects increasing living costs. This approach also shapes our overall compensation policy, which is designed on a fair and structured basis to reallocate value generated from our operations to the communities that have been paramount to our continued success.

¹ Significant locations of operations can be defined as Malaysia and Singapore for UEM Edgenta and UEMS Singapore respectively while for Operon, it is defined as the area where the Company delivers contractual services within the United Arab Emirates.

² Senior Management refers to the Top Management and Headquarter Management staffs for UEM Edgenta and UEMS Singapore respectively while in Operon, it refers to the highest level of authority within its operations.

³ The term "local" refers to Malaysia and Singapore respectively for UEM Edgenta and UEMS Singapore and within the Emirates of the United Arab Emirates for Operon.

SUSTAINABLE ECONOMIC GROWTH

ENHANCE PRODUCT AND TECHNOLOGY PROPOSITION

While the focus in the prior year was to initiate UEM Edgenta's digital ecosystem platform (i.e., Edgenta NXT), our attention for the year under review was to launch the platform into our service offerings. Asseto, a new performance-based Computerised Maintenance Management System ("CMMS") platform developed in-house, was launched in October 2022. This software-as-a-service platform will help pave the way for Edgenta NXT's smart buildings solutions by anchoring on the need for renewed efficiency in infrastructures, enabling real-time data convergence on a single platform to empower engineers and facilities managers to manage multiple buildings seamlessly and efficiently.

To-date, Asseto has been rolled out across all of the buildings that are being managed under the Property & Facility Solutions division with more than 30,000 assets already connected to the platform. Building on the success of the internal roll-out, Asseto was then introduced for the first time in a commercial environment to enhance maintenance work orders and business processes for the Petronas Twin Towers and Petronas Tower 3. The platform rides on cutting-edge technology to enable real-time operations and automation, contributing to the reduction of manual work, eliminating manual surveillance and supporting audit tracking, thereby increasing overall performance at project sites.

Moving forward, the Group is committed to further enhancing Asseto's core by developing applications for other types of buildings and infrastructure, including hospitals and road infrastructures.

As we move forward in pioneering technology solutions to transform the industry, the Group recognises the importance of developing a more cohesive technology ecosystem that can integrate with various partner solutions across various verticals to further enhance our value proposition to our clients. To this end, the Group has formalised several partnerships with leading international companies to further enhance its solutions for smart cities and sustainability. During the year under review, partnerships were formed with Disrupt-X on the customised development of an IoT platform for the facilities management industry, Sumitomo Corporation Asia and Softbank Corporation for the creation of smart and sustainable city solutions, ITMAX Systems for solutions pertaining to the field of public space networked systems and related analytics intelligence, and Alibaba on the integration of Asseto and Alibaba's sustainability platform to help the Group and our customers measure, analyse and manage carbon emissions. These partnerships and solutions will be offered via Edgenta NXT through its Asseto platform with an interoperable infrastructure that enables data and analytics to be integrated from the source.

SUSTAINABLE ECONOMIC GROWTH

Supply Chain Management

DRIVING A RESPONSIBLE AND LOCAL SUPPLY ECOSYSTEM

As an entity with a global footprint, we are mindful of the benefits that a responsible supply chain, local to our operations brings. Positive impacts have been acknowledged from maintaining a transparent supply chain, which include benefits for overall business efficiency. Likewise, an optimised supply chain can also potentially contribute to cost reductions which in turn increase the tangible value of the products and services we are able to offer to our stakeholders. Besides, developing trust-based supplier relations is similarly a vital cornerstone towards crisis-proof governance, ensuring that exposure to compliance risks is tactfully managed and mitigated. Ultimately, upholding high ethical standards in our supply chain will broadly help us consistently deliver seamless consumer experiences, safeguarding our reputation and position as a leader in the industry.

We are looking at establishing key policies which can form core expressions of our sustainability and compliance based procurement framework. In this regard, we will strive to inculcate Environment Social and Governance factors in our Procurement Vendor Management Policy as part of the criteria for vendor selection or performance evaluation. For instance, our business partners as well as third parties supplying on-site services have the obligation to:

In addition to that, the Group's Procurement and Contract Management ("GPCM") has executed various ESG initiatives according to our Sustainability Roadmap, with our suppliers during our year in review which include:

- Identification of dedicated persons-in-charge from GPCM to lead ESG initiatives and data collation
- Conducted ESG assessments on 675 vendors selected based on average spend and volume of order to evaluate their ESG maturity and understanding, with capacity-building initiatives conducted to raise their ESG literacy levels
- Commenced evaluation and identification of parameters to track and compute Scope 3 emissions within our supply chain

SUSTAINABLE ECONOMIC GROWTH

- Knowledge Sharing session with suppliers: ESG Awareness with Edgenta's Business Partners Webinar
 - In November 2022, GPCM, in collaboration with the ESG team, conducted a webinar to raise awareness on ESG. The webinar received participation from 201 active suppliers, with feedback received indicating that the webinar improved their understanding of ESG

In future, along with our plan to segmentise vendors into one of the four areas - Strategic, Critical, Operational and Transactional - we intend to embed ESG capability criteria in our vendor segmentation assessment to evaluate the impact vendors have on the Group from various aspects such as business operations, profitability and continuity.

RESPONSIBLE SUPPLY CHAIN MANAGEMENT

As part of our impartial and transparent procurement procedures, we have in place a stringent due diligence process whereby potential new suppliers are thoroughly vetted before any form of engagement. During an onboarding process, supplier information is submitted through the Credit Tip Off System ("CTOS") as an additional risk-reduction strategy to screen out vendors that may carry potential financial/legal threats to the Group. Once a potential supplier has successfully completed the onboarding process, they are required to understand, acknowledge and pledge their commitment to ethical business practices, as outlined in the Code of Conduct for Business Partner ("COCBP") and Business Partner Letter of Declaration ("BPLD"). Besides, other efforts carried out include the continuation of our "Projek Perintis" (a Contractor HSSE Development Programme), review exercises of the health and safety impact of our products and services, and enhancements to our procurement process to be more efficient and transparent. Further information on Projek Perintis can be found within the "Occupational Health and Safety" disclosures, on page 158 of the report.

As part of our continued effort to uphold the Group's environmental standards across our supply chain, suppliers in UEMS Singapore undergo strict screening procedures to ensure they are equipped with Singapore Green Labelling Scheme ("SGLS") certification. With that, the Group works closely with these suppliers to enhance our sustainable product offerings to our customers.

In supporting our robust procurement framework, enhancements have been made to our procurement process during the year in review. With the goal of driving greater efficiency and transparency, the Oracle Procure-to-Pay ("PTP") self-service system was designed for suppliers to manage administrative procedures such as updating their vendor profiles, participating in Requests-for-Proposals and/or Tender exercises, making payments and more by themselves. This digital transformation in our procurement operations has been communicated to suppliers via training sessions to ensure understanding of the system and its intended purpose.

At the same time, our approach in establishing a responsible supply chain is closely associated with our pledge towards climate protection. This is further bolstered by our support towards the Ministry of Health Malaysia's Sustainability Programme's goal of achieving net carbon neutrality in healthcare facilities by 2045. Parallel to this national aspiration, our Singapore office - UEMS Singapore - is determined to continue along its path of improving resource conservation through various sustainable procurement initiatives, which promotes the purchase and use of green consumables, materials and chemicals in its facilities. In 2022, our healthcare unit UEMS Malaysia added to their usage of environmentally friendly detergents.

*Note: Types of biodegradable detergents used

SUSTAINABLE ECONOMIC GROWTH

In this similar vein, we have taken a forward-looking approach and planned various initiatives as per our “Focus Material Matter: Supply Chain Management ” section in our Sustainability Roadmap., Some of the initiatives include carrying out more comprehensive supplier evaluations to gauge ESG maturity levels further, expanding on the scope of the ESG awareness webinar rolled out in 2022, planning capacity-building and training for suppliers, and conducting extensive, multi-point due diligence checks on vendors. Meanwhile, our Property and Facility Solutions division (Operon Middle East) plans to implement ISO 14001 in 2023 and carry out supplier environmental screening in 2023.

PROVIDING BUSINESS OPPORTUNITIES

While we remain focused on developing our local supply chain, our approach has simultaneously allowed us to further extend support to local vendors by establishing the BVDP during the year under review. The BVDP, which was derived from the government’s Bumiputera Empowerment Agenda, aims to elevate local entrepreneurial communities with training modules designed in-house, allowing underserved Bumiputera businesses that meet our governance and policy requirements to participate competitively in the local and global markets. Currently, there are seven vendors participating in this programme.

Besides, every year, we set out to meet the government’s goal of awarding at least 30% of all contracts to Bumiputera vendors through its Bumiputra Vendors Contract Award programme. Nonetheless, through our transparent tender and negotiation process which enables the Group to make optimal decisions on our business partners, we have gone beyond this target by granting 47% of contracts to Bumiputera vendors during the year.

In order to ensure that sustainable procurement decisions are securely anchored within our supply chains, mindful selection of suppliers with similar principles of entrepreneurial responsibility to our own will continue to be our primary focus, especially in this era of geopolitical tension and global supply chain disruptions. During the year, no suppliers selected or contracted were subjected to due diligence processes for environmental impacts.

To further demonstrate our commitment towards BDVP and the sustainability of the small and medium industry players who form part of our value chain, targets set to encourage the growth of these businesses is tracked as part of our MD/CEO’s key performance indicators. In conclusion, our local procurement and supply chain financing policies will continue to be a catalyst to unlock further economic value for the Group and our stakeholders at large.

SUSTAINABLE ECONOMIC GROWTH

As an additional mark of our commitment to support our supply chain partners, we have also collaborated with HSBC Amanah to develop a Syariah-compliant Supplier Financing Programme (“SFP”) that helps fund the growth aspirations of SMEs by providing them with affordable financing without collateral. The launch of the SFP took place on the 30th of August 2022 at our Learning Centre and was graced by the Malaysian Minister of Entrepreneur Development and Cooperative. Since the first phase of its implementation, over 380 SMEs and MSME vendors have been offered to join the programme, with more vendors in the pipeline expected to be onboarded.

For the year under review, we have achieved the following performance on local supplier procurement:

a. Percentage of procurement budget spent on total vendors

The amount spent on vendors, total number of vendors, and total contracts outsourced to Bumiputera vendors dropped between 2021 and 2022 as there were major healthcare maintenance contracts (the recipients of which were mainly Bumiputera vendors) awarded for the contractual period of three years in 2021. Hence, by contrast, there is an overall decrease in large healthcare maintenance contracts in 2022.

b. Percentage of the procurement budget used for significant locations of operation that is spent on suppliers local (within Peninsular and East Malaysia) to that operation, such as percentage of products and services purchased locally.

Climate Change and Energy

Maintaining Our Environmental Stewardship

Minimising Environment Impact

MINIMISING ENVIRONMENT IMPACT

Climate Change and Energy

ADDRESSING CLIMATE CHANGE AND EXPLORING ENERGY EFFICIENCY

As an organisation that is involved in various business segments, we are deeply conscious that climate change threatens the balance of our business ecosystem and the environment as a whole, and therefore may result in supply chain disruptions, increased regulatory or compliance requirements and other significant outcomes and risks. At the same time, the evolving challenges brought about by climate change provide fertile ground for the Group to capitalise on emerging opportunities by demonstrating thought leadership and developing innovative ways to adapt to the changing climate. With that, our business strategies are geared towards limiting our climate footprint and minimising negative impacts on the environment, not only for our operations but also in assisting our clients to achieve the same for their business assets. Towards this goal, comprehensive policies have been established by the Group to reflect our commitment to addressing climate change impacts, while we uphold our business partners and the procurement activities we engage in, to the same standards.

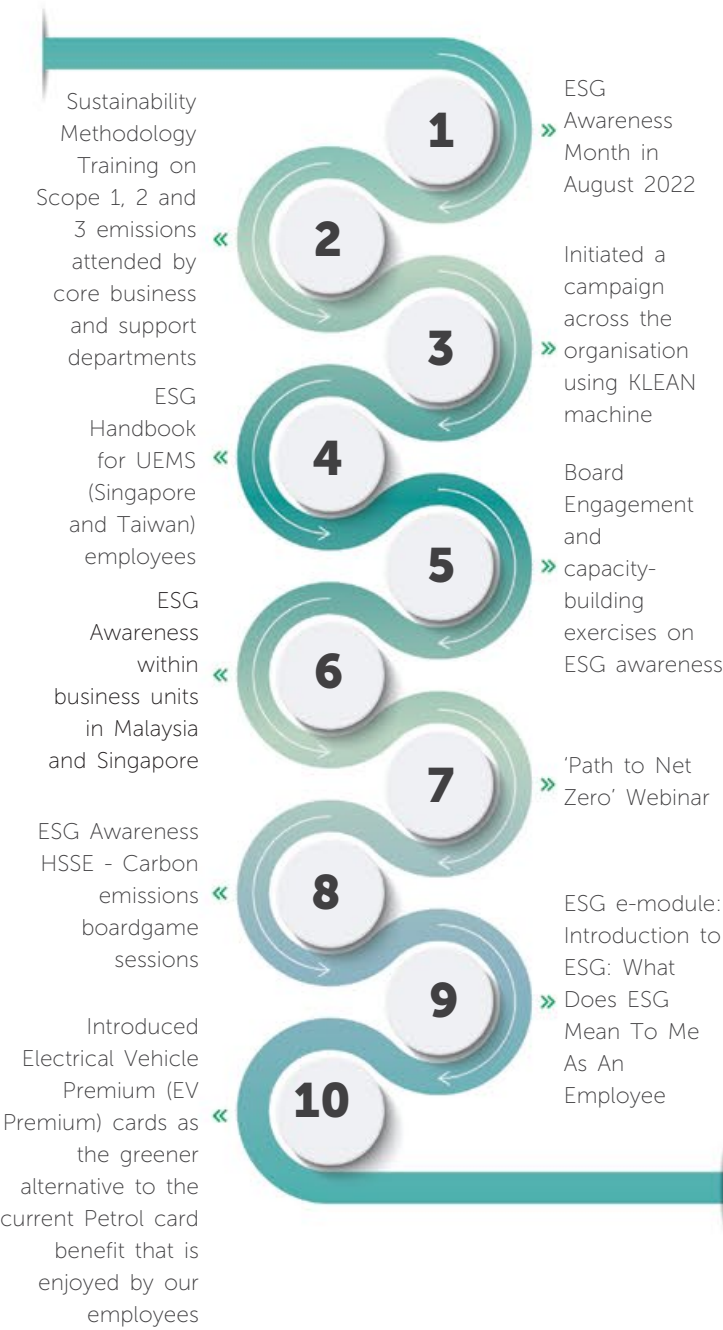

In view of the 12th Malaysia Plan to achieve carbon neutrality by 2050, minimising our carbon footprint and reducing the adverse impact of our operations have on the environment is imperative. To further align our key strategic initiatives to our net zero or carbon neutrality goals, we have a dedicated BGRC that oversees enterprise risks including sustainability risks and various of their

components such as climate change for the Group as a whole. Further information on how our governance structure is tailored to address sustainability issues can be found in the Sustainability Governance section.

Our stakeholders are increasingly focusing their attention on climate-related matters and keenly observe how we respond to climate risks. Furthermore, our workforce - which comprises a significant number of employees from younger generations - want us to conduct our business and run our processes in ways that do not harm the environment. To this end, the ISO 14001:2018 - Environmental Management System and ISO 9001:2015 - Quality Management System certifications help ensure that a standardised process is applied across the Group in identifying and addressing environmental risks. The effectiveness of our integrated management systems is continually assessed by accreditation bodies and official authorities.

During the year, a two-year Sustainability Roadmap was announced in conjunction with our ESG Awareness Month in August 2022, reflecting our dedication to environmental protection and sustainability aspirations. The Roadmap which is currently being rolled out progressively, saw us run the following initiatives to instill ESG awareness among our staff.

List of initiatives to build Environmental, Climate Change and Energy Awareness

Given the pace at which environmental regulations are evolving, it is critical that we remain abreast of the latest sustainability-related developments and seize opportunities to better serve the market. With that, services aligned with green initiatives are consistently offered across our businesses as drivers of value creation.

In this respect, as an Energy Service Company ("ESCO"), we provide Energy Efficiency and Renewal Energy Solutions with Zero Upfront Capex financing via EPC and Power Purchase Agreements ("PPA"). These services are primarily focused on introducing and promoting the application of energy efficiency and renewable energy in order to create a low-carbon ecosystem for the occupants of UEM managed buildings, asset, and infrastructure.

We also engage in sustainability matters through networks that we belong to. During the year under review, we deepened our relationships with sustainability circles such as the CAN and Climate Governance Malaysia by engaging with subject matter experts in these communities and planning various capacity and knowledge sharing sessions on climate related topics such as carbon tax and sustainability assurance for the benefit of our staff and their members.

ENERGY EFFICIENCY AND GREEN BUILDING SOLUTIONS

In FY2022, we continued to provide various services as part of our offerings that kept the climate at its forefront, such as our EPC works, GBI initiatives and LEED certification solutions. Our energy conservation solutions continue to pave the way for our customers to obtain their Green Building Index ("GBI") certifications through our Green Performance Contracting ("GPC") programme.

We provide these services not only for our clients but also embed such services in our own practices. We are committed to managing our energy efficiently, recognising the pivotal role that energy management plays in reducing our emissions consumption as well as the greater benefits that sustainability and renewable energy may bring in securing our future. This is similarly echoed in the partnerships which we have built with our customers, whereby we provide support on their journey of enhancing energy efficiency, especially by reducing footprint from electricity consumption in the healthcare, industrial, commercial and retail sectors.

MINIMISING ENVIRONMENT IMPACT

With that, we have undertaken the following energy efficiency and green building initiatives during the year under review:

- ▶ Our efforts and capabilities surrounding renewable energy solutions
 - The Group is a Registered Solar Photovoltaic ("PV") Investor ("RSPV")¹ with the Malaysian Sustainable Energy Development Authority ("SEDA"), enabling us to implement renewable energy solutions through comprehensive energy audit evaluations, feasibility studies and viable funding models.
 - In order to keep abreast of evolving industry requirements, we remain in proactive contact with regulatory bodies (i.e., SEDA and Construction Industry Development Board ("CIDB")), ensuring compliance with prevailing standards at all times.
 - Renewable energy solutions form an underpinning component of the services offered within our Property and Facility Solutions ("PFS") and Healthcare Support business segments. Through these business divisions, we maintain commercial buildings and public healthcare assets across a broad client base including the Prime Minister's Office in Putrajaya, Mercu UEM Petronas Twin Towers and Menara 3 and 47 of CIMB Group Holdings Berhad's sites.
- ▶ Usage and maintenance of solar panels and solar thermal technology to generate renewable energy at Menara UEM and our Clients' sites
 - The usage and maintenance of photovoltaic solar panels on the roof of Menara UEM, contributing to 4% of total electricity usage, wherein the Group's electricity source is derived from the grid and solar panels installed.
 - Deploying photovoltaic solar panels at Hospital Sultanah Maliha as detailed further in our featured success story below.
 - The installation and maintenance of Solar Thermal that collect and concentrate sunlight to produce the high temperature heat needed to generate hot water, at Hospital Sultanah Bahiyah, Kedah.
- ▶ Provision of Energy Performance Contract services
 - EPC² is an invaluable driver of our success in the energy solutions business, allowing well-founded, data-driven energy management programmes to be executed. These programmes are tailored to the specific needs of the client through a series of ESG-based assessments taking electrical consumption levels and other factors into consideration.
 - Through the evaluation, areas that could benefit from energy reduction strategies are highlighted, especially for Significant Energy Use ("SEU") equipment such as Chiller, Air Compressor,

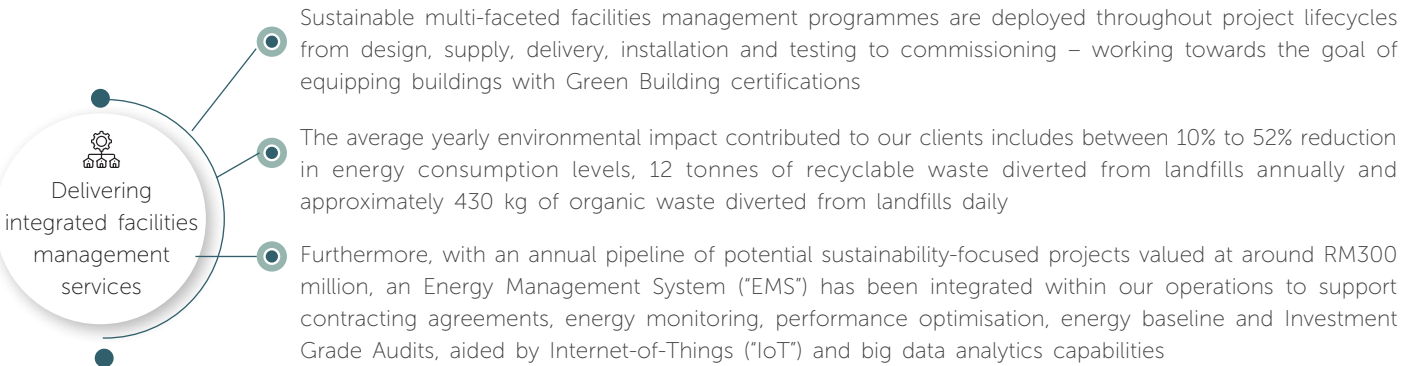

- and Lighting systems etc. Energy savings (computed based on Investment Grade Audit guidelines) driven by such efficiency measures can, in turn, generate capital expenditure to finance more extensive renewable energy technologies. This is demonstrated by the implementation of Energy Conservation Measures ("ECMs") identified through energy audits, gap analyses and building assessments, which provides tangible benefits such as electrical energy and cost savings which can be used to retrofit or optimise the system with more efficient energy technologies with data intelligence.
- The repayment on the EPC projects is via shared saving model or fixed payment which can be offered through zero capex models with performance guarantee over the contract period. The shared savings on spend and duration of the contract are simulated over a financial modelling taking into account the asset's life cycle costing.
 - In order to measure the efficiency of our EPC projects, measurable results are monitored real time via Energy Monitoring System with customised dashboard and verified annually via the International Performance Measurement and Verification Protocol ("IPMVP") methodology, with the verification conducted by qualified experts. The Projects that the Group manages are also monitored via our Command and Contract Centre ("CnC"), which is the Central hub for the creation and implementation of IoT applications into the realm of facilities management through digital workforce.
 - To this end, we have undertaken 11 EPCs between 2016 to 2022, with a total contract value of RM110 million. During that same period, we have achieved 38,178,319 kWh energy savings per year, which translates into approximately RM16.2 million of total electricity cost savings for our clients per year.

An additional EPC contract was secured during FY2022 which is expected to further contribute another **1.8 million kWh** energy saving per year, translating to approximately **RM0.7 million** of total electricity cost savings per year for our client.

MINIMISING ENVIRONMENT IMPACT

- ▶ Implementation of real-time monitoring of energy consumption
 - The Energy Monitoring System and the SmartConnect platform developed by our Property & Facility Solutions business segment uses real-time data on critical parameters to revolutionise energy management by employing machine learning for prescriptive analytics. The platform seamlessly integrates critical building support systems, enabling energy consumption across all areas within a building to be monitored in real-time and benchmarked against the Building Energy Index.
- ▶ Active energy management of third-party assets
 - We take a highly participative approach towards asset management, whereby all pertinent aspects are systematically evaluated and corroborated with on-site stakeholders (i.e., building owners, facilities manager or the operations team that manage the site), for continuous energy efficiency measures to be implemented. This includes providing qualified Energy Manager services for our existing Integrated Facilities Management contracts.

Providing Green Performance Contracting ("GPC") and Green Building Certifications

- ▶ We manage nineteen (19) GBI and LEED-certified buildings at various certification levels. To complement these business offerings, value-added services such as calculations on ESG baseline and GHG inventory, development of net zero carbon building strategies and other green initiatives are provided to our clients.
- ▶ As part of our GBI initiatives, more than 14 GBI buildings (e.g., the Petronas Twin Towers, Tune Hotel KLIA2 and the Prime Minister's Office and etc.), continue to remain under our care.
- ▶ GPC solutions are guided by industry standards (i.e. Malaysian Standard 1525:2019) and focus on the six (6) pillars within GBI-Energy Efficiency, Water Efficiency, Indoor Air Quality and Innovation Sustainable Site Planning and Management ("SM") and Materials and Resources, with priority/primary focus on the first four. These are integrated into our Facilities Management and Comprehensive Maintenance Programme to upkeep capital investments.
- ▶ Green Building Certification that we maintain for our clients is the LEED Certification. In the reporting year, a hospital that we maintain, Slim River Hospital, was accorded with a Platinum LEED rating.
- ▶ Sustainability projects are backed by robust risk and mitigation plans, Business Impact Analysis and comprehensive Standard Operating Procedures ("SOP") before and after project implementation.

Sungai Siput Hospital maintained by the Healthcare business became the first hospital in the world to receive the Malaysian Carbon Reduction and Environmental Sustainability Tool ("MyCrest") certification with a 4-star rating.

We also have the Energy Management Gold Standard whereby **32 healthcare facilities** was accorded with a **3-star rating**.

¹ A Registered Solar PV Investor is allowed to operate as an investor under the Net Energy Metering ("NEM") scheme by SEDA, offering Power Purchase Agreements ("PPA") and services on solar leasing.

² EPC is based on a profit-sharing agreement between the building owner and the Energy Service Company ("ESCO") (in which case would be the Group), whereby upfront capital for energy efficiency projects is borne by the ESCO while asset owners make future repayments from cost savings.

MINIMISING ENVIRONMENT IMPACT

OUR FEATURED SUCCESS STORY

Hospital Slim River received an award from the Malaysian Green Technology and Climate Change Corporation ("MGTCCC"). The hospital was accorded a 4-Diamond in Low Carbon City Recognition (Partner Category Diamond) under category of energy (electrical) with reduction of GHG emission of 37.32% (2016 as baseline). Various elements were measured including energy, water, waste, mobility and greenery. The Hospital successfully achieved a significant carbon dioxide reduction as a result of energy-saving projects that have been carried out through a sustainability programme including conversion/retrofitting of chiller systems, LED lights, HVAC systems and the installation of solar panels.

Furthermore, under our LEED certification programme with Hospital Sultanah Maliha, the hospital became the first healthcare facility in the world to be awarded LEED gold. We undertook steps to ensure indoor air quality meets ASHRAE¹ standards, use lamp with reduced picograms per lumen hour, reduce refrigerant impact to the atmosphere, install solar PVs, rainwater harvesting and food waste composting mechanisms that convert waste to bio-organic fertiliser, in phases, between 2016 to 2020. As a result, the hospital became the first in the world to be recognised as a Green Hospital under the 'Existing Building, Operation and Maintenance' ("EBOM") category rated by the LEED system.

Apart from energy solutions driven by collaborations with our customers, we have strategic and joint venture partnerships with leaders in the energy management industry, such as Resource Data Management Asia, which enables the sharing of resources and market development opportunities.

In conclusion, our performance data for the year under review can be summarised below:

The increase in electricity consumption from FY2021 was due to the increase in number of sites tracked (refer page 139 for number of sites breakdown).

Environmental impact reduction in Clients' facilities through EPCs executed under the PFS segment

| | 2022 |
|---|-----------------|
| Number of EPCs | 11 |
| Total Annual Energy Savings (kWh) | 38 million/year |
| Total Annual Electricity Cost savings (RM) | 16 million/year |
| Number of chillers retrofit projects | 19 |
| Chiller plant efficiency improvement* <small>(*The average range for all the equipment that have been retrofitted or optimised for EPC projects. The value will typically be the same each year over the contract period.)</small> | 30-50% |

Note: The operational energy consumption data disclosed here are verified by independent third parties but are without data assurance. The data above is specifically for FY2022.

In building a shared, sustainable future, we look forward to continued collaborations with our customers, collectively working towards minimising greenhouse gas emissions and managing resources efficiently through tech-driven solutions.

¹ The American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) is an American professional association seeking to advance heating, ventilation, air conditioning and refrigeration systems design and construction.

MINIMISING ENVIRONMENT IMPACT

DECARBONISATION

The Group remains committed to attaining net zero or carbon neutrality by 2050, in line with the international and national targets being announced by the various governments in the jurisdictions that we operate in by exploring innovations that contribute to sustainable energy generation and resource-efficient energy-saving measures. We are therefore undergoing a process to determine our decarbonisation strategy and outline medium-term strategies and policies to achieve this ambition. To form the baseline for our decarbonisation path, we continued to track our scopes 1, 2 and 3 emissions and in 2022, increased the number of sites tracked from 25 to more than 60 sites encompassing our global geographical locations.

In 2022, the main composition of our main carbon footprints are as follows:

In 2022, we kick-started our decarbonisation initiative by mobilising data owners across our organisation to build an inventory of our emission data points. As part of this process, we determine boundaries, parameters and calculation methodology to produce our initial emission baseline which include additional data points of our Scope 1, 2 and 3 emission. We have begun working on automating some aspects of this procedure which led to our recent engagement with Alibaba.

We are currently looking at scenario climate models to evaluate potential decarbonisation paths in developing our net zero/carbon neutrality strategy and The Energy Expert platform from Alibaba contributes to improving this process. The platform is trustworthy as it has also been certified by TÜV Rheinland¹ and its processes are in accordance with ISO 14064 as well as GHG Protocol. The Energy Expert platform help enterprises manage their carbon assets most cost-effectively, providing one-stop solutions for:

- Carbon monitoring, reporting and validation;
- Carbon asset evaluation and recording of latest carbon market movements; and
- Planning of carbon neutrality pathways and progress-tracking towards setting goals based on industry carbon reduction, capture and offsets measurements.

Total Scope 1, 2 and 3 emission FY2022
17,447 tonnes CO₂

¹ TÜV Rheinland is one of the world's leading testing service providers that carries out product certifications.

MINIMISING ENVIRONMENT IMPACT

As a result of our carbon footprint reduction efforts, we achieved the following performance during FY2022:

a. Scope 1: Combustion emission and consumption data*

*Note:
The emissions data disclosed here are verified by an independent third party, but are without data assurance.
For 2022, we also reclassified some of the vehicles in our fleet which are under operating lease into Scope 3 Upstream Leased assets.
¹ The Scope 1 emissions (fuel) has been restated using emission factors that are appropriate to our business and the total emission (fuel) is 2% lower compared to previously reported.
² The Scope 1 emissions (refrigerant) are a result of the Group's own consumption of refrigerant.
³ The Scope 1 emissions (natural gas) are a result of the natural gas combustion from our laundry, linen and incineration plants for our healthcare business.
⁴ FY2022 Total number of employees = 6,722. This comprises of employees of Malaysia staff only. Our international workforce was excluded from the GHG intensity calculation considering insignificant emissions from the said workforce.
⁵ The total energy (petrol) consumption has been restated using conversion factors that are appropriate to our business and the total energy (petrol) is 15-19% higher compared to previously reported.

MINIMISING ENVIRONMENT IMPACT

*Note:
¹ The correct figure for Total Fuel (Diesel) Consumption figure from 2019 should be 1,791,126.36, instead of 41,791,126.36 which resulted from a misprint last year.

MINIMISING ENVIRONMENT IMPACT

The increase in electricity emissions from FY2021 was due to the increase in number of sites tracked (2019: 10 sites, 2020: 14 sites, 2021: 25 sites and 2022: 62 sites).

b. Scope 2 Emission Data*

c. Scope 3 Emission Data*

*Note:

The emissions data disclosed here are verified by an independent third party, but are without data assurance.

¹ Total electricity emissions (tonnes CO₂) for 2019 to 2021 have been restated to take into consideration the industry accepted and published emission factors for each year in each of the country that we operate.

² The Scope 3 (water) emissions data for FY2019 – 2021 is restated using standardised, published emission factors relevant to our business activities in FY2022.

³ FY2022 Total number of employees = 6,722. This comprises of employees of Malaysia staff only. Our international workforce was excluded from the GHG intensity calculation considering insignificant emissions from the said workforce.

| Electricity Emission % Variance ¹ | | | |
|---|----------|----------|----------|
| Year | 2019 | 2020 | 2021 |
| Previously Disclosed emission (tonnes CO ₂) | 3,765.52 | 4,652.81 | 4,886.44 |
| Restated emission (tonnes CO ₂) | 2,984.36 | 2,363.15 | 2,554.52 |
| Variance | 21% | 49% | 48% |

| Water Emission % Variance ³ | | | |
|---|----------|----------|----------|
| Year | 2019 | 2020 | 2021 |
| Previously Disclosed emission (tonnes CO ₂) | 1,516.99 | 2,416.00 | 1,781.93 |
| Restated emission (tonnes CO ₂) | 119.07 | 184.81 | 136.26 |
| Variance | 92% | 92% | 92% |

MINIMISING ENVIRONMENT IMPACT

During the year, business travels increased from FY2021 to FY2022, as a result of increase in local, regional and international travel activities as lockdowns were lifted and borders were re-opened. 29% of all business travels are made up of local travel by various forms of transportation such as taxi and bus.

d. Scope 3 Emissions Data (Category 7: Employees Commuting)

Petrol and diesel consumption increased between FY2021 and FY2022 due to increase in business operations, post COVID-19 Monitoring activities at highways and buildings managed by us increased as lockdowns were lifted and economic activities resumed. This led to increased fuel consumption in cars and vehicles we owned and rented.

Note:

Category 7 - Employees Commuting includes emissions from the transportation of employees between their homes and their worksites.

Emissions from employee commuting may arise from:

- Automobile travel
- Bus travel
- Rail travel
- Air travel
- Other modes of transportation (e.g., subway, bicycling, walking)

e. Scope 3 Emissions Data (Category 8 - Upstream Leased Assets 2022)

Note:

Category 8 - Upstream Leased Assets includes emissions from the operation of assets that are leased by the reporting company in the reporting year and not already included in the reporting company's Scope 1 or Scope 2 inventories.

In 2022, we started to track two new Scope 3 categories, which are, Scope 3 Category 7 Employee Commuting and Scope 3 Category 8 Upstream Leased Assets. Scope 3 is an area we are continuously enhancing and moving forward, we will continue to embed transparent, systematic carbon footprint quantification across our value chain, with the objective of identifying emission drivers and provide impetus for innovations that can reduce carbon emissions.

MINIMISING ENVIRONMENT IMPACT

Maintaining Our Environmental Stewardship

While climate change is a primary risk to our environment, we also recognise our responsibility to provide stewardship in other environmental areas including waste management, material consumption and water management. Our approach to addressing such issues has also enlightened us on the potential benefits we may obtain, spanning from cost savings to efficiency optimisation.

Waste management protocols are adapted within each business segment to address challenges specific to them. In line with this approach, our Healthcare Support division manages waste generated across a broad spectrum of sources, including chemical, clinical, heavy metal, electrical and electronic equipment, and kitchen waste. Moreover, we closely adhere to waste management standards established by the Department of Environment (“DOE”) of Malaysia, particularly on waste incineration practices by treating emissions before they are released into the atmosphere. As for our Property & Facility Solutions division, we constantly seek new ways of handling waste, thereby contributing to improved operational efficiency.

Besides waste management, we acknowledge the importance of resource recovery and have allocated approximately RM15 million to construct a dedicated plant that produces our own recycled asphalt premix. The plant is expected to go live in Quarter 4 of 2023 and deliver a potential carbon dioxide equivalent (“CO₂ eq”) reduction of 800 tonnes per year (see Material Utilisation on page 144 for further details). As for our commitment to reducing water consumption, we take full advantage of our rainwater harvesting capabilities and have channeled rainwater for other usages, such as cleaning the RSA along the North-South Expressway and irrigating plants.

In encapsulating all key sustainability matters within our operations, 98% of our operating sites are ISO 14001 certified, ensuring that robust environmental management systems are consistently established across the Group.

MINIMISING ENVIRONMENT IMPACT

WASTE MANAGEMENT

As a multinational entity, we are cognisant of the waste our business activities and operations generate.

In order to deliver efficient, effective and responsible waste management for both general domestic waste and scheduled waste, key strategies/actions taken include:

- ▶ Reducing Paper Consumption through Digitalisation
 - With the goal of imparting a sense of accountability in the consumption of printing paper, a new practice will be initiated during 2023 whereby departmental consumption reports will be prepared and presented to the Head of Units on a quarterly basis.
 - Paper waste typically accounts for a large proportion of solid waste generated, making the digitalisation of our processes vital in curbing unnecessary paper consumption. In alignment with this approach, we leverage on digital solutions such as Adobe Sign to help streamline our day-to-day operations.

The drastic decrease between FY2022 and FY2021 is due to the backlog inventories of A4 paper that were not used in the previous years and also as a result of our flexible working policy where staff are working remotely. As mentioned above, UEM Edgenta is transitioning towards digital documents, hence the decrease in paper consumption.

- ▶ Disposal of electronic waste (“e-waste”)
 - E-waste forms part of the scheduled waste we generate alongside waste oil, contaminated containers and filters.
 - In order to ensure the safe discarding of electronic devices that carry severe environmental and health risks, the HSSE department has put in place a designated e-waste bin at the lobby of Menara UEM. The e-waste bin accepts various forms of electronic products ranging from small home appliances to mobile phones, computer accessories and used batteries.

- ▶ Healthcare Waste Management Services (“HWMS”)
 - As an ethical HWMS provider, we ensure that our stakeholders in healthcare facilities can work in a safe and healthy environment without fearing exposure to health hazards or risks of infections. Our utmost priority is the implementation of stringent protocols under a comprehensive waste management framework to minimise waste generation, promote recycling, ensure proper disposal of hazardous waste, and engage employees in environmentally responsible practices.
 - Within our Healthcare Support division, we remain steadfast in averting the negative impacts that the by-products of our clinical waste incineration activities generate. To this end, we are keenly exploring non-conventional, fossil fuel-free alternatives.
 - As a whole, our scope of work covers healthcare waste collection, transportation, storage, hygiene, infection control, treatment, and spillage management. For each case, our trained HWMS team oversees the segregation at the source. Following which, these scheduled and unscheduled waste are collected, stored and transported out according to procedure for each waste type, and ensuring strict adherence to local regulations.
 - Lastly, with a team of over 40 employees (including engineers, logistic coordinators, drivers etc.) dedicating their effort and time to this service, we have managed to make the following contributions.

- ▶ Recycling campaign
 - In support of a recycling culture, our Infrastructure Services division partnered with our client, PLUS Malaysia to organise a recycling campaign with the theme ‘Asingkan! Demi Masa Depan Kita’ in three (3) separate RSA along the North-South Expressway. The participating RSAs were from the Rawang, Gunung Semanggol and Ayer Keroh locations. The campaign held on February 2022 included exhibition booths, information sharing sessions and games conducted around the theme of recycling. Waste segregation activities were also carried out with PLUS Malaysia, the results of which were monitored by weighing the segregated waste. Following the success of this event, more recycling campaigns emphasising on the importance of 3Rs (Reduce, Reuse, Recycle) will be organised to encourage greater participation.

MINIMISING ENVIRONMENT IMPACT

► Installation of KLEAN machine

- In line with our desire to set a strong example through sustainable practices, we have sought to further inculcate a culture of recycling within the organisation through the installation of our KLEAN machine. This reverse vending machine rewards recyclers with points that are redeemable for vouchers and has been stationed in Menara UEM since 2021. It is mobile application-enabled and powered by AI technology capabilities that allow it to recognise and automatically sort incoming materials into recycling bins.
- Within our reporting period, we observed the following performance data gathered from the KLEAN dashboard real-time tracking and reporting feature:

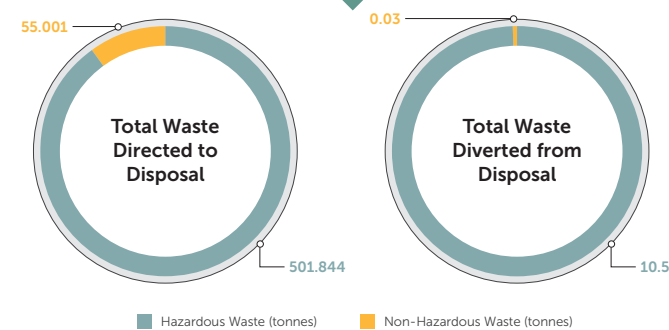

► Bring Your Own Mug Campaign

- As a means to promote environmentally conscious practices in an engaging manner, our employees are encouraged to bring their own mugs to a café we operate at Menara UEM for a RM1 discount on their orders.

During the year being reported, we are disclosing more data on waste across our business and how these wastes are being treated. Furthermore, we are focusing on solutions to better manage waste and reduce amounts sent to landfill, an approach that we are currently deploying across all our business activities. Driven by the proactive implementation of our waste management approaches, we observed the below results during the year in review:

b. Total Waste Generated (UEM Edgenta) 2022

*We only started tracking our waste in FY2022.

c. Total Waste Diverted from Disposal Breakdown (UEM Edgenta)

- With this information gathered on the KLEAN machine, we will be able to develop the best strategy to increase recycling rates in our building. We are looking forward to renewing it and are considering the possibility of installing more KLEAN machines throughout our operations.

MINIMISING ENVIRONMENT IMPACT

d. Total Waste Managed by Edgenta for Healthcare Client

e. Total Waste Managed Directed to Disposal by Edgenta for Client

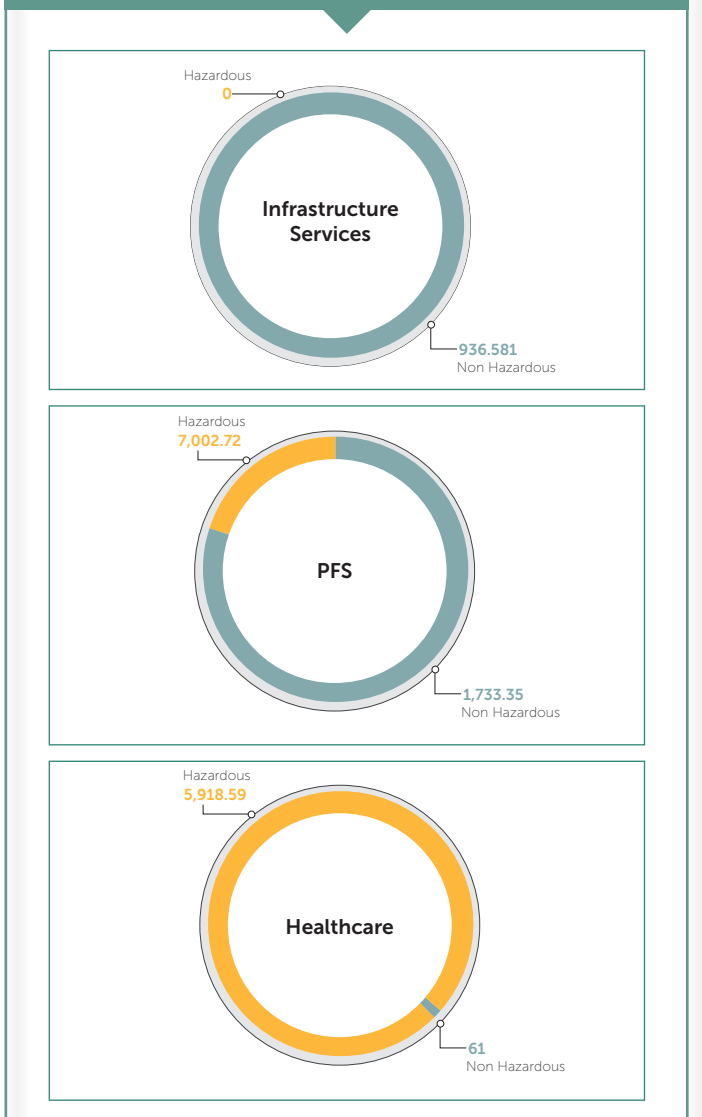

f. Total Waste Managed Diverted from Disposal by Edgenta for Client

The total waste managed for healthcare client decreased from FY2021 to FY2022 as waste generated at hospitals decreased post COVID-19.

g. Total Waste Managed Directed to Disposal by Edgenta for Clients (breakdown according to Business Units)

h. Total Waste Managed Diverted from Disposal Breakdown by Edgenta for Client

Moving forward, we will remain on the lookout for new opportunities to enhance our waste management capabilities across our operations, with an aim to increase the efforts of recycling and waste diversion from landfills.

