The above estimated values are indicative estimates which are based on prevailing prices obtained from the mandated Related Parties which are reasonably market-competitive prices based on the normal level of transactions entered into by the Group. The estimated value of the RRPT may differ from the actual value of the transactions.

2.6 Amount Owning by Related Parties Which Exceeded the Credit Terms

None of the Related Parties owe the Kossan Group any sum under the RRPT which exceeded the credit terms agreed upon.

2.7 Guidelines and Review Procedures

To ensure that the RRPT are undertaken by the Kossan Group on normal commercial terms and to supplement the existing internal control procedures of the Group, the Audit Committee is tasked with the periodic review of such transactions and has the overall responsibility to determine whether the procedures in place are appropriate and within the limits approved. The Audit Committee currently comprises three Independent Non-executive Directors, as follows:

Lee Choo Hock	(Chairman, Independent Non-executive Director)
Hoh Kim Hyan	(Member, Independent Non-executive Director)
Sharon Shanthly a/p Dorairaj	(Member, Independent Non-executive Director)

The following guidelines will apply to the review and approval of RRPT to ensure that the terms are not more favourable to the Related Parties than those generally available to the public and are not detrimental to minority shareholders:

- (a) The threshold for the utilisation of the approved mandate shall be subjected to the Discretionary Authority Limit of RM500,000 duly approved by the Board of Directors. Board of Directors' approval is required for all unbudgeted and all budgeted commitment in excess of RM500,000 per commitment.
- (b) Any tender, quotation or contract received from or proposed to be entered into with a Related Party will not be approved unless:
 - (i) the pricing for the goods and services to be supplied to or provided by the Related Parties is negotiated based on prevailing market prices for the goods such as rubber products, plastic products, industrial chemicals, rubber compound, paint and consumables, formers and FRP tanks, and the rental of premises are consistent with the prices as agreed with unrelated third parties;
 - (ii) the terms are not more favourable to the Related Parties than those extended to unrelated third parties and available to the public and the RRPT are not detrimental to minority shareholders;
 - (iii) the transactions are entered into after taking into account factors such as pricing, quality, level of service, delivery schedules and, where applicable, preferential rates, rebates or discounts accorded for bulk purchases, the terms offered are fair and reasonable compared to market and industry standards and in Kossan Group's commercial interests; and
 - (iv) at least two (2) other contemporaneous transactions with unrelated third parties for similar products/services and/or quantities will be used as comparison, wherever possible, to determine whether the prices and terms offered to/by the related parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of products/services and/or quantities. Where quotations or comparative pricing from unrelated third parties cannot be obtained, the transaction price will be determined by the Company based on those offered by/to other unrelated parties for the same or substantially similar

type of transaction to ensure that the RRPT is not detrimental to the Kossan Group.

- (c) Any member of the Audit Committee may, as he deems fit, request for additional information pertaining to the transactions from independent sources or advisers, including the obtaining of valuations from professional valuers.
- (d) In addition to the guidelines set out above, the Audit Committee will also undertake the following reviews: -
 - (i) the Audit Committee will review, from time to time, status reports on goods and services transacted by the Kossan Group which are RRPT;
 - (ii) the Audit Committee will carry out half yearly reviews to ascertain that the established guidelines and procedures for RRPT have been complied with; and
 - (iii) the Audit Committee will consider, from time to time, whether the established guidelines and procedures mentioned above for RRPT have become inappropriate, and/or are unable to ensure that the transactions will be on normal commercial terms, and/or will prejudice the interests of minority shareholders.
- (e) All companies within the Group have been informed of the Related Parties and have reviewed the procedures applicable to RRPT with such Related Parties. The Company will maintain a record of RRPT carried out pursuant to the RRPT Mandate. The Company's internal audit plan will incorporate a review of the records in respect of the transactions entered into during the year to ensure relevant approvals and review procedures are adhered to.

