Quarter Ended 30 September 2025 compared to Quarter Ended 30 September 2024

The Group's revenue for the current quarter ended 30 September 2025 increase to RM14.087 million, compared to RM12.485 million in the corresponding quarter of the previous year. The increase was mainly due to the reasons as explained below:

During the current quarter ended 30 September 2025, the Animal Health Product Division recorded revenue of RM7.876 million, compared to RM6.601 million in the corresponding quarter ended 30 September 2024. The increase of approximately 19.32% was primarily due to the increase in demand by customers.

During the current quarter ended 30 September 2025, the Foodservice Equipment Division recorded revenue of RM6.194 million, compared to RM4.967 million in the corresponding quarter ended 30 June 2024. The 24.7% increase in sales was mainly driven by improved consumer sentiment this quarter. In contrast, sales in the same quarter last year were lower as many of our retail customers closed their stores due to regional instability. The improvement this quarter reflects a recovery in store openings among our customers, indicating that demand is returning and business conditions are gradually stabilizing.

The decrease in cost of sales is primarily due to improved margins across a different products mix. Additionally, favorable currency exchange rates also contributed to the reduction. As a result of the lower cost of sales, gross profit increased during the current quarter.

QUARTERLY REPORT FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2025

For current quarter ended 30 September 2025, the Group recorded a profit before tax of approximately RM1.965 million as compared to profit before tax of RM1.778 million in the immediately preceding quarter ended 30 June 2025. The increase in profit before tax for the current quarter, compared to the previous quarter, is primarily due to increase in profit margin. Other than that, increase in profit before tax also due to the increase of other income.

B3. Prospects

The Group remains optimistic about its outlook as livestock farming continues to play an important role in Malaysia's agricultural sector. Sustained demand for animal health products is expected to contribute positively to the Group's revenue. Additionally, the gradual recovery in sentiment toward the international food and beverage industry signals a positive trend for the Group. Looking ahead, the business is expected to continue strengthening, underpinned by sustained growth momentum.

The Food Manufacturing Division will continue to actively engage with overseas customers to reinforce relationships and maintain stability in international markets. Building on the encouraging performance in the previous financial year, the Group anticipates further progress in the coming periods.

The Board of Directors remains committed to navigating evolving market dynamics, with a strong emphasis on business innovation to drive sustainable profitability. The Group continues to prioritise financial discipline, responsiveness to market needs, and value creation for stakeholders. These collective efforts aim to ensure the Group's resilience and long-term success amid ongoing challenges.