MINIMISING ENVIRONMENT IMPACT

MATERIAL UTILISATION

Through our mindful approach to material utilisation, we place greater value on responsible and efficient consumption of materials and other resources relevant to our operations. This has led us to recycle and optimise our usage of other resources. With the asphalt industry having a significant environmental impact, we have set up a Pavement Research Centre which focuses on the research and development of innovative pavement materials and advanced maintenance techniques. Moreover, we have also constructed a Recycled Asphalt Premix Plant which serves as a recycling facility for asphalt.

Furthermore, collaborations with business partners that share the same aspirations have been pivotal in helping us to implement breakthrough resource utilisation strategies, as illustrated below:

- ▶ The Pavement Research Centre and Recycled Asphalt Premix Plant
Being the building block for infrastructure development, asphalt has long been a culprit of adverse environmental impact. In addressing this, we have embarked on a recycled asphalt programme with the Taiping Municipal Council in 2021. This programme was undertaken to better align our business operations with responsible material consumption practices by leveraging our PRC facility that focuses on research and development of various materials. Building upon the resounding success of the collaboration with Taiping Municipal Council, we have embarked on the construction of a Recycled Asphalt Premix Plant, which we expect to be operational by Q3 of 2023.

The following performance disclosures reflect the progress we have made towards our material utilisation aims:

- ▶ Collaboration with PLUS Expressways and Cement Industries Malaysia Berhad ("CIMA") for New Jersey Barriers
Through an ongoing joint initiative with PLUS Expressways Berhad and CIMA, we are exploring the use of Fibre Reinforced Concrete in the construction of new jersey barriers to separate lanes. Within the year, the technical and commercial feasibility of the project was continuously explored. This includes efforts directed towards fine tuning and finalisation of product specifications along with discussions with the Malaysian road authorities (i.e., Jabatan Pengangkutan Jalan ("JPJ")). Even though the project is still at an exploratory stage, we believe that this new material has the potential to optimise concrete quality and labour usage, reinforce other raw material components such as steel, and shorten construction periods for minimised heat, noise and air pollution. With that, we expect to implement the project progressively by phases from 2023 onwards.

As part of our unwavering dedication towards resource efficiency, we will continue to pioneer research and development undertakings towards utilising materials more sustainably, with a particular focus on the sustainable use of asphalt in the infrastructure industry. Ultimately, we are on the right track in minimising waste, thereby contributing to the road safety and security of the nation's highways.

MINIMISING ENVIRONMENT IMPACT

WATER CONSUMPTION

As part of our overall approach on water resource stewardship, we also monitor our water consumption as withdrawn from municipal water supply, which is mainly utilised by our office and other operations. To this effect, various water management initiatives are currently being implemented across our organisation, including:

- ▶ Monitoring mechanisms, and water management plans and procedures as the Group's effort to reduce water consumption across all operations.
 - As a means to reduce the excessive usage of water, we have incorporated several water-saving measures such as the installation of water aerators in all faucets throughout the Group.
 - We have conducted briefings to raise awareness of the importance of water conservation and the implementation of practical water recycling solutions.
- ▶ Setting up a Natural Water Harvester project
 - The Natural Water Harvester is a collaborative water conservation effort between the Group and our customer, PLUS, that leverages facilities in the RSAs along the North-South Expressway. Under this conservation plan, water management initiatives, rainwater harvesting systems and tube wells are employed to reduce costs.
 - During the reporting period, approximately 6,000 m³ of natural water was conserved from 11 rainwater harvester sites, 1 tube well and 1 river source. Looking forward, we plan to extend our rainwater harvesting system to all other RSAs in phases.

We have recorded the following results with regard to water consumption during the year:

Note:
¹ The Scope 3 (water consumption) emissions data for FY2019 – 2021 is restated using standardised, published emission factors relevant to our business activities.

To secure long-term water security, the Group will continue to implement organisation-wide monitoring mechanisms, water management plans and procedures, towards reducing water consumption across all operations

Occupational Health and Safety

SETTING OUR APPROACH ON OCCUPATIONAL HEALTH AND SAFETY

The health and safety of our employees has always been a priority at UEM Edgenta. It is our belief that by ensuring a secure working environment that focuses on the physical safety, security and wellbeing of our people, we can foster greater motivation, goodwill and dedication. In addition, we commit to ensuring that the healthy and safe work environment we provide includes coverage for other key stakeholders of the Group, such as our vendors/suppliers.

By empowering our people with the ability to focus on their job functions without distraction of discomfort or potential hazards, we enable them to function efficiently and thus positively impact our business. Likewise, given the importance of a healthy and safe environment, we aspire to continually ensure the adoption of best practices, maintain full adherence to all regulations and persistently enhance our efforts wherever possible.

Our OE & HSSE department presently play a key role in ensuring the optimum version of our health and safety framework. This is crucial as the Group adheres to the guidelines of all its adopted standard requirements.

Overall, our intention remains to pursue and achieve our Goal Zero* ambitions.

FEATURED STORY

PROMOTING THE HEALTH AND FITNESS OF EDGENTA STARS

As we begin emerging from the COVID-19 pandemic, many of us have started returning to our workplace more regularly in 2022. However, Edgenta continue to promote a flexible working arrangement allowing staff to practice a hybrid mode of working, blending both working from home and at the office. We understand that working from home may pose a risk for staff slipping into a sedentary lifestyle or feeling isolated, leading to feeling constant pressure or even experiencing mental health issues. With that, Edgenta launched Project DASS as a pilot during the pandemic and last year increased the coverage of this project to cover more staff. DASS is a survey that promotes early identification of mental illness among our employees to allow them for early treatment. In 2022, 2,389 employees were assessed under this programme and a third party was appointed to provide Employee Assistance Programme to resolve personal issues affecting work performance because of mental health conditions. The programme succeeded in breaking the emotional barrier among staff to discuss mental health issues more openly in a safe environment.

Besides, we also acknowledge that a passive lifestyle may also cause health issues or unhealthy habits. With that in mind, one of the primary causes of noncommunicable diseases ("NCDs") in Malaysia is obesity and lung failure caused by smoking. Through our Physical Health Assessment which was launched during the year, we were able to identify the percentage of our employees that suffer from obesity as well as those who smoke within our organisation. The identified employees are then invited to participate in health campaigns such as the Weight Warriors Programme and the Smoking Cessation Programme. The programmes aim to help participants to achieve a weight reduction of 10%, or to reduce their smoking rate by 30% by 2025. As of the end of 2022, the top 5 teams, consisting of 25 people of the Weight Warriors Programme had experienced an average weight loss of 22.3% of their total original weight while 50 participants from the Smoking Cessation Programme are still tracking their progress up until June 2023.

*Goal Zero refers to no fatality cases, no harm to people, and no damage to the environment across all levels of the Group.

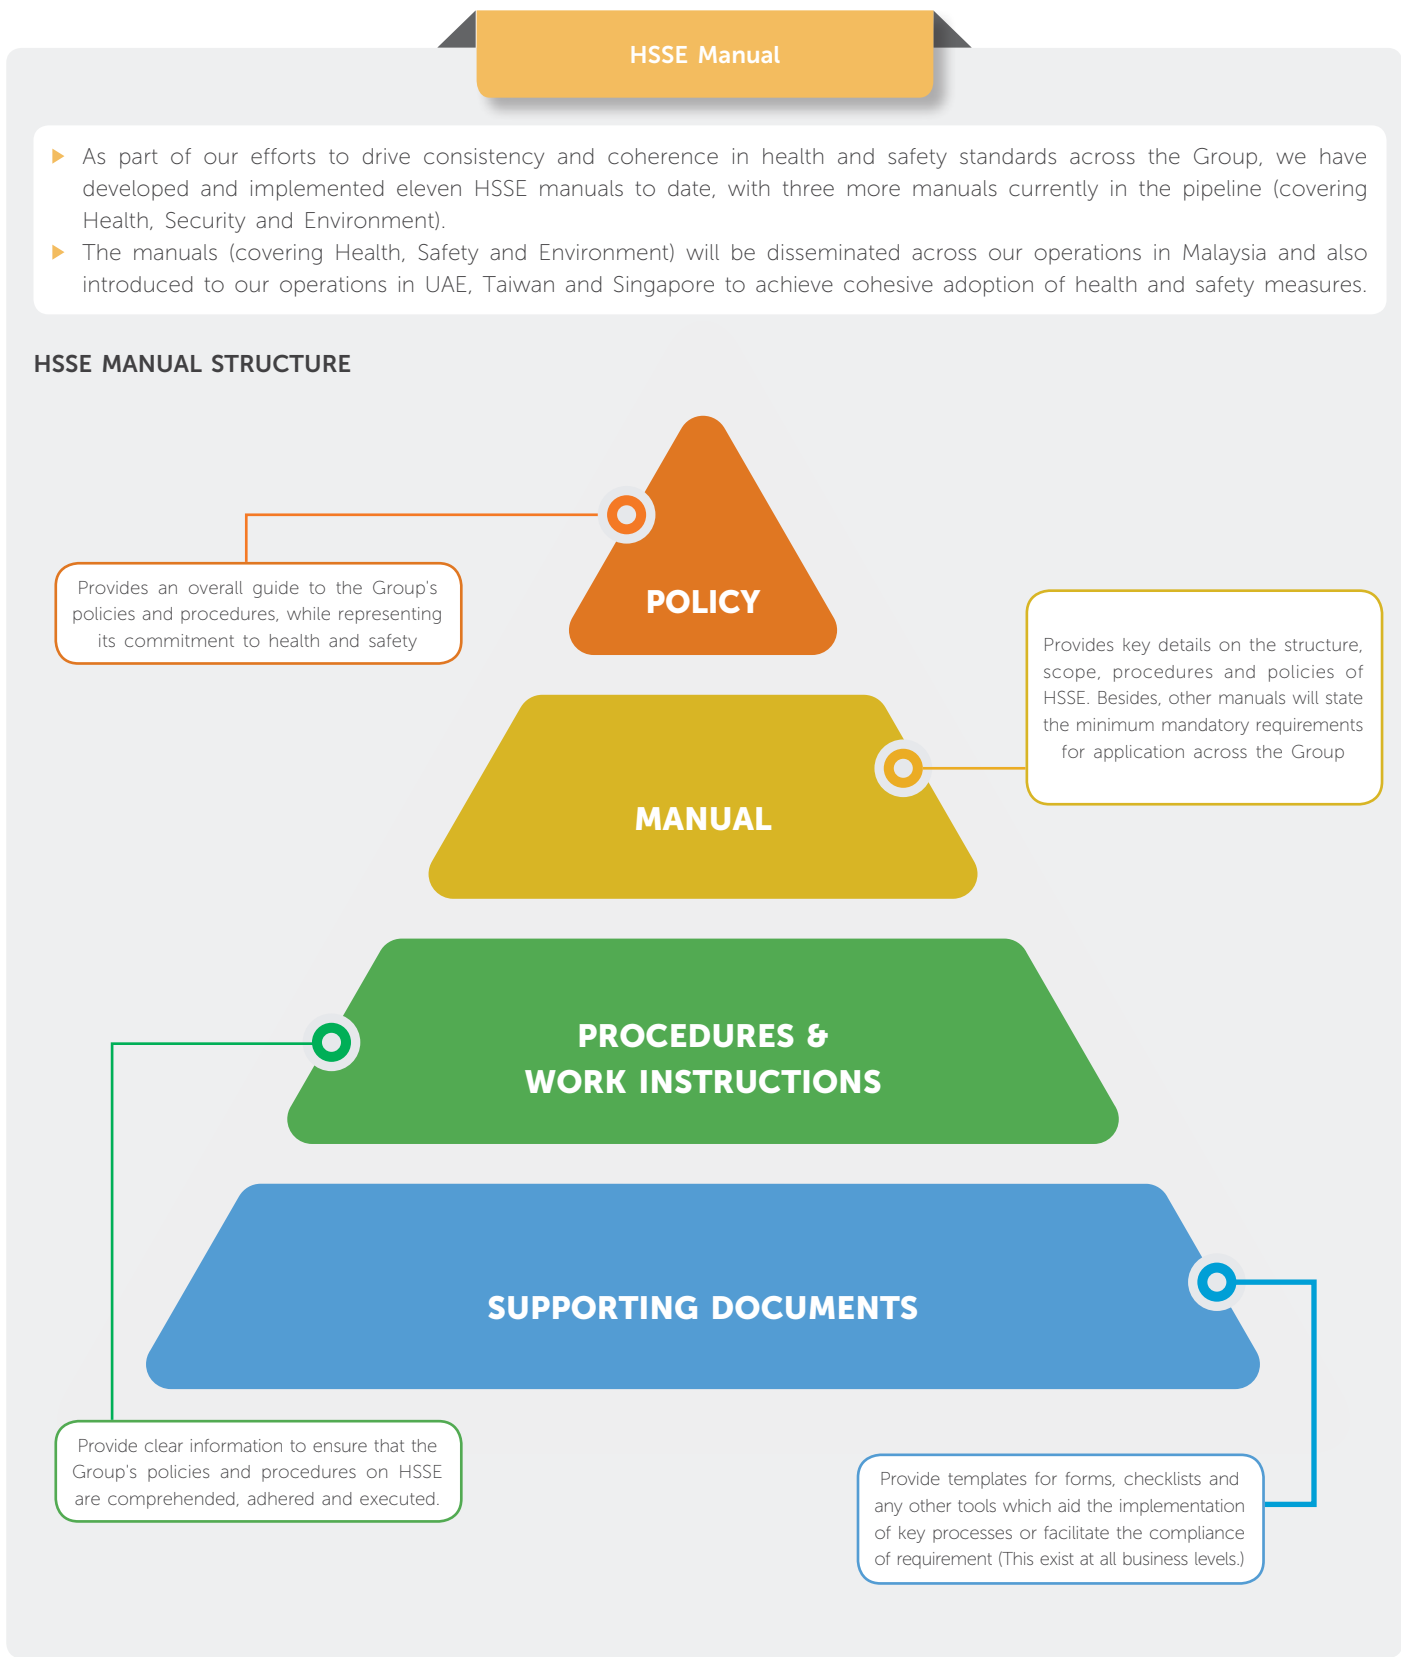

Occupational Health and Safety Management System

- ▶ A comprehensive system that is implemented based on the standard requirements of ISO 14001 and ISO 45001 and is guided by local rules and regulations as well as other relevant HSSE legal requirements and industrial codes of practice.
- ▶ For our entities in Malaysia, the system adheres to the following regulations:
 - Occupational Health and Safety Act 1994
 - Factories and Machineries Act 1967
 - Environmental Quality Act 1974
 - Fire Services (BOMBA) Act 1988
- ▶ With the Group-wide implementation of this system, 100% of our business units are now certified under ISO 14001 and ISO 45001.
- ▶ All our key stakeholders (i.e., employees, contractors and vendors) are covered by the occupational health and safety management system, including by way of the implementation of relevant policies and procedures.
- ▶ In 2021, the Group took another step beyond its adoption of common standardised health and safety practices by being the first Malaysian company to be certified under the ISO 45005:2020 (Occupational Health and Safety Management – General Guidelines for Safe Working During the COVID-19 Pandemic). This certification has allowed the Group to stay focused at managing key risks arising from COVID-19, in which protecting the health, safety and wellbeing of our employees remained key.

Quality Health, Safety, Security and Environment Policy

- In line with our certification with standardised health and safety practices, the Group also maintain a QHSSE Policy. With the policy, it provides an overarching guidance for our practices at managing matters relating to health and safety of our stakeholders. Along with the guidance it provides, the policy is also a key representation of our commitment to:
- ▶ Comply and exceed beyond all applicable statutory and regulatory requirements;
 - ▶ Achieve the objective of causing no harm to people while protecting the environment;
 - ▶ Lead a systematic approach at adopting health and safety practices that are developed to meet our stakeholders' expectations while continue to pursue further enhancement;
 - ▶ Embed health and safety related targets as part of our employees' performance assessment;
 - ▶ Require our contractors to meet health and safety standards in line with this policy;
 - ▶ Pursue improvement over our adoption of health and safety policies and procedures by seeking to identify, reduce and eliminate risks or hazards through engagement with our stakeholders; and
 - ▶ Seek potential cooperation with third parties via joint ventures in view of achieving key objectives of this policy as well as to promote the Group's stance on health and safety.

SOCIAL VALUE CREATION

SOCIAL VALUE CREATION

Our occupational health and safety management system also provides coverage to personnel who carry out work for the Group, including those who are not classified as employees:

- i. Number of all employees and workers who are not employees but whose work and/or workplace is controlled by the organisation, who are covered by such a system
- ii. Number of all employees and workers who are not employees but whose work and/or workplace is controlled by the organisation, who are covered by such a system that has been internally audited
- iii. Number of all employees and workers who are not employees but whose work and/or workplace is controlled by the organisation, who are covered by such a system that has been audited or certified by an external party

SOCIAL VALUE CREATION

INCULCATING A CULTURE OF HEALTH AND SAFETY

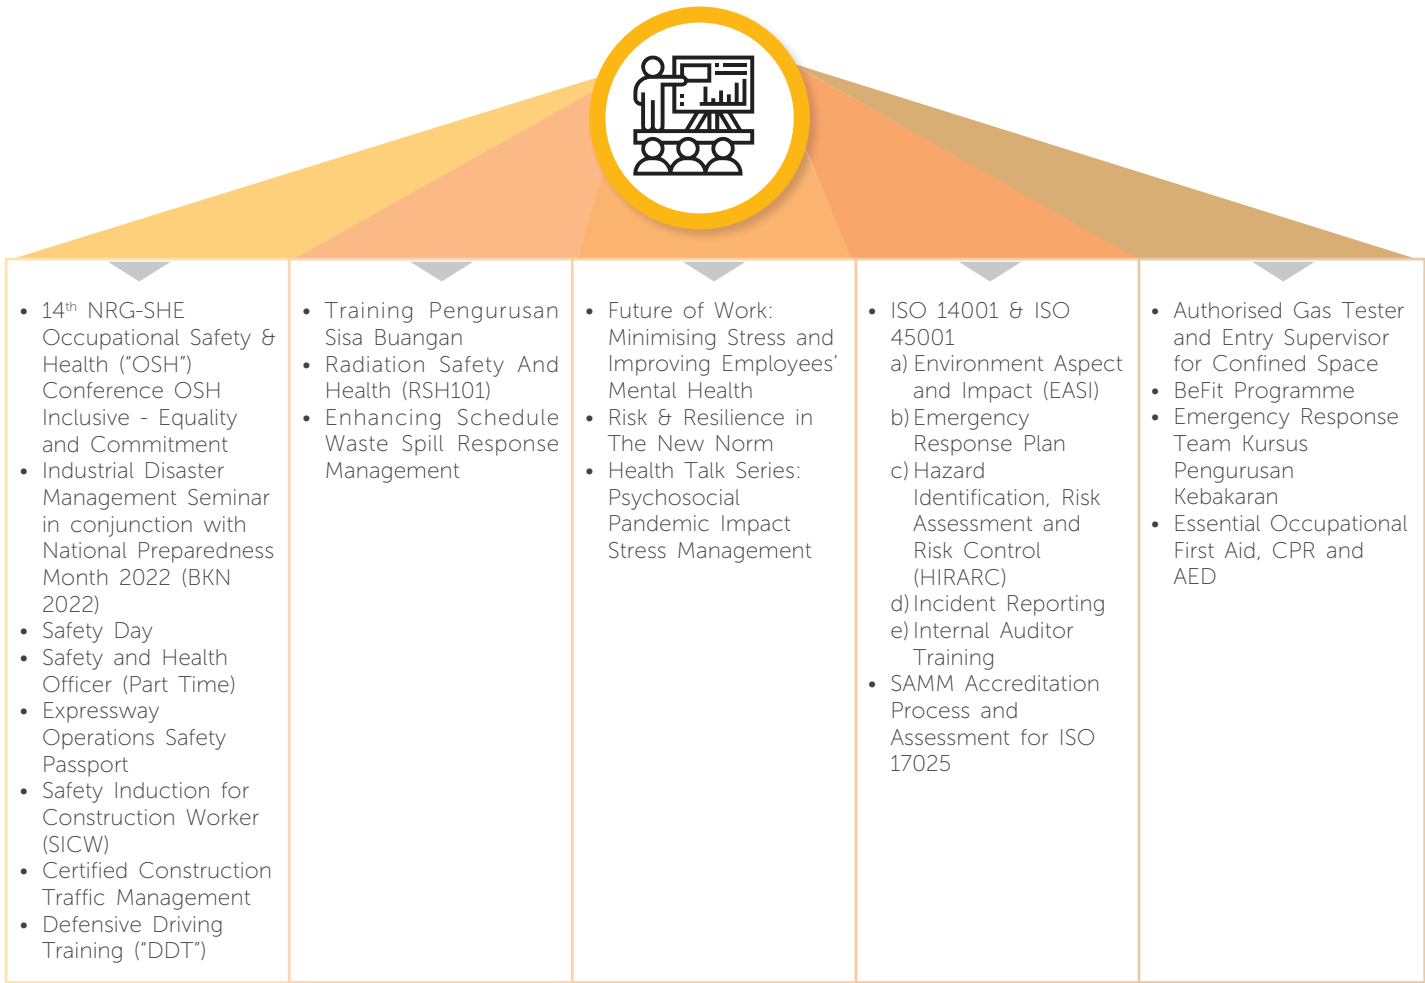

In supporting our overall health and safety agenda, we seek to embed a positive culture within our workforce through various communication platforms which are provided for employees to highlight issues pertaining to health and safety. Through this approach, our employees are encouraged to adopt a vigilant and cautious mindset on safety and staying away from hazards.

We also ensure that our employees are provided with up-to-date knowledge and skillsets through capacity building initiatives, disseminated via trainings and awareness briefings. To this end, we implement an HSSE training matrix for both our employees and our contractors or vendors. The matrix developed defines and assigns the type of trainings relevant for our employees and contractors, which may include mandatory trainings required by law as well as site-specific operational training and awareness sessions on issues such as COVID-19, emotional wellbeing, etc.

Moving forward from 2022, the Group will continue to take a proactive approach to sustainability reporting, implementing measures such as implementing an e-PTW system and revising HSSE management requirements. These actions will demonstrate our unwavering commitment to health and safety, compliance, and continuous improvement. Besides, we will also actively involve employees in health and safety initiatives and regularly monitor and revise our approaches as needed to ensure ongoing effectiveness.

In 2022, we continued our Leadership Exchange and Action Programme which was launched in 2021 as a platform for team leaders and workers to discuss on Operational Health and Safety related issues, in order to persist on strengthening the safety culture within the organisation.

With that, during the year we managed to achieve the following performance on the delivery and completion of HSSE trainings:

SOCIAL VALUE CREATION

SOCIAL VALUE CREATION

Promoting the health and wellbeing of employees

We recognise that our duty in ensuring healthy and safe employees extends beyond ensuring such conditions exist within their working environment and includes measures to enhance their quality of life in general. To this end, we have launched initiatives geared at improving their physical fitness, emotional wellbeing, lifestyle habits and other general health related issues.

As the foundation of our approach, we provide our employees with access to non-occupational medical and healthcare services, which are delivered by a third-party insurance provider, MiCare. Through this facility, our executive and non-executive employees are entitled to health screenings and medical services in panel clinics, private and government hospitals across Malaysia. During the year, we conducted health screening in collaboration with PERKESO at Hospital Sultanah Bahiyah, Hospital Bukit Mertajam and Hospital Taiping. A total of 300 employees participated in these health screening exercises, marking a key success in our efforts to enhance employee wellbeing.

During the year in review, we also continued our BeFit programmes which was implemented since 2021 to assess and monitor the physical fitness of our employees. As part of the project, a total of 216 employees participated to undergo seven battery test sessions which were developed based on the national physical test routines. Following these tests, employees then underwent a customised bootcamp module with the aim of sustaining or improving their level of fitness.

2021 saw us rolling out the Muscular Skeletal Disorder project to analyse and improve workplace ergonomics based on ergonomic risk factors identified in environmental risk assessment ("ERA"). Through ergonomics awareness and improvement of ergonomic risk factors identified in ERA, the MSD project has managed to reduce MSD-related medical expenses.

Our employees also have access to psychologist and psychiatrist consultations, with the cost borne by the Group. This is supported by the DASS surveys, which is designed to measure the three related negative emotional states of depression, anxiety and stress. Through DASS surveys, we are able to identify employees who are in need of such help and provide them with the necessary assistance.

Moreover, we also conduct awareness sessions and ultimately provide psychologist support. Such psychological support was further enhanced during the year with the appointment of an in-house psychologist to help employees deal with emotional or mental health issues.

Other health promotion programmes provided include webinars, communication via infographics as well as exercise sessions such as TaiSo and Zumba. These programmes are aimed at improving general health awareness and providing opportunities for employees to develop healthy habits. Some of the programmes offered include:

Webinars on health-related topics such as nutrition and diet, choosing the right exercise, monkey pox and other relevant topics

Infographics entitled "Weight Warrior Diet Myths and Facts", "Hunger vs. Cravings", "Pick Your Calorie Intake Wisely" and "Weight Management Tips"

First Diet Myths & Facts

MYTH

Factoring in the portion of your meals and how much you eat is crucial to your health.

• Eating more food helps you lose weight and reduce any calorie intake.

• Carbohydrates will make you fat.

• Empty stomachs are needed in order to be healthy.

• No matter how much you eat, you will lose weight if you eat less.

• High-calorie snacks and drinks are healthy.

• Drinking water is the best way to stay hydrated.

• Consuming SWEET cold/ hot beverages could lead to obesity.

FACT

Controlling the portion of your meals and how much you eat is crucial to your health.

• Eating more food helps you lose weight and reduce any calorie intake.

• Carbohydrates will make you fat.

• Empty stomachs are needed in order to be healthy.

• No matter how much you eat, you will lose weight if you eat less.

• High-calorie snacks and drinks are healthy.

• Drinking water is the best way to stay hydrated.

• Consuming SWEET cold/ hot beverages could lead to obesity.

Morning exercise sessions including the TaiSo exercise routine and Zumba

SOCIAL VALUE CREATION

During the year in review, we also carried out a programme based on the concept of Life’s Simple 7, which is targeted at defining the ideal cardiovascular health of an individual. The programme was initiated with a survey conducted among a selected pool of employees to collect three health data points for cardiovascular health improvement (blood pressure, cholesterol and blood sugar level). Employees deemed to be at risk of cardiovascular health problems due to being overweight or being a heavy smoker were then chosen to be part of our Smoking Cessation and Weight Reduction programme.

Ultimately, the Edgenta Spending Allowance (“ESA”), which is provided to all employees, may also be utilised to cover any other medical and health related costs.

Towards our goal of establishing the healthiest workplace by 2025, we will continue to pursue the success of our existing health and wellbeing programme and explore the adoption of other potential efforts.

SOCIAL VALUE CREATION

Advocating health and safety within our value chain

Beyond the health and safety of our employees, we also recognise the need to promote good health and safety practices among our business partners and contractors/vendors. By adopting a cohesive approach towards this issue, we can achieve a more robust, safer ecosystem within our value chain.

In 2021, we launched the Perintis Council, a key component of our Contractor HSE Management Programme. The programme was initiated to provide support and guidance to our contractors in adopting better health and safety practices and was publicised and amplified via our contractor engagement roadshows.

During these roadshows, contractors are provided with an opportunity to communicate their feedback and expectations. From there, we assess and select contractors to be part of the HSE performance development programme. In December 2021, a pilot online HSSE Capability Assessment was completed for all 15 Perintis Contractors. This programme was then carried out on 17 other contractors in 2022. 59% (10 out of 17) of the contractors rated themselves with 1 Star. These contractors will be enrolled into HSSE Intervention Program to help them close the gap and improve their HCA result.

To further complement the objective of our Contractor HSE Management Programme, contractors under our Infrastructure Services division are currently subjected to our annual HSE Performance Ranking/Rating exercise. Through this assessment, contractors are assessed and rated based on how well they have managed and addressed health and safety issues.

For contractors that are not performing up to expectations, structured assistance to improve their performance is provided through enrolment in our HSSE Intervention Programme, which includes mentor-mentee sessions between both parties.

With this exercise, we aspire for all our contractors to achieve a 4-star rating and champion various aspects of class-leading health and safety measures. However, for those who do not comply with the relevant HSSE rules and regulations, we will take action to penalise their conduct as part of our HSSE Consequence Management procedures.

With regards to the HSSE Consequence Management process, we have establish a 3 tier system as illustrated below:

We will take decisive action to promote health and safety practices among business partners and vendors through the implementation of the Contractor HSE Management programme. This will involve providing support, ranking performance, intervening for improvement, and implementing consequence management for non-compliance. The Group aims to achieve industry-leading health and safety measures, expand best practices, and provide continued support to contractors in the future.

SOCIAL VALUE CREATION

With the measures in place, we managed to achieve a 100% success rate in assessing health and safety impacts from the products and services we provide. In addition, we also managed to observe the following performance with regard to non-compliance with regulations and/or voluntary codes regarding health and safety issues within the reporting period.

Reflecting the priority we have placed on health and safety, a culture of continuous improvement is nurtured across the Group, enabling us to identify emerging risks and implement immediate mitigation actions. To this end, we embarked on the following actions during the year towards addressing work-related hazards as well as to assist us at achieving our goal of zero fatalities across our business divisions.

- a)

Monitoring and managing our accident rates through incident review meetings which are held every two weeks with analysis and report on the three types of main injuries
- b)

Adopting the Group's risk management manual, which includes High Bowtie risk management
- c)

Ensuring that all our activities are covered by HIRARC or JHA
- d)

Implementing a proactive hazard identification process through ERA, CHRA, NRA and etc.
- e)

Assessing and identifying which hazards have caused or contributed to high-consequence injuries
- a)

Assessing and implementing engineering control actions (e.g., Project Stevie, TMA)
- b)

Monitoring control measures by the project site HSE personnel (e.g., PPE Matrix, training and supervision)
- c)

Performing compliance audits and inspections (carried out by HSE personnel) to ensure the effectiveness of control measures
- d)

Reviewing the HIRARC/JHA periodically or when any incidents occur
- e)

Reviewing and approving fatality and high potential incident action items/control measures (carried out by Senior Management)

When an incident occur, our investigation team will perform a comprehensive investigation whereby each member will be allocated a specific task in the enquiry and its respective due date for completion. Once the investigation is completed, the following actions may be implemented as a result:

SOCIAL VALUE CREATION

Our performance below reflects the value that we have achieved from this proactive approach.

a. Work-Related Injury for our employees and workers
(Workers refers to contractors hired by UEM Edgenta)

*The main injuries among employees are slips, trips and falls and needle prick.

SOCIAL VALUE CREATION

Reflecting on the priority we place on health and safety, we have assessed and identified three key performance targets for us to benchmark and further improve our performance. Our focus will be targeted on gradually reducing our injury rate, operationalising our HSSE manuals as well as improving our initiatives on ensuring access security and asset security. We believe that the targets will provide a sense of direction towards our overall objective of keeping everyone, everywhere safe and secure.

SOCIAL VALUE CREATION

Employment Culture

CARING ABOUT OUR PEOPLE AND CULTURE

Our continued growth as an organisation and our ability to thrive amidst the challenges of the future rest largely on our people, the Edgenta Stars.

Recognising their role as the driving force of our business, it is crucial that we commit to creating an environment that supports diversity and inclusiveness while providing them with equal opportunities to develop skillsets and knowledge, as well as achieve their ambitions. After all, by nurturing our 16,000-plus strong workforce, we will be better equipped in sustaining our competitiveness within our markets of operation and achieve our growth objectives.

To this end, we are more committed than ever to our core values of FIRST (Future Focused, Imagine New Ways, Respect For All, Solutioning Mindset and True to Our Word) and to our Code of Conduct, which enforces that we advocate fairness, inclusivity and positive motivation within our working culture. Our approach in this respect is guided by our employee handbook, which provides a summary of terms and conditions of Edgenta Stars' employment alongside guidelines on various other human resources related matters. Furthermore, we are able to provide opportunities for a wide range of internal development throughout Edgenta Academy, which focuses on the development of leadership, soft skills and technical skills.

Skills and career development

At UEM Edgenta, we believe that an engaged workforce is more dedicated to contribute better performances and be accountable to deliver better services to our customers. To this end, we are committed to providing our employees personal development opportunities and have put in place a comprehensive and holistic training and development framework that has been customised to meet the specific needs of each of our business divisions.

At the core of our training and development agenda is the Career Development Programme. Through this programme, employees undergo upskilling courses which cover topics in various key categories such as:

In addition, we offer programmes that are geared towards upgrading employees' skills thereby empowering us to adapt and thrive amidst our evolving operating environment. Training initiatives provided to our employees from all divisions include Expert Talk, Leader Teach Leader series as well as workshops and seminars offering insightful knowledge sharing on topics such as occupational health and safety, environmental awareness, soft skills development, project management and among others.

Our focus in training and development is undertaken as a concerted effort across our different business units. Similarly, our Healthcare Support division has continued with its Facilities Manager Development Programme which is aimed at upskilling Facilities Managers and to initiate the necessary steps in preparing a competent and certified manpower.

SOCIAL VALUE CREATION

As part of our initiative to enhance our approach to training and development, the Group has continued to leverage on digital learning solutions. Solution such as our LEARN-on-the-GO ("LOTG") approach which was implemented within our Healthcare Support and Infrastructure Services divisions in 2021 has continued to gain traction and achieve its intended objective of providing our employees with convenient access to learning. Aiding this, we continue to leverage on our learning management system, Learn on Edge, which uses a self-paced learning approach to deliver knowledge to Edgenta Stars.

Beyond employee specific training programmes, we also run programmes for succession planning to ensure a strong leadership bench strength for the future of UEM Edgenta as an organisation. Through our Succession Plan framework, we have delivered various development initiatives such as our Executive Leadership programme, certifications and seminars, as well as coaching and mentoring sessions to further develop our identified talent pool as future leaders. Ultimately, we will continue our emphasis on continuous and further development of these identified talent as we view them as a key component for the Group to grow and prosper in the long-term.

Besides, our transition assistance programme aims to assist employees with their pre-retirement planning, including by way of acquiring essential soft skills. By equipping them with additional skillsets and knowledge, their employability is enhanced, better enabling them to seek employment beyond their time with the Group.

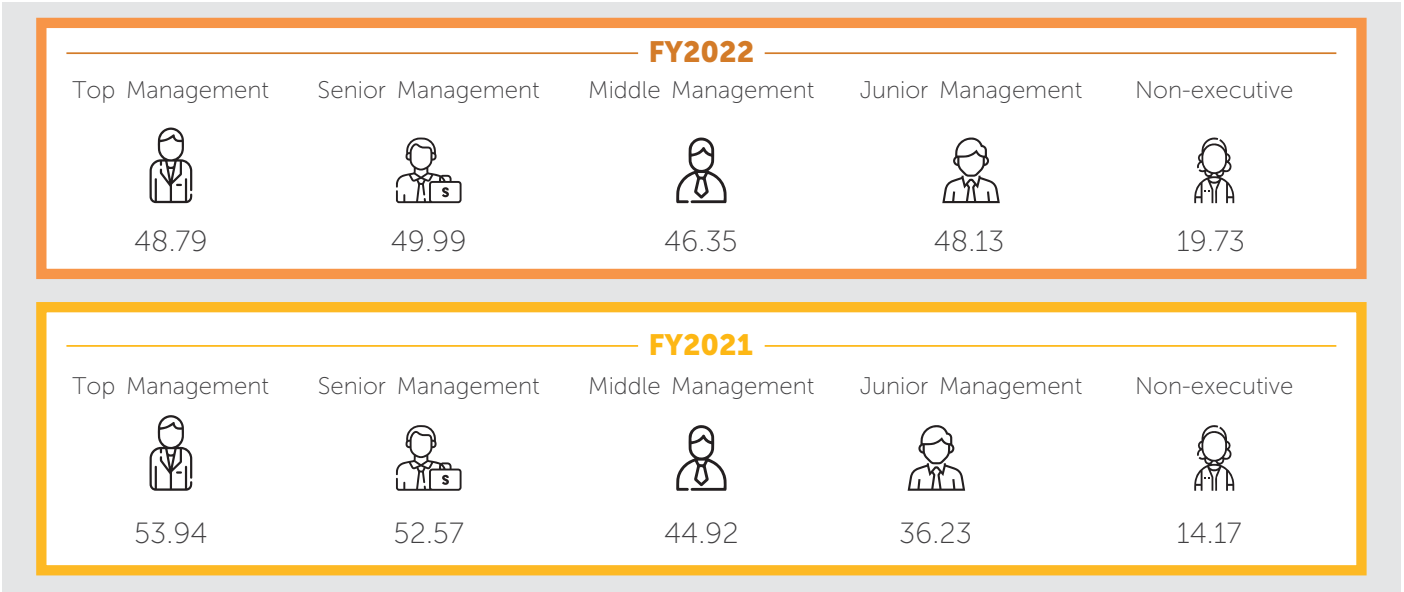

Moreover, in supporting continuous learning amongst our employees, we also provide study leave, exam leave and long unpaid leave for any Edgenta Stars who are pursuing studies outside their employment. In 2022, we recorded a total of 313,898.5 hours of employee development training, with 99.1% of our employees fulfilling their training requirements, comparing well to our target of achieving between 85% to 89% completion.

Lastly, the Group also acknowledges that career development is a crucial component of an employee's growth and experience with us. Hence, our established Performance Management framework ensure that a performance appraisal exercise is carried out on an annual basis with its main component segregated between a formal development discussion held at the beginning of the year and performance follow-up session held at the mid-year and year-end point. All managers are trained and expected to follow up with employees under their supervision in order to give constructive opinions, provide coaching and support as well as to receive feedbacks from the employees. This approach allows for an effective two-way communication, beneficial for the development of the employee and the people manager.

SOCIAL VALUE CREATION

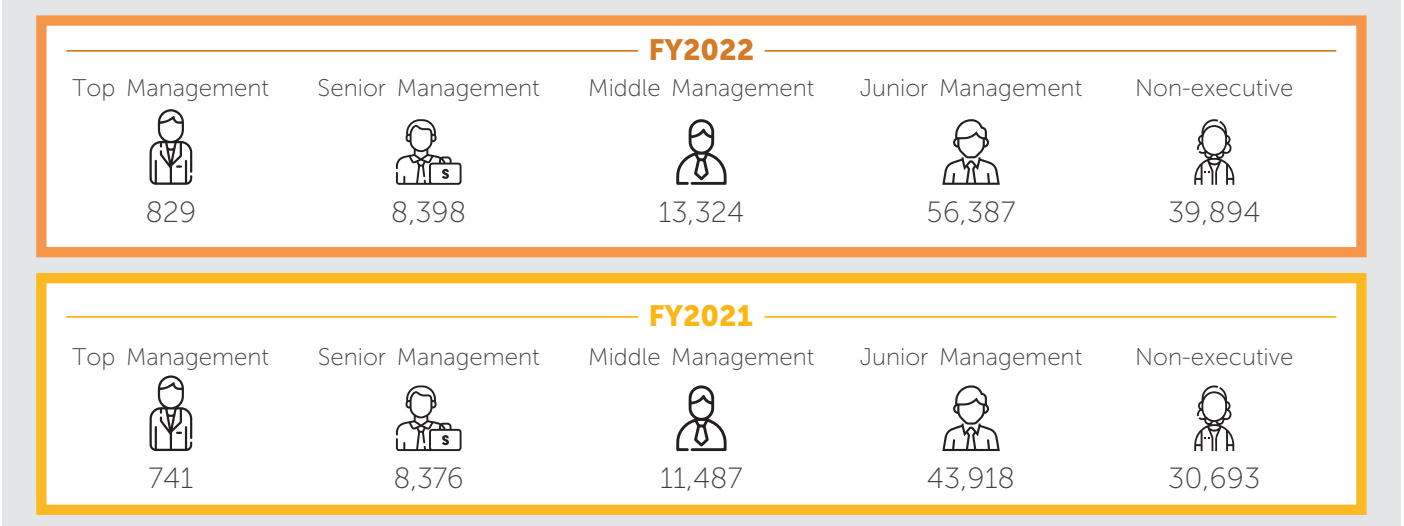

ii. Average Training Hours per Employee (by Employee Category)

iii. Total Training Hours of Employee (by Gender)

iv. Total Training Hours by Employee Category

Figures disclosed last year for each of these categories were top management (34 hours), senior management (41 hours) and middle management (38 hours), junior management (31 hours) and non-executive (39 hours). The numbers have been restated this year to take into consideration the actual learning hours accumulated by employees in each category.