2.8 Validity Period of the Proposal

The Proposal, upon approval shall become effective after the conclusion of the 44th AGM and continue to be in force until:

- (i) the conclusion of the Company's next AGM at which time it will lapse, unless by an ordinary resolution passed at that meeting, the mandate is renewed either unconditionally or subject to condition; or
- (ii) the expiration of the period within which the next AGM is required by the Act to be held (but must not extend to such extension as may be allowed pursuant to section 340(4) of the Act); or
- (iii) revoked or varied by resolution passed by the shareholders at a general meeting,

whichever is the earlier.

Approval from shareholders will thereafter be sought for the renewal of the Proposal at each subsequent AGM subject to satisfactory review by the Audit Committee of its continued application to the RRPT.

2.9 Disclosure in the 2023 Integrated Annual Report

Disclosures is made in the 2023 Integrated Annual Report of the breakdown of the aggregate value of the RRPT during the financial year based on the following information:

- (i) the type of the RRPT made; and
- (ii) the names of the Related Parties involved in each type of the RRPT made and their relationship with the Company.

3. STATEMENT BY THE AUDIT COMMITTEE

The Audit Committee of the Company has seen and reviewed the procedures mentioned in Section 2.7 above and is satisfied that the review procedures are sufficient to ensure that the RRPT will be carried out at arm's length and on normal commercial terms which are not prejudicial to the interests of shareholders, and that the terms are not more favourable to the Related Parties than those generally available to the public and the RRPT are not detrimental to minority shareholders.

The Company has in place adequate procedures and processes to monitor, track and identify RRPT in a timely and orderly manner.

If, during the half yearly reviews, the Audit Committee should be of the view that such guidelines and procedures are no longer appropriate or adequate to ensure that RRPT will be carried out at arm's length and on normal commercial terms or will be prejudicial to the interests of minority shareholders, the Audit Committee shall have the discretion to request for additional procedures to be imposed on all the RRPT. In that event, such procedures may be implemented without the approval of shareholders provided that these are more stringent than the existing procedures.

4. RATIONALE FOR AND BENEFITS OF THE PROPOSAL

4.1 Rationale

The Proposal will enhance the Group's ability to pursue business opportunities which are time-sensitive in nature, and will eliminate the need to announce and convene separate general meetings on each occasion to seek shareholders' prior approval for the entry by the relevant company in the Group into such transactions. This will substantially reduce the expenses associated with the convening of general meetings on ad hoc basis, improve administrative efficiency considerably and allow manpower resources and time to be channeled towards attaining other corporate objectives.

4.2 Benefits

The RRPT entered into by the Group are intended to meet business needs at the best possible terms. The Kossan Group should be able to have access to all available markets and products and services provided by all vendors, including the Related Parties. Transacting with the Related Parties also enhances the ability to explore beneficial business opportunities within the Kossan Group, which will be of benefit to all the companies within the Kossan Group. In most instances, companies within the Kossan Group and the Related Parties have better understanding of each other's business needs thus providing a platform where all parties can benefit from relatively cheaper transaction costs.

4.2.1 RRPT involving KH Group

KH is an investment holding company while its subsidiaries are involved in investment (KCI and PAC), condoms (PLP) and paint (KP).

The premises of KH Group and Kossan Group are situated in close proximity to each other. Whenever there is a need for additional space to accommodate expansion and one party has the available space, then the said party will strive to allocate the required space to the other party.

The rental rates offered approximate market rates. Due to the close proximity of the premises, savings in transport and manpower cost accrue to both parties.

Some of the products manufactured or required in the manufacturing processes of the Kossan Group complements those carried on by the KH Group and vice versa. Accordingly, either Group will source such requirements from each other whenever the needs arise. The terms and conditions offered approximate the market norms but due to the

close proximity of their premises benefits such as lower transport cost, prompt delivery and committed service accrue to both parties.

4.2.2 RRPT involving Directors and/or Substantial Shareholders (indirect)

(a) **RRPT involving FRP**

Kossan Group purchases fiberglass reinforced plastic tanks and polyethylene tanks from FRP who is able to deliver custom make sizes/quantity at reasonable prices and with prompt delivery. Kossan Group also sells gloves and rubber products to FRP.