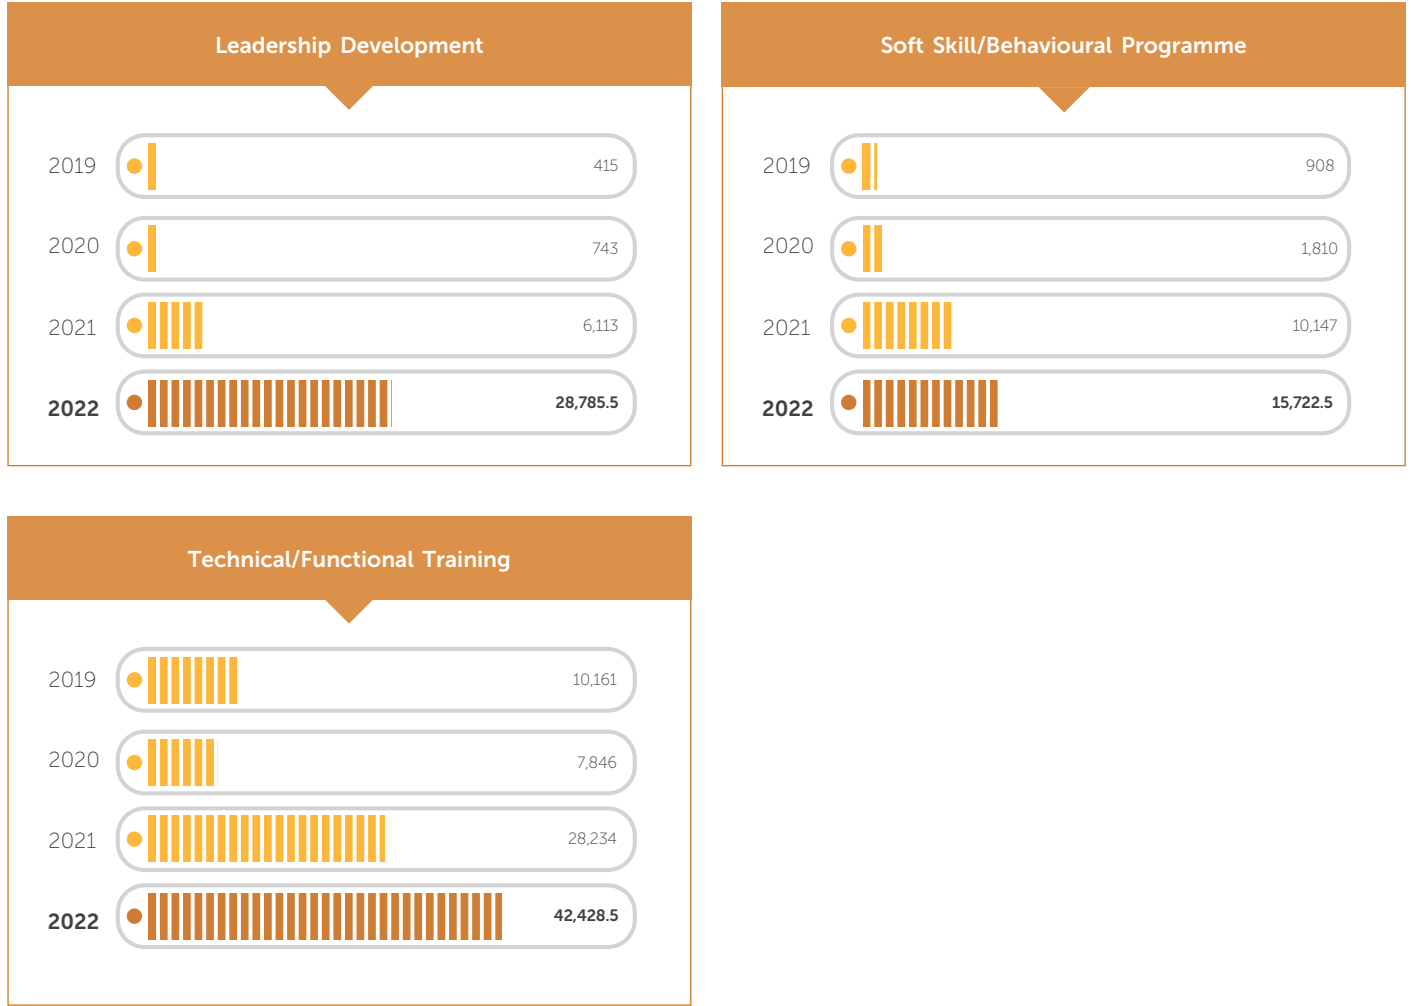

SOCIAL VALUE CREATION

b) Percentage of total employees category who received regular performance and career development reviews during the reporting period

c) Skills and career development: (Detailed data only for Malaysia-UEM Edgenta)

d) Training budget and utilisation: (Detailed data only for Malaysia-UEM Edgenta)

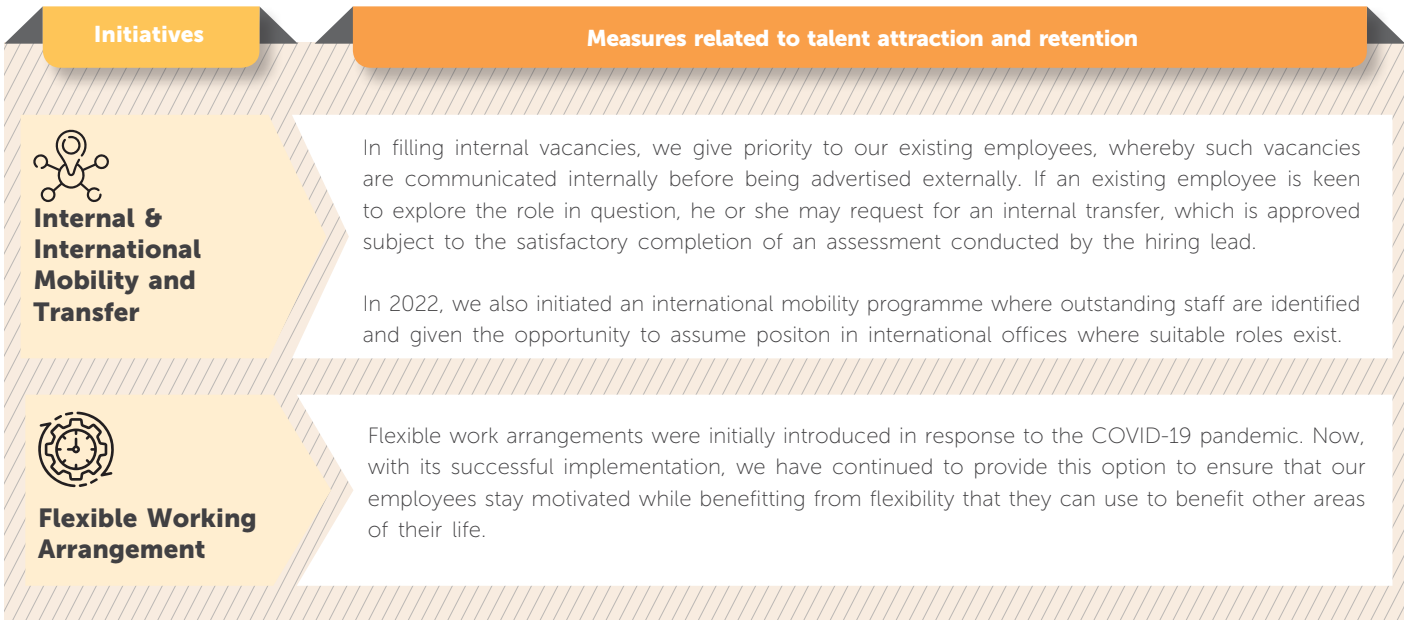

SOCIAL VALUE CREATION

Moving forward in 2023, UEM Edgenta will implement individual development plan which caters to all sections of our employees. Through this initiative, we hope that our employees will be more engaged and able to achieve their professional and personal aspirations during their employment at UEM Edgenta.

Talent attraction and retention

Guided by our commitment to create an environment that motivates and values our employees, we have explored various initiatives that drive talent attraction and retention at the Group and divisional level. In addition, all our initiatives are also implemented in line with our effort to hire employees local to the area of our operations. The key initiatives carried out are illustrated in the diagram below:

SOCIAL VALUE CREATION

d) Utilisation of parental leave by our employees during the year

| | 2020 | | 2021 | | 2022 | |
|--|-------|-----|-------|-----|-------|-----|
| | M | F | M | F | M | F |
| a. Total number of employees that are entitled to parental leave, by gender | 2,448 | 737 | 2,423 | 763 | 2,286 | 747 |
| b. Total number of employees that took parental leave, by gender | 133 | 49 | 127 | 55 | 147 | 43 |
| c. Total number of employees that returned to work in the reporting period after parental leave ended, by gender | 131 | 48 | 124 | 54 | 137 | 40 |
| d. Total number of employees that returned to work after parental leave ended that were still employed 12 months after their return to work, by gender | N/A | N/A | 123 | 45 | 104 | 45 |
| e. Return to work and retention rates of employees that took parental leave, by gender | N/A | N/A | 94% | 94% | 84% | 84% |

¹ This refers to the locations whereby the Group has established a presence through the setting up of an office. The performance data in the table above covers only the operations in Malaysia. In this year's disclosure, we have defined employees entitled to parental leave to employees with married status only.

Diversity and inclusion

As our business spans multiple countries, nurturing a diverse workforce from various backgrounds is central to achieving our objectives and driving the sustainability of our business. With this in mind, we have worked towards creating an environment where all employees are respected and accepted.

Our principles on diversity and inclusion are further embedded within our Code of Conduct, which expressly prohibits employees from engaging in any unwarranted verbal, visual, psychological, physical or other conduct that is intimidating, offensive, abusive or hostile to other employees. We do not tolerate discriminatory behaviour either when we hire new employees or in our daily interaction with each other. In addition, we have proactively communicated with our employees that any form of discrimination or harassment shall be reported via our grievance procedures or through our whistleblowing channel in order to ensure immediate and strong actions against the offender. Besides, in order to further expand on our commitment to support overall inclusiveness within our operations, the Group is currently in the midst of developing a Diversity, Equality and Inclusion Policy. For the reporting period, we are pleased to disclose that no incidents of discrimination or harassment have been reported and dealt with by our Risk Integrity & Compliance and Human Resource teams.

The diversity and inclusivity of our Company is reflected by:

SOCIAL VALUE CREATION

b. In Percentage of employees per employee category in each of the following diversity categories:

c. Breakdown of our workforce for FY2022 by:

SOCIAL VALUE CREATION

Engaging our employees

Our employee engagement activities are primarily anchored on achieving a holistic sense of wellness across physical, emotional, financial, workplace and environmental dimensions, through which we aim to motivate a pool of committed, competent and content individuals.

One of our key initiatives is the Edgenta Innovation Programme. The programme consists of three main components - the Idea Bank, the Innovation Passport Learning Series and the Innovation Month – with the primary intention of inspiring our employees to drive innovation in their work. In doing so, the programme encourages our employees to look beyond their daily work routines and explore innovation in areas that may have an impact personally and to the wider ecosystem of the Group. In addition, the programme is equipped with elements that are designed to trigger the development of ideas, stimulate organic self-motivation and encourage a sense of inclusivity. Therefore, it has the potential to not only have a constructive impact on our employees but also to positively influence our stakeholders.

SOCIAL VALUE CREATION

During the year in review, a total of 1,700 employees participated in this programme, accumulating a total of 13,110 learning hours. In addition, we successfully generated 159 new business ideas through the programme, with 12 ideas being shortlisted for further evaluation on feasibility of implementation. With that, the programme has achieved its objective of fostering a culture of innovation among our employees, while also making an indirect impact by significantly increasing awareness on the benefits of learning and self-improvement. This is evidenced by all departments reporting that 95%-100% of their employees have fulfilled their dedicated learning hours through our training platforms and modules.

Overall, the Group has targeted an engagement score of 67% to 71% and achieved an actual score of 71%.

Further to this, we have also earmarked enhancements to our Employee Engagement Survey whereby our Engagement Score will be increased gradually over the next few years. This will enable us to better capture the real issues that our employees face and ensure we take the right actions in response.

Moving forward to 2023, UEM shall continue our emphasis on developing the capabilities of Edgenta Stars with programmes tailored to their essential workplace job competencies and to support and enable our human capital to perform at the optimum level. Additionally, there will be a greater focus in upholding our sustainability aspiration around human rights whereby more awareness and education programmes will be conducted across the organisation. Lastly, we are committed to provide a positive and meaningful working experience for Edgenta Stars across all employee levels and shall continue to enhance our engagement initiatives.

SOCIAL VALUE CREATION

Customer Satisfaction

UPHOLDING OUR COMMITMENT TO CUSTOMER SATISFACTION

Our customers are a fundamental stakeholder and their satisfaction heavily influences our success and growth. With this in mind, we impress on our people the imperative of ensuring the highest level of customer satisfaction and always ready to address any feedback or complaints that are received.

We currently practice two key approaches in gathering feedback from our customers. Firstly, through a passive approach, feedback and complaints from our customers are reported directly to our management team (i.e. sales and administrative personnel), upon which the matter reported is reviewed, deliberated and addressed while a reply is provided to the customer that has submitted the report. Secondly, we have also adopted a proactive approach whereby we disseminate a Customer Satisfaction Form to customers every six months. From this survey, all feedback received is compiled within a dashboard and presented during the next management review meeting. Where necessary, the respective Person in Charge for the business unit in question is tasked with addressing the gaps identified or developing an enhancement to the process that has caused the dissatisfaction.

In order to ascertain that the necessary safeguards are in place to maintain the safety and privacy of our customers’ data, we have made continuous improvement over the development and monitoring of our practices that ensure the protection of data confidentiality. With that, the current Customer Satisfaction Survey (“CSS”) exercise which generates a Group-wide CSS Score, has been incorporated as a crucial component of our corporate scorecard’s KPIs. Based on the CSS Score, our business units are able to continually monitor the quality of their products and services and the quality of their customer relationships.

For the reporting period, we achieved an overall average CSS score of 88%.

SOCIAL VALUE CREATION

Human Rights Assessment

ALIGNING OUR STANCE ON HUMAN RIGHTS

The issue of human rights is vital across our value chain and we commit to complying with all local and international laws on forced labour, child labour and labour rights. To this end, we comply with the following regulations that enforce a strict prohibition on the employment of children and young persons or the use of forced labour in a company’s operation:

- 1

Protocol of 2014 to the Forced Labour Convention, 1930
- 2

Children and Young Persons Act 1993 – Singapore
- 3

Children and Young Persons (Employment) Act 1966 (Act 350) – Malaysia
- 4

The Protection of Children and Youths Welfare and Rights Act – Taiwan
- 5

UAE’S Labour Law – The UAE

Our commitment is showcased within our employment practices and incorporated into our Code of Conduct and we strongly expect the same level of commitment from parties within our supply chain, safeguarding this intention through the implementation of our Business Partner Code of Conduct. Partners in our supply chain are required to comply with all applicable labour, employment and human rights legislation encompassing but not limited to minimum wage, minimum age for employment and maximum hours of work. In addition, vendors are required to pledge their responsibility in safeguarding basic human rights practices via our Vendor Letter of Declaration.

The Group recorded zero confirmed cases of forced, indentured, bonded or involuntary labour at our project sites or in operation offices. Furthermore, there were zero incidences of child labour in our project sites and similarly, there were zero incidents of discriminations or breaches related to freedom of association and collective bargaining during the year.

SOCIAL VALUE CREATION

Further to this, we have committed to other international guidelines such as the UNSDG Decent Work and Economic Growth guidelines, which strive to protect labour rights and promote safe and secure working environments for all workers. Meanwhile, we have also assessed and allocated resources to engage with union advisors, enabling us to better understand employee concerns and effectively address any issues or enhancement opportunities in our employment practices.

Similarly, the Group has put in place a Whistleblowing Policy to provide an avenue for any parties to raise or report legitimate concerns about any actual or suspected unwarranted treatment of employees at the earliest opportunity for investigation. This will allow the necessary transparency and objectivity in identifying and addressing any risk of human rights issues.

During the year in review, we also conducted HR roadshows (Talk on Human Rights), which covered issues that included human rights, human rights at the workplace, human rights wages, fair working hours, diversity, equity and inclusion (DEI) and non-discrimination. The roadshow was held in 4 regional sites, Menara UEM (HQ), Johor, Perak and Penang, with a total attendees of 278 pax. As an overall average, the attendees rated the session at 3.75/4.

At present, we do not maintain a standalone policy on human rights, slavery and human trafficking. However, we look forward to incorporating a formal testament on human rights into our Business Code of Conduct in the near future.

SOCIAL VALUE CREATION

Local Community

CONTRIBUTING TO OUR LOCAL COMMUNITIES

At UEM Edgenta, we believe in the paramount importance of contributing to the communities within the areas where we operate. To this end, we have focused our driving initiatives under three focus areas:

With these key focus areas in mind, we have established the following guiding principles which guide the implementation of our CR programmes:

SOCIAL VALUE CREATION

EDUCATION

We embrace opportunities to enhance the accessibility, quality and effectiveness of education for local communities, cognisant that a good education is a strong foundation for personal success. With that, our efforts are focused on programmes that deliver key knowledge and skillset development across all tiers within the local communities.

During the year in review, we carried out the following initiatives:

i. Back to School "Riang Ria" Programme

- This programme provides assistance to our employees in the low-income group
- Essential school supplies are provided, helping these families equip their young one(s) for school
- Since its launch in 2020, we have contributed school supplies to 1,982 Edgenta Stars and 3,177 children
- In FY2022, our contribution to this programme amounted to more than RM154,000, amounting to a total contribution of more than RM450,000 since the programme's inception in 2020

ii. Refurbishment of Sekolah Kebangsaan Wan Sulaiman Siddiq, Kedah

- Contributions to support the school's refurbishment project fund which was initiated for the purpose of repainting the façade walls and gates as well as purchasing tables and chairs for the common areas of the school

iii. Site clearance at Sekolah Kebangsaan Lutong in Miri, Sarawak

- Conducted site clearing, backfill and leveling of land at Sekolah Kebangsaan Lutong, enabling the school to better provide co-curricular activities to its students, which also benefited the surrounding community at large

iv. Other Key Initiatives

- Supported the Eco-School Programme by Green Growth Asia Foundation, a project-based learning programme for primary and secondary schools on local environmental issues

Expanding our efforts within this pillar, we plan to expand our internal programme to external stakeholders while allocating additional resources to educational causes. We also aim to establish strong partnerships with governments, businesses, non-profit organisations and civil society to strengthen the outreach and impact of our programmes and its deliverables. All the while, we will continue to evaluate the effectiveness of our programmes and make necessary adjustments to ensure they continue to meet the needs of the local communities in question.

COMMUNITY ENRICHMENT AND WELL-BEING

This pillar is the most fundamental within our CR framework as it focuses on driving our ambition to contributing back to the surrounding communities, thus making a positive impact through our presence.

During the year in review, we contributed to the following initiatives:

a. Festive Celebrations

i. 'Jalanan Kasih Ramadan Edgenta'

- Edgenta Stars treated 20 children from Teratak Che Dah, Rawang Selangor to a shopping spree in conjunction with the Hari Raya celebrations, while also providing them with meals for the day and a cash contribution
- Contributed food, monetary assistance and COVID-19 RTK test kits to Masjid Ar-Rahah, Masjid Al-Ikhlasiah and Masjid Jamek Al-Khadijah in Pantai Dalam, Bangsar, benefiting a total of 240 asnaf recipients
- Provided iftar meals to 1,200 frontliners within our operations network across 12 hospitals in Kedah, Perak and Penang
- Contributed basic provisions and monetary assistance to 20 children at Pusat Jagaan Anak Anak Yatim dan Miskin Nurul Iman in Ipoh, Perak and to 25 children at Pertubuhan Kebajikan Anak Anak Yatim/Miskin, Tahfiz Al Furqan in Baling, Kedah

ii. Deepavali Celebration

- Provided shopping vouchers and traditional cookies for 40 children from SJK (Tamil) Jalan Bangsar and SJK (Tamil) Ladang Seafield

iii. Hari Merdeka

- Provided in-kind contributions (i.e. food offerings) to the Police Department and Fire Department in Lembah Pantai as a token of appreciation

b. Disaster Relief Efforts

- Donated RM40,000 worth of supplies to the Putrajaya and Lembah Pantai Fire Departments in preparation for the year-end monsoon season. The assistance include safety jackets, raincoats, food and drinks and other necessities, benefiting approximately 7,000 beneficiaries whose livelihoods may have been affected by the floods
- Donated monetary contribution to the fire victims in Gombak, Selangor to assist with the rebuilding of a new house

SOCIAL VALUE CREATION

c. Other Key Initiatives

- Organised various programmes that benefited 10,822 asnaf recipients under the Al-Gharimin, Fisabilillah and Asnaf Miskin categories in accordance with Majlis Agama's requirements
- Contributed 1,000 COVID-19 saliva test kits and video conferencing equipment to the Ministry of Health
- Contributed five cows to the community of Hulu Langat to carry out the "ibadah korban" in conjunction with the Hari Raya Korban
- Monetary contributions for Misi Keluarga Wawasan Everest 2022 in collaboration with Yayasan UEM to support people with disabilities and uniformed body forces on their planned Mount Everest expedition

Moving forward, we plan to expand our outreach in order to assist other vulnerable groups and deserving communities in East Malaysia and within other states across our network. In addition, in order to develop and tailor initiatives with better impact, we will continue to engage with communities via direct interaction, surveys and focus groups. As a result, we hope that we will be able to contribute to a wider variety of needs within local communities.

ENVIRONMENT

Empowered by a strong and deeply held environmental consciousness, we constantly strive to make a positive impact on the environment wherever possible, thereby protecting and safeguarding the natural ecosystem and its biodiversity.

During the year in review, the Group embarked on the following environmentally-themed community programmes:

a. Zoo Negara Animal Adoption Programme

- We have adopted a pair of giraffes - Mas Boy and Mas Kira - since 2020, during which time we have contributed to the giraffes' annual welfare, provision of food supply and veterinary care
- In 2022, we deployed 60 of our employees to volunteer in the 'Glow the Zoo Negara' initiative, which aims to improve the landscape within Zoo Negara. Our volunteers participated in initiatives including the painting of the zoo's bridge area and road curbs and the cleaning of animal enclosure areas, benches, drains, fences and some light modification work
- Through this programme, we have invested more than RM74,000 towards the welfare of the giraffes and other contributions in related activities

b. Beach Clean-Up Programme

- We collaborated with Dungun Municipal Council to organise a beach clean-up event with the local community at Pantai Teluk Bidarain in Dungun, Terengganu
- The programme, themed "Sayangi Pantai Kita", was participated in by over 70 volunteers including our employees, local authorities, non-government organisations and the local community
- Through the event, we managed to successfully collect a total of 370 kg of waste along the 600 m stretch of beach
- We also sponsored a public awareness signboard to encourage the community to better care for the environment when present at the beach
- With the objective of promoting a safe and clean beach as a recreational place, as well as raising public awareness on the conservation of our marine ecosystem, we contributed a total of RM6,500 to the programme

Looking forward, we plan to organise more events and initiatives while exploring new partnerships with NGOs and organisations that share a similar purpose and interest. This approach will allow us to leverage a larger pool of resources and target a wider audience. Likewise, with this approach, we hope to inspire our employees to commit to volunteering more of their time and efforts to such environmental causes.

About

Dato' Stewart currently serves as Executive Chairman of Area Management Sdn. Bhd., the manager of the AREA Industrial Development Fund 1 which develops high grade industrial projects and estates in Malaysia.

An esteemed and renowned property professional, he has over 46 years of experience in industrial design, manufacturing, operations management, property development, REIT and funds management. He is a prominent speaker on the subject of real estate investment trusts and has presented numerous papers at conferences globally.

Dato' Stewart was the Chief Executive Officer and Executive Director of Axis REIT Managers Bhd until December 2015. Axis REIT was the first Shariah compliant listed Industrial REIT in the world and the first REIT to be listed on Bursa Malaysia in August 2005. During that time, he worked to establish REITs as an important component of the capital markets in Malaysia. He spearheaded the formation of the Malaysian REIT Managers Association where he served as its Chairman for 5 years and is currently serving as its Honorary Secretary. He is also a Board Member of the Asia Pacific Real Estate Association (APREA).

He was instrumental in the establishment of Alpha REIT, Malaysia's first unlisted Islamic REIT focused on Education assets, where he serves as Chairman of Alpha REIT Managers Sdn. Bhd., the manager of Alpha REIT.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

This Statement is to be read together with the Corporate Governance Report (“CG Report”), which provides details on how the Company has applied each Practice as set out in the Malaysian Code on Corporate Governance 2021. The CG Report is available on the Company’s website at www.uemedgenta.com.

This Report sets out, amongst other things, our approach to governance in practice, how the Board works, how it has spent its time during the year. The Board recognises the importance of the application of the Malaysian Code on Corporate Governance 2021 (“the Code”), effective stewardship and strong corporate values that contribute to the success of the Company. The Company is headed by an effective Board that is collectively responsible for its long-term success and ensures that it operates effectively and efficiently and remains committed to maintaining strong momentum in pursuit of excellence in the way the Company is governed. The values that the Board believes in are demonstrably embedded throughout the organisation.

This Corporate Governance Overview Statement (“Statement”) provides a summary of the Company’s corporate governance practices during the financial year under review, guided by the following three (3) key principles:-

CORPORATE GOVERNANCE OVERVIEW STATEMENT

A BOARD LEADERSHIP AND EFFECTIVENESS

BOARD RESPONSIBILITIES

A Strengthened Governance Framework

The Board is ultimately responsible to shareholders for the direction, management, performance and long-term success of the Company. It sets the Group’s strategies and objectives, as well as oversees and monitors the performance, internal controls, risks and its management, policies, governance and viability of the Company.

In discharging its roles and responsibilities, the Board is guided by the Board Charter and the Discretionary Authority Limits which outlines the duties and responsibilities of the Board, as well as matters that the Board may delegate to the Board Committees, the Managing Director/Chief Executive Officer and Management. The Board Charter can be found on the Company’s website at www.uemedgenta.com.

The Board’s main roles and responsibilities among others are as follows:-

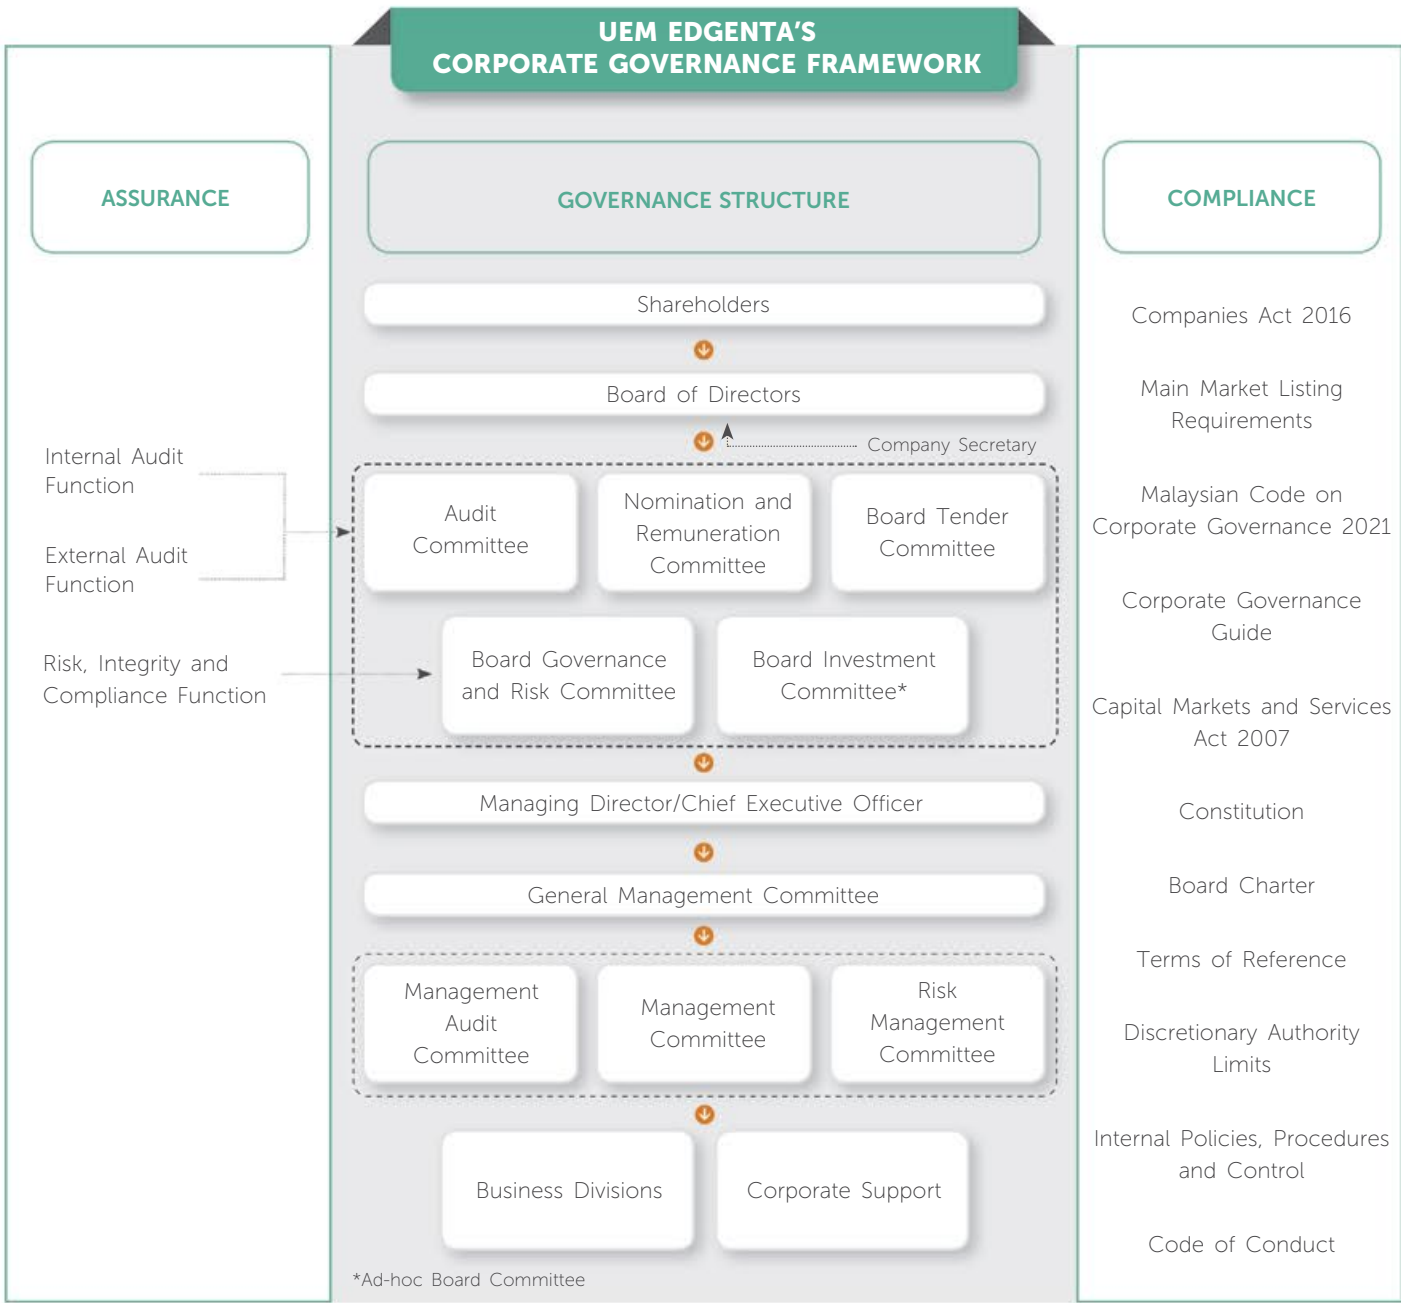

| | | |
|---|---|---|
| Establishing, reviewing and adopting the strategic plans and direction for the Group. | Overseeing the conduct of the Group’s business to evaluate whether the business is being properly managed. | Identifying principal risks and ensuring the implementation of appropriate systems to manage these risks. |
| Succession planning , including appointing, training, fixing the compensation of and where appropriate, replacing senior management. | Developing and implementing an investor relations programme or Corporate Disclosure Policy for the Group. | Reviewing the adequacy and the integrity of the Group’s internal control systems and management information systems , including system for compliance with applicable laws, regulations, rules, directives and guidelines. |

CORPORATE GOVERNANCE OVERVIEW STATEMENT

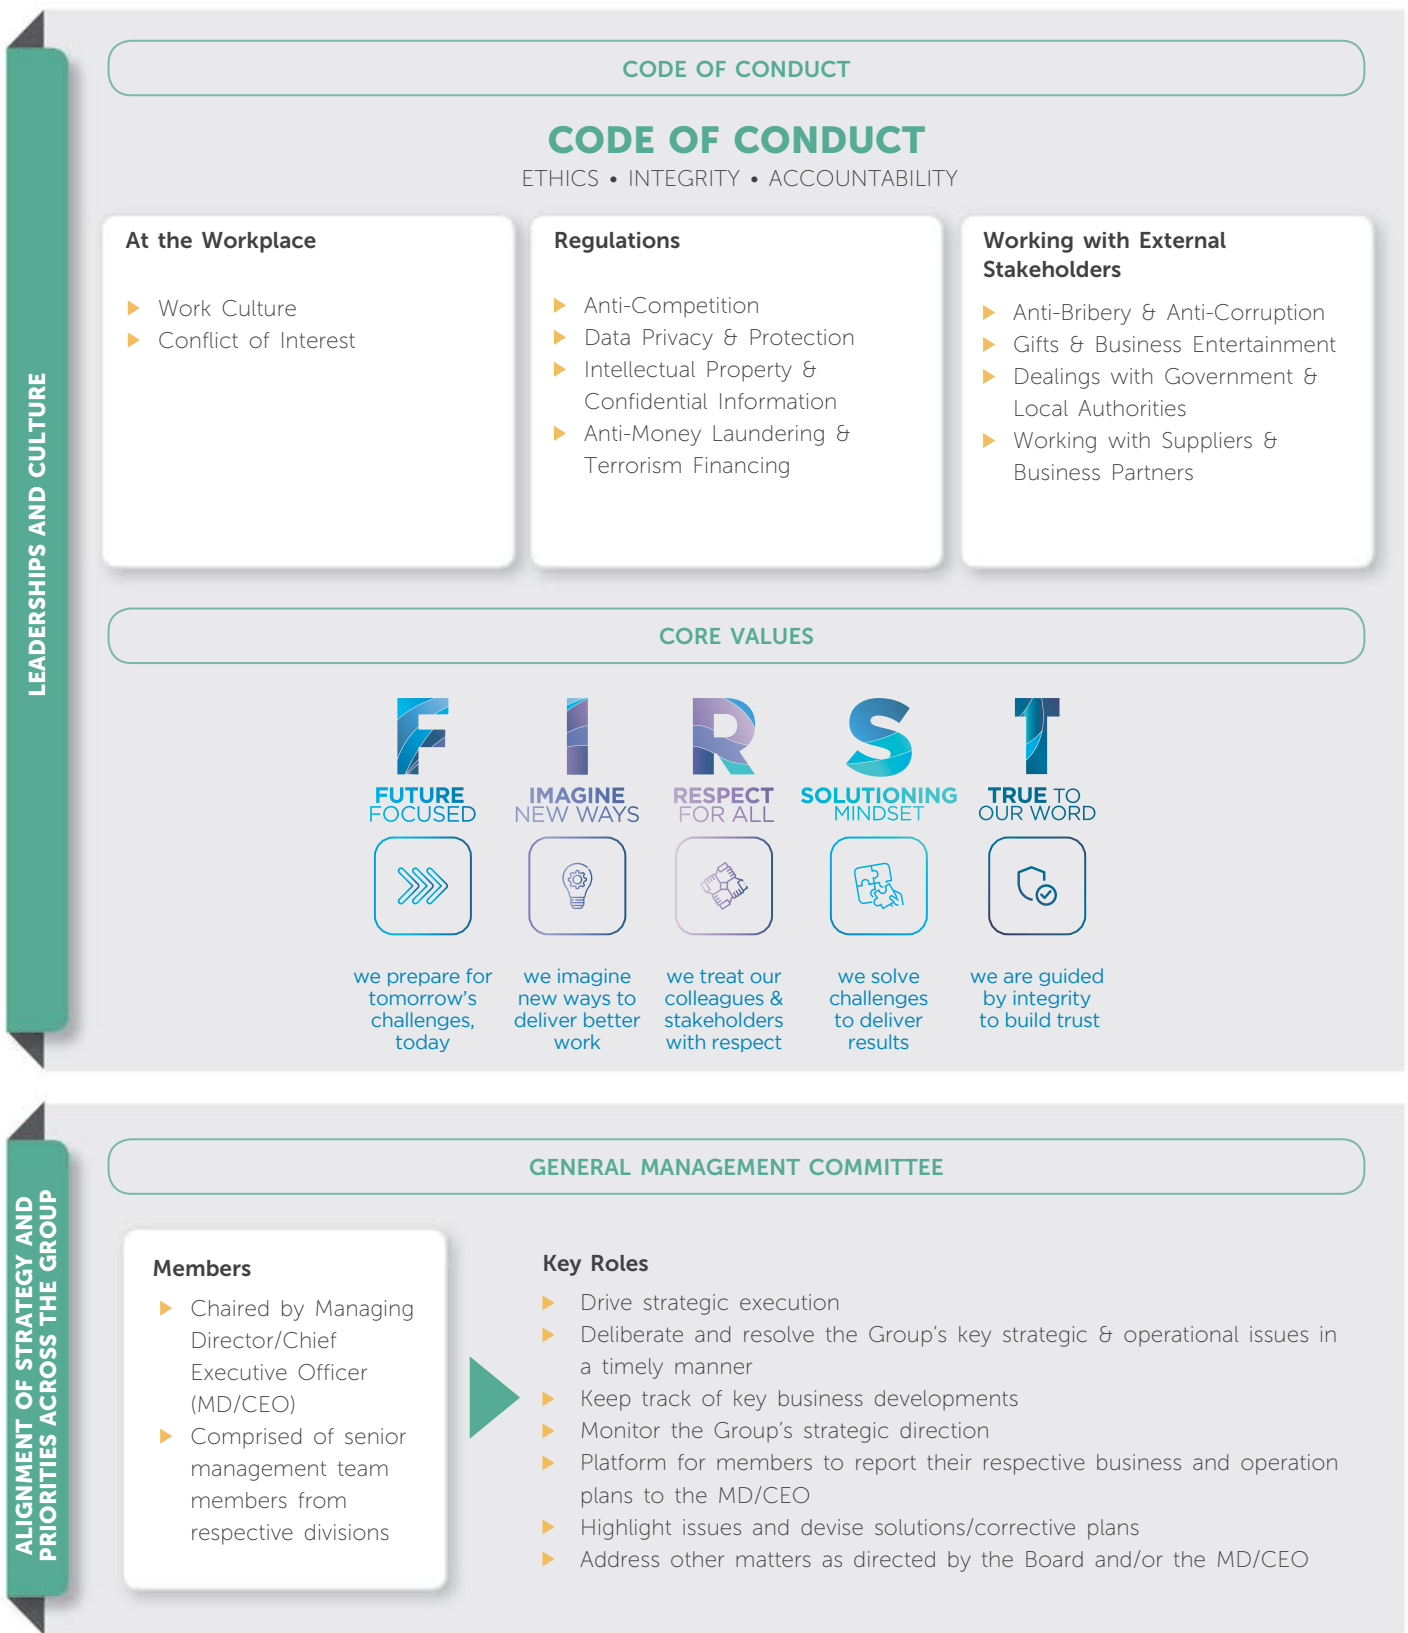

To ensure uniformity in decision-making authority and to inform all staff of the Company's governance practices and processes, the Board had formalised the Corporate Governance Framework. The framework incorporates the key elements of Group-wide Framework on Corporate Governance.

This framework contains 2 sections i.e. the Corporate Governance Structure and list of policies/documents. The framework combines the items in one place for easy overview and reference to guide the governance practices and authority of decision-making across the Company.

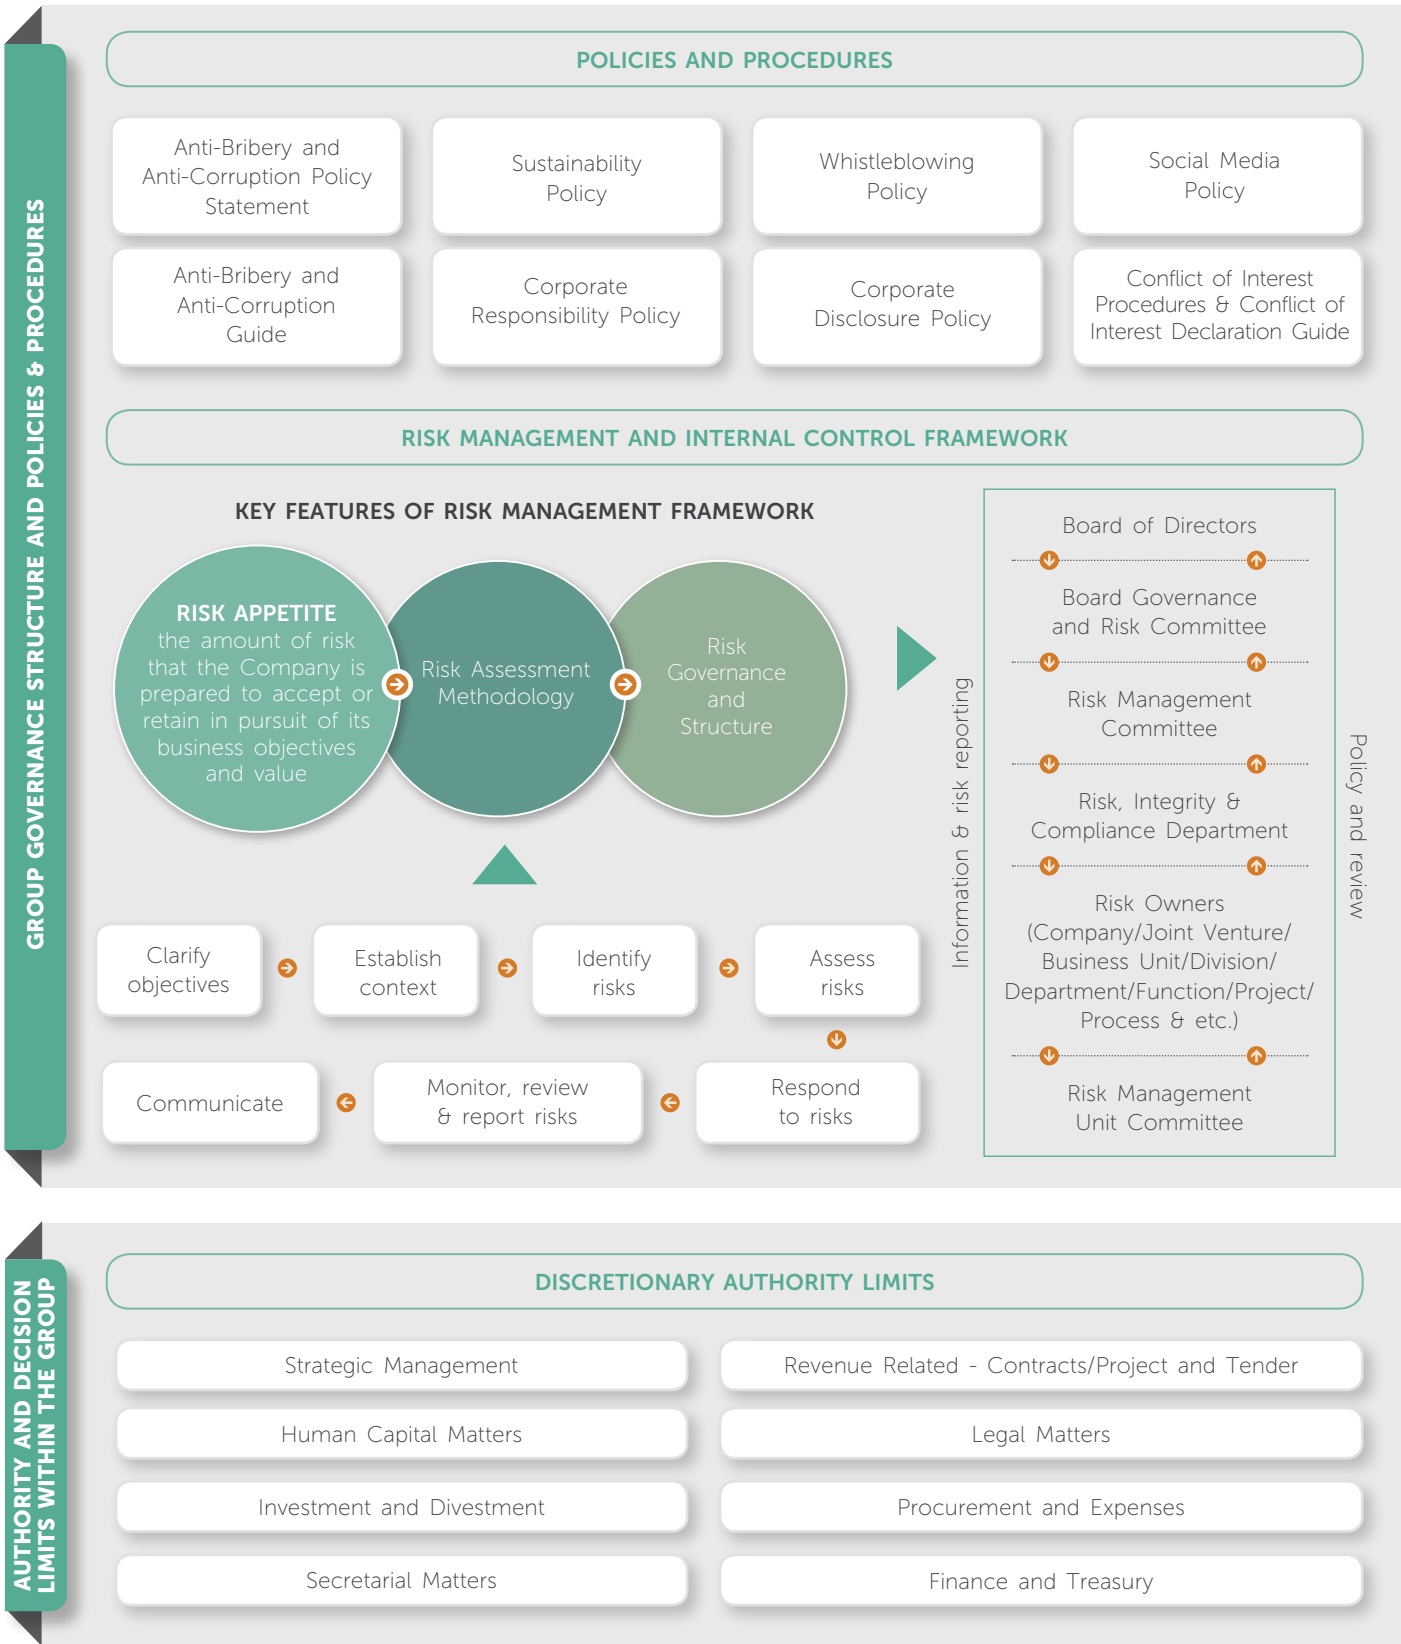

The Corporate Governance Framework can also be found on the Company's website.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

- Moving Forward Plan for Edgenta Energy Services Sdn Bhd.
- Proposed disposal of Faber Sindoori Management Services Private Limited.

Overseeing the Conduct of Business

▶ Reviewed and approved the formation of Executive Committee for Healthcare Support and Asset Consultancy.

Health, Safety, Security and Environment

▶ Reviewed the Health, Safety, Security and Environment Report on quarterly basis.

Risk Management

▶ Reviewed whistleblowing statuses on a quarterly basis.

▶ Reviewed the risk exposures in relation to material litigations.

▶ Reviewed the recommendation from BGRC and approved the following:-

- Risk Management Status Report on quarterly basis.
- Integrity & Compliance Reports.
- Integrity & Compliance Plan.
- Revised Anti-Bribery and Anti-Corruption Policy Statement.
- Whistleblowing Policy Statement.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Succession Planning for Senior Management

▶ Discussed on the current status of the Succession Plan for Senior Management and reviewed the progress made so far and identified areas that require further attention.

▶ Reviewed and approved:-

- The appointment of Chief Executive Officers for Edgenta NXT Sdn Bhd and Edgenta Arabia Limited.
- The promotion of Senior Management of Grade UT2 & above.
- The renewal of fixed-term employment contract of Senior Management of Grade UT2 & above.
- New organisational chart and appointment of General Manager for UEMS Pte Ltd.
- Appointment of Head of Edgenta Healthcare Solutions.
- Appointment of Head of Internal Audit.

Financial Statements

▶ Reviewed the recommendation from AC and approved the quarterly financial results and audited financial statements.

▶ Met up with the External Auditors for the presentation of their reports.

▶ Reviewed the re-appointment of External Auditors and their audit fees.

▶ Considered the segmental disclosure for alignment with Edgenta of the Future 2025 Vision.

Environmental, Social & Governance

▶ Reviewed the reports on the progress of the action plans for Environmental, Social & Governance on a quarterly basis.

▶ Approved the Sustainability Strategy and Roadmap.

Governance/Compliance

▶ Reviewed and adopted:-

- Fit and Proper Policy.
- Updates to Terms of Reference for the Board Governance and Risk Committee.
- Updates to Board Charter.

Human Resources

▶ Reviewed and approved the following:-

- Revision to Employee Benefits.
- Rewards structure for Edgenta NXT Sdn Bhd.
- Talent Attraction and Retention Strategy.
- Minimum Wage Implementation and revision of Selected Terms and Condition of Employment for Edgenta UEMS Sdn Bhd.
- Remuneration Policy for Global Talent Mobility Programme.
- Revision of Salary Range.
- Revision of Additional Responsibility Allowance Policy.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

NOMINATION AND REMUNERATION COMMITTEE (“NRC”)

The main responsibilities of the NRC is to assist the Board on the nomination of Directors and Senior Management, assessing the effectiveness of the Board and Board Committees and recommending remuneration packages and assessing the performance of Managing Director/Chief Executive Officer and Senior Management.

Among the key activities undertaken by the NRC during the financial year under review were as follows:-

Board Composition and Succession Planning

- ▶ Reviewed the Board size and structure, tenure of each Director, the mix of Directors in terms of gender diversity, skills and expertise of each Directors to ensure high standard of Board performance and succession for both Executive and Non-Executive Directors in the event of any deficiency.
- ▶ Reviewed the composition of the Board and Board Committees of UEM Edgenta Berhad.
- ▶ Reviewed the Board composition for the subsidiaries/associate companies of UEM Edgenta Berhad.
- ▶ Recommended the re-election/re-appointment of Directors under the retirement by rotation provisions of the Constitution of the Company and the Companies Act, 2016.

Recruitment and Appointment of Directors

- ▶ Assessed and recommended to the Board the candidacy of Director, appointment of Directors to Board Committees, and reviewed Board’s succession plans and training programmes for the Board.
- ▶ Reviewed the required mix of skills and experience and other qualities, including core competencies which Non-Executive Directors should bring to the Board.

Remuneration of Directors

- ▶ Reviewed and recommended to the Board the remuneration of Non-Executive Directors in all its forms and to review the Group’s remuneration policies and procedures which should be disclosed in the Annual Report.

Board Effectiveness Evaluation

- ▶ Assessed the Directors annually, the effectiveness of the Board as a whole, the Committees of the Board and the contribution of each individual Director including his/her time commitment to effectively discharge his/her role as a Director, character, experience and integrity. All assessments and evaluations carried out by the NRC in the discharge of all its functions were properly documented.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Recruitment/Appointment and Succession Planning of Senior Management

- ▶ Reviewed the character, experience, integrity, competence and time commitment to effectively discharge the roles of Managing Director/Chief Executive Officer and Chief Financial Officer.
- ▶ Reviewed the current status of the Succession Plan for Senior Management and the progress made so far and identified areas that require further attention.
- ▶ Reviewed and recommended:-
 - Proposed appointments of Senior Management.
 - New organisational chart and appointment of General Manager for UEMS Pte Ltd.

Remuneration for UEM Edgenta Group

- ▶ Reviewed and recommended:-
 - The 2021 Corporate Scorecard Achievement and 2021 Managing Director/Chief Executive Officer’s Scorecard Achievement.
 - The proposed 2022 Corporate Scorecard and Managing Director/Chief Executive Officer’s Scorecard.
 - The 2021 Bonus Pool and 2022 increment.
 - The 2021 Performance Bonus of the Managing Director/Chief Executive Officer and Senior Management.
 - The proposed Talent Attraction and Retention Strategy.
 - Minimum wage implementation and revision of selected Terms and Condition of employment.
 - The revision to employee benefits.
 - The proposed Rewards Structure for Edgenta NXT Sdn Bhd.

Overseeing the Conduct of Business

- ▶ Reviewed and recommended the formation of Executive Committee for Healthcare Support and Asset Consultancy.

Governance/Policy

- ▶ Approved the MCCG proposed action plan.
- ▶ Reviewed and recommended:-
 - The Fit and Proper Policy.
 - The revision of Additional Responsibility Allowance Policy.
 - The Remuneration Policy for Global Talent Mobility Programme.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Nomination and Appointment of Directors

The Board has put in place adequate and effective selection processes and procedures for the recruitment or appointment of new Directors and members of the Board Committees.

In sourcing for new Board members, candidates are identified through a mixture of recommendations made by existing Board members and major shareholder, desktop searches and independent executive searches.

In assessing and making recommendations to the Board on the candidacy of Directors or appointment of Directors to Board Committees, the NRC considers the candidates' competencies, time commitment, contribution and performance, skills, knowledge, expertise and experience, professionalism, background, character and integrity and leadership qualities. The NRC also takes into consideration the size and composition of the Board as well as be guided by the MCCG and comply with the Listing Requirements.

For the position of Independent Non-Executive Directors, the NRC also evaluates the candidates' ability to discharge such responsibilities/ functions as expected from an Independent Non-Executive Director.

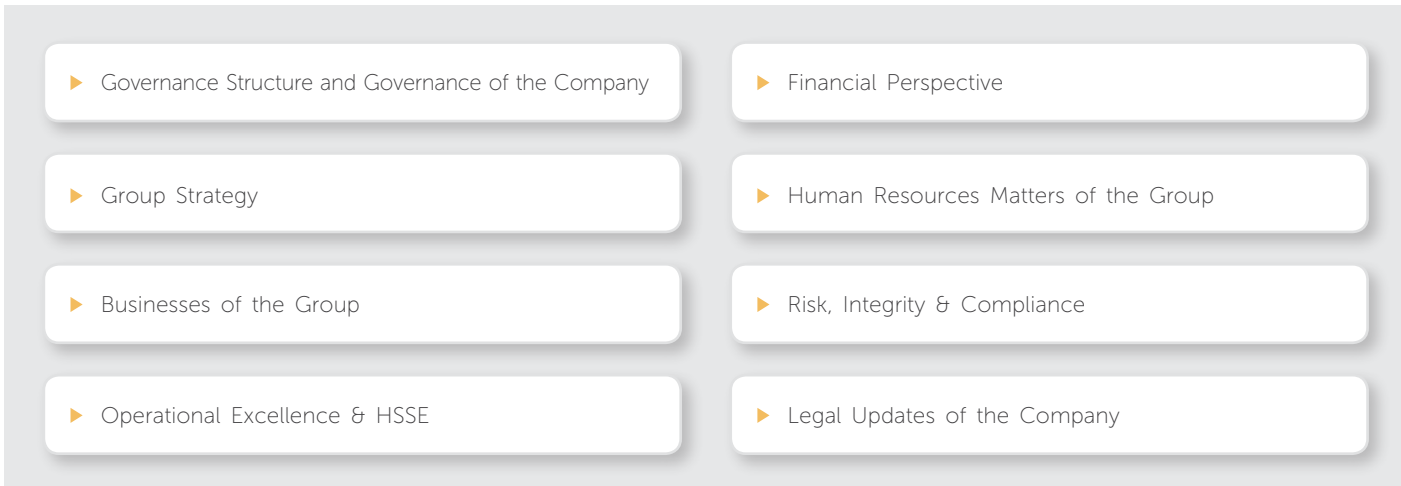

After due assessment and shortlisting, with the consent from identified candidate, a reputable third-party agency will conduct a thorough background screening process to verify their credibility.

On 26 May 2022, the Board has approved the Fit & Proper Policy to ensure formal, rigorous and transparent process for the appointment and re-election of Directors.

The process of appointment of new Directors are as follows:-

Once appointed, the new Board member would undergo a Board Induction Programme where they would be briefed in detailed on the following:-

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Additionally, the NRC has also recommended for all Directors of the Company to attend at least one external briefing on Section 17A, Malaysian Anti-Corruption Commission Act 2009 ("MACC Act 2009") as part of Directors' training and development.

For the year under review, En. Mohd Asrul Ab Rahim was appointed as Board member on 21 January 2022. He was nominated by the major shareholder.

En. Mohd Asrul has attended the Board Induction Programme on 3 & 4 March 2022 and an external briefing on Section 17A, MACC Act 2009.

Directors' Continuing Education Programmes

Recognising that continuous education is vital to gain insight into the state of economy, technological advances, regulatory updates and management strategies for Directors to discharge their responsibilities effectively, a specific budget has been allocated for Directors' training.

The Board's training needs are assessed and identified through the Board Evaluation Assessment. In addition to individual Director's recommendations on appropriate trainings that will enhance their effectiveness, the Board is also regularly updated on the availability of external training courses for their consideration by the Company Secretary and the Edgenta Academy team.

Additionally, since the effective of the corporate liability provision of the MACC Act 2009, the NRC has recommended for all Directors of the Company to attend at least one external briefing

on Section 17A, MACC Act 2009 as part of Directors' training and development. Therefore, the Company Secretary is constantly monitoring to ensure the recommendation of NRC was met when there are new Directors appointed to the Board.

During the year under review, the Directors have attended various seminars and training programmes to gain insights into the latest regulatory and industry developments in relation to the Group's businesses.

Besides formal training programmes, the Board is also kept abreast on regulatory updates from the Bursa Malaysia Berhad, Securities Commission Malaysia and the Companies Commission of Malaysia by the Company Secretary.

In line with Management's strategy to focus on Environmental, Social and Governance ("ESG"), the Board has also been updating their ESG competencies by attending courses in relation with ESG.

Pn. Rowina Ghazali Seth is currently attending the ESG Competent Boards Certificate and Designation Programme. This programme syllabus contains 12 strategic ESG session topics. Upon graduating, Pn. Rowina Ghazali Seth will attain the Global ESG Competent Boards Certificate and Designation (GCB.D). Meanwhile, Ms. Jenifer Thien has been granted GCB.D in March 2022.

At the 2022 Pre-Board Convergence held on 6 October 2022, the Management focused the discussion around ESG and sustainability, and also invited speakers to share on ESG topics.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

BOARD COMPOSITION

Ensuring the Right Composition

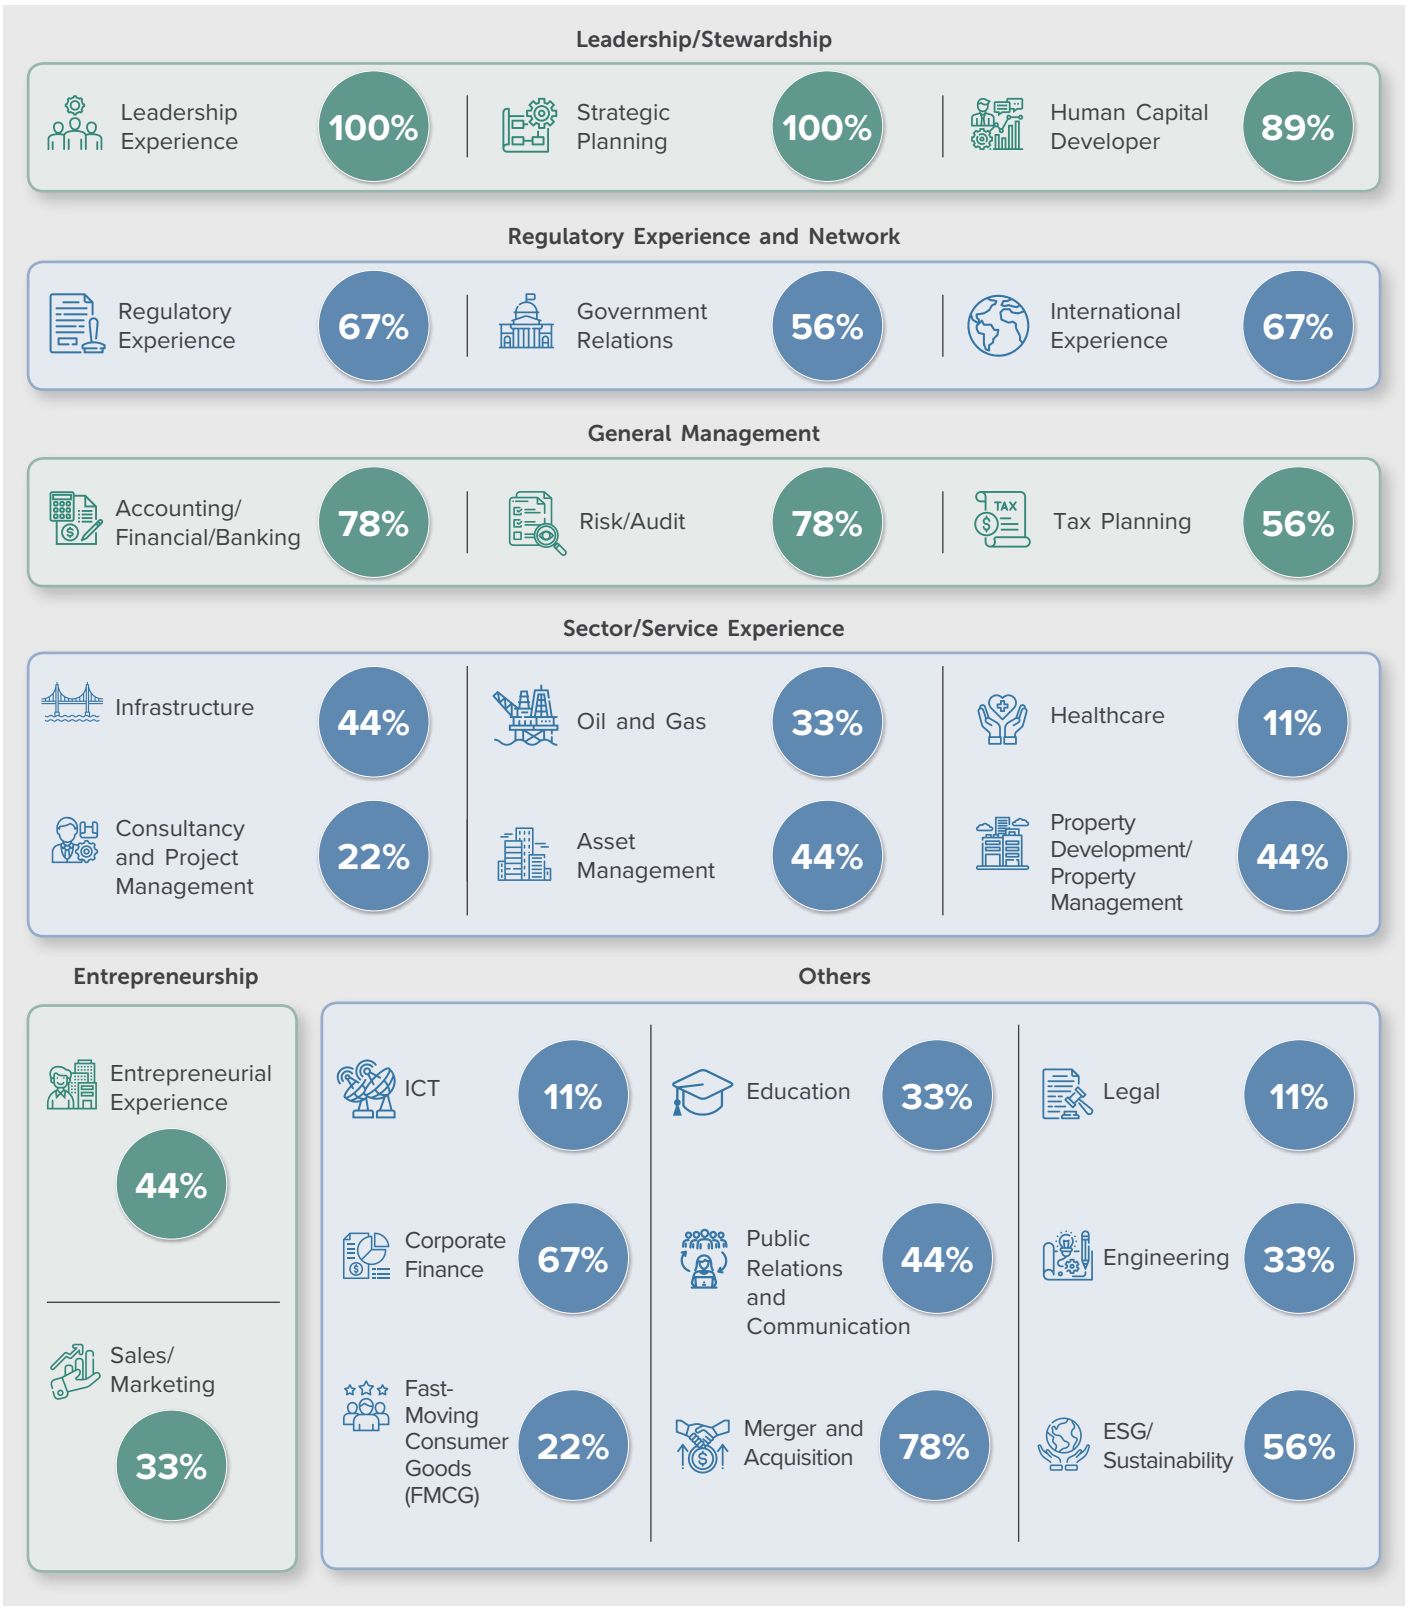

As at 31 December 2022, the Board consist of nine (9) members, comprising an Independent Non-Executive Chairman, one (1) Executive Director, three (3) Non-Independent Non-Executive Directors and four (4) Independent Non-Executive Directors. One third (1/3) of the Board comprises of Independent Non-Executive Directors, in compliance with Paragraph 15.02(1) of the Listing Requirements.

For year 2022, the Company had 56% Independent Non-Executive Directors and 34% Women Directors on Board.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Board Mix of Skills and Experience

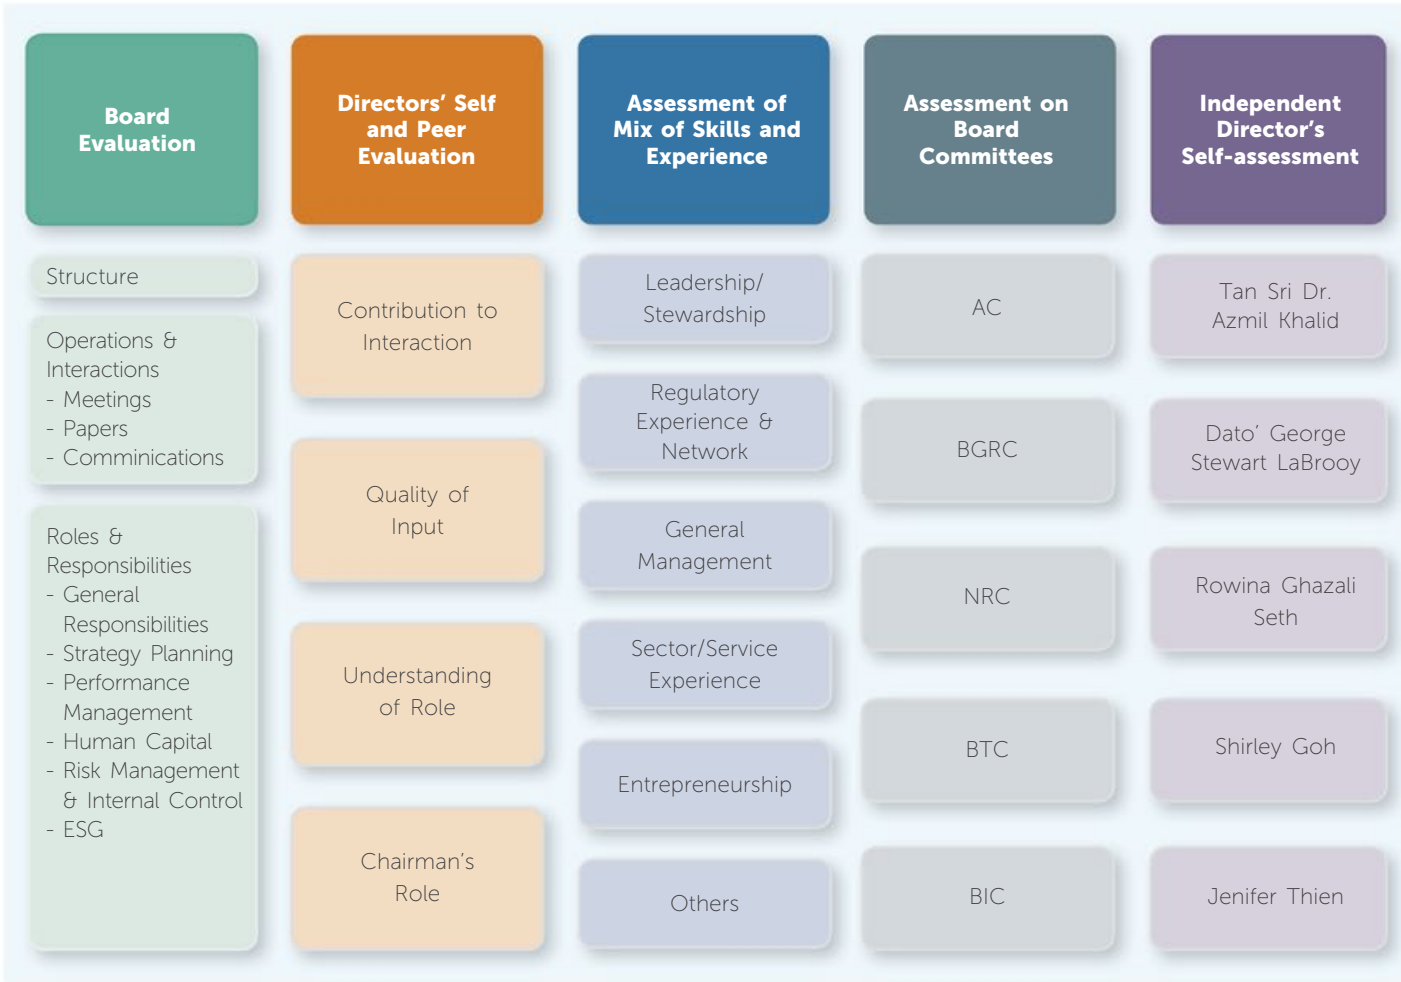

The profile of each Director is set out on pages 192 to 200 of this Annual Report.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Board Effectiveness Assessment

The Board via the NRC performs yearly Board Effectiveness Assessment (“BEA”) of its performance and activities.

As the Company is not a Large Company, the BEA for FY2022 was facilitated by the Company Secretary via an online portal, which covered key topics and included forward looking elements as follows:-

All feedbacks are handled in a confidential manner to ensure that Directors give their honest feedback. A summary of the key issues raised was then collated and presented in a report to the NRC and the Board.

Based on the results of the BEA, the Board Criteria Matrix was updated. The skills criteria in the matrix are constantly reviewed to ensure that it covers the relevant knowledge/skills that are required for the businesses of the Company.

The Board Criteria Matrix is considered an important tool in ensuring the diversity of the Board in terms of experience and expertise. With this matrix, the Board is able to identify any gaps in Board composition and use these gaps as criteria for selection of new Board members.

The results for FY2022 did not indicate any material weaknesses or shortcomings identified that warrant specific action plan to address the same. The results of BEA indicated that the performance of the Board, Board Committees and individual Directors had been effective in their overall discharge of functions, roles and duties. The level of independence demonstrated by the Independent Directors are satisfactory.

The results also revealed that the Board is satisfied that MD/CEO and CFO of the Company has the character, experience, integrity, competence and time to effectively discharge their roles accordingly.

The Board is also satisfied that each Board member is able to devote sufficient time to the Company.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

REMUNERATION

The Board via the NRC is also tasked to establish and review periodically the remuneration policies and procedures to attract and retain Directors and Senior Management.

Remuneration for Directors

The Directors' remuneration is reviewed from time to time and is determined at levels which enable UEM Edgenta Group to attract and retain Directors with the relevant experience and expertise needed to manage the Group effectively.

Additionally, the Company also has its own Remuneration Policy for Non-Executive Directors, which was drawn up with the aim to strengthen the Company's commitment to attract and retain talented and well qualified candidates while being financially cautious. This policy was in place since 8 December 2020. For transparency purpose, the Remuneration Policy is published on the Company's website at www.uedgenta.com.

The Non-Executive Directors are paid a fixed base fee on a quarterly basis. With the recommendation from the NRC, the Board as a whole determines the remuneration for Non-Executive Directors with Directors concerned abstaining from deliberation or voting on decision in respect of their remuneration. The aggregate amount of Directors' fee to be paid to Non-Executive Directors is subject to the approval of the shareholders at general meeting.

The Directors' Remuneration Framework which was last reviewed in August 2020 is as below. The remuneration breakdown of individual Directors which includes fees, salary, bonus, benefits-in-kind and other emoluments are as set out in the CG Report under Practice 8.1.

| Directors' Fees | Proposed Directors' Fee per annum (RM) | |
|------------------------|--|---------|
| | Chairman | Member |
| Board | 210,000 | 108,000 |
| Audit Committee | 50,000 | 30,000 |
| Other Board Committees | 25,000 | 15,000 |

The current benefits payable and accorded to the Directors are:-

| No. | Description | Directors' benefits |
|-----|--|---|
| (a) | Meeting allowance for ad-hoc or temporary Board Committees established for specific purposes | (i) Chairman of committee – RM2,000 per meeting (ii) Member of committee – RM1,000 per meeting |
| (b) | Car allowance for Chairman of UEM Edgenta | RM3,400 per month |
| (c) | Medical benefits for Board members <i>Where a Director sits on several boards within the UEM Group of Companies, he will be entitled to claim medical benefits from one (1) company only.</i> | (i) Medical coverage of RM7,000 per annum, inclusive of outpatient, clinical, specialist and dental; and (ii) Hospitalisation of RM100,000 per annum including room and board at RM500 per day |
| (d) | Training and Development of Directors | A training budget is allocated for Directors to attend relevant training programmes and seminars to enhance their knowledge and skills in discharging their duties. |
| (e) | Directors' & Officers' Liability Insurance | Directors are covered by Directors' and Officers' Liability Insurance maintained throughout the financial year to indemnify Directors and officers against any liability incurred by them in the discharge of their duties while holding office as Directors and officers of the Company. |
| (f) | Subsistence allowance for business travel | Peninsular & East Malaysia – RM150 per day Overseas – USD125 per day |

The Company would be seeking shareholders' approval at the forthcoming annual general meeting for the payment of Directors' benefits for items (a) and (b) of the above table.

Remuneration for Senior Management

The Board had on 25 February 2021 established a Senior Management Remuneration Framework. This framework which is benchmarked against market rate, is to ensure that Senior Management is always remunerated fairly and to attract, retain and motivate individuals to give their best in serving the Company.

However, due to talent retention purposes, the framework is not published on the website. The Management will reconsider the appropriateness of the publication of the framework on the Company's website.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

B

EFFECTIVE AUDIT AND RISK MANAGEMENT

AUDIT COMMITTEE

Upon the retirement of Mr. Robert Tan Bun Poo at the annual general meeting held on 16 June 2022, the Audit Committee ("AC") was led by Ms. Shirley Goh, to assist the Board in its oversight of the Company's financial reporting, and in fulfilling its fiduciary responsibilities relating to internal controls. This includes risk management, maintenance of financial and accounting records and setting policies as well as financial reporting practices of the Group. It also reviews related party transactions, conflict of interest situations that may arise within the Group and the provision of non-audit services by the External Auditors.

The AC comprises of three (3) members, all of whom are Non-Executive Directors, with a majority of them being Independent Directors.

Kindly refer to pages 234 to 236 for the AC's membership and composition, and the AC Report for the summary of work carried out by the AC during the financial year 2022.

The duties and responsibilities of the AC are set out in its Terms of Reference which is available on the Company's website at www.uedgenta.com.

As at 31 December 2022, the current AC members have attended training courses relating to the development in accounting and auditing standards, practices and rules.

The Board, through the AC, maintains a transparent and professional relationship with the Internal and External Auditors. The AC has been explicitly accorded the authority to communicate directly with both the Internal and External Auditors.

The AC meets up with the External Auditors at least twice a year in the absence of the Managing Director/Chief Executive Officer and Management. The External Auditors were also present at Board Meetings for the presentation of their reports.

Currently, Messrs Ernst & Young PLT provides independent and professional external auditing services to the Group. The AC conducts yearly assessment on the suitability and independence of the External Auditors.

For the year under review, the External Auditors have confirmed to the Board their independence in providing their services.

The assessment on the External Auditors for financial year ended 31 December 2022 was facilitated by the Finance team. A set of questionnaires pertaining to the following were sent out to the AC members, relevant personnel from Finance, Risk, Integrity &

Compliance, Internal Audit and the Company Secretary for their feedback:-

- 1) Calibre of the firm
- 2) Quality of processes/services/performance
- 3) Audit team
- 4) Independence, objectivity and professional skepticism
- 5) Audit planning, execution and conclusion
- 6) Audit fees
- 7) Audit communications

The Board is satisfied with the outcome of the assessment of the External Auditors on their suitability and independence, and recommended for their re-appointment at the forthcoming annual general meeting.

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK

Effective Risk Management and Internal Control Framework

The Board has overall responsibility for the system of Risk Management and Internal Control which includes financial controls, operational and compliance controls to ensure that shareholders' investments, customers' interests and the Company's assets are safeguarded.

The Board discharges its risk governance and oversight functions via the Board Governance & Risk Committee ("BGRC") who undertake governance and compliance duties and responsibilities in addition to the oversight of risk management matters and reviews the effectiveness of risk management framework to manage the overall risk exposure to the Group, monitor the exercise of Integrity & Governance unit and overseeing the overall issue of corruption, fraud, malpractice & unethical conduct within the organisation.

While the BGRC is responsible for assessing and monitoring the efficacy of the risk management controls and measures taken, the AC is responsible for the review of the adequacy and effectiveness of the internal controls through the work performed by the Internal Audit function.

For the year under review, the BGRC comprises 4 members with a majority being Independent Non-Executive Directors, operate within defined terms of references.

The Statement on Risk Management and Internal Control as set out on pages 237 to 245 of this Annual Report provides an overview of the state of internal controls within the Group.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

C

INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

COMMUNICATION WITH STAKEHOLDERS

The Group has been transparent and accountable to its shareholders and investors and recognises the importance of timely dissemination of information to shareholders and other stakeholders. The Board is also committed to ensure that the shareholders and other stakeholders are well informed of major developments of the Company and the information is communicated to the stakeholders through the following channels:-

- ▶ Annual Report;
- ▶ Various disclosures and announcement to Bursa Securities including quarterly results;
- ▶ Analyst briefings, press releases and announcements to the media;
- ▶ Dialogues and presentations at general meetings to provide overview and clear rationale with regard to the proposals tabled for approval by shareholders;
- ▶ Online investor relations on the Company's website at www.uedgenta.com; and
- ▶ All announcements made by the Company to Bursa Securities will be posted on the Company's website at www.uedgenta.com.

The Company's website is a one-stop page that one could easily access to the above information. It has a dedicated section that provides investors with detailed information on the Group's business, commitments and latest developments.

Keeping up with the trend, the Company also has an Instagram account, a social media channel which is constantly updated with the happenings of the Company. The message and email functions are also activated on Instagram, for the public's convenience should they wish to reach out to the Company.

Shareholders may forward any concern/queries to Investor Relations at ir@edgenta.com and all relevant and appropriate issues raised will be addressed accordingly.

While the Company endeavours to provide as much information as possible to its shareholders and stakeholders, the Company is mindful of the legal and regulatory framework governing the release of material and price-sensitive information.

The Company has in place, the Corporate Disclosure Policy which outlines the Company's approach towards the determination and dissemination of confidential information, the circumstances under which the confidentiality of information will be maintained and restrictions on insider trading. The Corporate Disclosure Policy also provides guidelines in order to achieve consistent disclosure practices across the Group.

The Annual Report 2022 was presented based on Integrated Reporting. The Company has fully adopted integrated reporting based on a globally recognised framework.

The summary of engagements with stakeholders are available on pages 56 to 61.

CONDUCT OF GENERAL MEETINGS

The annual general meeting ("AGM") is the principal forum for dialogue with shareholders. Shareholders are provided with an opportunity to participate in the question and answer session in which shareholders may raise questions pertaining to the business activities of the Company.

For the AGM held on 16 June 2022, the Notice of AGM was given to shareholders on 29 April 2022. The Notice together with the relevant reports and circular was given more than 28 days prior to the AGM to allow sufficient time to consider the resolutions that would be discussed and decided at the AGM.

The meeting which was conducted in its entirety via live streaming and online remote voting at the Broadcasting venue at Menara UEM, was attended by all Directors. Besides the Directors, the Company Secretary, Senior Management and External Auditors were also in attendance.

The Chairman as well as the Managing Director/Chief Executive Officer, together with the Chairpersons of Board Committees and the External Auditors, if so required, will respond to questions from shareholders at the AGM.

The answers to the live questions that were not answered at the AGM due to time constraint was reverted to shareholders via email. Meanwhile, the questions submitted prior to the AGM were published on the website of the Company together with their answers. These pre-AGM questions were also addressed at the AGM.

The summary of the AGM proceeding was uploaded on the website within 30 business days after the completion of the AGM on 22 July 2022.

Taking cognisance of shareholders' rights and with the Company's aim to provide a good meeting experience to shareholders, the Management would be exploring with the virtual service provider on the possibility to incorporate a two-way engagement and to explore effective ways to have questions received to be made visible to all meeting participants.

This Corporate Governance Overview Statement was approved by the Board on 28 March 2023.

AUDIT COMMITTEE REPORT

The Board is pleased to present the Audit Committee (“AC”) Report which provides insights on how the AC discharge its function and duties for the financial year ended 31 December 2022.

The AC assists the Board in its oversight of the Company’s financial reporting, and in fulfilling its fiduciary responsibilities relating to internal controls. This includes overseeing the proper maintenance of financial and accounting records and setting policies as well as financial reporting practices of the Group. It also reviews related party transactions and conflict of interest situations that may arise within the Group.

COMPOSITION AND MEETING ATTENDANCE

The composition of the AC and meeting attendance for financial year 31 December 2022 are available in pages 222 to 223 of the Corporate Governance Overview Statement.

SUMMARY OF ACTIVITIES OF THE AC

During the year, the Chairperson of AC met the Internal Audit team regularly and had pre-meeting discussions of their activities and reports.

In line with the terms of reference of the AC, the following works were carried out by the AC during the financial year ended 31 December 2022:-

A. FINANCIAL STATEMENTS AND CORPORATE GOVERNANCE

1. Reviewed the quarterly and annual financial statements of the Company and of the Group; and recommended them for Board’s approval, focusing particularly on:-

a) appropriateness and relevance of accounting policies and practices adopted and their application in compliance with current accounting standards;

b) any significant non-recurrent or unusual transactions made or events occurred during the year;

c) any significant changes to the basis of preparation of the financial statements or new accounting standards adopted during the year which impacted the result or financial position of the Group;

d) the going concern assumption used in the preparation of the financial statements;

e) significant accounting and auditing matters including financial reporting issues, estimates or judgements made by Management, unusual events or transactions, and how these matters are addressed; and

f) compliance with financial reporting standards and other regulatory requirements.
2. Reviewed recurrent related party transactions of a revenue or trading nature which are necessary for the day-to-day operations in the ordinary course of business of the Company and its subsidiaries to ascertain as to whether they are undertaken on an arm’s length basis on normal commercial terms not more favourable to the related parties than those generally available to the public or those extended to unrelated parties and are not detrimental to the minority shareholders.

3. Reviewed the Circular to Shareholders in respect of the proposed shareholders’ mandate for recurrent related party transactions and proposed new mandate for additional recurrent related party transactions of a revenue or trading nature.

4. Reviewed and recommended the Corporate Governance Overview Statement, Corporate Governance Report, AC Report and Statement on Risk Management and Internal Control, to the Board for its approval.

5. Considered the proposed change of segmental disclosure for alignment with the Edgenta of the Future 2025 (“EoTF 2025”) vision.

B. INTERNAL AUDIT

1. Reviewed the scope, functions and resources of the Internal Audit Department (“IAD”) to ensure that it had the necessary competency, independence and authority expected by the professional standards and applicable guidelines to carry out its work professionally and with impartiality and propriety.

2. Reviewed and deliberated the internal audit reports (planned and ad-hoc) and ensured that audit observations and appropriate recommendations were discussed and agreed with Management including timelines set to be taken for remedial actions on gaps or lapses of controls or procedures identified by IAD.

3. Reviewed the status of implementation, effectiveness, and adequacy of management’s corrective actions through follow-up audit reports to ensure all key risks and control issues were addressed adequately and in a timely manner.

4. Reviewed and approved the Internal Audit Plan, including changes for adequacy and appropriateness of coverages. The above included the risk-based planning methodology, high-level review scope and its manpower requirement for the proposed audit activities.

5. Assessed and approved the performance rating of IAD and the IAD Scorecard.

6. Assessed and recommended the appointment of new Head of Internal Audit for the Board’s approval.

7. Suggested additional improvement opportunities in the areas of internal control, systems and operational efficiency.

C. EXTERNAL AUDIT

1. Reviewed with the External Auditors:-

a) The audit plan, audit methodology and scope of work, especially on areas identified for audit focus for the year;

b) Their comments and issues arising from their annual audit, their audit report and management letter of comments on the group internal control;

c) The key audit matters highlighted for inclusion in the audit report and the audit process in addressing them; and

d) The Group’s financial reporting process including consolidation.
2. Assessed the objectivity, suitability and independence of the External Auditors in carrying out their audit during the year and this included their appointment for non-audit services.

3. Discussed with the External Auditors on 22 November 2022 and 20 February 2023 without the presence of the Managing Director/Chief Executive Officer and Management, on any concerns/issues affecting their audit, the results of audit, including the level of cooperation rendered by Management in respect of their access to financial information and accounting records.

4. Evaluated the performance of the External Auditors and due to their satisfactory performance based on the feedback received via assessment questionnaires and the 2021 Annual Transparency Report, recommended their re-appointment to the Board of Directors.

5. Reviewed and recommended the audit fees for the Board’s approval.

AUDIT COMMITTEE REPORT

INTERNAL AUDIT FUNCTION

The Group has established its own IAD to provide independent and objective assurance to the AC and the Board that the established internal controls, risk management, and governance processes are adequate and operating effectively and efficiently as well as complied with the relevant internal rules and regulations.

The IAD activities and practices are closely guided by the International Professional Practice Framework ("IPPF") on Internal Auditing issued by the Institute of Internal Auditors ("IIA").

The information on the resources, objectivity, and independence of the internal auditors are provided in the Corporate Governance Report in accordance with Practice 11.2 of the revised Malaysian Code on Corporate Governance issued by the Securities Commission Malaysia in 2021.

The AC reviews and approves the IAD's manpower requirements to ensure the function is adequately resourced with competent and proficient internal auditors. During the year, the search for a new Head of Internal Audit has been initiated and is ongoing. As an interim measure, the Head of Risk, Integrity and Compliance is double hatting as the Acting Head of Internal Audit, in view of the focus on risk-based audit plan/reviews.