(b) **RRPT involving Chemtube**

Kossan Group purchases industrial products for installation in the plant and machinery from Chemtube who is able to deliver custom make sizes/quantity at reasonable prices and with prompt delivery. HC provides technical services to Chemtube. Kossan Group also sells gloves and rubber products to Chemtube.

(c) **RRPT involving HT**

Kossan Group purchases formers from HT who is able to deliver custom make sizes and/or quantity at reasonable prices and with prompt delivery. Kossan Group also sells gloves and rubber products to HT.

(d) **RRPT involving HPM**

Kossan Group purchases chemicals and processing services from HPM who is able to deliver its products at reasonable prices and with prompt delivery.

(e) **RRPT involving GJB**

Kossan Group purchases painting services from GJB who is able to provide painting works immediately.

5. APPROVAL REQUIRED

The Proposal is subject to approval being obtained from the shareholders at the forthcoming AGM by way of an ordinary resolution.

PART B

STATEMENT TO SHAREHOLDERS

IN RELATION TO THE

PROPOSED RENEWAL OF SHARE BUY-BACK AUTHORITY

PROPOSED RENEWAL OF SHARE BUY-BACK AUTHORITY

1. INTRODUCTION

On 22 February 2024, the Company had announced to the Exchange that it is proposing to seek its shareholders' approval for the Proposed renewal of authority for the purchase of the Shares by the Company ("Proposal") at the forthcoming 44th Annual General Meeting ("AGM").

This Statement serves to provide you with the relevant information on the Proposal together with your Board's recommendation and to seek your approval of the ordinary resolution on the Proposal to be tabled at the forthcoming 44th AGM.

The Notice of AGM and Proxy Form are enclosed in the 2023 Integrated Annual Report and may be downloaded from our Company's website at <https://kossan.com.my/investors/reports.html>.

2. DETAILS OF THE PROPOSAL

At the 43rd AGM of the Company held on 25 May 2023, shareholders had approved the renewal of authority for the purchase from the open market of up to 10% of the issued share capital of Kossan ("Shareholders' Mandate"). The shareholders' mandate shall expire at the conclusion of the Company's 44th AGM to be held on 30 May 2024 unless renewed by an ordinary resolution passed by the shareholders at the 44th AGM.

The renewal of the Proposal, when approved by the shareholders vide an ordinary resolution at the 44th AGM to be held on 30 May 2024 shall become effective upon conclusion of the 44th AGM and continue to be in force until:-

- (i) the conclusion of the next AGM of the Company following this AGM at which the mandate is passed, at which time it will lapse, unless by a resolution passed at such general meeting the authority is renewed;
- (ii) the expiration of the period within which the next AGM of the Company after this AGM is required by law to be held; or
- (iii) revoked or varied by an ordinary resolution passed by the shareholders in a general meeting,

whichever is earlier.

3. SOURCES OF FUNDS

The Board proposes to allocate an amount of funds not exceeding the retained profits of the Company for the purchase of its own Shares pursuant to the Proposal. Based on the latest audited financial statements for the financial year ended 31 December 2023, the retained profits of the Company was RM994,163,731.

The amount of funds allocated for the purchase of its own Shares pursuant to the Proposal shall be financed from internally generated funds and/or external borrowings, the proportion of which will only be determined later depending on the available internally generated funds, actual number of Shares to be purchased and other relevant cost factors. In the event the Company decides to use external borrowings, the Company will ensure that it has sufficient financial capability to repay such borrowings and that the external borrowings are not expected to have any adverse effects on the cash flow of the Company.

4. RATIONALE FOR THE PROPOSAL

The rationale for the Proposal are as follows:

- (i) Kossan may be able to stabilise the supply and demand of the Shares in the open market and thereby support its fundamental value;
- (ii) General investors' confidence in the stability of Kossan share price is expected to be enhanced as Kossan is empowered to implement the Proposal;
- (iii) The Group is able to utilise its financial resources that it has no immediate usage for the purchase of the Shares;
- (iv) The Proposal can enhance value for shareholders from a resultant reduction in the number of Shares in the market, all things being equal. It may increase the EPS when the Purchased Shares are cancelled, thereby making the Shares more attractive to investors. Further, Treasury Shares retained by Kossan may be distributed as dividends to shareholders and/or resold on the Exchange with the intention of realising capital gain on the resale; and
- (v) Purchase of odd lots through Direct Business Transaction outside the ATS will reduce the incidence of odd lots in the market.

5. POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSAL

The potential advantages and disadvantages of the Proposal, if exercised, to the Company and its shareholders are as follows:

5.1 Potential advantages:

- (i) Allows the Company the flexibility in attaining its desired capital structure;
- (ii) Rewards the shareholders in the event the Treasury Shares are distributed as share dividends;
- (iii) Enhances the Group's EPS should any of the Treasury Shares be cancelled; and
- (iv) Derives capital gains should the Treasury Shares be sold at a profit.

5.2 Potential disadvantages:

- (i) Will reduce the financial resources of the Company and may result in the Group forgoing better investment opportunities that may emerge in the future; and
- (ii) As the Proposal can only be made out of retained profits of the Company, it may result in the reduction of financial resources available for distribution of dividends to shareholders in the immediate future.

Nevertheless, our Board is of the view that the Proposal is not expected to have any potential material disadvantages to the Company and shareholders as it will be implemented only after careful consideration of the financial resources of the Company and its resultant impact.

The Board will be mindful of the interests of the Company and its shareholders in exercising the authority granted by the shareholders in deciding the number of Shares to be purchased and/or whether to retain the said Shares as treasury shares, distribute the said Shares as share dividend, resell the said Shares in the open market and/or to cancel the said Shares.

6. EFFECTS OF THE PROPOSAL

On the assumption that the Proposal is carried out in full, the effects of the Proposal on the share capital, NA, working capital, earnings and dividend payment of Kossan are set out below:

6.1 Share Capital

The effect of the Proposal on the share capital of the Company will depend on the treatment of the Purchased Shares.

The effect of the Proposal on the issued share capital of the Company, assuming that the maximum number of Shares (up to 10% of the issued share capital) authorised under the Proposal are purchased and cancelled, is set out below:-

	Number of shares	RM
Issued and paid-up share capital as at LPD	2,557,871,616	323,884,715
Assuming the Shares Purchased are cancelled (up to 10% of the issued and paid-up share capital)	(255,787,162) *	(32,388,472)
Resultant issued and paid-up share capital upon completion of the Proposal	2,302,084,454	291,496,243

** inclusive of 6,252,000 Treasury Shares.*

6.2 Net Assets

The effect of the Proposal on the consolidated NA per share will depend on the number of Shares purchased, the purchase price of the Shares at the time of purchase and the treatment of the Shares so purchased.

- 6.2.1 Where the purchased Shares are cancelled and if the purchase price per Share exceeds the NA per share at the time of the purchase, the NA of the Kossan Group will be reduced. Conversely, the NA will increase if the purchase price is less than the NA per share at the time of purchase.
- 6.2.2 If the Treasury Shares are subsequently resold on the Exchange, the NA per share will increase if the Company enjoys resale gains, and vice-versa. If the Treasury Shares are distributed as share dividends, the NA per share will be decreased accordingly by the cost of the Treasury Shares.
- 6.2.3 If the purchased Shares are retained as Treasury Shares, the NA per share of the Company would decrease (due to the requirement for treasury shares to be carried at cost and be offset against equity) unless the cost per share of the Shares purchased is below the NA per share at the time of purchase.

6.3 Working Capital

- 6.3.1 The Proposal will reduce the working capital of the Group, the quantum of which depends on, amongst others, the number of Shares eventually purchased and the purchase prices of the Shares. The impact on the cashflows of the Company and Group will be dependent on the number of Shares eventually purchased and the purchase prices of the Shares.
- 6.3.2 For Shares so purchased which are kept as Treasury Shares, upon its resale, the working capital of the Company will increase assuming that a gain has been realised. Again, the quantum of the increase in the working capital will depend on the actual selling price of the Treasury Shares and the number of Treasury Shares resold.