The total cost incurred for the internal audit function for financial year ended 31 December 2022 is approximately RM1,427,000, comprising mainly salaries, training, and traveling expenses for audit assignments.

SUMMARY OF ACTIVITIES

The IAD implements a risk-based audit methodology in establishing its annual audit plan. The audit plan 2022 which was approved by the AC on 19 November 2021, had considered the Group's identified risks and focused on auditable areas where the risks would have the most impact on the business objectives of the Group. Among the focus areas are revenue concentration risks, litigation risks, cybersecurity risks, business strategy execution risks, information security risks, project execution risks, overseas business expansion risks, and sustainability risks.

The scope of the planned audit assignments for the financial year 2022 covered the following:-

- Operational audits in Healthcare Support, Infrastructure Services, Asset Consultancy, and overseas operations.
- Audit on Information Technology, Cybersecurity and Support Services.
- Quarterly review on Related Party Transactions/Recurrent Related Party Transactions.

During the year, AC had reviewed and deliberated on a total of ten (10) internal audit reports in relation to the audits carried out, together with the audit recommendations made by IAD and the Management Responses to those recommendations. Representatives of IAD attended all the planned AC meetings during the year to brief the AC on audit results and significant matters raised in the detailed IAD reports. The Heads of Divisions, where required, were also invited to the AC Meeting to provide further explanations on the audit observations highlighted. Where appropriate, the AC directed Management to rectify and improve control and workflow procedures.

The AC, at all its quarterly meetings, also reviewed the implementation status of the corrective actions arising from the audit recommendations to ensure that the key risks and control lapses were addressed in a timely manner.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

In accordance with the practise set out in the revised Malaysian Code on Corporate Governance issued in April 2021, a listed company should establish an effective risk management and internal control framework.

The Board of Directors ("Board") is pleased to provide this Statement on Risk Management and Internal Control pursuant to Paragraph 15.26(b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and as guided by The Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers.

RESPONSIBILITY AND ACCOUNTABILITY

| Responsibility of the Board | Board and Board Committees | General Management Committee |
|---|---|--|
| <p>The Board affirms its commitment and responsibility in maintaining a sound and effective system of risk management and internal control in safeguarding shareholders' interests and the Group's assets.</p> <p>The Board is constantly and actively identifying the Group's level of risk tolerance, assessing and monitoring the key business risks. The risk management and internal control system adopted by the Group are reviewed and updated periodically to align with the dynamic changes in the business operating environment as well as changes in regulatory requirements.</p> <p>The Board acknowledges that the risk management and internal control system are designed to manage and reduce the risk of not achieving business objectives and can only provide reasonable and not absolute assurance of effectiveness against material misstatement of management and financial information and records, financial losses or fraud or any occurrences of unforeseeable circumstances.</p> | <p>For the financial year under review, there are nine (9) Directors on the Board comprising one (1) Managing Director/Chief Executive Officer ("MD/CEO"), five (5) Independent Non-Executive Directors and three (3) Non-Independent Non-Executive Directors.</p> <p>The Board is supported by a number of established Committees, namely the Audit Committee ("AC"), Board Governance and Risk Committee ("BGRC"), Nomination and Remuneration Committee ("NRC"), Board Tender Committee ("BTC") and Board Investment Committee ("BIC") which examine all matters within its scope and responsibilities, and report to the Board with its recommendations for the Board's decision.</p> <p>The responsibilities and functions of the Board, each of its committees and the individual directors are specified in its respective Terms of Reference and Board Charter.</p> | <p>The General Management Committee ("GMC") is chaired by the Managing Director/Chief Executive Officer and comprises the Chief Financial Officer, Chief Strategy Officer, Chief People Officer, Chief Digital Officer and management team members from the respective business divisions and corporate support services.</p> <p>The key roles of the GMC are to drive strategic execution, deliberate and resolve the Group's key strategic and operational issues in a timely manner and keep track of key business developments.</p> <p>The GMC also serves as a platform to monitor the Group's strategic direction and for members to report on their respective business and operation plans to the Managing Director/Chief Executive Officer, highlight issues and devise solutions/corrective plans, as well as address other matters as directed by the Board and/or the Managing Director/Chief Executive Officer.</p> |

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

RISK MANAGEMENT COMMITTEE

The Risk Management Committee (“RMC”) is responsible to implement the policies and procedures established by the Board and Board Governance and Risk Committee (“BGRC”) in ensuring a sound and robust Risk Management Framework (“RMF”) to achieve the Group’s strategic objectives, safeguard shareholders’ investments and its assets.

The RMC is chaired by the Group’s Managing Director/Chief Executive Officer and consists of Head of Companies of the Group and co-opted members from the management team of the Group.

The RMC undertakes the following responsibilities:

- ▶ Review and recommend risk management policies and procedures for the approval or acknowledgement of the BGRC and Board and Managing Director/Chief Executive Officer respectively;
- ▶ Act as Primary Champion of risk management at strategic and operational levels;
- ▶ Review the ongoing adequacy and effectiveness of the risk management process;
- ▶ Review and deliberate on identified risks, controls and risk mitigating strategies to ensure that these are adequately managed;
- ▶ Review the Group’s resilience in event of a crisis or disaster and ensure adequate insurance coverage against key risks and perils;
- ▶ Review and implement compliance programmes to drive and embed a culture of ethical behaviour and integrity; and
- ▶ Ensure that the BGRC and Board receive adequate and appropriate information for review and decision-making purposes.

The RMC is assisted by the Risk, Integrity & Compliance Department (“RICD”), which is primarily responsible for the implementation of the risk management, business resilience and compliance integrity processes and practices within the Group. A Charter, which defines RICD’s responsibilities, scope and authority, has been established and endorsed by the Board.

RISK MANAGEMENT

Managing risks is an integral part of the Group’s daily business activities and management decision making process. It involves the activity of identifying, assessing, monitoring and managing risks and uncertainties that could inhibit the Group’s ability to achieve its strategy and strategic objectives.

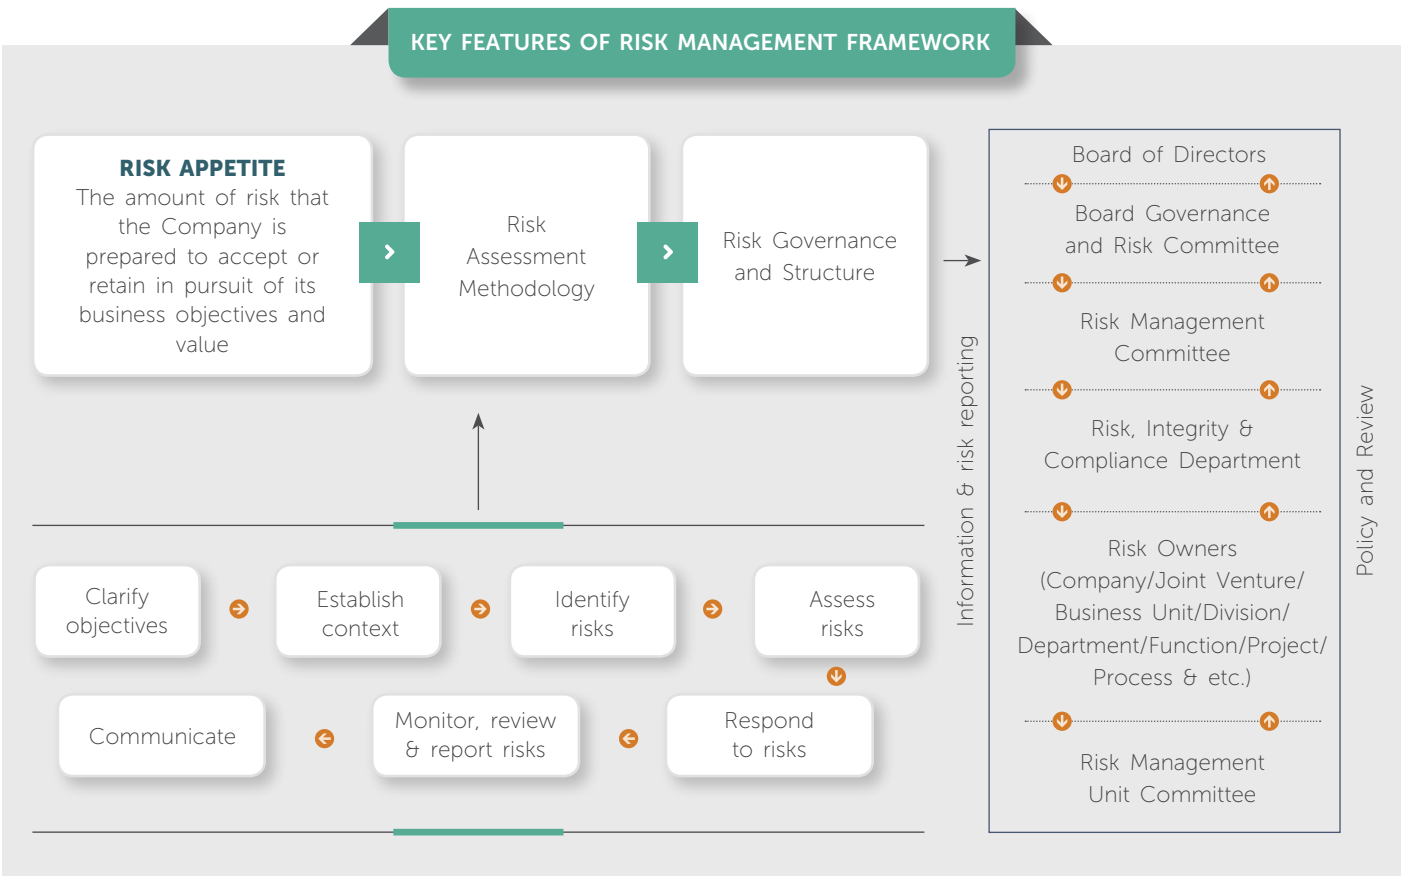

Risk Management Framework

The Group has in place a Risk Management Framework (“RMF”) that provides the foundation and organisational arrangement for managing risk across the Group.

Principally aligned with ISO:31000, the RMF sets out the context and objectives, emphasising on enterprise-wide risk assessment and management encompassing the identification, assessment and measurement, mitigation responses, as well as monitoring, communicating and reporting of risks.

The RMF serves as a tool in managing both existing and emerging risks with the objective to enhance and protect stakeholders’ interests and at the same time to safeguard the Group’s assets and reputation.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Risk Management Approach

The Group’s risk management approach adopts a process which entails a consistent and systematic approach in the identification, assessment, monitoring and reporting of risk exposures.

The risk management process is applied throughout the whole of the Group (enterprise level) or to any part of a business (i.e., divisions, departments, functions, business units and projects).

The risk management approach comprises sequential steps of activities that are interrelated and iterative as follows:

- Set/clarify business objectives
Set and understand the objectives for the Group and/or its business.

- Establish the context
Establish the context and boundaries within which the Group and/or the business operates.

- Risk Identification
Identify risks together with their respective causes and consequences which could affect/influence the achievement of the Group and/or business objectives.

- Risk Assessment
Identified risks are prioritised to determine the overall effect on the Group and/or business by evaluating the potential impact on business objectives should a risk materialise together with the likelihood of its occurrence.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

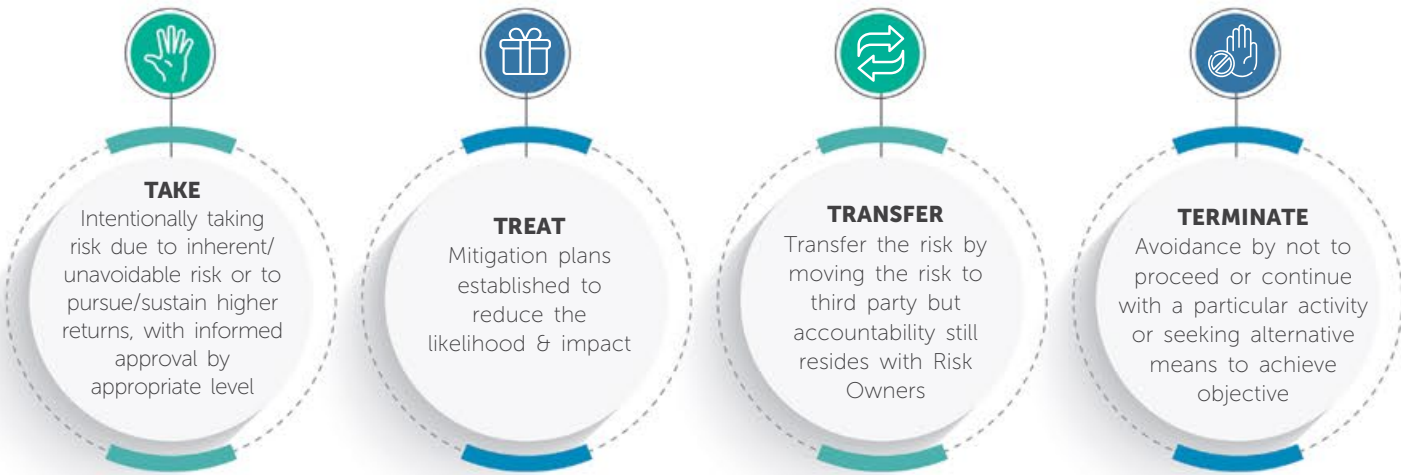

The Group adopts the following risk rating matrix to articulate the relationship between risk impact and likelihood:

| Likelihood | Risk Rating | | | | |
|------------|---------------|-------------|-------------|-------------|--------------|
| | Risk Impact | | | | |
| | Insignificant | Minor | Moderate | Major | Catastrophic |
| Certain | Medium | Significant | Significant | High | High |
| Likely | Medium | Medium | Significant | Significant | High |
| Possible | Low | Medium | Medium | Significant | High |
| Unlikely | Low | Medium | Medium | Significant | Significant |
| Remote | Low | Low | Medium | Medium | Significant |

e. Risk Response

Risk treatment involves developing a range of responses and options for mitigating the risks.

The Group adopts the **4Ts** (*Take, Treat, Transfer & Terminate*) strategy in responding to the identified risks and qualifies these risks according to the acceptable levels by the relevant risk owners and stakeholders.

f. Monitor, review and report risks

Risk events and trends to be continually reviewed, assessed and monitored. Similarly, risk responses are monitored continuously to ensure that risk responses and mitigations remains relevant and are operating as designed and expected.

g. Communication

Communication is required for an effective risk management programme. Changing business conditions continuously alters the risk profile of the Group and/or business, hence, frequent and explicit conversations about risk is vital to maintain continued awareness and management of key risks.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Summary of Risk Management Activities

Risk management activities undertaken for the financial year at the Group and subsidiaries to instil a proactive risk management culture and ownership are as follows:

- Periodic risk awareness briefings and risk management workshops are conducted as continuous efforts to inculcate a proactive risk-aware culture within the Group.
- Risk Management Status Reports are produced quarterly at the minimum and are presented to the RMC, BGRC and Board for deliberation and approval.
- Quarterly review and monitoring implementation of risk action plans by RICD to ensure appropriateness and effectiveness.
- Identification and reporting of emerging, key business risks and mitigation plans to the RMC, BGRC and Board for deliberation and approval.
- Provides risk management consultation and advisory services to projects, investment and potential business leads.

Integrity & Compliance

Integrity & Compliance are the foundation and values in our day-to-day decision-making and business practices.

UEM Edgenta is committed to uphold its integrity and compliance value in carrying out its business operations. The Group has embarked on the journey to obtain the international accreditation of MS ISO 37001:2016 Anti-Bribery Management System (ABMS) as a testament to our zero tolerance against corruption.

In line with the regulatory requirements, UEM Edgenta had adopted best practices and has the following framework, policy & procedures in place:

- Code of Conduct for Directors and Employee
- UEM Edgenta's Code of Conduct for Directors and Employee expresses our commitment to build trust in our business ecosystem, and it outlines ethical behaviour standards in our business activities, accompanied by important policy statements.

- Code of Conduct for Business Partners ("COCBP")
- UEM Edgenta's Code of Conduct for Business Partners sets the expectations for our dealings with this key stakeholder group.
- Business Partner's Letter of Declaration ("BPLOD")
- The Business Partner's Letter of Declaration has been established to maintain a high standard of integrity in our business operations and ensure business partners embrace the spirit of commitment to integrity and high ethical standards as set out in UEM Edgenta's Code of Conduct for Business Partners.
- Compliance Framework
- The framework aims to establish and embed the culture of ethics and integrity, consistent with the values of the organisation and promote the culture of commitment to lawful and ethical behaviour.
- Third-Party Risk Management Framework
- This framework is to safeguard the interests of stakeholders by ensuring that third-party risks are adequately and properly managed to mitigate the impact on reputation, operations, and financials of UEM Edgenta.
- Compliance checks include:
- Evaluation of the Third-Party's governance, values, code of conduct, anti-corruption programme and policies
- Checks of evidence of good practice compliance
- Anti-Bribery & Anti-Corruption ("ABAC") Policy Statement
- At UEM Edgenta, we strive to uphold our core values and to present ourselves with integrity, ethics, and accountability as essential components which the Company and its employees must harness at both professional and personal levels.
- Anti-Bribery & Anti-Corruption ("ABAC") Guide
- UEM Edgenta takes a zero-tolerance approach to bribery and corruption and is committed to adhering to the highest standards of ethical behaviour in the conduct of all its business dealings and relationships. This is an essential guide to manage bribery and corruption risk.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

- ▶ ABMS Manual

This Manual sets out requirements in relations to MS ISO 37001:2016 Anti-Bribery Management System and provide guidance of a management system designed to help UEM Edgenta to prevent, detect, respond, and address to bribery and corruption.
- ▶ No Gift Policy

UEM Edgenta upholds the “No Gift Policy” to avoid actual or perceived conflict of interest, in accordance with UEM Edgenta’s Code of Conduct.
- ▶ Conflict of Interest Declaration Procedure

This procedure serves as a guide to making a declaration on a possible conflict of interest and actions to be taken therefrom.
- ▶ Investigation Procedure

The procedure has established a consistent process to ensure that alleged violations of UEM Edgenta Code of Conduct, policies and procedures, and applicable rules and regulations are assessed and investigated properly, that outcomes are recorded uniformly and in a timely manner, and that any necessary corrective action and/or external reporting is executed appropriately.
- ▶ Authorities’ Raid/Visit Procedures

This procedure sets out the key practical points to be considered in providing an effective response when facing the authorities’ raid.

Whistleblowing Policy Statement

UEM Edgenta is committed to adhering to the highest standards of ethical behaviour in terms of governance, integrity, accountability, and transparency in the conduct of our business and operations, which is in line with Edgenta’s core values of FIRST. We aspire to conduct our business dealings and relationships in an ethical, responsible, and transparent manner.

The policy encourages the reporting of wrongdoings in good faith, with the assurance that personnel or any parties making such reports shall be treated fairly, their identity remains confidentiality and are protected from retaliation.

Whistleblowing Procedure

UEM Edgenta’s Whistleblowing Procedure provides an avenue for its employees, stakeholders and members of the public to report any actual or suspected malpractice, misconduct or violation of Group’s policies and procedures through dedicated and confidential channels (Whistleblowing Lodgement Form to the Chairman of the Board or Chairman of BGRC or email to the Whistleblowing Committee at whistleblowing@edgenta.com) which are available on our UEM Edgenta Official Website.

The Whistleblowing Procedure encourages the reporting of such allegations in good faith, with the assurance that employees or any parties making such reports will be treated fairly, their identity remains anonymous and are protected from reprisal. All disclosure will be verified and evaluated by the Whistleblowing Committee. The Chairman of the Whistleblowing Committee shall then report to the BGRC and Board on all outcomes and recommendations of the investigation.

INTERNAL CONTROLS

The key elements of the internal control system established by the Board that provides effective governance and oversight of internal control include:

Policies and Procedures

Written policies are established to guide how a department or an individual within the Group works or behaves and provides guidance to employees as to what their obligations are. Some policies are supported by procedures which describe the steps the employees shall take to produce an output or to complete a process. The policies and procedures also form part of the various management systems which are reviewed and updated periodically to ensure that they remain relevant and reflective of the Group’s operating and business environment.

The Group, via its subsidiaries, have in place several Internationally Accredited Management Systems (for e.g., ISO 9001:2015 – Quality Management System, ISO 45001:2018 – Occupational Quality Health & Safety Management System, ISO 14001:2015 – Environmental Management System, ISO 13485 – Medical Devices Quality Management System and ISO 39001:2012 – Road Traffic Safety Management System) to standardise its management and operational processes and to further improve its efficiency. These certifications reflect the Group’s commitment to ensuring quality deliverables to customers, safeguard safety and health of employees and safeguard the environment.

The Group has also established a HSSE Management Systems, comprising HSSE Rules, standard operating procedures and processes, to inculcate a strong HSSE culture and sustainable HSSE performance. This also includes introducing an enhanced UEM Edgenta HSSE Management System Manual which seeks to make the HSSE execution simpler and more aligned within the Group.

The Group has dedicated teams to carry out Quality Assurance/ Quality Control, and Health, Safety and Environment activities to ensure continuous improvement of processes and ongoing compliance with the established internal policies and procedures, International Management System Standards, contracts and relevant legal requirements.

Organisational Structure

The organisational structure of the Group is clear and detailed, defining the roles, responsibilities and reporting line of the various Committees of the Board; Management of the Corporate Office and subsidiaries; departments and individuals.

The Board appoints the Managing Director/Chief Executive Officer of the Group, Chief Financial Officer, Chief Strategy Officer, Chief People Officer, Chief Digital Officer, and Heads of Divisions/ Business within the Group, as well as holders of mission-critical position.

The organisational structure is reviewed regularly to assess its effectiveness and to ensure that it is in line with any changes in business requirements.

Operating Plans and Strategies

The Group undertakes a comprehensive annual budgeting and forecasting exercise to ensure that the development of business plan for respective operating divisions are in line with the Group’s 5-year operating plan, short-term and long-term strategic plans.

Each Business Unit is responsible for carrying out a comprehensive analysis on current and prior years’ performances and identifying the strategic priorities for consideration and commitment in the Group Annual Operating Plan (“AOP”), 5-year operating plan and strategic plan. These form the basis for the development of Key Performance Indicators (“KPIs”) to be included in the Group’s Corporate Scorecard and MD/CEO’s Scorecard which are deliberated, reviewed by the Board for approval.

The approved AOP, 5-year operating plan and strategic plans are then cascaded to the senior management team across the Business Units for planning, monitoring and execution.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The Group monitors the business performance of respective business divisions through its KPIs and measures them against the approved AOP, 5-year operating plan and strategic plan on a regular basis via its General Management Committee meetings and other ad hoc meetings to be carried out by the senior management as and when necessary. Reports and analysis on variances against the AOP are prepared and monitored, taking into consideration current and future macro/microeconomic situations and business landscapes. A report on the year-to-date quarterly Group results and performance is submitted and presented to the Board on a quarterly basis.

The management is responsible for identifying and executing any mitigation actions, where necessary.

Employee’s Authority and Responsibility

UEM Edgenta’s internal controls are embedded within the responsibility of each employee as specified in the Job Description.

The establishment of performance monitoring serves as a tool to monitor performance against the set KPIs and targets at various levels, covering key financials, customers, internal business processes and learning and growth indicators.

Discretionary Authority Limits

Clear delegation of authority is defined in the Discretionary Authority Limits (“DAL”), which sets the limit for strategic, operating and capital decisions and expenditures, as well as decision authority for each level of management within the Group, and also the Board’s authority.

The DAL is reviewed from time-to-time to ensure effectiveness of strategic and operational executions.

Procurement

In parallel with the implementation of Oracle ERP, GPCM functions as a centralised and coordinated procurement function to control and manage procurement activities within each of the Group’s key business division, encompassing eight (8) key areas, namely, Procurement Strategy & Performance, Category Management, Vendor Management, Sourcing, Purchasing Admin, Contract Management, Master Data Management, and Inventory Management.

The potential risks pertaining to these key areas are mitigated through procedural governance and compliance monitoring of the SOPs users. The SOPs will be reviewed periodically and updated as and when required to ensure continuous improvement of internal controls and taking into consideration any additional process improvement required.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The provisions for Integrity & Compliance (i.e., Code of Conduct for Business Partner, Business Partners Letter of Declaration), HSSE Management Requirements are incorporated accordingly in the procurement terms and conditions to create awareness on our anti-bribery, anti-corruption, safety and accountability policies amongst our suppliers and contractors at the early stage of engagement with these stakeholders.

Insurance on Assets

Sufficient insurance coverage and physical safeguards on the Group assets, including its human resources are in place to ensure adequate coverage against any mishaps that could result in material loss. Coverage typically includes damage to or theft of assets; liability coverage for the legal responsibility to others for accidents, bodily injury or property damage; and medical coverage for the cost of treating injuries and illnesses, rehabilitation and fatalities.

Insurance coverage is reviewed regularly to ensure sufficient coverage in view of changing business environment or assets.

Business Continuity Management

Business Continuity Management (“BCM”) is defined as an all-rounded management process that recognises possible threats to a company and the effects on business operations it may cause, and offers an outline for building organisational flexibility with the aptitude for an effective response that protects the interests of its key stakeholders, reputation, brand and value-creating actions.

UEM Edgenta continues to deliver an effective BCM programme as part of its efforts to enhance organisational resilience that enables effective response to continue operations and deliver critical services in the event of any crisis and disruption.

Human Resources Management

UEM Edgenta’s internal controls are realised and supported by a formal organisational structure. This official structure is made of defined lines of authority, responsibility and accountability. These lines of authority, responsibility and accountability are continuously and transparently updated and improved to demonstrate good governance.

Talent acquisition policies and guidelines are established within UEM Edgenta and its subsidiaries. This is to ensure the selection of suitable candidates who meet the job requirements and core competencies for the role in UEM Edgenta. Potential candidates will go through a structured recruitment process which includes interviews by the hiring manager and relevant stakeholders; and for certain roles, additional assessments would be applicable. A thorough and complete pre-employment background screening

which includes medical screening, checks on past employment records, education and qualification records, credit records, criminal records, directorship and reference check, would be performed before the job offers are issued. This is a control measure to minimise the risk to the Company.

To ensure that we are able to develop a capable, agile and competitive workforce, employees are provided with structured internal technical and soft skills training, mobility opportunities and external development programmes, as well as professional certification opportunities for identified employees. Technical skills training is also prioritised through the development of a technical competency framework and subsequent development interventions. These interventions are tied back to the Individual Development Plan of our employees.

Management Information Systems (“MIS”)

The Group is continually investing in tools and solutions to migrate processes, people, and technology to the cloud for improved data collection, analysis, and evaluation of organisational development and operational performance. To maximise the benefits of cloud computing, the Group has established partnerships with Microsoft and Alibaba, utilising both the Azure and Alibaba cloud platforms for hosting, deploying, and managing systems and applications.

The Group has also converted its data centre into a hybrid cloud, primarily hosting development and test environments, which facilitates seamless deployment across different clouds. With this transition to cloud computing, the Group can allocate its resources more effectively, freeing them from managing physical hardware, networks, and infrastructure, and instead focusing on enhancing its digital capabilities to digitise and transform core business operations. This investment in cloud-related technologies also accelerates application development and simplifies technical operations.

The Group places a high priority on cyber security and adopts adequate governance measures, such as implementing robust access controls and conducting security audits, at the earliest stages of software development. This proactive approach helps to ensure compliance with industry regulations and protects against evolving cyber threats. The Group carefully balances the advantages of utilising cloud technology with the requirement to maintain the confidentiality and integrity of data through regular assessments and updates.

Disaster Recovery Planning

The Group’s Business Continuity Management (BCM) process encompasses Disaster Recovery Planning to secure its data, systems, and applications stored in the cloud with backup and protection in a safe location. Quick access to company data ensures seamless business continuity, minimising downtime and preserving productivity.

Joint Ventures and Associates

The disclosures in this statement do not include the risk management and internal control practices of the Group’s joint venture and associate companies, as the Board does not have any direct control over their operations.

The Group’s interests in these entities are safeguarded through the representation on the Boards of the respective companies where management accounts and periodical reports are received and reviewed, as well as deliberation on proposals related to these companies. Such representation also provides the Board with information for decision-making on the continuity of the Group’s investments based on the performance of the Group’s joint venture and associate companies.

Internal Audit

The Group has established its own Internal Audit Department (“IAD”) to carry out the internal audit function of the Group. IAD reports functionally to the Audit Committee (“AC”) and administratively to the Managing Director/Chief Executive Officer. The IAD regularly reviews the Group’s systems of internal controls and evaluates the adequacy and effectiveness of the controls, risk management and governance processes implemented by the management. The reviews conducted are based on the risk-based Annual Audit Plan approved by the AC. The results of audit reviews, including status of management action plans to address gaps identified in the governance processes, risk management processes and controls during the engagements are reported regularly to the AC for deliberation.

The Group has also established a Management Audit Committee (“MAC”) to ensure effective actions are taken to address internal control weaknesses and proper closures of all audit issues and areas for improvement highlighted by the IAD. The MAC is chaired by the Managing Director/Chief Executive Officer and holds its meeting regularly.

Internal control weaknesses and areas for improvement regarding risk management and governance identified during the financial period under review have been or are being addressed by the management. None of the weaknesses identified have resulted in any material loss that would require disclosure in the Group’s financial statements.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

ASSURANCE FROM MANAGEMENT

The Board has received assurance from the Managing Director/ Chief Executive Officer and Chief Financial Officer that a review on the adequacy and effectiveness of the risk management framework and internal control system has been undertaken and the Group’s risk management and internal control system are operating adequately and effectively, in all material aspects, based on the risk management and internal control system of the Group.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

The External Auditor has performed limited assurance procedures on this Statement on Risk Management and Internal Control in accordance with the Malaysian Approved Standard on Assurance Engagements, ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information and Audit and Assurance Practice Guide 3, Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control included in the Annual Report issued by the Malaysian Institute of Accountants (“MIA”) for inclusion in the Annual Report of the Group for the year ended 31 December 2022, and reported to the Board that nothing has come to their attention that causes them to believe that the statement is not prepared, in all material respects, in accordance with the disclosure required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is the Statement factually inaccurate.

This Statement on Risk Management and Internal Control was approved by the Board on 28 March 2023.

CONCLUSION

The Board is of the view that the risk management and internal control system are in place for the year under review, and up to the date of approval of the Statement on Risk Management and Internal Control, are sound and sufficient to safeguard shareholders’ interests and the Group’s assets.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

At UEM Edgenta, we are committed to strengthening the integrity & ethical culture across the organisation. The shared values we instill in our DNA to steer businesses and operations are anchored to uncompromising integrity and exceptional performance. As we actively lay solid foundations across all businesses and remain steadfast in pursuing our growth plans through geographical expansion, new products & services, cost optimisation, and tech-enabled solutions, upholding these values and presenting ourselves with integrity, ethics, and accountability are essential components which we must harness at both a professional and personal level. As a public listed company, we are adamant that all our business undertakings and proceedings are in strict adherence to good corporate governance practices.

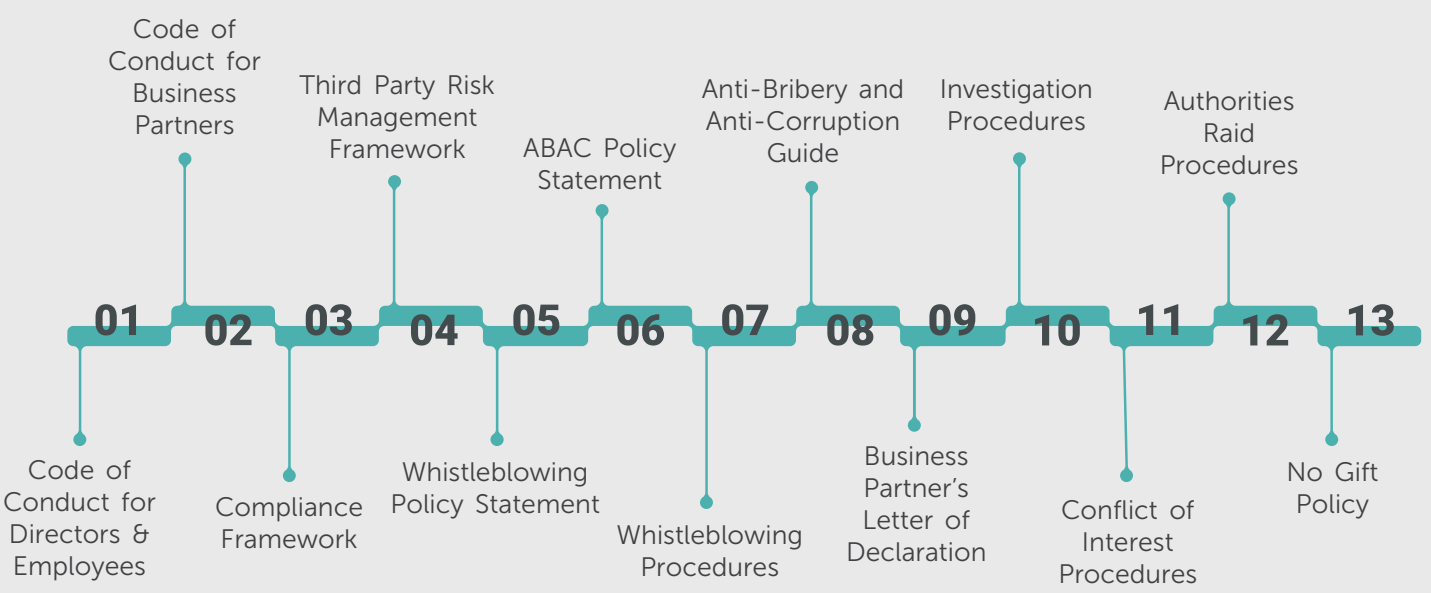

The Board is committed to the Anti-Bribery & Anti-Corruption ("ABAC") measures such as ABAC Guide by ensuring that the document is enforced appropriately. As a yardstick in terms of ABAC, we are guided by the following legal and regulatory requirements that relate to the ABAC Guide:

UEM Edgenta has the following existing Framework, Policies, and Procedures in place to curb bribery and corruption:

Framework, Codes, Policies & Procedures

13 Integrity & Compliance

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

Our Core Values

In 2022, UEM Edgenta undertook the following initiatives to drive better governance and integrity culture under four strategic pillars, namely:

- Complaint Management:**

Involves the systematic management of information/complaints on the misconduct of corruption, abuse of power, malpractice, and violation of the organisation's code of conduct and ethics to ensure that action is taken on every information/complaint. In addition to supervising and monitoring complaints, the Integrity & Compliance Unit is responsible for the efficiency of the Complaints Management system.
- Detection and Verification**
 - Established a dedicated team to investigate grievances related to the breach of Code of Conduct ("COC") channeled to Whistleblowing Platform.
- Integrity Enhancement**
 - Conducted RICD Engagement Roadshow to instill and cultivate the adoption of Risk, Business Resilience, Integrity & Compliance into daily operation of Edgenta Stars
 - Conducted awareness briefing for business partner during Vendor Mass Training 2022 in collaboration with Group Procurement and Contract Management
 - Webinar focused on the understanding of the term "Governance" from an ESG perspective, its relation to the Culture of Integrity and Compliance at UEM Edgenta and the role of employees in corporate governance
 - Conducted Authorities Raid Briefing to provide Edgenta Stars with the necessary knowledge on what to expect during a raid and in how to manage it effectively
 - Shared Integrity messages during Annual Management Dialogue 2022.
- Compliance and Governance**
 - Reviewed and revised existing Policies and Procedure according to MS ISO 37001:2016 Anti-Bribery Management System certifications requirements
 - Completed Stage 1 Certification Body audit for MS ISO 37001:2016 Anti-Bribery Management System
 - Instilling a culture of integrity and compliance at the workplace through educational awareness sessions such as engagement session and periodic communications.

UEM Edgenta is committed towards addressing any violations to the Code of Conduct, as well as any applicable laws, regulations, or policies. We have put in place several procedures and appropriate disciplinary actions against any unethical or improper practices.

The Whistleblowing Policy and Procedure encourages the reporting of such allegations in good faith, with the assurance that employees or any parties making such reports will be treated fairly, their identity remains anonymous and are protected from reprisal.

You can email your concern to whistleblowing@edgenta.com or write to the Chairman of the Board of Directors or Chairman of the Board Governance and Risk Committee, UEM Edgenta Berhad using the prescribed Whistleblowing Lodgment Form.

All disclosures will be verified and evaluated by the Whistleblowing Committee. The Chairman of the Whistleblowing Committee shall then report to the BGRC and Board on all outcomes and recommendations of the investigation in ensuring a supervisory overview of the ethical environment within UEM Edgenta.

ADDITIONAL COMPLIANCE INFORMATION

1. AUDIT AND NON-AUDIT FEES

During the financial year ended 31 December 2022, the total audit and non-audit fees paid or payable incurred for services rendered to the Group and the Company by the external auditors or a firm affiliated to the external auditors are as follows:

| | Company RM'000 | Group RM'000 |
|--------------------------|-------------------|-----------------|
| Statutory audit services | 212 | 1,474 |
| Non-audit services | 365 | 435 |
| Total | 577 | 1,909 |

The Group and the Company engaged the external auditors for the following non-audit works:

- Advisory services for the development of sustainability roadmap
- Review of Statement on Risk Management and Internal Control
- Tax compliance services

2. UTILISATION OF PROCEEDS RAISED FROM CORPORATE PROPOSALS

In 2017, the Company has established the Islamic Commercial Papers ("ICPs") and Islamic Medium Term Notes ("IMTNs") under an ICP Programme and IMTN Programme respectively, which have a combined aggregate limit up to RM1,000 million in nominal value and sub-limit of RM300 million in nominal value for ICP Programme under Shariah Principle of Murabahah via a Tawarruq Arrangement.

On 26 April 2017, the Company completed the issuance of RM250.0 million in nominal value of IMTNs with a tenure of 5 years.

On 26 April 2022, the Company redeemed its outstanding IMTNs amounting to RM250.0 million in nominal value upon its maturity. On the same date, the Company has reissued the IMTNs with the same nominal value with a tenor of four years (maturity date: 24 April 2026).

The proceeds raised from the IMTNs have been utilised by the Company for its Shariah-compliant general corporate purposes.

3. REVALUATION POLICY ON LANDED PROPERTIES

During the financial year ended 31 December 2022, the Group has adopted MFRS 140 Investment Properties and MFRS 13 Fair Value Measurement (for non-financial instruments) due to the transfer of land held for property development to investment properties.

Accordingly, the Group has adopted a revaluation policy on the land classified under investment properties. Please refer to the accounting policy and revaluation of the investment properties in Note 2.4(o) and Note 14 in the Audited Financial Statements which are set out in the pages 264 to 382 of this Annual Report.

4. MATERIAL CONTRACTS

Other than those disclosed in the financial statements and the recurrent related party transaction section in this Annual Report, there were no material contracts including contracts to any loans entered into by the Company and its subsidiaries involving Directors' and major shareholders' interests.

5. RECURRENT RELATED PARTY TRANSACTIONS

The Company proposes to seek approval of its shareholders for the renewal of mandate for recurrent related party transactions and the proposed new shareholders' mandate for additional recurrent related party transactions of a revenue and trading nature which is in the ordinary course of business at the forthcoming Annual General Meeting of the Company to be held in 2023.

FINANCIAL STATEMENTS

| | |
|---------------------------------------|-----|
| ► Directors' Responsibility Statement | 250 |
| ► Directors' Report | 251 |
| ► Statement by Directors | 257 |
| ► Statutory Declaration | 257 |
| ► Independent Auditors' Report | 258 |
| ► Statements of Comprehensive Income | 264 |
| ► Statements of Financial Position | 266 |
| ► Statements of Changes In Equity | 269 |
| ► Statements of Cash Flows | 271 |
| ► Notes to the Financial Statements | 273 |

DIRECTORS’ RESPONSIBILITY STATEMENT

For the Audited Financial Statements

The directors are required by the Companies Act 2016 to prepare the financial statements for each financial year which have been made out in accordance with applicable Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”) and the requirements of the Companies Act 2016 in Malaysia.

The directors are responsible to ensure that the financial statements give a true and fair view of the state of affairs of the Group and of the Company at the end of the financial year, and of the financial performance and cash flows of the Group and of the Company for the financial year then ended.

The directors consider that, in preparing the financial statements for the financial year ended 31 December 2022, the Group and the Company have:

- Adopted appropriate accounting policies and applied them consistently;
- Made judgements and estimates that are reasonable and prudent; and
- Prepared the financial statements on a going concern basis.

The directors are responsible to ensure that the Group and the Company keep accounting records which disclose the financial position of the Group and of the Company with reasonable accuracy, enabling them to ensure that the financial statements comply with the applicable MFRS, IFRS and the requirements of the Companies Act 2016 in Malaysia.

The directors are satisfied that they have met their obligations to present a balanced and fair assessment of the Group’s and of the Company’s position and prospects in the Directors’ Report on pages 251 to 256 and the Audited Financial Statements from pages 264 to 382 of this Annual Report.

DIRECTORS’ REPORT

The directors have pleasure in presenting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 December 2022.

PRINCIPAL ACTIVITIES

The principal activities of the Company are investment holding and provision of management services to its subsidiaries.

The principal activities and other information of the subsidiaries, joint ventures and associates are described in Note 46 to the financial statements.

RESULTS

| | Group RM’000 | Company RM’000 |
|----------------------------|-----------------|-------------------|
| Profit after tax and zakat | 45,651 | 38,209 |
| Attributable to: | | |
| Owners of the parent | 45,879 | 38,209 |
| Non-controlling interests | (228) | – |
| | 45,651 | 38,209 |

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

DIVIDENDS

The amounts of dividends paid by the Company since 31 December 2021 were as follows:

| | RM’000 |
|--|--------|
| In respect of the financial year ended 31 December 2021 as reported in Directors’ report of that year: | |
| Single tier interim dividend of 3.00 sen on 831,624,030 ordinary shares declared on 24 February 2022 and paid on 19 May 2022 | 24,949 |

On 28 February 2023, the Board of Directors has declared a single tier interim dividend of 4.00 sen per ordinary share on 831,624,030 ordinary shares, amounting to RM33,264,961 to be paid on 18 May 2023. The entitlement date is 20 April 2023. The financial statements for the current financial year do not reflect this dividend. This dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2023.

|-------------------------------------|--------------------------------|

DIRECTORS’ BENEFITS

Neither at the end of the financial year, nor at any time during that year, did there subsist any arrangement to which the Company was a party, whereby the directors might acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Since the end of the previous financial year, no director has received or become entitled to receive a benefit (other than benefits included in the aggregate amount of emoluments received or due and receivable by the directors or the fixed salary of a full time employee of the Company as shown below) by reason of a contract made by the Company or a related corporation with any director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

DIRECTORS’ REPORT

DIRECTORS’ BENEFITS (CONTD.)

The directors’ benefits are as follows:

| | Group RM’000 | Company RM’000 |
|---|-----------------|-------------------|
| Executive: | | |
| Salaries and other emoluments | 1,020 | 255 |
| Bonus | 255 | 255 |
| Contributions to defined contribution plans | 191 | 71 |
| Allowances | 50 | 13 |
| Benefits-in-kind | 28 | 7 |
| | 1,544 | 601 |
| Non-Executive: | | |
| Fees | 1,144 | 1,144 |
| Allowance | 53 | 53 |
| | 1,197 | 1,197 |
| Total | 2,741 | 1,798 |

During the financial year, the directors and officers of the Company are covered under the Directors and Officers Liability Insurance (“D&O Insurance”) in respect of liabilities arising from acts committed in their respective capacity as, inter alia, the directors and officers of the Company subject to the terms of the D&O Insurance policy. The insurance premium incurred by the Company was RM130,870.

DIRECTORS’ INTEREST

None of the directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

HOLDING COMPANIES

The Company regards UEM Group Berhad (“UEM Group”) and Khazanah Nasional Berhad, both incorporated in Malaysia, as its immediate and ultimate holding companies respectively.

OTHER STATUTORY INFORMATION

- (a) Before the statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and
- (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.

DIRECTORS’ REPORT

OTHER STATUTORY INFORMATION (CONTD.)

- (b) At the date of this report, the directors are not aware of any circumstances which would render:
- (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; and
- (ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) At the date of this report, there does not exist:
- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group or of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the directors:
- (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and
- (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

SIGNIFICANT EVENTS

Significant events are disclosed in Note 45 to the financial statements.

AUDITORS

The auditors, Ernst & Young PLT, have expressed their willingness to continue in office.

Auditors’ remuneration is as follows:

| | Group RM’000 | Company RM’000 |
|--|-----------------|-------------------|
| Ernst & Young PLT | 964 | 212 |
| Other member firms of Ernst & Young Global | 444 | – |
| Other auditors | 66 | – |
| | 1,474 | 212 |

DIRECTORS’ REPORT

AUDITORS (CONTD.)

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young PLT, as part of the terms of its audit engagement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young PLT for the financial year ended 31 December 2022.

Signed on behalf of the Board in accordance with a resolution of the directors dated 20 March 2023.

Tan Sri Dr. Azmil Khalili bin Dato’ Khalid

Syahrnizam bin Samsudin

STATEMENT BY DIRECTORS

Pursuant to Section 251(2) of the Companies Act 2016

We, Tan Sri Dr. Azmil Khalili bin Dato’ Khalid and Syahrnizam bin Samsudin, being two of the directors of UEM Edgenta Berhad, do hereby state that, in the opinion of the directors, the accompanying financial statements set out on pages 264 to 382 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2022 and of their financial performance and cash flows for the financial year then ended.

Signed on behalf of the Board in accordance with a resolution of the directors dated 20 March 2023.

Tan Sri Dr. Azmil Khalili bin Dato’ Khalid

Syahrnizam bin Samsudin

STATUTORY DECLARATION

Pursuant to Section 251(1)(b) of the Companies Act 2016

I, Chua Pei Sum, being the officer primarily responsible for the financial management of UEM Edgenta Berhad, do solemnly and sincerely declare that the accompanying financial statements set out on pages 264 to 382 are in my opinion correct, and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by
the abovenamed
Chua Pei Sum (MIA 39350)
at Kuala Lumpur in the Federal Territory
on 20 March 2023.

Chua Pei Sum

Before me,

Abdul Shukor Md Noor (No: W725)
Commissioner of Oaths
Kuala Lumpur

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of UEM Edgenta Berhad, which comprise the statements of financial position as at 31 December 2022 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 264 to 382.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2022, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors’ responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditors’ responsibilities for the audit of the financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis of our audit opinion on the accompanying financial statements.

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Key audit matters (contd.)

Key audit matters in respect of the audit of the financial statements of the Group

(a) Impairment assessment of goodwill

(Refer to Note 17 – Intangible assets, Note 2.4 (f)(i) and (i) – Summary of significant accounting policies: Intangibles assets - Goodwill and Impairment of non-financial assets and Note 2.5 (b)(iii) - Key sources of estimation uncertainty: Impairment of goodwill)

As at 31 December 2022, the carrying amount of goodwill amounted to RM561 million, representing 48% and 20% of the Group’s total non-current assets and total assets respectively. The Group is required to perform annual impairment assessment on the goodwill by comparing the recoverable amounts of the related cash generating units (“CGUs”) or groups of CGUs to its carrying amount.

The Group estimated the recoverable amounts of the CGUs based on value-in-use (“VIU”). Estimating VIU involves the discounting of the estimated future cash inflows and outflows expected to be derived from the CGUs using appropriate discount rates to their present values.

This was our area of focus as the impairment assessment was complex and highly judgemental. The estimation of VIU involved the assessment of possible variations in the amounts and timing of future cash flows, particularly the forecasted revenue, profit margins and long-term growth rate, based on assumptions affected by future market and economic conditions in the respective geographical regions. Judgement was also applied in determining the appropriate discount rate.

Our audit response

In addressing this area of audit focus, we performed, amongst others, the following procedures:

- We obtained an understanding of the methodology adopted by management in estimating the VIU and assessed whether such methodology is consistent with those used in the industry;
- We assessed the reasonableness of key assumptions used for each CGU, focusing on forecasted revenue, profit margins and long-term growth rate, taking into consideration the current and expected future economic conditions of the respective business segments, industries and geographical regions of the CGUs;
- We compared the key assumptions against past actual outcomes and where relevant, evaluated the probability of securing significant future contracts by making enquiries with project teams to obtain an understanding of the status of negotiations and the likelihood that such cash flows will materialise;
- We involved our internal valuation experts in assessing the reasonableness of the discount rate used and whether the rate used reflects the current market assessments of the time value of money and the risks specific to the asset which is the return that investors would require if they were to choose an investment that would generate cash flows of amounts, timing and risk profile equivalent to those that the entity expects to derive from the CGU;
- We performed sensitivity analysis on key assumptions that will significantly affect the VIU of each CGU; and
- We evaluated the adequacy of disclosures of key assumptions to which the outcome of the impairment test is most sensitive.

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Key audit matters (contd.)

Key audit matters in respect of the audit of the financial statements of the Company

(b) Impairment assessment of investment in a subsidiary

(Refer to Note 18 – Investment in subsidiaries, Note 2.4 (i) – Summary of significant accounting policies: Impairment of non-financial assets and Note 2.5 (b)(iii) – Key sources of estimation uncertainty: Impairment of investment in subsidiaries)

As at 31 December 2022, the carrying amount of the investment in a subsidiary, Edgenta Environmental & Material Testing Sdn. Bhd. (“EEMT”) amounted to approximately RM25.9 million, representing 2% and 1% of the Company’s total non-current assets and total assets respectively. The Company assessed that there was an indication of impairment for its investment in EEMT.

Accordingly, the Company performed an impairment assessment to determine the recoverable amounts of EEMT which was based on its VIU.

We identified the impairment review as an area of audit focus as the impairment assessment was complex and highly judgemental. Determining the VIU requires management to make an estimate of the amount and timing of the expected future cash flows based on assumptions affected by future market and economic condition. Judgement is also applied in determining the appropriate discount rate to calculate the present value of those cash flows.

Arising from the impairment assessment, the Company recognised an impairment loss of RM4.5 million in relation to its investment in EEMT during the year.

Our audit response

In addressing this area of audit focus, we performed, amongst others, the following procedures:

- We obtained an understanding of the methodology adopted by management in estimating the VIU and assessed whether such methodology is consistent with those used in the industry;
- We assessed the reasonableness of key assumptions, focusing on forecasted revenue, profit margins and long-term growth rate, taking into consideration the current and expected future economic conditions of the subsidiary;
- We compared the key assumptions against past actual outcomes and where relevant, evaluated the probability of securing significant future contracts by making enquiries with project teams to obtain an understanding of the status of negotiations and the likelihood that such cash flows will materialise;
- We involved our internal valuation experts in assessing the reasonableness of the discount rate used and whether the rate used reflects the current market assessments of the time value of money and the risks specific to the asset which is the return that investors would require if they were to choose an investment that would generate cash flows of amounts, timing and risk profile equivalent to those that the entity expects to derive from the subsidiary;
- We performed sensitivity analysis on key assumptions that will significantly affect the recoverable amounts of the investment in the subsidiary; and
- We evaluated the adequacy of disclosures relating to the impairment of investment in the subsidiary recorded during the financial year.

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Information other than the financial statements and auditors’ report thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors’ Report, but does not include the financial statements of the Group and of the Company and our auditors’ report thereon, which we obtained prior to the date of the auditors’ report, and the annual report, which is expected to be made available to us after the date of this auditors’ report.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors’ report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors of the Company and take appropriate action.

Responsibilities of the directors for the financial statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group’s and the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors’ responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Auditors’ responsibilities for the audit of the financial statements (contd.)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s and of the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s or the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors’ report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors’ report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors’ report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS’ REPORT

to the members of UEM Edgenta Berhad
(Incorporated in Malaysia)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 46 to the financial statements.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

| Cash in hand and at banks | 478,242 | 398,649 | 53,289 | 50,457 |
| Fixed deposits with licensed banks | 131,244 | 201,742 | 9,000 | — |
| Cash, bank balances and (Note 27) | 609,486 | 600,391 | 62,289 | 50,457 |
| Add: Cash and bank of disposal group (Note 28) | 35,840 | — | — | — |
| Less: Fixed deposits on lien | (4,219) | (3,849) | — | — |
| Less: Fixed deposits pledged | (22,160) | (22,933) | — | — |
| Less: Cash and fixed deposit restricted in usage | (25,634) | (18,849) | — | — |
| | 593,313 | 554,760 | 62,289 | 50,457 |

- (b) In the previous financial year, included in the purchase of property, plant and equipment of the Group and the Company amounted to RM1.6 million and RM0.3 million, respectively, relates to amounts paid for property, plant and equipment that had been capitalised in prior years.
- (c) Included in the purchase of intangible assets of the Group and the Company is an amount of RM0.9 million (2021: RM17.2 million) paid for intangible assets that had been capitalised in prior years.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office of the Company is located at Level 17, Menara UEM, Tower 1, Avenue 7, The Horizon, Bangsar South City, No. 8 Jalan Kerinchi, 59200 Kuala Lumpur.

The Company regards UEM Group and Khazanah Nasional Berhad, both incorporated in Malaysia, as its immediate and ultimate holding companies respectively. Related companies in these financial statements refer to member companies within the UEM Group of companies.

The principal activities of the Company are investment holding and provision of management services to its subsidiaries. The principal activities of the subsidiaries, joint ventures and associates are described in Note 46.

There have been no significant changes in the nature of the principal activities during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 20 March 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act 2016 in Malaysia.

The financial statements of the Group and of the Company have been prepared on a historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

2.2 Changes in accounting policies

The accounting policies adopted are consistent with those of the previous financial year, except as follows:

- (a) Adoption of MFRS 140 *Investment Properties* ("MFRS 140") and MFRS 13 *Fair Value Measurement* ("MFRS 13") (for non-financial instrument) due to the transfer of land held for property development to investment properties during the financial year ended 31 December 2022.

Other than the adoption the fair value adjustment of RM13.3 million and its related tax impact, the adoption of MFRS 140 and MFRS 13 (for non-financial instrument) did not have any significant impact to the Group's result.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.2 Changes in accounting policies (contd.)

The accounting policies adopted are consistent with those of the previous financial year, except as follows: (contd.)

- (b) On 1 January 2022, the Group and the Company adopted the following amendments to MFRS mandatory for financial period beginning on or after 1 January 2022:

| | Effective for annual period beginning on or after |
|--|---|
| Amendments to MFRS 16 Leases: Covid-19-Related Rent Concessions beyond 30 June 2021 | 1 April 2021 |
| Annual Improvements to MFRS Standards 2018–2020 | 1 January 2022 |
| Amendments to MFRS 3 Business Combinations: Reference to conceptual framework | 1 January 2022 |
| Amendments to MFRS 116: Property, Plant and Equipment Property, plant and equipment – proceeds before intended use | 1 January 2022 |
| Amendments to MFRS 137: Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts – cost of fulfilling a contract | 1 January 2022 |

The adoption of the above amendments to MFRSs did not have any significant effect on the financial statements of the Group and of the Company.

2.3 Standards issued but not yet effective

The standards and interpretations that are issued but not yet effective up to the date of issuance of the Group’s and the Company’s financial statements are disclosed below. The Group and the Company intend to adopt these standards, if applicable, when they become effective:

| | Effective for annual period beginning on or after |
|---|---|
| MFRS 17: Insurance Contracts (“MFRS 17”) and amendments to MFRS 17 | 1 January 2023 |
| Amendments to MFRS 108: Accounting Policies, Changes in Accounting Estimates and Errors | 1 January 2023 |
| Amendments to MFRS 112: Income taxes | 1 January 2023 |
| Amendments to MFRS 16: Leases | 1 January 2024 |
| Amendments to MFRS 101: Presentation of Financial Statements | 1 January 2024 |
| Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | Deferred |

The Board of Directors expect that the adoption of the above amendments to MFRSs will not have a material impact on the financial statements in the period of initial application.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies

(a) Basis of consolidation and subsidiaries

(i) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the reporting date. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- (i) Power over the investee (i.e existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its involvement with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement(s) with the other vote holders of the investee;
- (ii) Rights arising from other contractual arrangements; and
- (iii) The Group’s voting rights and potential voting right

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the parent.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(a) Basis of consolidation and subsidiaries (contd.)

(i) Basis of consolidation (contd.)

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs.

The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 9 *Financial Instruments* (“MFRS 9”), is measured at fair value with the changes in fair value recognised in the statement of profit or loss in accordance with MFRS 9.

Other contingent consideration that is not within the scope of MFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group’s cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(a) Basis of consolidation and subsidiaries (contd.)

(i) Basis of consolidation (contd.)

Business combinations and goodwill (contd.)

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Business combinations involving entities under common control

Business combinations involving entities under common control are accounted for by applying the pooling of interest method. Under the pooling of interest method, the results of the subsidiaries are presented as if the combination had been effected throughout the current and previous financial periods. The assets and liabilities of the combining entities are reflected at their carrying amounts reported in the consolidated financial statements of the common control shareholder. Any difference between the cost of consideration and the share capital of the “acquired” entity is classified as an equity and regarded as a non distributable reserve. Comparatives are presented as if the entities has always been combined since the date the entities had come under common control.

(ii) **Subsidiaries**

In the Company’s separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

(b) **Investment in associates and joint venture**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group’s investment in its associate and joint venture are accounted for using the equity method.

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group’s share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment separately.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(b) Investment in associates and joint venture (contd.)

The statement of profit or loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss within 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

(c) Joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

(d) Joint operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement.

The Group recognises its interest in joint operation using the proportionate consolidation. The Group combines its share of each of the assets, liabilities, income and expenses of the joint operation with the similar items, line by line, in its consolidated financial statements. The joint operation is proportionately consolidated from the date the Group obtains joint control until the date the Group ceases to have joint control over the joint operation.

Adjustments are made in the Group's consolidated financial statements to eliminate the Group's share of intragroup balances, income and expenses and unrealised gains and losses on transactions between the Group and its joint operation.

The financial statements of the joint operation are prepared as of the same reporting date as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(e) Current versus non-current classification

The Group presents assets and liabilities in statement of financial position based on current/non-current classification. An asset is classified as current when it is:

- (i) Expected to be realised or intended to be sold or consumed in normal operating cycle;
- (ii) Held primarily for the purpose of trading;
- (iii) Expected to be realised within twelve months after the reporting period; or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

(f) Intangible assets

(i) Goodwill

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired is allocated, from the acquisition date, to each of the Group's cash-generating units ("CGU") that are expected to benefit from the synergies of the combination.

The CGU to which goodwill has been allocated is tested for impairment annually and whenever there is an indication that the CGU may be impaired, by comparing the carrying amount of the CGU, including the allocated goodwill, with the recoverable amount of the CGU. Where the recoverable amount of the CGU is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses recognised for goodwill are not reversed in subsequent periods.

Where goodwill forms part of a CGU and part of the operation within that CGU is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative fair values of the operations disposed of and the portion of the CGU retained.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated in accordance with the accounting policy set out in Note 2.4(u).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(f) Intangible assets (contd.)

(ii) Other intangible assets

Intangible assets acquired separately are measured initially at cost. The cost of intangible assets acquired in a business combination is their fair values as at the date of acquisition. Following initial acquisition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in profit or loss.

Intangible assets with indefinite useful lives are not amortised but tested for impairment annually or more frequently if the events or changes in circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. The useful life of an intangible asset with an indefinite life is also reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

Customer contracts and relationships

Customer contracts and relationships acquired through business combination are capitalised at fair value as at the date of acquisition. Following initial recognition, the cost model is applied. The finite useful life of customer contracts and customer relationships are assessed to be ranging from 10 to 15 years and 5 to 10 years respectively. Amortisation is charged on a straight line basis and the expense is recognised in profit or loss.

Software

Software that do not form an integral part of the related hardware have been reclassified as intangible assets. Software is considered to have finite useful lives, are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products between 3 and 10 years. Impairment is assessed whenever there is an indication of impairment and amortisation period and method are also reviewed at least at each reporting date. Software-in-progress is stated at cost, net of accumulated impairment losses, if any.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(f) Intangible assets (contd.)

(ii) Other intangible assets (contd.)

Research and development costs

Research and development costs are recognised as an expense except that costs incurred on individual development project are recognised as development asset to the extent that such expenditure is expected to generate future economic benefits. Development costs are only recognised as an asset when it is probable that future economic benefits will be realised as a result of the specific expenditure and the costs can be measured reliably.

Following the initial recognition of the development expenditure, the asset is carried at cost less accumulated amortisation and accumulated impairment losses. Policy for the recognition and measurement of impairment loss is in accordance with Note 2.4(i). Any impairment loss recognised shall not be reversed in subsequent periods even if there are changes to the circumstances or events that led to the impairment. These costs are derecognised when they are disposed of or when no future economic benefit is expected from the disposal.

Development costs that have been capitalised are amortised over the period of expected future economic benefits from the related project of 15 years.

(g) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the Company and the cost of the item can be measured reliably. Capital work-in-progress is stated at cost, net of accumulated impairment losses, if any.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group and the Company recognise such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are recognised in profit or loss as incurred.

Freehold land has an unlimited useful life and therefore is not depreciated. Capital work-in-progress is not depreciated as these assets are not available for use.

Depreciation of other property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following annual rates:

| | |
|------------------------|-----------|
| Buildings | 1.8%-2.2% |
| Plant and equipment | 5%-50% |
| Furniture and fittings | 10%-20% |
| Motor vehicles | 20% |
| Computers | 20%-33% |
| Machinery | 10%-20% |
| Office equipment | 10%-20% |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(g) Property, plant and equipment (contd.)

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

(h) Land held for property development and property development costs

(i) Land held for property development

Inventory properties where no development activities have been carried out or where development activities are not expected to be completed within the normal operating cycle are referred to as land held for development and classified within non-current assets. Generally no significant development work would have been undertaken on these lands other than infrastructure work, earth work and landscape work incurred to prepare the land for development and these inventory properties are stated at cost plus incidental expenditure incurred to put the land in a condition ready for development. These inventory properties are classified to current assets at the point when active development project activities have commenced and when it can be demonstrated that the development activities can be completed within the normal operating cycle.

(ii) Property development costs

Property development costs are recognised to the extent that the Group has performed the construction services. Property development costs are initially measured at cost, which is represented by the allocated fair value of the construction services rendered.

(i) Impairment of non-financial assets

The Group and the Company assess at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group and the Company make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows CGU.

In assessing value-in-use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(i) Impairment of non-financial assets (contd.)

Impairment losses are recognised in profit or loss except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase. Impairment loss on goodwill is not reversed in a subsequent period.

(j) Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of consumables which is determined on the weighted average basis, comprise cost of purchase of inventories.

Cost of property held for resale is determined on the specific identification basis and include cost associated with the acquisition of land, direct costs and appropriate proportions of common costs.

Net realisable value is the estimated selling price in ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

(k) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("OCI"), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient, the Group and the Company initially measure a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under MFRS 15 *Revenue from Contract with Customers*.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(k) Financial instruments (contd.)

(i) Financial assets (contd.)

Initial recognition and measurement (contd.)

Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest (“EIR”) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group’s and the Company’s financial assets at amortised cost includes trade and other receivables, and cash, bank balances and deposits.

Financial assets at fair value through OCI (debt instruments)

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group does not have any debt instruments at fair value through OCI.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(k) Financial instruments (contd.)

(i) Financial assets (contd.)

Subsequent measurement (contd.)

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under MFRS 132 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group has not elected to classify irrevocably any of its financial assets under this category.

Financial assets at fair value through profit or loss (“FVTPL”)

FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes short-term investments which the Group and the Company had not irrevocably elected to classify at fair value through OCI.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group’s consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group and the Company have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the Group and the Company have transferred substantially all the risks and rewards of the asset, or (b) the Group and the Company have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(k) Financial instruments (contd.)

(i) Financial assets (contd.)

Derecognition (contd.)

When the Group and the Company have transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group and the Company continue to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group and the Company also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group and the Company have retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Company could be required to repay.

Impairment

The Group and the Company recognise an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. In measuring ECLs, the Group and the Company take into accounts reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forward-looking factors specific to the debtors.

The Group and the Company consider a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Group and the Company may also consider a financial asset to be in default when internal or external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(k) Financial instruments (contd.)

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group’s and the Company’s financial liabilities include trade and other payables, borrowings and lease liabilities.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group and the Company that are not designated as hedging instruments in hedge relationships as defined by MFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in MFRS 9 are satisfied. The Group has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortised cost (loans and borrowings)

This is the category most relevant to the Group and the Company. After initial recognition, trade payables, other payables and interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss. This category generally applies to interest-bearing loans and borrowings.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(k) Financial instruments (contd.)

(ii) Financial liabilities (contd.)

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(l) Cash, bank balances and deposits

Cash, bank balances and deposits in the statements of financial position comprise cash at banks and on hand and short-term liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statements of cash flows, cash and cash equivalents consist of cash, bank balances and deposits, as defined above.

(m) Share capital

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Ordinary shares are classified as equity instruments.

Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(n) Leases

The Group and the Company assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Group and the Company apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group and the Company recognise lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Group and the Company recognise right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the estimated useful lives of the assets, as follows:

| | |
|-----------------|----------------|
| Leasehold land | 50 to 94 years |
| Office premises | 2 to 10 years |
| Motor vehicles | 2 to 3 years |

If ownership of the leased asset transfers to the Group and the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note 2.4(i).

ii. Lease liabilities

At the commencement date of the lease, the Group and the Company recognise lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and the Company and the payments of penalties for terminating the lease, if the lease term reflects the Group and the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group and the Company use its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(n) Leases (contd.)

As a lessee (contd.)

iii. Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

As a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

(o) Investment properties

Investment properties comprise of properties which are held either to earn rental income or capital appreciation or both.

Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise, including the corresponding tax effect. Fair values are determined based on an annual valuation performed by an accredited external independent valuer having appropriate recognised professional qualification and relevant experience.

Investment properties are to be derecognised either when they have been disposed of (i.e., at the date the recipient obtains control) or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment property the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

(p) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(q) Taxes

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date in the countries where the Group and the Company operate and generates taxable income.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(q) Taxes (contd.)

(ii) Deferred tax (contd.)

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. The adjustment is either treated as a reduction in goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or recognised in profit or loss.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Where investment properties are carried at their fair value in accordance with the accounting policy set out in Note 2.4(aa), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held with objective to consume substantially all of the economic benefits embodied in the property over time, rather than through sale. In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

(iii) Sales and service tax

Indirect taxes include Sales Tax, Service Tax and Goods and Services Tax (also known as Value Added Tax).

The amount of indirect taxes payable to taxation authority is included as part of payables in the statements of financial position.

Indirect taxes incurred on the purchase of assets or services which cannot be recovered from the respective tax authorities are recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

The difference between output and input Goods and Services Tax, being the amount payable to or receivable from the respective taxation authorities at the reporting date, is included in other payables or other receivables respectively in the statements of financial position.

(r) Government grants

Government grants are recognised when there is reasonable assurance that the grant will be received, and all attaching conditions will be complied with.

Government grant related to income

Government grants are recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate. Grants related to income are deducted from related expenses.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(s) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(t) Employee benefits

(i) Short-term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Long-term incentives plan

Long-term incentives are granted to eligible employees subject to meeting the pre-determined financial performance and value growth targets of the Group over a vesting period of 3 years.

Liability arising from long-term incentives is measured and reviewed at each reporting date, based on the management's estimates on the achievement of the pre-determined targets, and it is recognised as an expense over the performance period of 3 years.

(iii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group and the Company pay fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in profit or loss as incurred. As required by law, companies in Malaysia make contributions to the state pension scheme, the Employees Provident Fund ("EPF").

(iv) Defined benefit plan

The Group's subsidiaries operate defined benefit pension schemes for its eligible employees. The benefit is unfunded. A liability or asset is recognised when there is a shortfall or surplus in a defined benefit pension scheme, being the difference between the fair value of the scheme assets and liabilities as determined by an independent actuary. Actuarial gains and losses are recognised in full in other comprehensive income at the time of valuation.

Such actuarial gains and losses are also immediately recognised in retained earnings and are not reclassified to profit or loss in subsequent periods.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(t) **Employee benefits (contd.)**

(iv) **Defined benefit plan (contd.)**

The cost of providing benefits under this plan is determined using the projected unit credit method, which attributes entitlement to benefits to the current period (to determine the current service cost) and to the current and prior periods (to determine the present value of the defined benefit obligation) and is based on actuarial advice. The current service cost is charged to profit or loss. Past service costs are recognised in profit or loss on a straight-line basis over the vesting period or immediately if benefits have vested.

A charge representing the unwinding of the discount on the plan liabilities during the year is included in profit or loss as administrative expenses. A credit representing the expected return of the plan assets during the year is also included within administrative expenses. This credit is based on the market value of the plan assets and expected rates of return at the beginning of the year.

(v) **Termination benefit**

The termination benefits are payable solely at the discretion by the Board of Directors and management. These benefits are payable when employment is terminated before the normal retirement date or where an employee accepts voluntary redundancy in exchange for these benefits when they are offered. The Group recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed plan without possibility of withdrawal.

(u) **Foreign currencies**

The Group's consolidated financial statements are presented in Malaysian Ringgit ("MYR"), which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

(i) **Transactions and balances**

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recognised in OCI.

In the consolidated financial statements, currency translation differences arising from intercompany borrowing in foreign currencies and other currency instruments designated and qualifying as net investment in foreign operations are recognised in other comprehensive income and accumulated in the currency translation reserve. The repayment of borrowings which forming part of the Group's net investment in foreign operation by a subsidiary is considers as a partial disposal and it related foreign currency exchange differences are reclassified to profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(u) **Foreign currencies (contd.)**

(i) **Transactions and balances (contd.)**

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

(ii) **Group companies**

On consolidation, the assets and liabilities of foreign operations are translated into MYR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

(v) **Non-current assets held for sale and discontinued operations**

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

Assets and liabilities classified as held for sale are presented separately as current items in the statement of financial position.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit or loss.

(w) **Cash dividend**

The Company recognises a liability to pay a dividend when the distribution is authorised. A corresponding amount is recognised directly in equity.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(x) **Income recognition**

Revenue from contracts with customers

Contracts with customers may include multiple promises to customers and therefore accounted for as separate performance obligations. In this case, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. When these are not directly observable, they are estimated based on expected cost plus margin.

In determining the transaction price for contracts with customers, the Group and the Company consider the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any). Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group and the Company expect to be entitled in exchange for those goods or services. The Group and the Company have generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

If control of the assets transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

(i) **Asset consultancy**

The Group recognises revenue from consultancy services over time when the performance obligations are performed and the Group has an enforceable right to the payment for the performance completed to date.

Revenue is recognised over time using an input method to measure progress towards complete satisfaction of the service, because customer simultaneously receives and consumes the benefits provided by the Group. Revenue is calculated as the proportion of total contract value which costs incurred to date bear to total expected costs for that contract. Revenue derived from variations on contracts are recognised only when they have been accepted by the customer whereby no significant revenue reversal will occur. Full provision is made for losses on all contracts in the year in which they are first foreseen.

(ii) **Healthcare support**

The Group through the Concession Agreement provides healthcare support services to the public hospital in the Northern zone of Malaysia encompassing the states of Perlis, Kedah, Pulau Pinang and Perak. The services provided are healthcare waste management, cleansing, linen and laundry, facilities engineering maintenance, biomedical engineering maintenance and facilities management services. The Group also provides healthcare facilities management, housekeeping and patient management services to various private healthcare institutions in Malaysia, Singapore and Taiwan.

The revenue from the services, which is based on fixed price under the agreement is allocated based on relative stand-alone selling price of the considerations for each of the separate performance obligations.

The Group recognises the services revenue over time when the performance obligations are performed and the Group has an enforceable right to the payment for the performance completed to date. Any variable consideration is estimated at contract inception and constrained until it is highly probable. The Group applies the most likely amount method to determine the variable consideration which will be netted against the revenue.

NOTES TO THE FINANCIAL STATEMENTS

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(x) **Income recognition (contd.)**

Revenue from contracts with customers (contd.)

(iii) **Infrastructure services**

The Group provides maintenance service and repair of civil, mechanical and electrical works on roads, infrastructure and expressways works.

Revenue on infrastructure services are recognised over time, using an input method to measure progress towards complete satisfaction of the service, because customer simultaneously receives and consumes the benefits provided by the Group. Revenue is calculated as the proportion of total contract value which costs incurred to date to total expected costs for that contract. Revenue derived from variations on contracts are recognised only when they have been accepted by the customer. Full provision is made for losses on all contracts in the year in which they are first foreseen.

Revenue for routine maintenance is recognised based on fixed sum contract while revenue for non routine maintenance is recognised based on schedule of rates agreed with customers.

(iv) **Property and facility solutions**

The Group provides various facilities management including infrastructure, building and ground maintenance to commercial customers. These services are provided on a time and material basis or as a fixed-priced contract, with contract terms generally ranging from one (1) year to three (3) years.

Revenue from these services is recognised over time in the period the services are rendered.

The Group also provides green technology and sustainability services in retro-fitting works of buildings followed by a period in which the Group maintains and services the infrastructure. In such contracts, revenue from the supply of retro-fitting equipment and installation works are recognised at the point in time when:

(i) the control of the asset is transferred to the customer upon the acceptance of physical possession of the asset and successful testing and commissioning;

(ii) the significant risks and rewards of ownership of the asset is borne by the customer.

Revenue from the maintenance and servicing of the infrastructure subsequent to the retro-fitting is recognised over time in the period the services are rendered.

(v) **Property development**

Revenue from sale of property development is recognised over time.

Revenue from sale of completed property units is recognised at the point of time upon the control of the asset is transferred to the customer and it is probable that the Group will collect the consideration to which it entitled in exchange for the asset that will be transferred to the customer.

(vi) **Management fees**

Management fees for services provided to entities within the Group are recognised over time as services are rendered.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(x) **Income recognition (contd.)**

Other income recognition

(i) **Dividend income**

Dividend income is recognised when the Group's and the Company's right to receive payment is established.

(ii) **Rental income**

Rental income is recognised on a straight-line basis over the term of the lease.

(iii) **Interest income**

Interest income is recognised on an accrual basis using the effective interest method.

(y) **Contract balances**

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs its obligation by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs the obligations under the contract.

Contract fulfillment assets

Contract fulfillment assets are divided into:

- (i) cost that give rise to an asset; and
- (ii) costs that are expensed as incurred.

When determining the appropriate accounting treatment for such costs, the Group firstly considers any other applicable standards. If those other standards preclude capitalisation of a particular cost, then an asset is not recognised under MFRS 15.

If other standards are not applicable to contract fulfillment costs, the Group applies the following criteria which, if met, result in capitalisation:

- (i) the costs directly relate to a contract or to a specifically identifiable anticipated contract;
- (ii) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- (iii) the costs are expected to be recovered. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recoverable.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(y) **Contract balances (contd.)**

Contract fulfillment assets (contd.)

The Group utilises contract fulfilment assets over the expected contract period using a systematic basis that mirrors the pattern in which the Group transfers control of the service to the customer. The utilisation charge is included within cost of sales.

A contract fulfillment assets is derecognised either when it is disposed of or when no further economic benefits are expected to flow from its use or disposal.

Management is required to determine the recoverability of contract fulfillment assets. At each reporting date, the Group determines whether or not the contract fulfillment assets are impaired by comparing the carrying amount of the asset to the remaining amount of consideration that the Group expects to receive less the costs that relate to providing services under the relevant contract.

(z) **Segment reporting**

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 43, including the factors used to identify the reportable segments and the measurement basis of segment information.

(aa) **Fair value measurement**

The Group and the Company measure financial instruments such as derivatives, and non-financial assets such as investment properties, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group and the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.4 Summary of significant accounting policies (contd.)

(aa) Fair value measurement (contd.)

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group and the Company determine whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(ab) Contingencies

A contingent liability is:

- (i) A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- (ii) A present obligation that arises from past events but is not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statement of financial positions of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.5 Significant accounting judgements and estimates

The preparation of the Group's and of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

(a) Judgements

There are no critical judgements made by management in the process of applying the Group's and the Company's accounting policies that may have significant effects on the amounts recognised in the financial statements.

(b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

(i) Revenue recognition – Asset consultancy

The Group recognises its revenue and profit on consultancy contract services based on the percentage of completion, calculated by reference to the proportion of costs incurred to date against the total expected costs for the contracts. Full provision is made for losses on all contracts when they are first foreseen. Significant estimates are applied especially in determining the total expected costs for the contracts in order to reliably estimate the percentage of completion.

(ii) Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the VIU of the CGU to which the goodwill is allocated. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the CGU and also to determine suitable discount and growth rates in order to calculate the present value of those cash flows. The carrying amounts of goodwill at 31 December 2022 was RM561.0 million (2021: RM539.7 million). Further details are disclosed in Note 17(a).

(iii) Impairment of investment in subsidiaries

The Company determines whether investment in subsidiaries is impaired when there is an indication of impairment. This requires an estimation of the VIU of the investment in subsidiaries. Estimating a VIU amount requires management to make an estimate of the expected future cash flows and also to determine suitable discount and growth rates in order to calculate the present value of those cash flows. The carrying amounts of investment in subsidiaries at 31 December 2022 was RM1,673.3 million (2021: RM1,546.1 million). Further details are disclosed in Note 18.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

2.5 Significant accounting judgements and estimates (contd.)

(b) Key sources of estimation uncertainty (contd.)

(iv) Allowance for ECLs of trade receivables and contract assets

The Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments in calculating ECLs for trade receivables and contract assets. The amount and timing of future cash flows are then estimated based on historical credit loss experience for assets with similar credit risk characteristics and adjusted with forward-looking information such as forecast economic conditions. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Note 22 and Note 23 respectively.

(v) Income taxes

Significant estimation is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(vi) Deferred tax assets

Deferred tax assets are recognised for all unutilised tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The deferred tax assets amounting to RM12.5 million (2021: RM8.1 million) are mainly related to subsidiaries of which management is confident that it would be probable for the related subsidiaries to generate future taxable profits.

If the Group was able to recognise all unrecognised deferred tax assets, profit and equity would have increased by RM67.4 million (2021: RM69.4 million). Further details are disclosed in Note 24.

(vii) Fair value of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in profit or loss. The Group engaged independent professional valuers to perform value on its investment properties as at 31 December 2022. The valuation methodology commonly used is the comparison method which is based on comparable historical transactions adjusted for specific market factors such as location, size, condition, accessibility and design of the respective properties.

The details of the investment properties are disclosed in Note 14.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

3. REVENUE

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Revenue from contracts with customers (a) | | | | |
| Asset consultancy | 99,520 | 82,475 | — | — |
| Healthcare support | 1,487,871 | 1,432,534 | — | — |
| Infrastructure services | 768,997 | 594,405 | — | — |
| Property and facility solutions | 163,766 | 162,974 | — | — |
| Others | 3,475 | 20,034 | — | — |
| Management fees | — | — | 22,748 | 82,458 |
| | 2,523,629 | 2,292,422 | 22,748 | 82,458 |
| Revenue from other sources | | | | |
| Dividend income from subsidiaries | — | — | 59,186 | 107,448 |
| Total revenue | 2,523,629 | 2,292,422 | 81,934 | 189,906 |
| (a) Revenue from contracts with customers are recognised: | | | | |
| – At a point in time | 153,756 | 72,856 | — | — |
| – Over time | 2,369,873 | 2,219,566 | 22,748 | 82,458 |
| | 2,523,629 | 2,292,422 | 22,748 | 82,458 |
| (b) Geographical markets | | | | |
| Malaysia | 1,567,649 | 1,374,803 | 81,934 | 189,906 |
| United Arab Emirates | 75,057 | 78,697 | — | — |
| Indonesia | 12,092 | 28,237 | — | — |
| Singapore | 401,867 | 381,221 | — | — |
| Taiwan | 466,964 | 429,464 | — | — |
| | 2,523,629 | 2,292,422 | 81,934 | 189,906 |

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December 2022 due within one year is RM1.7 billion (2021: RM1.5 billion) and due more than one year is RM4.6 billion (2021: RM5.6 billion). These relate to performance obligations from long-term service contracts that is to be satisfied within 1 to 16 years (2021: within 1 to 17 years).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

4. COST OF SALES

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Asset consultancy | 77,454 | 77,202 |
| Healthcare support | 1,328,670 | 1,252,307 |
| Infrastructure services | 646,997 | 500,326 |
| Property and facility solutions | 138,811 | 138,817 |
| Property development: | | |
| – completed properties held for sale (Note 25) | 2,413 | 11,810 |
| – other costs | *(2,710) | 1,626 |
| Others | 519 | – |
| | 2,192,154 | 1,982,088 |

*Included in other costs relates to reversal of cost which was accrued in prior years.

During the year, the amounts of inventories recognised as expenses in cost of sales of the Group for consumables and properties held for sale were RM197.0 million and RM2.4 million (2021: RM193.0 million and RM11.8 million) respectively.

5. OTHER INCOME

Included in other income are:

| | Group | | Company | |
|--|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Dividend income from short-term investments | 733 | 656 | – | – |
| Interest income from: | | | | |
| – fixed deposits | 3,232 | 4,437 | 77 | 87 |
| – advances to subsidiaries | – | – | 5,414 | 4,205 |
| License and commission fees from an associate | 1,197 | 1,844 | – | – |
| Reversal of allowance for ECL on trade and other receivables (Note 22) | 3,812 | 334 | 16,507 | – |
| Fair value adjustment on investment properties (Note 14) | 13,323 | – | – | – |
| Fair value gain on short-term investment | 174 | – | – | – |
| Bad debt recovered | 771 | – | – | – |
| Net foreign exchange gain: | | | | |
| – realised | 1,172 | 72 | 590 | 26 |
| – unrealised | 1,335 | – | 1,621 | – |
| Gain on derecognition of lease | – | 89 | – | 89 |
| Accretion of interest on | | | | |
| – concession receivables | 17,459 | 18,883 | – | – |
| – loans and receivables | 2,658 | 975 | – | – |
| Rental income | 147 | 147 | 9,821 | 6,162 |

6. FINANCE COSTS

| | Group | | Company | |
|--|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Interest expense on: | | | | |
| – bank borrowings | 18,176 | 18,375 | 12,615 | 13,511 |
| – loan from a subsidiary | – | – | – | 420 |
| – lease liabilities (Note 15) | 1,204 | 1,541 | 901 | 1,212 |
| Amortisation of capitalised borrowing cost | 135 | 379 | 31 | 125 |
| Commitment fees | 457 | 275 | – | – |
| Bank charges | 797 | 331 | 13 | 6 |
| | 20,769 | 20,901 | 13,560 | 15,274 |

7. PROFIT BEFORE TAX AND ZAKAT

The following amounts have been charged/(credited) in arriving at profit before tax and zakat:

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Employee benefits expense (Note 8) | 1,086,589 | 1,031,140 | 13,954 | 68,587 |
| Non-executive directors' remuneration excluding benefits-in-kind (Note 9) | 1,197 | 1,315 | 1,197 | 1,315 |
| Auditors' remuneration: | | | | |
| Statutory audit: | | | | |
| – Ernst & Young PLT | 964 | 913 | 212 | 210 |
| – other member firms of Ernst & Young Global | 444 | 359 | – | – |
| – other auditors | 66 | 90 | – | – |
| Other assurance services | 15 | 14 | 15 | 14 |
| Other services | 420 | 70 | 350 | – |
| Loss on liquidation of a subsidiary | – | 3,875 | – | 266 |
| Amortisation of intangible assets (Note 17) | 25,693 | 26,698 | 1,215 | 5,325 |
| Depreciation of right-of-use assets (Note 15) | 13,626 | 10,883 | 10,855 | 7,124 |
| Depreciation of property, plant and equipment (Note 13) | 44,241 | 49,671 | 1,284 | 2,964 |
| Net loss/(gain) on disposal of plant and equipment | 340 | 283 | – | (2) |
| Property, plant and equipment written off (Note 13) | 1,365 | 363 | – | – |
| Intangible asset written off (Note 17) | – | 246 | – | – |
| Allowance for ECL on trade and other receivables (Note 22) | 5,375 | 2,328 | – | 1,584 |
| Bad debts written off | 1,025 | 8 | – | – |
| Impairment loss on investment in a subsidiary (Note 18(b)) | – | – | 4,516 | 40,350 |
| Inventories written off (Note 25) | 12,762 | – | – | – |
| Net foreign exchange loss: | | | | |
| – realised | 1,992 | 149 | 560 | 42 |
| – unrealised | 421 | 136 | 307 | 13 |
| Loss on disposal of an associate (Note 19) | 251 | – | – | – |
| Tax penalty (Note 44(c)) | 1,530 | – | 1,530 | – |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

8. EMPLOYEE BENEFITS EXPENSE

| | Group | | Company | |
|--|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Wages and salaries | 805,536 | 753,682 | 8,613 | 52,257 |
| Contributions to statutory Employees Provident Fund ("EPF") | 77,974 | 76,360 | 1,270 | 8,151 |
| Social security contributions | 2,961 | 2,808 | 89 | 352 |
| Retirement benefit obligations (Note 32) | 411 | (121) | — | — |
| Decrease in liability for defined benefit pension plan (Note 33) | (124) | (125) | — | — |
| Employees' service entitlements (Note 34(a)) | 653 | 621 | — | — |
| Staff rationalisation cost | 12,672 | 12,619 | — | — |
| Other benefits | 186,506 | 185,296 | 3,982 | 7,827 |
| Total employee benefits recognised in profit or loss (Note 7) | 1,086,589 | 1,031,140 | 13,954 | 68,587 |

Included in employee benefits expense of the Group and of the Company are executive directors' remuneration excluding benefits-in-kind amounting to RM1.5 million (2021: RM1.3 million) and RM0.6 million (2021: RM1.3 million), respectively as further disclosed in Note 9.