6.4 Earnings

- 6.4.1 The effect of the Proposal on the EPS of the Kossan Group will depend on the purchase price of the Shares, the number of Shares purchased and the opportunity cost arising from the funds utilised for the Proposal.
- 6.4.2 Any cancellation of purchased Shares is expected to give rise to increased EPS provided the income foregone and/or interest expense incurred on the Shares purchased is less than the EPS prior to the purchase.
- 6.4.3 Assuming the Shares purchased are retained as Treasury Shares and resold, the effects on the earnings of the Kossan Group will depend on the actual selling price, the number of Treasury Shares resold and the effective gain or interest savings from the exercise.

6.5 Dividend

- 6.5.1 The Proposal will have the effect of increasing the dividend rate per share of the Company as a result of the reduction in the number of issued shares of the Company (excluding Treasury Shares). The Proposal is not expected to have any impact on the policy of the Board in recommending dividends, if any, to shareholders. However, the Board may distribute future dividends in the form of Treasury Shares retained pursuant to the Proposal.
- 6.5.2 For the financial year ended 31 December 2023, an interim single tier dividend of 2.0 sen per share on the share capital of 2,551,619,616 ordinary shares (excluding 6,252,000 Treasury Shares) was declared on 22 February 2024 and paid on 8 April 2024. The Directors had on 16 April 2024 recommended the payment of a final single tier dividend of 2.0 sen per share on the share capital of 2,551,619,616 ordinary shares (excluding 6,252,000 Treasury Shares) subject to shareholders' approval at the Company's forthcoming AGM.

6.6 Shareholdings of Directors and Substantial Shareholders

The following tables show the effects of the Proposal on the shareholdings of the Directors and Substantial Shareholders as at LPD assuming that:

- (i) the purchase of own Shares of up to 10% of the issued share capital of Kossan are from the public shareholders of Kossan;
- (ii) the Shares so purchased are cancelled; and
- (iii) the Substantial Shareholders and/or Directors do not sell down their shareholdings.

7. APPROVAL REQUIRED

The Proposal is subject to approval being obtained from the shareholders at the forthcoming AGM by way of an ordinary resolution.

8. PUBLIC SHAREHOLDING SPREAD

According to the Record of Depositors of the Company as at LPD, the total percentage of the issued and paid-up share capital of Kossan which is held by the public (in accordance with the public shareholding spread requirements of the Exchange), was 45.14% with each public shareholder holding not less than 100 Shares. Pursuant to the Proposal, the aforesaid public shareholding of Kossan would be reduced to approximately 39.19% (which is above the required public shareholding spread of 25%) based on the assumptions that the maximum number of 255,787,162 Shares are purchased and that such Shares will be cancelled, and that all the Shares so purchased are from the public shareholders of Kossan.

As illustrated above, the public shareholding spread will be met in the event the Company purchases up to ten percent (10%) of its existing issued share capital. Notwithstanding the above, the Company will

be mindful of the public shareholding spread requirement before making any purchase of its Shares.

9. IMPLICATION OF THE CODE

In the event the Proposal results in any major shareholder and/or persons acting in concert with him/her (“PACs”) trigger the mandatory offer obligation for the remaining Shares not already held by them in Kossan under Paragraph 4.01 of the Rules on Take-Overs, Mergers and Compulsory Acquisitions, 2016 (“Rules”), the affected major shareholder and PACs may apply for an exemption to extend a mandatory offer obligation for the remaining Shares not already held by them in Kossan from the Securities Commission Malaysia before the said obligation is triggered.

Further, under Paragraph 4.15 of the Rules, the affected major shareholder and/or PACs who trigger a mandatory offer obligation for the remaining Shares not already held by them in Kossan as a result of the Proposal will be exempted from the said obligation subject to the conditions stated in the Rules.

Further, it is not the intention of the Company to cause any major shareholders to trigger the mandatory offer obligations under the Code and the Company will be mindful of the above implications of the Code in making any purchase of our own Shares pursuant to the Proposal.

10. PURCHASES AND SALES IN THE PREVIOUS TWELVE (12) MONTHS

No purchase, resale, transfer or cancellation of treasury shares was made in the preceding 12 months from the LPD. As at the LPD, the Company holds a total of 6,252,000 Treasury Shares.