9. DIRECTORS' REMUNERATION

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Directors of the Company | | | | |
| Executive: | | | | |
| Salaries and other emoluments | 1,020 | 1,020 | 255 | 1,020 |
| Bonus | 255 | 85 | 255 | 85 |
| Contributions to defined contribution plans | 191 | 171 | 71 | 171 |
| Allowances | 50 | 50 | 13 | 50 |
| Benefits-in-kind | 28 | 30 | 7 | 30 |
| | 1,544 | 1,356 | 601 | 1,356 |
| Non-Executive: | | | | |
| Fees | 1,144 | 1,299 | 1,144 | 1,299 |
| Allowances | 53 | 16 | 53 | 16 |
| Benefits-in-kind | — | 41 | — | 41 |
| | 1,197 | 1,356 | 1,197 | 1,356 |
| Total | 2,741 | 2,712 | 1,798 | 2,712 |
| Total excluding benefits-in-kind | 2,713 | 2,641 | 1,791 | 2,641 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

9. DIRECTORS' REMUNERATION (CONTD.)

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Analysis excluding benefits-in-kind: | | | | |
| Total executive directors' remuneration excluding benefits-in-kind (Note 8) | 1,516 | 1,326 | 594 | 1,326 |
| Total non-executive directors' remuneration excluding benefits-in-kind (Note 7) | 1,197 | 1,315 | 1,197 | 1,315 |
| Total directors' remuneration excluding benefits-in-kind (Note 39(b)) | 2,713 | 2,641 | 1,791 | 2,641 |

The number of directors of the Company whose total remunerations during the year fell within the following bands is analysed below:

| | No. of Directors | |
|---------------------------|------------------|------|
| | 2022 | 2021 |
| Executive directors: | | |
| RM550,001 – RM600,000 | 1 | — |
| RM1,350,001 – RM1,400,000 | — | 1 |
| Non-executive directors: | | |
| Below RM50,000 | 2 | — |
| RM50,001 – RM100,000 | 1 | 5 |
| RM100,001 – RM150,000 | 4 | 4 |
| RM150,001 – RM200,000 | 2 | 1 |
| RM250,001 – RM300,000 | 1 | 1 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

10. INCOME TAX EXPENSE

Major components of income tax expense

Major components of income tax expense for the years ended 31 December 2022 and 2021 are:

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Current income tax: | | | | |
| – Malaysian income tax | 18,097 | 13,407 | 25 | – |
| – Foreign tax | 22,310 | 18,605 | – | – |
| – Capital gain tax* | 3,612 | – | – | – |
| | 44,019 | 32,012 | 25 | – |
| Under/(over) provision of income tax in prior years: | | | | |
| – Malaysian income tax* | 7,345 | (1,340) | 6,930 | – |
| – Foreign tax | 1,257 | (121) | – | – |
| | 8,602 | (1,461) | 6,930 | – |
| | 52,621 | 30,551 | 6,955 | – |
| Deferred tax (Note 24): | | | | |
| – Relating to origination and reversal of temporary differences | (6,370) | 152 | – | – |
| – Underprovision in prior years | 1,098 | 3,799 | – | – |
| | (5,272) | 3,951 | – | – |
| Income tax recognised in profit or loss | 47,349 | 34,502 | 6,955 | – |

Relates to capital gain tax paid to tax authority upon disposal of an associate in India as disclosed in Note 19.
* Included in the underprovision of Malaysian income tax is an amount of RM5.3 million recorded resulted from out-of-court settlement with Director General of Inland Revenue Board ("DGIR") as disclosed in Note 44(c).

Domestic income tax is calculated at the Malaysian statutory tax rate of 24% (2021: 24%) of the estimated assessable profit for the year.

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. Profits derived from overseas branch operations are not subject to Malaysian tax.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

10. INCOME TAX EXPENSE (CONTD.)

Reconciliation between tax expense and accounting profits

A reconciliation of income tax expense and the product of accounting profit multiplied by the applicable corporate tax rate for the years ended 31 December 2022 and 2021 are as follows:

| Group | 2022 RM'000 | 2021 RM'000 |
|---|----------------|----------------|
| Profit before tax and zakat | 93,773 | 78,569 |
| Less: Zakat | (773) | (707) |
| | 93,000 | 77,862 |
| Taxation at Malaysian statutory tax rate of 24% (2021: 24%) | 22,320 | 18,687 |
| Tax effect on share of profit of associates | (3,249) | (5,798) |
| Tax effect on share of profit of a joint venture | (1) | – |
| Income not subject to tax | (526) | (2,318) |
| Foreign income not subject to tax | (4,347) | (8,284) |
| Non-deductible expenses | 23,297 | 18,971 |
| Different tax rates in other countries | (1,816) | (2,476) |
| Utilisation of previously unrecognised tax losses and unabsorbed capital allowances | (6,643) | (2,600) |
| Deferred tax assets not recognised during the year | 5,002 | 15,982 |
| Capital gain tax | 3,612 | – |
| Underprovision of deferred tax in prior years | 1,098 | 3,799 |
| Under/(over) provision of income tax expense in prior years | 8,602 | (1,461) |
| Income tax expense recognised in statement of comprehensive income | 47,349 | 34,502 |

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.

| Company | 2022 RM'000 | 2021 RM'000 |
|--|----------------|----------------|
| Profit before tax and zakat | 45,164 | 41,412 |
| Taxation at Malaysian statutory tax rate of 24% (2021: 24%) | 10,839 | 9,939 |
| Non-deductible expenses | 12,800 | 10,720 |
| Foreign income not subject to tax | (770) | (745) |
| Income not subject to tax | (18,384) | (26,516) |
| Utilisation of previously unrecognised tax losses and other deductible temporary differences | (4,460) | – |
| Deferred tax assets not recognised | – | 6,602 |
| Underprovision of income tax expense in prior years | 6,930 | – |
| Income tax expense recognised in statement of comprehensive income | 6,955 | – |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

11. EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing profit for the year attributable to owners of the parent by the weighted average number of ordinary shares in issue during the financial year held by the Company.

| | Group | |
|---|-----------------------------|-----------------------------|
| | 2022 RM'000 | 2021 RM'000 |
| Profit attributable to owners of the parent | 45,879 | 42,003 |
| | Number of shares '000 | Number of shares '000 |
| Weighted average number of ordinary shares in issue | 831,624 | 831,624 |
| | Sen | Sen |
| Basic earnings per share | 5.5 | 5.1 |

There are no potential ordinary shares outstanding as at 31 December 2022. As such, the diluted earnings per share of the Group is equivalent to the basic earnings per share.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these financial statements.

12. DIVIDENDS

| | Company | | | |
|---|----------------|----------------|----------------------------------|-------------|
| | Amount | | Net Dividends per Ordinary Share | |
| | 2022 RM'000 | 2021 RM'000 | 2022 Sen | 2021 Sen |
| Recognised during the financial year: | | | | |
| Single tier interim dividend for the financial year ended 2021: 3.00 sen on 831,624,030 ordinary shares declared on 24 February 2022 and paid on 19 May 2022 | 24,949 | – | 3.00 | – |

On 28 February 2023, the Board of Directors has declared a single tier interim dividend of 4.00 sen per ordinary share on 831,624,030 ordinary shares, amounting to RM33,264,961 to be paid on 18 May 2023. The entitlement date is 20 April 2023. The financial statements for the current financial year do not reflect this dividend. This dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2023.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

13. PROPERTY, PLANT AND EQUIPMENT (CONTD.)

- (a) The net carrying amounts of property, plant and equipment of the Group charged to a bank for banking facilities (Note 35(a)) are as follows:

| | Group | |
|---------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Plant and equipment | 92,829 | 103,826 |

- (b) During the year, the Group and the Company acquired property, plant and equipment by way of:

| | Group | | Company | |
|----------------|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Cash payment | 21,814 | 22,815 | 623 | 863 |
| Other payables | 3,651 | – | – | – |
| | 25,465 | 22,815 | 623 | 863 |

- (c) As at 31 December 2022, plant and equipment with net carrying amount of RM8,000 has been reclassified to asset held for sale as disclosed in Note 28.

14. INVESTMENT PROPERTIES

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | – | – |
| Transfer from land held for property development (Note 16) | 477 | – |
| Fair value adjustment (Note 5) | 13,323 | – |
| At 31 December | 13,800 | – |

The Group's investment properties consist of two pieces of land in Sabah, which is held under lease term.

As at 31 December 2022, the fair values of the properties are based on valuations performed by Raine & Horne International, an accredited independent valuer. Raine & Horne International is a specialist in valuing these types of investment properties. A valuation model in accordance with that recommended by the International Valuation Standards Committee has been applied.

For the financial year ended 31 December 2022, the expenses incurred in relation to the investment properties was RM15,000.

The Group has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

14. INVESTMENT PROPERTIES (CONTD.)

Description of valuation techniques

Under the comparison method, a property's fair value is estimated based on comparable transactions. This approach is based upon the principle where a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property and would indicate, by the known selling price of the duplicate, the price for which the subject property could be sold.

Investment properties valued using the comparison method with significant adjustments made for differences such as location, size, condition, accessibility and design ("adjustment factors") are categorised as Level 3 in the fair value hierarchy. The significant unobservable inputs for this category of investment properties, which are the adjustment factors, range generally between -20% and 15% of the property's comparable.

Sensitivity analysis

An increase in the price per square feet of comparable properties in the surrounding vicinity will result in an increase of fair value of the investment properties.

Fair value measurement hierarchy for investment properties as at 31 December 2022

| Group 2022 | Date of valuation | Quoted prices in active markets (Level 1) | Significant observable inputs (Level 2) | Significant unobservable inputs (Level 3) |
|---------------|-------------------|--|--|--|
| | | | | |
| Land | 31 December 2022 | – | – | 13,800 |

- (i) Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The following table show a reconciliation of Level 3 fair value:

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Land | | |
| As at 1 January | – | – |
| Transfer from land held for development | 477 | – |
| Fair value adjustment | 13,323 | – |
| As at 31 December | 13,800 | – |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

15. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

The Group and the Company have lease contracts for leasehold land, office premises and motor vehicles used in its operations. Leases of premises generally have lease terms between 2 and 15 years, while motor vehicles have lease terms between 2 to 3 years.

The Group and the Company have several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's and the Company's business needs. Management exercises judgement in determining whether these extension and termination options are reasonably certain to be exercised.

The Group and the Company also has leases with lease terms of 12 months or less and leases of office equipment with low value. The Group and the Company apply the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

| | Group | | | |
|------------------------------|--------------------------|---------------------------|--------------------------|-----------------|
| | Leasehold land RM'000 | Office premises RM'000 | Motor vehicles RM'000 | Total RM'000 |
| As at 1 January 2022 | 4,698 | 32,491 | 92 | 37,281 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

17. INTANGIBLE ASSETS (CONTD.)

(a) Goodwill

Impairment testing of goodwill

Goodwill is allocated and monitored by management across the following cash generating units ("CGU"):

| | 2022 RM'000 | 2021 RM'000 |
|--|----------------|----------------|
| Asset consultancy: Opus Group Berhad and its subsidiaries ("Opus Group") | 38,636 | 38,636 |
| Healthcare support: Edgenta Mediserve Sdn. Bhd. ("EMS") | 26,982 | 26,982 |
| Edgenta UEMS Group: – Malaysia | 68,518 | 64,571 |
| – Singapore | 289,338 | 272,659 |
| – Taiwan | 11,538 | 10,874 |
| Property and Facility Solutions: Edgenta Greentech Sdn. Bhd. and its subsidiaries ("EGT Group") | 49,600 | 49,600 |
| Infrastructure services: Edgenta PROPEL Berhad | 76,372 | 76,372 |
| | 560,984 | 539,694 |

Goodwill is tested for impairment on an annual basis by comparing the carrying amount of the CGU with their respective recoverable amounts, which is based on value-in-use. The value-in-use is determined by discounting future cash flows over a period of five to twelve years including a terminal value. The future cash flows are based on management's future business plan, which is the best estimate of immediate future performance.

Key assumptions used in value-in-use calculation

The discount rates applied to the cash flow projections and the forecasted growth rates used to extrapolate cash flows beyond the projection period are as follows:

| | Projection period Years | Discount rate | | Terminal growth rate | |
|---|-------------------------------|---------------|-----------|----------------------|-----------|
| | | 2022 % | 2021 % | 2022 % | 2021 % |
| Asset consultancy: Opus Group | 5 | 11.0 | 11.0 | 1.0 | 1.0 |
| Healthcare support: EMS | 12 | 8.6 | 8.6 | * | * |
| Edgenta UEMS Group: – Malaysia | 5 | 8.6 | 8.6 | 1.0 | 1.0 |
| – Singapore | 5 | 8.6 | 8.6 | 1.0 | 1.0 |
| – Taiwan | 5 | 8.6 | 8.6 | 1.0 | 1.0 |
| Property and Facility Solutions: EGT Group | 5 | 7.9 | 7.9 | 1.0 | 1.0 |
| Infrastructure services: Edgenta PROPEL Berhad | 5 | 7.3 | 7.3 | 1.0 | 1.0 |

* For EMS, the value-in-use is determined by discounting cash flows for a period of 12 years (2021: 13 years) with no terminal value.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

17. INTANGIBLE ASSETS (CONTD.)

(a) Goodwill (contd.)

Key assumptions used in value-in-use calculation (contd.)

The calculation of the value-in-use for the CGUs are most sensitive to the following assumptions:

(i) Budgeted gross margin

The basis used to determine the value assigned to the budgeted gross margins is the average gross margins and average growth rate achieved in the years before the budgeted year, adjusted for market and economic conditions and internal resource efficiency.

(ii) Discount rate

The discount rates reflect the current market assessment of the risks specific to each CGU. This reflected the management's best estimate of return on capital employed required in the Group.

(iii) Terminal growth rate

Terminal growth rates used to extrapolate cash flows beyond the budget period is based on published industry research for each business.

Sensitivity to change in assumption

Management believes that no reasonable possible change in any of the above key assumptions would cause the recoverable amount of each of the CGUs to be materially lower than their respective carrying amounts.

(b) Customer contracts and relationships

Customer contracts and relationships arose from the acquisition of EGT Group and Edgenta UEMS Group in 2016 and are amortised over the range of 5 to 15 years.

(c) Software and other development cost

Computer software represents licenses and other software assets that are not an integral part of property, plant and equipment assets. Software assets are recorded at cost and have finite useful life based on the term of the license or other contractual basis. The cost is amortised over the estimated asset's useful life of 3 to 10 years (2021: between 3 to 10 years).

Other development cost relates to the development of a framework for the application of improved processes, systems and services for servicing expressways.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

18. INVESTMENT IN SUBSIDIARIES

| | Company | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Unquoted shares, at cost (Note (a)): | | |
| – Malaysian subsidiaries | 1,871,259 | 1,870,546 |
| – Foreign subsidiaries | 217,302 | 86,377 |
| | 2,088,561 | 1,956,923 |
| Less: Accumulated impairment (Note (b)) | (415,300) | (410,784) |
| | 1,673,261 | 1,546,139 |

(a) Cost of investment in subsidiary companies

| | Note | Company | |
|--|-------|----------------|----------------|
| | | 2022 RM'000 | 2021 RM'000 |
| At 1 January | | 1,956,923 | 2,249,216 |
| Capitalisation of amounts due from Edgenta (Singapore) Pte. Ltd. ("ESG") | (i) | 130,925 | – |
| Incorporation of Edgenta Arabia Limited ("EAL") | (ii) | 613 | – |
| Acquisition of additional share capital in subsidiaries | (iii) | 100 | 500 |
| Capital reduction of Opus Group Berhad ("OGB") | (iv) | – | (101,816) |
| Liquidation of Faber L.L.C ("FLLC") | (v) | – | (418) |
| Dissolution of Faber Hotel Holdings Sdn. Bhd. ("FHH") | (vi) | – | (190,559) |
| At 31 December | | 2,088,561 | 1,956,923 |

(i) Capitalisation of amounts due from ESG

On 16 December 2022, a wholly-owned subsidiary of the Company, ESG increased its share capital from SGD1 to SGD40.8 million (approximately RM131.0 million). The Company subscribed to the new shares which was settled via capitalisation of debts due to the Company amounting to RM131.0 million.

This capitalisation of amounts due from ESG has no cash flows impact to the Company.

(ii) Incorporation of EAL

On 31 July 2022, EAL was incorporated in the Kingdom of Saudi Arabia as a wholly-owned subsidiary of the Company.

(iii) Acquisition of additional share capital in subsidiaries

On 30 March 2022, Edgenta FIRST Sdn. Bhd., increased its ordinary shares to 100,000 by issuing new ordinary shares. The Company subscribed to the new shares which was settled by cash.

In previous financial year, the acquisition of additional share capital in subsidiaries relates to subscription of new shares issued by Edgenta NXT Sdn. Bhd.. The subscription was settled by cash.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

18. INVESTMENT IN SUBSIDIARIES (CONTD.)

(a) Cost of investment in subsidiary companies (contd.)

(iv) Capital reduction of OGB

On 15 February 2021, OGB had undertaken capital reduction exercise of RM101.8 million by way of offsetting against the loan amount due from the Company. Consequently, the cost of investment of OGB reduced from RM1,002.4 million to RM900.6 million.

This capital reduction exercise has no cash flows impact to the Company.

(v) Liquidation of FLLC

On 29 May 2021, FLLC, a 75% subsidiary of the Company, which was under Members' Voluntary Winding-Up, has ceased to be a subsidiary of the Company upon cancellation and termination of its Trade License from the Commercial Register in accordance with Federal Law No. (5) of 1975 and Federal Law No. (8) of 1984 of United Arab Emirates.

The financial impact of the liquidation to the Group is as follows:

| | RM'000 | RM'000 |
|--|---------|---------|
| Final distribution to shareholders, via cash | | 152 |
| Net asset at the date of liquidation | (836) | |
| Less: Non-controlling interest | 209 | |
| Group's share of net assets | (627) | (627) |
| Transfer from statutory reserve | 279 | |
| Transfer from foreign exchange reserve | (3,679) | |
| | (3,400) | (3,400) |
| Net loss on liquidation of a subsidiary | | (3,875) |

The financial impact of the liquidation to the Company is as follows:

| | RM'000 |
|--|--------|
| Final distribution to shareholders, via cash | 152 |
| Less: Cost of investment | (418) |
| Net loss on liquidation of a subsidiary | (266) |

(vi) Dissolution of FHH

On 14 March 2021, FHH, a wholly-owned subsidiary of the Company, which was under Members' Voluntary Liquidation, has dissolved and ceased to be a subsidiary of the Company.

The dissolution of FHH has no cash flows impact to the Company.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

18. INVESTMENT IN SUBSIDIARIES (CONTD.)

(b) Impairment of investment in subsidiaries

The movement in accumulated impairment loss as follows:

| | Company | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | 410,784 | 560,993 |
| Impairment loss on investment in a subsidiary company | 4,516 | 40,350 |
| Dissolution of FHH (Note 18(a)(vi)) | — | (190,559) |
| At 31 December | 415,300 | 410,784 |

During the current financial year, an impairment loss of RM4.5 million was recognised against the carrying amount of its investment in Edgenta Environmental & Material Testing Sdn. Bhd. ("EEMT") of RM25.9 million to its recoverable amounts. Based on management's assessment, the recoverable amount of its investment in EEMT was RM21.4 million which was estimated based on the net tangible asset of EEMT.

In the previous financial year, an impairment loss of RM40.3 million was recognised against the carrying amount of its investment in OGB of RM516.5 million to its recoverable amounts. Based on management's assessment, the recoverable amount of its investment in OGB was RM476.2 million which was estimated based on the VIU of OGB.

Summarised financial information

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

19. INVESTMENT IN ASSOCIATES (CONTD.)

On 9 November 2022, the Company announced that its wholly-owned subsidiary, Edgenta Facilities Sdn. Bhd. ("EFSB"), had on 8 November 2022, entered into a Share Purchase Agreement with Apollo Sindoori Holdings Limited ("ASHL") for the disposal of EFSB's entire 47,113 equity shares in Faber Sindoori Management Services Pte. Ltd. ("FSPL"), which represented 51% of the paid-up share capital of FSPL for a sale consideration of INR700 million (equivalent to approximately RM39.1 million based on exchange rate on completion date).

| | 2022 RM'000 |
|---|-----------------|
| Cash consideration | 39,062* |
| Less: Net carrying amount of FSPL upon disposal | (39,313) |
| Loss on disposal of FSPL | (251) |

* Difference of cash consideration above with actual cash receipt disclosed in the Statement of Cash Flows is due to realised foreign exchange losses.

Prior to disposal of ASHL, the Group's effective shareholding in FSPL was 51%. Notwithstanding of more than 50% in FSPL, the Group did not have the substantive rights and power to direct the relevant activities of FSPL and the ability to use the power to significantly affects its returns as the key governing structure resides with the board of directors of FSPL of which majority of the board representative are from ASHL that also has the casting vote in the event of deadlock, as stipulated in the shareholders agreement.

Therefore, the Group continued to have significant influence in FSPL and account for this investment as an associate under MFRS 128 *Investments in Associate* until FSPL ceased to be associate to EFSB on 17 November 2022.

Further details of the associates are disclosed in Note 46.

NOTES TO THE FINANCIAL STATEMENTS

| Exchange differences | 9 | 15 | – | – |
| At 31 December | 44,157 | 43,447 | 12,737 | 29,244 |

(a) Trade receivables

Trade receivables are non-interest bearing and are generally on 30 to 90 days (2021: 30 to 90 days) terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

Ageing analysis of trade receivables

The ageing analysis of the Group's trade receivables is as follows:

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Neither past due nor impaired | 191,153 | 99,951 |
| 1 to 30 days past due from the credit terms but not impaired | 101,349 | 202,732 |
| 31 to 60 days past due from the credit terms but not impaired | 35,423 | 31,121 |
| 61 to 90 days past due from the credit terms but not impaired | 23,988 | 14,291 |
| 91 to 120 days past due from the credit terms but not impaired | 10,341 | 6,832 |
| More than 121 days past due from the credit terms but not impaired | 45,073 | 85,910 |
| | 216,175 | 340,886 |
| Impaired | 41,180 | 40,717 |
| | 448,508 | 481,554 |

Receivables that are neither past due nor impaired

Trade receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group. At the reporting date, approximately 8% (2021: 7%) of the Group's trade receivables arose from current receivable balances with related companies, while approximately 19% (2021: 27%) of the Group's trade receivables arose from current receivable balances with Ministry of Health ("MOH").

None of the Group's trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due from the credit terms but not impaired

The Group has trade receivables amounting to RM216.2 million (2021: RM340.9 million) that are past due from the credit terms at the reporting date but not impaired.

The Group's objectives, policies and processes of credit risk are as disclosed in Note 41(a).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

22. TRADE AND OTHER RECEIVABLES (CONTD.)

(b) Other receivables

Amounts due from subsidiaries and related parties

As at 31 December 2022, amounts due from subsidiaries are non-trade related, repayable on demand and bears interest ranging between 3.76% to 3.83% per annum.

In the previous financial year, only amounts due from subsidiaries amounted to RM34.6 million bear interest ranging between 3.76% to 5.00% per annum, whilst the remaining amounts due from subsidiaries were non-interest bearing.

All related companies balances are repayable on demand, unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

Other receivables that are impaired

At the reporting date, the Group and the Company have provided an allowance of RM3.0 million (2021: RM2.7 million) and RM12.7 million (2021: RM29.2 million) respectively.

(c) Concession receivable

This is in relation to a concession arrangement in which the Group provides retro-fitting works and upgrades of infrastructure to turn existing buildings into green buildings. These amounts are to be repaid over the remaining period of the concession. These amounts are also pledged as security for the borrowing obtained for this concession as disclosed in Note 35(a).

23. CONTRACT RELATED ASSETS AND LIABILITIES

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Contract assets (a) | | |
| Non-current | 73,109 | 75,078 |
| Current | 357,174 | 309,551 |
| | 430,283 | 384,629 |
| Contract liabilities (a) | | |
| Current | (30,777) | (30,312) |
| Contract fulfillment asset (b) | | |
| Non-current | 547 | 2,616 |
| Current | 2,230 | 2,095 |
| | 2,777 | 4,711 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

23. CONTRACT RELATED ASSETS AND LIABILITIES (CONTD.)

(a) Contract assets and liabilities

Contract assets are initially recognised for revenue earned from services transferred which receipt of the consideration is conditional on the completion and final acceptance by customers. Upon final acceptance by the customers, the amounts recognised as contract assets becomes unconditional and are reclassified to trade receivables.

The increase in contract asset as at financial year ended 31 December 2022 was mainly due to the infrastructure services works performed towards the year-end.

Contract liabilities include billings made in advance which represent amounts where customers have been invoiced ahead of the satisfaction of the performance obligation by the Group.

Set out below is the amount of revenue recognised from:

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Amounts included in contract liabilities at the beginning of the year | 14,235 | 5,578 |

(b) Contract fulfillment asset

| | Group | |
|--------------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| As at 1 January | 4,711 | 9,402 |
| Additions | – | 2,128 |
| Utilised during the year | (1,934) | (6,819) |
| As at 31 December | 2,777 | 4,711 |

These costs relate to direct cost incurred to generate or enhance resources used in satisfying the contracts with customers and amortised on a straight-line basis over the period of the respective contracts. The amortisation period for these cost is between 4 to 5 years.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

24. DEFERRED TAX

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | 39,251 | 35,166 |
| Recognised in statement of comprehensive income (Note 10) | (5,272) | 3,951 |
| Exchange differences | 636 | 134 |
| At 31 December | 34,615 | 39,251 |
| Presented after appropriate offsetting as follows: | | |
| Deferred tax assets | (12,513) | (8,141) |
| Deferred tax liabilities | 47,128 | 47,392 |
| | 34,615 | 39,251 |

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows:

Deferred tax assets of the Group:

| | Provisions and others RM'000 | Unused tax losses and other tax credits RM'000 | Total RM'000 |
|---|------------------------------------|--|-----------------|
| At 1 January 2022 | (9,119) | (8,830) | (17,949) |
| Recognised in profit or loss | (1,732) | (16,419) | (18,152) |
| Exchange differences | (38) | – | (38) |
| | (10,889) | (25,249) | (36,138) |
| Less: Set off with deferred tax liabilities | 4,419 | 19,206 | 23,625 |
| At 31 December 2022 | (6,470) | (6,043) | (12,513) |
| At 1 January 2021 | (16,767) | (1,900) | (18,667) |
| Recognised in profit or loss | 7,717 | (6,930) | 787 |
| Exchange differences | (69) | – | (69) |
| | (9,119) | (8,830) | (17,949) |
| Less: Set off with deferred tax liabilities | 5,002 | 4,806 | 9,808 |
| At 31 December 2021 | (4,117) | (4,024) | (8,141) |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

24. DEFERRED TAX (CONTD.)

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows: (contd.)

Deferred tax liabilities of the Group:

| | Property, plant and equipment RM'000 | Intangible assets RM'000 | Concession receivable and others RM'000 | Total RM'000 |
|--|---|--------------------------------|--|-----------------|
| At 1 January 2022 | 5,615 | 22,256 | 29,329 | 57,200 |
| Recognised in profit or loss | 18,760 | (5,810) | (71) | 12,880 |
| Exchange differences | 93 | 581 | – | 674 |
| | 24,468 | 17,027 | 29,258 | 70,753 |
| Less: Set off with deferred tax assets | (19,602) | – | (4,023) | (23,625) |
| At 31 December 2022 | 4,866 | 17,027 | 25,235 | 47,128 |
| At 1 January 2021 | 1,650 | 24,950 | 27,233 | 53,833 |
| Recognised in profit or loss | 3,965 | (2,897) | 2,096 | 3,164 |
| Exchange differences | – | 203 | – | 203 |
| | 5,615 | 22,256 | 29,329 | 57,200 |
| Less: Set off with deferred tax assets | (1,527) | – | (8,281) | (9,808) |
| At 31 December 2021 | 4,088 | 22,256 | 21,048 | 47,392 |

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Deferred tax assets have not been recognised in respect of the following items:

Malaysian Companies

| | Group | | Company | |
|--|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Unutilised tax losses | 174,820 | 163,480 | 23,715 | 23,715 |
| Unabsorbed capital allowances | 19,620 | 20,747 | 12,382 | 12,382 |
| Others | 38,546 | 55,598 | 15,185 | 33,772 |
| | 232,986 | 239,825 | 51,282 | 69,868 |
| Deferred tax benefit at 24%, if recognised | 55,917 | 57,558 | 12,308 | 16,768 |

Deferred tax assets have not been recognised in respect of these items for certain subsidiary companies as it is not probable that taxable profits of the subsidiary companies would be available against which the unutilised tax losses, unabsorbed capital allowances and other deductible temporary differences could be utilised.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

24. DEFERRED TAX (CONTD.)

The unabsorbed capital allowance of the Group are available indefinitely for offsetting against future taxable profits of the respective entities within the Group, subject to no substantial changes in shareholdings of those entities under the Income Tax Act, 1967 and guidelines issued by the tax authority.

Effective from Year of Assessment 2019, unused tax losses are allowed to be carried forward for a maximum period of ten years. The details of the expiry of the Group's and the Company's unutilised tax losses are as follows:

| | Group | | Company | |
|-----------------------|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Unutilised tax losses | | | | |
| – Expires in 2028 | 43,410 | 52,337 | – | – |
| – Expires in 2029 | 36,596 | 36,788 | 23,715 | 23,715 |
| – Expires in 2030 | 27,695 | 27,900 | – | – |
| – Expires in 2031 | 43,692 | 43,920 | – | – |
| – Expires in 2032 | 23,427 | 2,535 | – | – |
| | 174,820 | 163,480 | 23,715 | 23,715 |

The foreign unutilised losses and unabsorbed capital allowances applicable to foreign incorporated subsidiary companies, if any, are pre-determined by and subject to the tax legislations of the respective countries.

25. INVENTORIES

| | Group | |
|--------------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Consumables | 17,178 | 15,224 |
| Properties held for sale | – | 51,548 |
| | 17,178 | 66,772 |

The amounts of inventories recognised as expenses in cost of sales of the Group is disclosed in Note 4.

Inventories amounted to RM12.8 million which was acquired during the financial year (2021: RM nil) was written off in the same year. These inventories were related to the COVID-19 business under the healthcare support segment.

As at 31 December 2022, properties held for sale with carrying amount of RM49.5 million has been reclassified to asset held for sale as disclosed in Note 28.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

26. SHORT-TERM INVESTMENTS

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Financial asset at fair value through profit or loss: | | |
| – unquoted unit trusts (money market funds) | 97,178 | 28,310 |

Unquoted unit trusts (money market funds) represent investment funds invested with licensed fund managers in the funds approved by the Securities Commission Malaysia. The portfolio of investments authorised by the Board of Directors comprises only deposits in both Islamic and conventional instruments with financial institutions.

27. CASH, BANK BALANCES AND DEPOSITS

| | Group | | Company | |
|------------------------------|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Cash in hand and at banks | 478,242 | 398,649 | 53,289 | 50,457 |
| Deposits with licensed banks | 131,244 | 201,742 | 9,000 | – |
| | 609,486 | 600,391 | 62,289 | 50,457 |

- (a) Included in cash at bank of the Group are amounts of RM0.12 million (2021: RM26.4 million) held pursuant to Section 7A of the Housing Development (Control and Licensing) Act 1966 and Section 8A of the Housing Development Account (Control and Licensing) Sabah Act, 1978 and are restricted for use in other operations.
- (b) Deposits with licensed banks of the Group amounting to RM3.2 million (2021: RM3.9 million) are on lien for bank guarantee facilities granted to certain subsidiaries. As at 31 December 2022, the subsidiaries have utilised guarantee facilities amounting to RM1.5 million (2021: RM0.9 million).
- (c) Deposits with licensed banks amounting to RM2.0 million (2021: RM2.4 million) are pledged to secure certain facilities granted to the Group.
- (d) Deposits with licensed banks of the Group amounting to RM22.9 million (2021: RM20.6 million) are pledged as securities for bank borrowing granted to a foreign subsidiary.
- (e) Cash and fixed deposits of RM21.9 million (2021: RM18.1 million) from a foreign subsidiary are pledged as collateral for performance of service under integrated facility management contract, and are therefore restricted from use in other operation.
- (f) Cash and bank balances amounting to RM0.7 million (2021: RM0.7 million) are held in trust to maintain and deposit all security deposits received by the Company as licensed Estate Agent held on behalf of its client.

Other information on financial risks of cash, bank balances and deposits are disclosed in Note 41.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

28. NET ASSETS CLASSIFIED AS HELD FOR SALE

During the financial year, the Board of Directors approved the plan to dispose Faber Union Sdn. Bhd. ("FUSB"), an indirect wholly-owned subsidiary of the Company via Faber Development Holdings Sdn. Bhd. ("FDH"). The sale of FUSB is expected to be completed within 12 months from the reporting date and accordingly, FUSB was classified as a disposal group held for sale as at 31 December 2022.

Summarised statement of financial position

The major classes of assets and liabilities of FUSB classified as held for sale as at 31 December 2022 are as follows:

| | 2022 RM'000 |
|--|----------------|
| Assets | |
| Plant and equipment | 8 |
| Trade and other receivables | 1,823 |
| Inventories | 49,493 |
| Tax recoverable | 2,884 |
| Cash and short-term deposit | 35,840 |
| Assets held for sale | 90,048 |
| Liabilities | |
| Accruals, representing liability directly associated with assets held for sale | (3,171) |
| Net assets of disposal group | 86,877 |

The assets are measured at the lower of their carrying amount and fair value less costs to sell.

FUSB has not been disclosed as discontinued operation as the Group considers its operation to be immaterial.

29. SHARE CAPITAL

| | Number of ordinary shares | | Amount | |
|---|---------------------------|--------------|----------------|----------------|
| | 2022 '000 | 2021 '000 | 2022 RM'000 | 2021 RM'000 |
| Issued and fully paid up | | | | |
| At 1 January/31 December | 831,624 | 831,624 | 268,074 | 268,074 |

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

30. CAPITAL AND OTHER MERGER RESERVE

The acquisitions of Opus Group Berhad and Edgenta PROPEL Berhad in prior years, which was accounted for using the pooling of interest method, gave rise to the following:

(a) Capital reserve

This reserve represents the excess of issue price of the Company's shares over the par value in accordance with Section 60(4)(a) of the Companies Act, 1965. This reserve had been partially set off against the merger deficit reserve in prior years for the purpose of presentation in the financial statements of the Group.

(b) Other merger reserve

This reserve represents the excess of fair value of the Company's shares at the acquisition date over the issue price. This reserve had been fully set off against the merger deficit reserve for the purpose of presentation in the financial statements of the Group.

31. OTHER RESERVES

| Group | Statutory reserve RM'000 (Note a) | Foreign currency translation reserve RM'000 (Note b) | Other reserve RM'000 (Note c) | Total RM'000 |
|---|--|---|--|-----------------|
| At 1 January 2021 | 279 | (25,782) | 9,163 | (16,340) |
| Foreign currency translation | – | 12,824 | – | 12,824 |
| Exchange differences reclassified to profit or loss | – | 3,679 | – | 3,679 |
| Liquidation of a subsidiary | (279) | – | – | (279) |
| At 31 December 2021 | – | (9,279) | 9,163 | (116) |
| Foreign currency translation | – | 23,182 | – | 23,182 |
| At 31 December 2022 | – | 13,903 | 9,163 | 23,066 |

(a) Statutory reserve

In accordance with the United Arab Emirates ("UAE") Commercial Companies Law, 10% of profit for each year from a Limited Liability Company incorporated in the UAE is transferred to a legal reserve until such time as the reserve equalled 50% of the paid-up capital. FLLC has resolved to discontinue such annual transfers since the reserve has equalled to 50% of its share capital. This reserve is not available for distribution except as stipulated by UAE law.

FLLC has been dissolved in prior year.

(b) Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. It is also used to record the exchange differences arising from monetary items which form part of the Group's net investment in foreign operations, where the monetary item is denominated in either the functional currency of the reporting entity or the foreign operation.

(c) Other reserve

Other reserve arose from the redemption of redeemable preference shares in prior years by a subsidiary.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

32. RETIREMENT BENEFIT OBLIGATIONS

Retirement benefit obligations recognised by the Group is analysed into:

| | Group | |
|-------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Current | 1,036 | 550 |
| Non-current | 1,046 | 2,140 |
| | 2,082 | 2,690 |

The Group operates an unfunded, defined benefit Retirement Benefit Scheme ("the Scheme") for its eligible employees. The Scheme is closed to new employees. Under the Scheme, eligible employees are entitled to retirement benefits on attainment of the retirement age of 60 (2021: 60), on medical incapacity or on death. The present value of defined benefit obligation was based on the actuarial valuation report by independent actuarist dated 9 January 2023.

The details of the net employee benefits liability are as follows:

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Present value of the defined benefit obligations ("PVDBO") | | |
| At 1 January | 2,690 | 3,395 |
| Defined retirement benefit obligations (Note 8) | 411 | (121) |
| Actuarial gain | (821) | – |
| Contributions paid | (198) | (425) |
| Payable by associates | – | (159) |
| At 31 December | 2,082 | 2,690 |

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Analysis of funded and unfunded PVDBO | | |
| Analysed as: | | |
| Current | 1,036 | 550 |
| Non-current: | | |
| Later than 1 year but not later than 2 years | 268 | 487 |
| Later than 2 years | 778 | 1,653 |
| | 1,046 | 2,140 |
| PVDBO from plans that are wholly unfunded | 2,082 | 2,690 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

32. RETIREMENT BENEFIT OBLIGATIONS (CONTD.)

The details of net employee benefits expense recognised in income statement are as follows:

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Current service costs | 21 | 49 |
| Loss/(gain) on settlement | 209 | (293) |
| Interest cost | 181 | 123 |
| Net employee benefits expense (Note 8) | 411 | (121) |

Total amount recognised in statement of comprehensive income

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Cumulative amount of actuarial loss recognised in statement of comprehensive income: | | |
| At 1 January | 963 | 963 |
| Actuarial gain recognised in other comprehensive income | (821) | – |
| At 31 December | 142 | 963 |
| Historical experience adjustments: | | |
| PVDBO | 2,082 | 2,690 |
| Experience adjustment (value) | (821) | – |
| Experience adjustment (% of PVDBO) | -39% | 0% |

Principal actuarial assumptions used:

| | 2022 % | 2021 % |
|-----------------------------------|-----------|-----------|
| Discount rate | 4.50 | 4.90 |
| Expected rate of salary increases | 4.00 | 5.00 |

Assumptions regarding future mortality are based on published statistics and mortality tables.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

32. RETIREMENT BENEFIT OBLIGATIONS (CONTD.)

A one percentage point change in the below key assumptions would have the following effects to the retirement benefit obligations:

| | Increase in one percentage | | Decrease in one percentage | |
|--------------------------|----------------------------|----------------|----------------------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Sensitivity Level | | | | |
| Assumptions | | | | |
| Discount rate | 42 | 68 | (44) | (72) |
| Salary increment rate | (171) | (419) | 132 | 392 |

The average duration of the retirement benefit obligation at the end of the reporting period is 2 years (2021: 3 years).

33. DEFINED BENEFIT PENSION PLAN

Defined benefit pension plan is by a subsidiary, Edgenta UEMS Ltd. ("UEMS Taiwan").

UEMS Taiwan has a retirement plan covering all its regular employees who opted for defined benefits plan. Benefits under the plan are based on the length of service and estimated base pay at the time of retirement. The pension assets and liabilities are valued on annual basis by independent actuary, taking into account gains and losses.

The plan assets, comprising cash and cash equivalents, are deposited with the Bank of Taiwan and are managed by the government of Taiwan. The plan assets do not have quoted market prices in active market.

Amount recognised in the statement of comprehensive income:

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Interest cost on benefit obligation | 10 | 4 |
| Employer's contribution | (131) | (127) |
| Interest income | (3) | (2) |
| Total included in employee benefits expense (Note 8) | (124) | (125) |
| Net actuarial (gain)/loss recognised for the year | (121) | 127 |
| | (245) | 2 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

33. DEFINED BENEFIT PENSION PLAN (CONTD.)

Amount recognised in statement of financial position:

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Present value of defined benefit obligation | 1,238 | 1,675 |
| Fair value of plan assets | (529) | (672) |
| Defined benefit obligation | 709 | 1,003 |

Changes in present value of defined benefit obligation:

| | Group | |
|-----------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | 1,675 | 1,657 |
| Interest cost | 10 | 4 |
| Benefit paid | (281) | (225) |
| Actuarial (gain)/loss | (102) | 138 |
| Exchange differences | (64) | 101 |
| At 31 December | 1,238 | 1,675 |

Changes in fair value of plan assets:

| | Group | |
|-------------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | (672) | (720) |
| Employer's contribution | (131) | (127) |
| Benefit paid | 281 | 225 |
| Actuarial gain | (19) | (11) |
| Interest income | (3) | (2) |
| Exchange differences | 15 | (37) |
| At 31 December | (529) | (672) |

The principal assumptions used in determining defined benefit obligation of the Group are shown below:

| | Group | |
|-------------------|-------|-------|
| | 2022 | 2021 |
| Discount rate | 1.33% | 0.54% |
| Salary escalation | 3.00% | 2.06% |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

33. DEFINED BENEFIT PENSION PLAN (CONTD.)

Actual return on plan assets:

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Actual return of plan assets, representing actuarial gain recognised in the other comprehensive income | (19) | (11) |

A quantitative sensitivity analysis for significant assumptions as at 31 December 2022 and 2021 are as shown below:

| Sensitivity Level | Increase in one percentage | | Decrease in one percentage | |
|-------------------|----------------------------|----------------|----------------------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Assumptions | | | | |
| Discount rate | (121) | (174) | 129 | 186 |
| Salary increase | 126 | 180 | (119) | (171) |

The sensitivity analysis above has been determined based on a method that extrapolates the impact on net defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit obligation at the end of the reporting period is 10 years (2021: 11 years).

34. PROVISIONS

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Non-current: | | |
| Provision for employee service entitlements (Note a) | 4,280 | 3,441 |
| Current: | | |
| Provision for long-term incentive plan (Note b) | 1,620 | 1,620 |
| Total | 5,900 | 5,061 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

34. PROVISIONS (CONTD.)

(a) Provision for employee service entitlements

| | Group | |
|---|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January | 3,441 | 2,891 |
| Charged to the statement of comprehensive income (Note 8) | 653 | 621 |
| Exchange differences | 186 | 109 |
| Payment | — | (180) |
| At 31 December | 4,280 | 3,441 |

Provision for employee service entitlements comprises provisions for retirement leave entitlements in respect of eligible employees. The provisions are in respect of both vested and unvested entitlements, and are made by reference to independent actuarial valuations. The timing of such payments depends on when vesting occurs and the subsequent retirement date of the eligible employees.

(b) Provision for long-term incentive plan ("LTIP")

| | Group | |
|--------------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| At 1 January/31 December | 1,620 | 1,620 |

The Group under some of its subsidiaries grant the Shadow Share Option Scheme, i.e. LTIP, to eligible employees, as part of the remuneration package, whereby the employees will be entitled to future cash payments subject to meeting the pre-determined financial performance and value growth targets of the Group over a specific performance vesting period.

| Revolving credit (Note c) | 52,000 | 52,000 | 52,000 | 52,000 |
| Total borrowings | 458,750 | 443,521 | 302,000 | 304,184 |

The maturity profile of the loans and borrowings are as follows:

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Within one year | 127,111 | 385,426 | 52,000 | 304,184 |
| More than 1 year and less than 2 years | 26,563 | 11,115 | — | — |
| More than 2 years and less than 5 years | 305,076 | 34,821 | 250,000 | — |
| More than 5 years | — | 12,159 | — | — |
| | 331,639 | 58,095 | 250,000 | — |
| | 458,750 | 443,521 | 302,000 | 304,184 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

35. BORROWINGS (CONTD.)

(a) Term loans

Secure term loans bear interests which range from 3.66% to 3.99% per annum (2021: 3.20% to 4.30% per annum).

The term loans are secured by:

- (i) Assignment of rights, title, interest and benefits of the customer under the Concession Agreement in respect of the followings:
 - Project payment charges
 - Amount payable to the customer by the Government of Malaysia as a result of early termination
 - Appointment of substituted entity
- (ii) Assignment of proceeds over revenue and other income generated from a project;
- (iii) Assignment over designated accounts;
- (iv) Letter of undertaking from a subsidiary to service the monthly obligation of the customer in the event of any shortfall;
- (v) Corporate guarantee from a subsidiary.
- (vi) Deed of assignment and charge over a bank account; and
- (vii) Fixed and floating charge over present and future assets.

(b) Islamic Commercial Papers (“ICPs”) and Islamic Medium Term Notes (“IMTNs”)

The Company had established the ICPs and IMTNs under an Islamic Commercial Papers Programme and Islamic Medium Term Notes Programme respectively, which have a combined aggregate limit of up to RM1,000 million in nominal value and a sub-limit of RM300 million in nominal value for the ICP Programme under the Shariah Principle of Murabahah via a Tawarruq Arrangement. The tenure for ICPs and IMTNs are at 7 and 30 years, respectively from the date of the first issue.

The Company has issued the following:

- (i) RM50.0 million in nominal value of ICPs with a tenure of 12 months issued on 24 April 2020; and
- (ii) RM250.0 million in nominal value of IMTNs with a tenure of 5 years issued on 26 April 2017.

ICPs

On 23 April 2021, the Company has redeemed its outstanding ICPs amounting to RM50.0 million in nominal value upon its maturity. Prior to its redemption, the effective interest rate was 3.40%.

IMTNs

On 26 April 2022, the Company redeemed its outstanding IMTNs amounting to RM250.0 million in nominal value upon its maturity. On the same date, the Company has reissued the IMTNs with the same nominal value with a tenor of four years. The IMTNs will mature on 24 April 2026 and as a result, the Company has reclassified the IMTNs from current liabilities to non-current liabilities.

The effective profit rates for IMTNs at the reporting date is 4.25% (2021: 4.85%).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

35. BORROWINGS (CONTD.)

(c) Revolving credit

Unsecured revolving credit of the Company and the Group bear interest of 3.45% (2021: 2.45%).

Secured revolving credit of the Group bears interest rate of 1.74% (2021: 1.48%). The facility is secured by corporate guarantee from fellow subsidiaries.

Reconciliation of liabilities arising from financing activities

| Group | 2022 RM'000 | 2021 RM'000 | Cash flows | | Non-cash changes |

36. TRADE AND OTHER PAYABLES (CONTD.)

| | Company | |
|--------------------------------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Current | | |
| Other payables | | |
| Accruals | 15,596 | 20,048 |
| Sundry payables | 1,310 | 14,751 |
| Due to holding company (Note b) | 1,465 | 5,986 |
| Due to related companies (Note d) | 4,738 | 2,381 |
| Due to subsidiary companies (Note b) | 3,296 | 5,145 |
| Total | 26,405 | 48,311 |

(a) Trade payables

Trade payables are non-interest bearing and the normal trade credit terms granted to the Group range from 30 to 90 days (2021: 30 to 90 days).

(b) Retention payables

Retention payables are unsecured, interest-free and are expected to be paid within the terms of the relevant contracts.

(c) Amounts due to holding and subsidiary companies

Amount due to holding and subsidiary companies are non-interest bearing and repayable on demand. The amounts are unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

(d) Amounts due to related companies

Related companies refer to companies within the UEM group of companies.

Amounts due to related companies are non-interest bearing and are repayable on demand. The amounts are unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

37. CAPITAL COMMITMENTS

| | Group | | Company | |
|--|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Capital expenditure | | | | |
| Approved and contracted for purchase of: | | | | |
| – intangible assets | 85 | – | – | – |
| – property, plant and equipment | 23,408 | 10,794 | 526 | 216 |
| Approved but not contracted for purchase of: | | | | |
| – intangible assets | 19,935 | 10,523 | – | 5,770 |
| – property, plant and equipment | 72,878 | 71,824 | – | 1,558 |

38. PERFORMANCE BONDS AND GUARANTEES

| | Group | |
|--|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 |
| Secured: | | |
| Performance bond extended to Government of Malaysia in respect of security for the due performance of the Hospital Support Services Concession Agreement dated 28 October 1996 | 19,655 | 20,048 |
| Bank guarantee issued to authorities | 6,067 | 7,792 |
| Bank guarantees and performance bonds issued to others | 143,349 | 120,516 |
| Corporate guarantee for banking facilities utilised by fellow subsidiaries | 422,902 | 402,677 |
| | 591,973 | 551,033 |
| Unsecured: | | |
| Bank guarantees extended to third parties - trade related | 25,320 | 19,803 |

As at the reporting date, no values are ascribed on these guarantees provided by the Group for the purpose described above as the directors regard the value of the credit enhancement provided by these guarantees as minimal and the probability of default, based on historical track records of the parties receiving the guarantees are not probable.

NOTES TO THE FINANCIAL STATEMENTS

All other significant intercompany transactions have been disclosed in Note 22 and 36.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

39. RELATED PARTY DISCLOSURES (CONTD.)

(a) Sale and purchase of services (contd.)

Related parties referred to:

- subsidiaries, associates and joint venture of the Company and their subsidiaries;
- Khazanah Nasional Berhad, the ultimate holding Company, its subsidiaries and associates excluding subsidiaries of the Company;
- those companies controlled, jointly controlled and significantly influenced by the Government of Malaysia, other than those mentioned above;
- directors and key management personnel having authority and representation for planning, directing and controlling the activities of the Company and their close family members;
- enterprises owned by directors and key management personnel; and
- enterprises that have a member of key management in common with the Company.

The directors are of the opinion that all the transactions above have been entered into in the normal course of the business and have been established on mutually agreed terms and conditions.

(b) Compensation of key management personnel

Key management personnel is defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly including any directors.

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Salaries and other emoluments | 14,258 | 15,849 | 1,779 | 3,646 |
| Contributions to defined contribution plans | 1,419 | 1,366 | 237 | 507 |
| | 15,677 | 17,215 | 2,016 | 4,153 |

Included in total key management personnel compensation are:

| | Group | | Company | |
|---|----------------|----------------|----------------|----------------|
| | 2022 RM'000 | 2021 RM'000 | 2022 RM'000 | 2021 RM'000 |
| Directors' remuneration excluding benefits-in-kind (Note 9) | 2,713 | 2,641 | 1,791 | 2,641 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

40. FINANCIAL INSTRUMENTS

Classification of financial instruments

The principal accounting policies in Note 2.4 describe how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and liabilities in the statements of financial position by the class of financial instrument to which they are assigned, and therefore by the measurement basis:

| Group | FVTPL RM'000 | Amortised cost RM'000 | Total RM'000 |
|--|-----------------|-----------------------------|-----------------|
| 2022 | | | |
| Assets | | | |
| Trade receivables, net (Note 22) | — | 407,328 | 407,328 |
| Concession receivable (Note 22) | — | 121,910 | 121,910 |
| Other receivables, net (Note 22) | — | 47,751 | 47,751 |
| Cash, bank balances and deposits (Note 27) | — | 609,486 | 609,486 |
| Short-term investments (Note 26) | 97,178 | — | 97,178 |
| Total financial assets | 97,178 | 1,186,475 | 1,283,653 |
| Liabilities | | | |
| Trade payables (Note 36) | | 352,850 | 352,850 |
| Other payables (Note 36) | | 323,311 | 323,311 |
| Lease liabilities (Note 15) | | 40,954 | 40,954 |
| Borrowings (Note 35) | | 458,750 | 458,750 |
| Total financial liabilities | | 1,175,865 | 1,175,865 |
| 2021 | | | |
| Assets | | | |

| Total financial liabilities | 359,006 | 381,890 |

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, foreign currency risk, interest rate risk and market price risk.

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its interest rate risks (both fair value and cash flow), foreign currency risk, liquidity risk and credit risk. The Board of Directors reviews and agrees policies and procedures for the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process.

It is, and has been throughout the current and previous financial year, the Group's policy that no derivatives shall be undertaken except for the use as hedging instruments where appropriate and cost-efficient.

The following sections provide details regarding the Group's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables and contract assets

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. The Group minimises credit risk by dealing exclusively with high credit rating counterparties. The Group controls its credit risk by the application of credit approvals, limits and monitoring procedures. Credit evaluations are performed on all customers requiring credit over a certain amount and strictly limiting the Group's associations to business partners with high credit worthiness. Outstanding customer receivables and contract assets are regularly monitored and the status of major receivables are reported to the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(a) Credit risk (contd.)

Trade receivables and contract assets (contd.)

The Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments in calculating ECLs for trade receivables and contract assets. The amount and timing of future cash flows are then estimated based on historical credit loss experience for assets with similar credit risk characteristics and adjusted with forward-looking information such as forecast economic conditions. The measurement of ECL take into accounts reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forward-looking factors specific to the debtors.

Exposure to credit risk

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 40. The Group does not hold collateral as security.

Credit risk concentration profile

The Group determines concentrations of credit risk by monitoring the country sector profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's net trade receivables at the reporting date are as follows:

| | 2022 | | 2021 | |
|----------------------|---------|------------|---------|------------|
| | RM'000 | % of total | RM'000 | % of total |
| By country: | | | | |
| Malaysia | 240,938 | 59 | 268,859 | 61 |
| United Arab Emirates | 19,168 | 5 | 18,304 | 4 |
| Indonesia | — | — | 4,948 | 1 |
| Singapore | 58,902 | 14 | 66,691 | 15 |
| Taiwan | 88,320 | 22 | 82,035 | 19 |
| | 407,328 | 100 | 440,837 | 100 |

At the reporting date, the Group's ten largest customers account for approximately 37% (2021: 34%) of total trade receivables. Majority of these customers are government, quasi-government agency and government linked organisations.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 22.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that refinancing, repayment and funding needs are met. As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises committed funding from both capital markets and financial institutions and balances its portfolio with some short-term funding so as to achieve overall cost effectiveness.

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group's and the Company's liabilities at the reporting date based on contractual undiscounted repayment obligations.

| | On demand or within one year RM'000 | One to five years RM'000 | More than five years RM'000 | Total RM'000 |
|--|--|--------------------------------|-----------------------------------|-----------------|
| Group | | | | |
| 2022 | | | | |

| Total undiscounted financial liabilities | 360,268 | 23,992 | – | 384,260 |

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency) and the Group's net investments in foreign subsidiaries.

The Group operates internationally and is exposed to various currencies, mainly Singapore Dollar ("SGD"), Taiwanese Dollar ("TWD"), Indonesian Rupiah ("IDR"), United Arab Emirates Dirham ("AED"), Saudi Arabia Riyal ("SAR") and New Zealand Dollar ("NZD").

The Group maintains a natural hedge, whenever possible, by borrowing in the currency of the country in which the investments are located or by borrowing in currencies that match the future revenue stream to be generated from its investments.

As and when the Group undertakes significant transactions denominated in foreign currencies, with continuing exposure over the applicable periods of settlement, the Group evaluates its exposure and the necessity to hedge such exposure, as well as the availability and cost of such hedging instruments.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(c) Foreign currency risk (contd.)

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Group's profit before tax and equity to a reasonably possible change in the SGD and TWD exchange rates against the RM, with all other variables held constant.

| | Change in SGD rate | Effect on profit before tax RM'000 | Effect on equity RM'000 |
|------|-----------------------|---|-------------------------------|
| 2022 | 6% –6% | 1,579 (1,579) | 33,305 (33,305) |
| 2021 | 2% –2% | 620 (620) | 8,379 (8,379) |

| | Change in TWD rate | Effect on profit before tax RM'000 | Effect on equity RM'000 |
|------|-----------------------|---|-------------------------------|
| 2022 | 6% –6% | – – | 7,230 (7,230) |
| 2021 | 6% –6% | – – | 5,158 (5,158) |

The impact of sensitivity analysis of the rest of the foreign currencies is not material to the Group.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

As the Group has no significant interest-bearing financial assets, the Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group's interest-bearing financial assets are mainly short-term in nature and have been mostly placed in fixed deposits or occasionally, in short-term commercial papers.

The Group's interest rate risk arises primarily from interest-bearing borrowings. Borrowings at floating rates expose the Group to cash flow interest rate risk. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The Group's policy is to manage interest cost using a mix of fixed and floating rate debts.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(d) Interest rate risk (contd.)

Sensitivity analysis for interest rate risk

A sensitivity analysis had been performed to determine the sensitivity of the Group's profit net of tax to a reasonably possible change in the interest rate at the reporting date. This analysis assumes that all other variables, in particular foreign currency rate, remain constant. Based on the analysis, there is no material impact to the Group's profit net of tax.

The following tables set out the carrying amounts, the weighted average effective interest rates ("WAEIR") as at the reporting date and the remaining maturities of the Group's and of the Company's financial instruments that are exposed to interest rate risk:

| At 31 December 2022 | Note | WAEIR % | Within 1 year RM'000 | 1-2 years RM'000 | 2-5 years RM'000 | > 5 years RM'000 | Total RM'000 |
|---|------|---------|----------------------|------------------|------------------|------------------|--------------|
| Group | | | | | | | |
| Fixed rate | | | | | | | |
| Deposits with licensed banks and other financial institutions | 27 | 2.16 | 131,244 | — | — | — | 131,244 |
| IMTNs | 35 | 4.25 | — | — | (250,000) | — | (250,000) |
| Lease liabilities | 15 | 2.54 | (12,744) | (12,136) | (16,074) | — | (40,954) |
| Floating rate | | | | | | | |
| Revolving credit | 35 | 2.61 | (101,732) | — | — | — | (101,732) |
| Term loans | 35 | 4.69 | (25,379) | (26,563) | (55,076) | — | (107,018) |
| Company | | | | | | | |
| Fixed rate | | | | | | | |
| Deposits with licensed banks and other financial institutions | 27 | 3.27 | 9,000 | — | — | — | 9,000 |
| IMTNs | 35 | 4.25 | — | — | (250,000) | — | (250,000) |
| Lease liabilities | 15 | 4.00 | (9,700) | (6,934) | (13,967) | — | (30,601) |
| Floating rate | | | | | | | |
| Revolving credit | 35 | 2.45 | (52,000) | — | — | — | (52,000) |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(d) Interest rate risk (contd.)

The following tables set out the carrying amounts, the weighted average effective interest rates ("WAEIR") as at the reporting date and the remaining maturities of the Group's and of the Company's financial instruments that are exposed to interest rate risk: (contd.)

| At 31 December 2021 | Note | WAEIR % | Within 1 year RM'000 | 1-2 years RM'000 | 2-5 years RM'000 | > 5 years RM'000 | Total RM'000 |
|---|------|---------|----------------------|------------------|------------------|------------------|--------------|
| Group | | | | | | | |
| Fixed rate | | | | | | | |
| Deposits with licensed banks and other financial institutions | 27 | 1.61 | 201,742 | — | — | — | 201,742 |
| IMTNs | 35 | 4.85 | (252,184) | — | — | — | (252,184) |
| Lease liabilities | 15 | 3.55 | (8,599) | (8,827) | (16,193) | — | (33,619) |
| Floating rate | | | | | | | |
| Revolving credit | 35 | 1.90 | (119,948) | — | — | — | (119,948) |
| Term loans | 35 | 3.83 | (13,294) | (11,238) | (34,698) | (12,159) | (71,389) |
| Company | | | | | | | |
| Fixed rate | | | | | | | |
| IMTNs | 35 | 4.85 | (252,184) | — | — | — | (252,184) |
| Lease liabilities | 15 | 3.73 | (6,818) | (7,052) | (15,525) | — | (29,395) |
| Floating rate | | | | | | | |
| Revolving credit | 35 | 2.45 | (52,000) | — | — | — | (52,000) |

Interest on financial instruments subject to floating interest rates is contractually repriced at intervals of less than 12 months. Interest on financial instruments at fixed rates are fixed until the maturity of the instruments. The other financial instruments of the Group and of the Company that are not included in the above tables are not subject to interest rate risks.

(e) Market price risk

Market price risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates).

The Group is not exposed to equity price risk arising from its investment in quoted equity instruments.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(f) Fair value

Financial instruments that are not measured at fair value and whose carrying amounts are reasonable approximation of fair value

Included in these classes of financial instruments are certain financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

| | Note |
|----------------------------------|------|
| Trade and other receivables | 22 |
| Cash, bank balances and deposits | 27 |
| Borrowings | 35 |
| Trade and other payables | 36 |

The carrying amounts of these financial assets and financial liabilities are reasonable approximation of fair values due either to the short-term nature or insignificant impact of discounting or that they are floating rate instruments that are repriced to market interest rates on or near the reporting date.

Determination of fair value

The following table provides the fair value measurement hierarchy of the Group’s financial assets

| | Group | |
|--|----------------|----------------|
| | 2022 RM’000 | 2021 RM’000 |
| Level 2 – significant observable input | | |
| Assets measured at fair value: | | |
| Short-term investments | 97,178 | 28,310 |

The valuation date of these financial instruments is 31 December 2022 and 2021, respectively. There have been no transfers between levels during the period.

Short-term investments are valued based on currently available deposits with similar terms and maturities.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

42. CAPITAL MANAGEMENT

The primary objective of the Group’s and of the Company’s capital management is to ensure that they maintain a strong credit rating and healthy capital ratios in order to support their business and maximise shareholder value. The Group and the Company also aim to maintain a capital structure that has an appropriate cost of capital available to the Group and the Company.

In order to achieve this overall objective, the Group’s capital management, among other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches of the financial covenants of any interest-bearing loans and borrowing in the current period.

The Group and the Company manage capital by reference to the debt to asset ratio. The Group’s and the Company’s debt to asset ratio is as follows:

| | Group | | Company | |
|---------------------|----------------|----------------|----------------|----------------|
| | 2022 RM’000 | 2021 RM’000 | 2022 RM’000 | 2021 RM’000 |
| Term loans | 107,018 | 71,389 | – | – |
| Revolving credit | 101,732 | 119,948 | 52,000 | 52,000 |
| IMTNs | 250,000 | 252,184 | 250,000 | 252,184 |
| Total debt | 458,750 | 443,521 | 302,000 | 304,184 |
| Total assets | 2,868,671 | 2,855,070 | 1,891,693 | 1,897,173 |
| Debt to asset ratio | 16% | 16% | 16% | 16% |

43. SEGMENT INFORMATION

(a) Business unit segments

For management purposes, the Group is organised into business units based on their products and services, and reflect the Group’s offerings across different sectors as follows:

Asset Management

The asset management segment provides integrated facilities management and engineering contracting services for a range of assets and building types specialising in healthcare support and property and facility solutions.

(i) Healthcare support

The healthcare support division delivers optimal solutions in improving the non-clinical support services demanded by healthcare providers and other commercial industries.

Services range from facilities and biomedical engineering maintenance, waste management, linen and laundry, to housekeeping and portering services.

(ii) Property and facility solutions (“PFS”)

The PFS division offers integrated facilities management services complimented with technology-driven green building solutions and asset optimisation, with a focus on enhancement and energy solutions.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

43. SEGMENT INFORMATION (CONTD.)

(a) Business unit segments (contd.)

Infrastructure Solutions

Infrastructure solutions segment provides strategic advisory services, design, development, maintenance and management of major transport projects and infrastructure assets.

(i) Asset consultancy

The asset consultancy division provides advisory and planning, engineering design and consultancy, property and community consultancy, research and development, procurement and construction planning, project and construction management, and asset and facilities management.

(ii) Infrastructure services

The infrastructure services division focuses on highway network maintenance and asset management, including innovative pavement works and solutions services; with expanded capabilities beyond roads, servicing multiple industries including rail, airports, ports, oil and gas, plantation roads and other commercial and industrial sectors.

Others

Other segment includes the business of developing residential properties and Group-level corporate services and investment holdings.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

(b) Geographical segments

The Group's geographical segments are based on the location of the Group's assets. Sales to external customers disclosed in geographical segments are based on the geographical location of its customers. The Group's business segments operate in six geographical areas:

- (i) Malaysia – the operations in this area are principally integrated facilities management, consultancy services, infrastructure maintenance, geotechnical investigation, instrumentation, pavement condition assessment works, township management, property development and investment holding.
- (ii) Indonesia – the operations in this area are principally consultancy services and road infrastructure.
- (iii) Middle East – the operation in this area are principally integrated facilities management and asset management consultancy services.
- (iv) Singapore – the operations in this area are principally integrated facilities management.
- (v) Taiwan – the operations in this area are principally integrated facilities management.
- (vi) India – the operations in this area are principally integrated facilities management.

NOTES TO THE FINANCIAL STATEMENTS

| Investment in associates | 72,346 | 102,922 |
| Investment in a joint venture | 116 | – |
| Other investments | 232 | 232 |
| Contract assets | 73,109 | 75,078 |
| Contract fulfillment asset | 547 | 2,616 |
| | 1,051,644 | 1,084,312 |

Information about major customers

Revenue from two (2021: two) major customers amounted to RM450.2 million and RM635.1 million (2021: RM455.7 million and RM532.6 million) respectively, arising from services rendered in the Infrastructure Services and Healthcare Support segment.

44. SIGNIFICANT CONTINGENT LIABILITIES

As at 31 December 2022, there is no significant contingent liabilities.

The development of material litigation disclosed as contingent liabilities in the financial year ended 31 December 2021 are as follows:

(a) Ahmad Zaki Sdn. Bhd. ("AZSB") vs Edgenta PROPEL Berhad ("EPB")

On 15 April 2021, AZSB commenced an action against EPB on the claim that EPB has breached the terms of contract, mainly due to the EPB's failure to meet completion date. Consequently, AZSB had to engage third parties to complete some of the works under the contract. AZSB is therefore seeking reliefs amounting to RM30.9 million from EPB.

As at 31 December 2021, no provision was recognised and AZSB's claim was disclosed as contingent liability as EPB has been advised by its legal counsel that it has a good defence against the claim.

On 12 July 2022, AZSB and EPB has reached a settlement and recorded consent judgement before the judge on 27 July 2022. The terms of the Consent Judgement include withdrawal of all the claims against EPB amounting to RM30.9 million with no liberty to file afresh and AZSB is to pay EPB's counter-claim of RM10.6 million, by way of 10 monthly instalments from 30 November 2022 to 31 August 2023.

As a result of AZSB's failure to meet the instalment plan per consent judgement, EPB has filed a winding-up petition against AZSB on 3 January 2023. On 27 January 2023, EPB's winding up petition against AZSB was withdrawn with a liberty to start afresh and EPB allowed the payment of outstanding amounts via 11 monthly instalments from 31 March 2023 to 31 January 2024.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

44. SIGNIFICANT CONTINGENT LIABILITIES (CONTD.)

The development of material litigation disclosed as contingent liabilities in the financial year ended 31 December 2021 are as follows: (contd.)

(b) Magna Meditech Sdn. Bhd. (“MMSB”) vs Edgenta Mediserve Sdn. Bhd. (“EMS”)

On 25 March 2021, MMSB commenced an action against EMS on the claim that EMS has breached the terms of contract, by prematurely and unlawfully terminating the contract. MMSB seeks reinstatement of the contract by way of a new term of 3 years with an extension of further 2 years damages amounting to RM22.0 million.

As at 31 December 2021, no provision was recognised and MMSB’s claim was disclosed as contingent liability as EMS has been advised by its legal counsel that it has a good defence against the claim.

On 29 December 2022, EMS entered into a settlement agreement with MMSB. Pursuant to the settlement agreement, EMS will pay a settlement sum of RM1.2 million and MMSB withdrew the claim against EMSB without liberty to file afresh. The settlement sum, which also inclusive of claim of assets and equipment purchased by MMSB had been recorded by EMS in the financial year ended 31 December 2022.

(c) UEM Edgenta Berhad (“UEM Edgenta” or “the Company”) and DGIR

On 30 April 2021, the DGIR served UEM Edgenta with additional tax assessment for the years of assessment 2015 to 2018 for additional income taxes and penalty of RM18.7 million. The additional income tax was imposed by DGIR mainly pursuant to the dispute on the status of the Company as a Management Service Company and shall be taxed as an Investment Holding Company under Section 60FA of the Income Tax Act, 1967.

At 31 December 2021, no provision was recognised and the additional tax assessment was disclosed as contingent liability as the Company has been advised by its legal counsel that it has a valid legal claim to challenge the basis of assessment.

On 8 December 2022, the Company reached an out of court settlement with DGIR, on the Company’s treatment of its taxable income, which resulted in the downward revision of additional tax assessments and penalty from RM18.7 million to RM6.9 million. The Company had recorded additional tax assessments and penalty totalling to RM6.9 million, disclosed in Note 7 and Note 10.

(d) Edgenta PROPEL Berhad (“EPB”) and DGIR

On 29 June 2021, DGIR served EPB with additional tax assessment for the years of assessment 2016 to 2018 for additional income taxes of RM9.4 million. The additional income taxes are consequent to the DGIR’s view that EPB ought to not have deducted the adjusted losses surrendered to it by UEM Edgenta Berhad, flowing from DGIR’s position that UEM Edgenta is not a management services company as described in Note 44(c).

On 8 December 2022, EPB reached an out of court settlement with DGIR. As the losses surrendered by UEM Edgenta are now allowed for deduction by EPB, there is no additional tax charges imposed for the years of assessment 2016 to 2018. Consequently, DGIR discharged all the notices of additional assessments.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

45. SIGNIFICANT EVENTS

- (a) On 10 March 2022, OIMB, a wholly-owned subsidiary of OGB which in turn is a wholly-owned subsidiary of UEM Edgenta Berhad entered into a Shareholders Agreement with PPES and OCS to jointly provide project management services and engineering design consultancy services, relating to the engineering and construction projects.

On 22 April 2022, OCS issued 175,000 new ordinary shares, in which 47,500 and 127,500 were subscribed by OIMB and PPES, respectively. As a result, OIMB’s equity interest were diluted to 49% and OCS became a JV to OIMB as disclosed in Note 20.

- (b) On 29 September 2022, Edgenta Arabia Limited (“EAL”), a wholly-owned subsidiary of the Company, entered into a Share Purchase Agreement and Shareholders Agreement with Mohammed Ibrahim Al-Subeaei and His Sons Investment Company for the proposed investment in MEEM for Facilities Management Company, through a 60% equity interest buy-in by EAL.

The transaction is expected to be completed in the first quarter of financial year ending 31 December 2023. As at 31 December 2022, the transaction has no financial impact to the Group and the Company.

- (c) On 9 November 2022, Edgenta Facilities Sdn Bhd (“EFSB”), a wholly-owned subsidiary of UEM Edgenta entered into a Share Purchase Agreement for the disposal of its entire 47,113 equity shares in FSPL, representing 51% of the paid-up share capital of FSPL for a sale consideration of INR700 million (approximately RM39.1 million).

The disposal has been completed on 17 November 2022. Further details are disclosed in Note 19.

- (d) Malaysia transitioned into an endemic phase of Covid-19 on 1 April 2022. Accordingly, the Group has also been able to resume its operations at full capacity while still maintaining necessary precautionary measures in our day-to-day operation.

NOTICE OF THE 60TH ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN THAT the 60th Annual General Meeting (“60th AGM”) of UEM Edgenta Berhad (“UEM Edgenta” or the “Company”) will be conducted virtually for the purpose of considering and if thought fit, passing with or without modifications the resolutions set out in this notice.

- Meeting Platform : <https://meeting.boardroomlimited.my>
- Day and Date : Thursday, 15 June 2023
- Time : 3.00 p.m.
- Broadcast Venue : The Grounds, Level 12, Menara UEM, Tower 1, Avenue 7, The Horizon, Bangsar South City, No. 8, Jalan Kerinchi, 59200 Kuala Lumpur

Mode of Communication: Shareholders may submit questions to the Board of Directors in advance, prior to the 60th AGM electronically by email to ir@edgenta.com no later than **Tuesday, 13 June 2023 at 3.00 p.m.** or via real time submission of typed texts via Lumi AGM meeting platform at <https://meeting.boardroomlimited.my> during the live streaming.

AGENDA ORDINARY BUSINESS

1. To receive the Audited Financial Statements of the Company for the financial year ended 31 December 2022 together with the Directors’ and Auditors’ reports thereon.

Ordinary Resolution 1
2. To re-elect the following Directors who are retiring in accordance with Article 91 of the Company’s Constitution and being eligible, have offered themselves for re-election:-
 - Tan Sri Dr. Azmil Khalid
 - Dato’ Mohd Izani Ghani

Dato’ Noorazman Abd Aziz who retires in accordance with Article 91 of the Company’s Constitution, has expressed his intention not to seek re-election. Hence, he will retain office until the conclusion of the 60th AGM.

Ordinary Resolution 2
3. To approve the Directors’ fees and the payment thereof to the Directors for the period from the 60th AGM until the next Annual General Meeting (“AGM”) of the Company, to be payable on a quarterly basis.

Ordinary Resolution 3
4. To approve the payment of Directors’ benefits (excluding Directors’ fees) to the Non-Executive Chairman and Non-Executive Directors based on the following table of benefits and remuneration for the period from the 60th AGM until the next AGM of the Company:-

| Description | Directors’ remuneration/benefits |
|--|---|
| Meeting allowance for ad-hoc or temporary Board Committees established for specific purposes | (i) Chairman of Committee – RM2,000 per meeting (ii) Member of Committee – RM1,000 per meeting |
| Car allowance for Chairman of UEM Edgenta | RM3,400 per month |

Ordinary Resolution 4
5. To re-appoint Messrs Ernst & Young PLT as Auditors and to authorise the Board of Directors to fix their remuneration.

Ordinary Resolution 5

NOTICE OF THE 60TH ANNUAL GENERAL MEETING

SPECIAL BUSINESS

To consider and, if thought fit, to pass the following resolutions, with or without modifications:-

6. **Proposed Renewal of Existing Shareholders’ Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature**

Ordinary Resolution 6

“**THAT** pursuant to Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, approval be and is hereby given for the renewal of the shareholders’ mandate for the Company and/or its subsidiaries (“UEM Edgenta Group”) to enter into recurrent related party transactions of a revenue or trading nature (“Proposed Renewal of Shareholders’ Mandate”), which are necessary for the day-to-day operations in the ordinary course of business of UEM Edgenta Group and are on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company, particulars of which are set out in Part A of Appendix I of the Circular to Shareholders dated 28 April 2023 **AND THAT** such approval shall continue to be in force until:-

(a) the conclusion of the next AGM of the Company following this AGM at which such mandate is passed, at which time it will lapse, unless by a resolution passed at such general meeting whereby the authority is renewed;

(b) the expiration of the period within which the next AGM of the Company after that date is required to be held pursuant to Section 340(2) of the Companies Act 2016 (“the Act”) (but shall not extend to such extension as may be allowed pursuant to Section 340(4) of the Act); or

(c) revoked or varied by resolution passed by the shareholders in a general meeting,

whichever is the earlier,

AND FURTHER THAT the Directors of the Company and/or any of them be and are/is (as the case may be) hereby authorised to complete and do all such acts and things (including executing all such documents under the common seal in accordance with the provisions of the Constitution of the Company, as may be required) as they may consider expedient or necessary to give full effect to the Proposed Renewal of Shareholders’ Mandate.”
7. **Proposed New Shareholders’ Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature**

Ordinary Resolution 7

“**THAT** pursuant to Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, approval be and is hereby given for the shareholders’ mandate for UEM Edgenta Group to enter into additional recurrent related party transactions of a revenue or trading nature (“Proposed New Shareholders’ Mandate”), which are necessary for the day-to-day operations in the ordinary course of business of UEM Edgenta Group and are on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company, particulars which are set out in Part B of Appendix I of the Circular to Shareholders dated 28 April 2023 **AND THAT** such approval shall continue to be in force until:-

(a) the conclusion of the next AGM of the Company following this AGM at which such mandate is passed at which time it will lapse, unless by a resolution passed at such general meeting whereby the authority is renewed;

(b) the expiration of the period within which the next AGM of the Company after that date is required to be held pursuant to Section 340(2) of the Act (but shall not extend to such extension as may be allowed pursuant to Section 340(4) of the Act); or

(c) revoked or varied by resolution passed by the shareholders in a general meeting,

whichever is the earlier,

NOTICE OF THE 60TH ANNUAL GENERAL MEETING

AND FURTHER THAT the Directors of the Company and/or any of them be and are/is (as the case may be) hereby authorised to complete and do all such acts and things (including executing all such documents under the common seal in accordance with the provisions of the Constitution of the Company, as may be required) as they may consider expedient or necessary to give full effect to the Proposed New Shareholders’ Mandate.”

8. To transact any other business for which due notice shall have been given.

BY ORDER OF THE BOARD

CHIEW SIEW YUEN

Company Secretary
(SSM PC No. 201908001259)
(MAICSA 7063781)

Kuala Lumpur
28 April 2023

NOTES:

1. The 60th AGM would be held entirely via Remote Participation and Electronic Voting (“RPEV”) facilities through Lumi AGM meeting platform at <https://meeting.boardroomlimited.my>. Kindly refer to the Administrative Notes for the 60th AGM in order to register, participate and vote remotely via the RPEV facilities.
2. The venue of the 60th AGM is strictly for the purpose of complying with Article 68 of the Constitution of the Company which requires the Chairperson of the meeting to be present at the main venue of the meeting. **No shareholders/proxy(ies)/corporate representative(s)** from the public will be physically present nor admitted at the Broadcast venue on the day of the 60th AGM.
3. A member of the Company entitled to attend and vote at the meeting, is entitled to appoint not more than two (2) proxies to attend, participate, speak and vote in his stead. A proxy may but need not be a member of the Company.
4. Where a member appoints more than one (1) proxy, the appointment shall be invalid unless he specifies the proportion of his shareholding to be represented by each proxy.
5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account (“Omnibus Account”), there is no limit to the number of proxies which the exempt authorised nominee may appoint

in respect of each Omnibus Account it holds in the Company. An exempt authorised nominee refers to an authorised nominee defined under the Securities Industry (Central Depositories) Act 1991 which is exempted from compliance with the provisions of subsection 25A(1) of the Securities Industry (Central Depositories) Act 1991.

6. The instrument appointing a proxy shall be in writing under the hand of the Member or his attorney duly authorised in writing or, if the Member is a corporation, shall either be executed under its common seal or under the hand of two (2) authorised officers, one of whom shall be a director, or in the case of a sole director, by that director in the presence of a witness who attests the signature or of its attorney duly authorised in writing.
7. The instrument appointing a proxy must be deposited/ submitted via the following ways not less than forty-eight (48) hours before the time set for holding the AGM or any adjournment thereof:-
- (i) By hardcopy form
The Proxy Form must be deposited at the Share Registrar’s Office, Boardroom Share Registrars Sdn. Bhd., at 11th Floor, Menara Symphony, No. 5, Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan.

- (ii) By electronic form

The Proxy Form can be electronically submitted through the Share Registrar’s website, Boardroom Smart Investor Portal at <https://investor.boardroomlimited.com>. Please refer to the Administrative Notes for the procedures on electronic lodgement of proxy form.

8. For the purpose of determining a member who shall be entitled to attend this 60th AGM, the Company shall be requesting Bursa Malaysia Depository Sdn. Bhd. in accordance with the provisions under Article 63 of the Company’s Constitution and Section 34(1) of the Securities Industry (Central Depositories) Act 1991 to issue a General Meeting Record of Depositors (“ROD”) as at 8 June 2023. Only a depositor whose name appears on the ROD as at 8 June 2023 shall be entitled to attend this 60th AGM or appoint a proxy(ies) to attend, participate, speak and vote on his behalf.

Personal data privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, participate, speak and vote at the AGM and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member’s personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the “Purposes”), (ii) warrants that where the member discloses the personal data of the member’s proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member’s breach of warranty.

9. Explanatory Notes on Ordinary Businesses:-

- (i) To receive the Audited Financial Statements

Agenda Item No. 1 is meant for discussion only as the provisions of Sections 248(2) and 340(1) of the Act does not require a formal approval of shareholders for the Audited Financial Statements. Hence, this item of the Agenda is not put forward for voting.

NOTICE OF THE 60TH ANNUAL GENERAL MEETING

- (ii) Ordinary Resolutions 1 & 2: Re-election of Directors

The Nomination and Remuneration Committee (“NRC”) has considered the performance and contribution of each of the retiring Directors under Agenda Item No. 2 and has also assessed the independence of the Independent Non-Executive Director (“INED”) seeking re-election.

Based on the results of the Board Effectiveness Assessment conducted for the financial year ended 31 December 2022, the performance of each of the retiring Directors was found to be satisfactory.

The retiring INED has also fulfilled the independence criteria set out in the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and Malaysian Code on Corporate Governance.

The Board has endorsed the NRC’s recommendation to seek shareholders’ approval for the re-election of the retiring Directors. The retiring Directors, had abstained from deliberations and decisions on their re-election at the NRC and Board meetings.

The details and profiles of the Directors who are standing for re-election at the 60th AGM are provided in the Board of Directors’ section on pages 192 to 200 of Company’s Annual Report 2022.

- (iii) Ordinary Resolution 3: Payment of Directors’ Fees

The Directors’ fees under Agenda Item No. 3 is payable to each of the Non-Executive Directors, on a quarterly basis as follows:-

| Directors’ Fees | Non-Executive Chairman | | Non-Executive Director | |
|------------------------|------------------------|----------------|------------------------|----------------|
| | Per Quarter (RM) | Per Annum (RM) | Per Quarter (RM) | Per Annum (RM) |
| Board | 52,500 | 210,000 | 27,000 | 108,000 |
| Audit Committee | 12,500 | 50,000 | 7,500 | 30,000 |
| Other Board Committees | 6,250 | 25,000 | 3,750 | 15,000 |

NOTICE OF THE 60TH ANNUAL GENERAL MEETING

10. Explanatory Notes on Special Businesses:-

(i) Ordinary Resolution 6: Proposed Renewal of Existing Shareholders’ Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature

The proposed Ordinary Resolution 6, if passed, will allow UEM Edgenta Group to enter into recurrent related party transactions which are of a revenue or trading nature and necessary for UEM Edgenta Group’s day-to-day operations, subject to the transactions being carried out in the ordinary course of business and on terms not to the detriment of the minority shareholders of the Company.

In addition, it will eliminate the necessity to convene separate general meetings from time to time to seek shareholders’ approval as and when such recurrent related party transactions occur. This would reduce substantial administrative time and expenses associated with the convening of such meetings without compromising the corporate objectives of the Group or affecting the business opportunities available to the Group. The shareholders’ mandate is subject to renewal on an annual basis.

The details on the Proposed Renewal of Existing Shareholders’ Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature are set out in Part A of Appendix I of the Circular to Shareholders dated 28 April 2023.

(ii) Ordinary Resolution 7 – Proposed New Shareholders’ Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature

Ordinary Resolution 7 is to seek shareholders’ mandate in relation to additional recurrent related party transactions to be entered into by the Company and its subsidiaries.

This resolution, if passed, will enable UEM Edgenta Group to enter into recurrent related party transactions of a revenue or trading nature which are necessary for UEM Edgenta Group’s day-to-day operations, subject to the transactions being in the ordinary course of business and on normal commercial terms which are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company.

This mandate will eliminate the necessity to convene separate general meetings from time to time to seek shareholders’ approval as and when such recurrent related party transactions occur. This would reduce substantial administrative time and expenses associated with the convening of such meetings without compromising the corporate objectives of the Group or affecting the business opportunities available to the Group. The shareholders’ mandate is subject to renewal on an annual basis.

The details on the Proposed New Shareholders’ Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature are set out in Part B of Appendix I of the Circular to Shareholders dated 28 April 2023.

STATEMENT ACCOMPANYING NOTICE OF 60TH ANNUAL GENERAL MEETING

(pursuant to Paragraph 8.27(2) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad)

Directors who are standing for re-election at the 60th AGM

The details of the Directors who are standing for re-election at the 60th AGM are provided in the Board of Directors’ section on pages 192 to 200 of the Company’s Annual Report 2022. None of the Directors have any interest in the securities of the Company and its subsidiaries.

- NOTES:**
1. The 60th Annual General Meeting ("60th AGM") would be held entirely via Remote Participation and Electronic Voting ("RPEV") facilities through Lumi AGM meeting platform at <https://meeting.boardroomlimited.my>. Kindly refer to the Administrative Notes for the 60th AGM in order to register, participate and vote remotely via the RPEV facilities.
 2. The venue of the 60th AGM is strictly for the purpose of complying with Article 68 of the Constitution of the Company which requires the Chairperson of the meeting to be present at the main venue of the meeting. **No shareholders/proxy(ies)/corporate representative(s)** from the public will be physically present nor admitted at the Broadcast venue on the day of the 60th AGM.
 3. A member of the Company entitled to attend and vote at the meeting, is entitled to appoint not more than two (2) proxies to attend, participate, speak and vote in his stead. A proxy may but need not be a member of the Company.
 4. Where a member appoints more than one (1) proxy, the appointment shall be invalid unless he specifies the proportion of his shareholding to be represented by each proxy.
 5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("Omnibus Account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds in the Company. An exempt authorised nominee refers to an authorised nominee defined under the Securities Industry (Central Depositories) Act 1991 which is exempted from compliance with the provisions of subsection 25A(1) of the Securities Industry (Central Depositories) Act 1991.
 6. The instrument appointing a proxy shall be in writing under the hand of the Member or his attorney duly authorised in writing or, if the Member is a corporation, shall either be executed under its common seal or under the hand of two (2) authorised officers, one of whom shall be a director, or in the case of a sole director, by that director in the presence of a witness who attests the signature or of its attorney duly authorised in writing.
 7. The instrument appointing a proxy must be deposited/submitted via the following ways not less than forty-eight (48) hours before the time set for holding the AGM or any adjournment thereof:-
 - (i) By hardcopy form

The Proxy Form must be deposited at the Share Registrar's Office, Boardroom Share Registrars Sdn. Bhd., 11th Floor, Menara Symphony, No. 5, Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan.
 - (ii) By electronic form

The Proxy Form can be electronically submitted through the Share Registrar's website, Boardroom Smart Investor Portal at <https://investor.boardroomlimited.com>. Please refer to the Administrative Notes for the procedures on electronic lodgement of proxy form.
 8. For the purpose of determining a member who shall be entitled to attend this 60th AGM, the Company shall be requesting Bursa Malaysia Depository Sdn. Bhd. in accordance with the provisions under Article 63 of the Company's Constitution and Section 34(1) of the Securities Industry (Central Depositories) Act 1991 to issue a General Meeting Record of Depositors ("ROD") as at 8 June 2023. Only a depositor whose name appears on the ROD as at 8 June 2023 shall be entitled to attend this 60th AGM or appoint a proxy(ies) to attend, participate, speak and vote on his behalf.

PERSONAL DATA PRIVACY:

By submitting an instrument appointing a proxy(ies) and/or representative(s), the member accepts and agrees to the personal data privacy terms set out in the Notice of Annual General Meeting dated 28 April 2023.
